57 Stat. 1310, 1313.

I have the honor to refer to Note No. 115 of October 23, 1942 of the Ambassador of the United States in Colombia, to communication No. S–1110 of October 23, 1942 from the Minister of Foreign Affairs, to Note No. 285 of January 24, 1944 of the Ambassador of the United States and to communication No. S–134 of February 12, 1944 from the Ministry of Foreign Affairs, which relate to the establishment and continuance of a cooperative program of public health and sanitation in Colombia, the specific operational details of which were established in agreements entered into between The Institute of Inter-American Affairs and the Ministry of Labor, Health and Social Welfare in October of 1942 [1] and January of 1944. The program was undertaken by both governments pursuant to Resolution XXX approved at the Third Meeting of the Ministers of Foreign Affairs of the American Republics held at Rio de Janeiro in January, 1942. [2]

Post, p. 2892.

Post, p. 2893.

Post, p. 2894.

Contributions of U. S. and Colombia.

It will be recalled that as agreed in the mentioned communications, my Government continuously since 1942 has furnished the services of experts in the field of health and sanitation to cooperate with officials of the Colombian Government and particularly the Ministry of Labor, Health and Social Welfare in a specific cooperative program for the improvement of health and sanitation in Colombia, and that the Servicio Cooperativo Interamericano de Salud Pública was established within the said Ministry as the instrumentality for the execution of that program.

Under the agreement of 1942 my Government has furnished the sum of one million dollars (US$1,000,000.) and Your Excellency's Government has contributed the sum of one million pesos (Col. $1,000,000.) for the execution of the cooperative program and under the agreement of 1944 my Government has furnished the additional

sum of six hundred thousand dollars (US$600,000.) and Your Excellency's Government has contributed an equivalent amount in Colombian pesos or one million fifty thousand pesos (Col.$1,050,000.) for the same purpose. These sums, which are in addition to the services and expenses of the group of experts, have been paid to and expended by the Servicio Cooperativo in the execution of the cooperative program and will be virtually exhausted at the expiration of the present agreement on June 30, 1946.

Projects.

The program has consisted of specific projects agreed upon between the Minister of Labor, Health and Social Welfare and the chief of the group of experts, as representative of the Institute of Inter-American Affairs. While many projects have been completed, others of importance are still in process of execution, and the opportunity exists for the initiation of beneficial new projects.

My Government's participation in the program has been carried out through The Institute of Inter-American Affairs, which, as Your Excellency knows, is a corporate agency of my Government and is wholly owned, controlled and financed by it.

Extension o program after June 30, 1946.

Your Excellency's Government has indicated in informal conversations with me and with the representative of the Institute of Inter-American Affairs its desire that the cooperative program of health and sanitation be further extended after June 30, 1946, and its willingness to make additional funds available for the purpose.

I have the honor to state that my Government pursuant to the expressed desire of Your Excellency's Government, is also willing to extend the cooperative program of health and sanitation in Colombia for an additional period, and is prepared to make available through The Institute of Inter-American Affairs, additional funds and to continue to furnish the services of experts, for the purpose of cooperating with Your Excellency's Government in prolonging that program. Such funds would be added to the funds remaining from the contributions made under the previous agreements and to the new funds offered by Your Excellency's Government. It is proposed that the period of extension, the sums to be made available by both Governments and any additional details with regard to the continuance and scope of the program be worked out by mutual agreement between the Ministry of Labor, Health and Social Welfare and Colonel Harold B. Gotaas, President of The Institute of Inter-American Affairs, and be incorporated in a written agreement between the Ministry and the Institute. It is not contemplated that any substantial change in the modus operandi established under the existing agreement will be required.

Post, p. 2883.

Colonel Gotaas has now arrived in Bogotá to represent the Institute in connection with any extension of the program.

I am hopeful that the proposal is agreeable to Your Excellency's Government and I would appreciate receiving an expression of Your Excellency's opinion as soon as may be possible in order that the details of the extension may be worked out during Colonel Gotaas' stay in Bogotá.

I avail myself of this opportunity to renew to Your Excellency the assurances of my highest and most distinguished consideration.

MR. AMBASSADOR:

The text of Your Excellency's note was communicated to the aforementioned Ministry of Labor. *Ante*, p. 2880.

On the other hand, the Institute of Inter-American Affairs in a note of the 19th of the current month, has addressed the Ministry of Labor, indicating some changes which it considers necessary for the extension of the above agreement and for the mutual convenience of the Parties.

I am pleased to inform Your Excellency in the first place that the Government of Colombia views with real satisfaction the fact that the collaboration between this Government and the Institute of Inter-American Affairs, as a branch of the Government of the United States, may continue and carry out the extension of the programs, subject naturally to the changes which are agreed upon in conformity with the necessities of this new epoch.

As to the time of extension, the amounts which have to be contributed by both Governments and other particulars, all that may be a matter for study between Colonel Gotaa, as the representative of the Institute, and the Ministry of Labor, Hygiene and Social Welfare.

This Chancelry authorizes fully the carrying out of this agreement between the two entities referred to.

I avail myself of the opportunity to renew to Your Excellency the assurances of my highest consideration.

OFFICE OF INTER-AMERICAN AFFAIRS
THE INSTITUTE OF INTER-AMERICAN AFFAIRS

February 19, 1946

Sr. Dr. ADÁN ARRIAGA ANDRADE
Ministro de Trabajo, Higiene y Previsión Social
E. S. D.

I have the honor to refer to the diplomatic notes exchanged between His Excellency the Ambassador of the United States of America in the

Republic of Colombia and His Excellency the Minister of Foreign Affairs of the Republic of Colombia dated October 23, 1942; to the communications exchanged between The Institute of Inter-American Affairs and the Ministry of Labor, Health and Social Welfare dated respectively October 20 and 23, 1942;[1] to the diplomatic notes exchanged between the Ambassador and the Ministry of Foreign Affairs of Colombia dated January 24, 1944, and February 12, 1944, respectively, and to the official communications exchanged between the mentioned institute and the Ministry of Labor, Health and Social Welfare dated respectively January 27 and 29, 1944; to the notes exchanged between the mentioned Ambassador and the Minister of Foreign Affairs dated February 14, and February (sic), 1946, respectively, and to the conversations which have recently taken place between them and Your Excellency and the undersigned.

57 Stat. 1310, 1313.

Post, p. 2892.

Post, pp. 2894, 2901.

Ante, p. 2880.

These communications and the conversations relate to the cooperative program of health and sanitation provided for by Resolution XXX approved at the Third Meeting of the Ministers of Foreign Affairs held at Rio de Janeiro, Brazil in January, 1942. The cooperative program of health and sanitation undertaken in Colombia in 1942 pursuant to the diplomatic notes and official communications exchanged in that year, was extended until June 30, 1946, by means of the communications exchanged in 1944, which constituted a new Basic Agreement governing the present program.

Sums contributed by U. S. and Colombia.

In the agreement of 1942 the Government of Colombia obligated itself to contribute the sum of one million pesos (Col.$1,000,000.) for the program and the Government of the United States of America, the sum of one million dollars (US$1,000,000.). In the agreement of 1944 the Governments of Colombia and of the United States obligated themselves to furnish for the continuation of the program the sums of one million fifty thousand pesos (Col.$1,050,000.) and six hundred thousand dollars ($US 600,000.) (one million fifty thousand pesos) (Col.$1,050,000.) respectively. The parties have made these contributions in full compliance with the agreements; the cooperative program is in full development at the present time but unless extended will terminate June 30, of the present year.

Extension of program.

The Republic of Colombia has expressed its desire that the program be extended for an additional period and has offered to increase the proportion of its contribution.

I have the pleasure of informing Your Excellency that the Government of the United States of America, as represented by The Institute of Inter-American Affairs, is in agreement with and accepts that suggestion and is prepared to continue furnishing the services of technicians and to make available an additional sum of money for the purpose of cooperating with the Government of Colombia in the continuation of the program of health and sanitation.

Availability of further sums.

Confirming the conversations which have taken place between us as to the sums which each Government could presently make available for the continuation of the program, I have the honor to state that my

[1] [Not printed.]

Government, through The Institute of Inter-American Affairs will make available the further sum of one hundred twenty thousand dollars (US$120,000.) and the services of a Field Party, as in the past. It is my understanding that the Government of Colombia will make available the further sum of two million pesos (Col$2,000,000.), equivalent to US$1,142,840. at the present rate of exchange. These funds would be combined and expended for the continuation of the cooperative program of public health and sanitation in Colombia until June 30, 1948.

The sums mentioned would be in addition to the one million six hundred thousand dollars (US$1,600,000.) (2,800,000. pesos Colombianos) already furnished for the program by the Government of the United States and the two million fifty thousand pesos (Col.$2,050,000.) US$1,171,410.) already contributed by the Government of Colombia. They are in addition also to the sums expended by the Institute for the Field Party and their expenses and administrative costs, which by June 30, 1946, will amount to approximately four hundred twenty thousand dollars (US$420,000.) (735,000 pesos Colombianos).

Administration of funds.

It is proposed that the cooperative program continue to be carried out, and that all the funds made available for its continuance be administered, in accordance with the provisions of the Basic Agreement of 1944 and the minor amendments necessary for its extension, all of which provisions are set out hereinafter for the mutual convenience of the parties.

Maintenance of the Servicio.

(1) The Ministry of Labor, Health and Social Welfare (hereinafter called the Ministry) and The Institute of Inter-American Affairs shall continue to maintain the special technical service known as the Servicio Cooperativo Interamericano de Salud Pública (hereinafter called the Servicio) which shall continue to function as a separate section within and subordinated to the Ministry. The Director of the Servicio shall be responsible to the Minister or his representative for the execution of the cooperative program of health and sanitation and may do all things necessary or desirable for the accomplishment of this purpose.

Director.

Maintenance of field party of technicians.

(2) The Institute of Inter-American Affairs (hereinafter referred to as the Institute), which is a corporate instrumentality of the United States Government devoted to the execution of certain of its public purposes and having juridic personality, may continue to maintain in Colombia a field party of technicians to consummate the cooperative program hereinafter described. The party of technicians shall be of such size as the Institute considers appropriate and shall be under the direction of an official who shall have the title of Chief of Field Party, Health and Sanitation Division, The Institute of Inter-American Affairs, which Chief of Party shall be acceptable to the Minister of Labor, Health and Social Welfare (hereinafter called the Minister). This official shall be the representative of the Health and Sanitation Division of the Institute in Colombia in connection with the program

Chief.

to be undertaken in accordance with this agreement. The Government of Colombia may ask for the withdrawal of the Chief of Party when in its opinion his performance does not satisfy or interpret the objectives contained in this agreement, and may ask for a replacement satisfactory to both parties.

Appointment of Director.

(3) The Government of Colombia shall appoint as Director of the Servicio the Chief of Field Party, Health and Sanitation Division, The Institute of Inter-American Affairs. With the approval of the Minister, the Director of the Servicio may delegate his authority to persons employed by the Servicio or members of the Field Party of the Institute in Colombia.

Projects.

(4) The cooperative health and sanitation program in Colombia shall continue to consist of individual projects. The kind of work and the specific projects to be undertaken in the execution of this agreement and the allocation of funds therefor shall be agreed upon in writing by the Minister and by the Chief of Field Party in his capacity as representative of the Health and Sanitation Division of the Institute in Colombia (wherever the latter official is mentioned herein, it shall be understood that he acts in said capacity) and shall be carried out by the Director of the Servicio in conformity with policies prescribed jointly by the Minister and the said Chief of Field Party for the Institute. No project will be carried out without the presentation of studies and definite plans for both the technical and administrative aspects of the work. Servicio funds shall be disbursed only upon projects previously agreed to in this manner.

Limitation of program.

It is suggested that the cooperative program of health and sanitation be limited to relatively few projects each of which would be of special interest to the Government of Colombia, in order that definite results may be obtained, and that such results would be indicative of the cooperation existing between the Government of Colombia and the Government of the United States in the important field of health and sanitation.

It is suggested that the work of the Servicio be limited to the following activities or some of them:

Completion or continuation of the projects which are being carried out at the present time in virtue of the Basic Agreements.
Organization (including the construction, if necessary) and operation of a limited number of health centers.
The execution of certain specific campaigns or programs falling within the province of the Ministry.
Public Health Education.
Studies and measures for the control of Malaria.
Sanitary works and other constructions necessary to carry out specific programs.
Organization of maritime, river and aerial sanitation (quarantine service) and the sanitation of ports.
Nutritional programs insofar as they relate to public health.
Training of personnel to serve in programs of public health and sanitation.

Deposit of funds.

(5) For the purpose of continuing the cooperative health and sanitation program in Colombia, it is proposed for consideration by Your Excellency that the Institute deposit in the Banco de la República in Bogotá (or in such other bank as may be mutually agreed upon by the Minister and the Chief of Field Party) to the account of the Servicio Cooperativo Interamericano de Salud Pública the said sum of one hundred twenty thousand dollars (US$120,000.) on the following basis:

During July, 1946	US$60,000.
During January, 1947	US$60,000.

and that the Government of Colombia deposit to the account of the Servicio Cooperativo Interamericano de Salud Pública in the same bank, the sum of two million pesos (Col.$2,000,000.) (being the equivalent of US$1,142,840. at the present official rate of exchange), on the following basis:

During July, 1946	Col.$ 500,000.
During January, 1947	Col.$ 500,000.
During July, 1947	Col.$ 500,000.
During January, 1948	Col.$ 500,000.

Exemption of funds from currency controls.

(6) Funds introduced into Colombia by the Institute for the purpose of the cooperative program shall be exempt from the taxes, service charges, investment or deposit requirements and other currency controls imposed upon the foreign exchange of private persons, and shall enjoy the most favorable government rate of exchange.

Consideration of materials, etc., as cash payment.

(7) Materials and equipment or other property furnished by the Government of Colombia or by the Institute to the Servicio at the request of its Director shall be considered as a cash payment equal to the cost thereof (including shipping, handling, insurance and other incidentals) if purchased on the current market; but if not so purchased, it shall be treated as a cash payment in an amount agreed on in writing by the Minister and Chief of Party. Interest, if any, earned on deposits of Servicio funds shall not be credited against the obligations of the parties, but shall be added to Servicio funds.

Interest on deposits.

Withdrawals.

(8) The funds deposited by either party to the credit of the Servicio for any particular period shall not be drawn against until the corresponding deposit of the other party, if required by paragraph (5), shall have been made; and if not made within sixty (60) days thereafter, the first-mentioned deposit shall be returned to the contributor upon the sole signature of its representative.

Return of deposit.

Nonreversion of funds.

(9) All funds deposited, under the original agreement and its extensions, to the credit of the Servicio in the designated bank and not spent during the period or fiscal year in which deposited, shall continue to be available for the purposes of this program during the existence of this agreement and shall not revert to the Governments of the United States of America or of Colombia. The Minister and the Chief of Field Party in Colombia shall determine by mutual agreement the disposition and administration of the funds and other property remaining to the Servicio on the termination of this agreement, June 30, 1948.

Disposition of remaining funds, etc.

Sums withheld for expenses incurred in U. S. A.

(1) In view of the fact that some purchases of materials and supplies will be made and other expenses will be incurred in the United States of America, the Minister and the Chief of Field Party may agree to withhold from the deposits to be made by the Institute an amount which is estimated to be necessary to pay for said purchases and expenses. Sums so withheld shall be considered as if deposited under the terms of this agreement, but any balance of such funds not expended or obligated shall be deposited to the account of the Servicio in the designated bank at any time when the Chief of Field Party and the Minister so agree.

Unexpended balances.

Administrative autonomy of the Servicio.

(11) The Servicio shall enjoy administrative autonomy within the limits of this agreement, and shall have the right to make its own purchases and to execute its own contracts, in the same manner as at the present time. The deposit, expenditure, audit and accounting of funds in the Servicio account as well as the purchase, inventory, use and sale of all real and personal property for the account of the Servicio, and all other administrative matters, shall be regulated, controlled and conducted by and under such rules, regulations and procedures as have been or shall be mutually agreed upon by the Minister and the Chief of Field Party. No funds shall be disbursed from Servicio bank accounts without the signature of the Director of the Servicio, or his delegate.

Accounts of expenditures, etc.

(12) The Director of the Servicio shall present to the Minister monthly or at such other intervals as the Minister may desire, a complete account of all its expenditures, financial transactions and obligations. The accounts and books of the Servicio shall be available for audit, whenever it is considered necessary, by either an appropriate agency of the Government of Colombia or by the Chief of Field Party or his delegate. Any such audit shall be conducted with reference to the standards, rules and procedures established by or pursuant to the terms of this agreement.

Information; progress reports.

(13) The Director of the Servicio shall furnish the Minister any information which is desired concerning the Servicio or its activities. Monthly and at such other intervals as the Ministry may desire, the Director shall submit a report to the Minister regarding the progress of the work of the Servicio and its specific projects.

Determination of conditions of employment.

(14) The Minister and the Director of the Servicio by mutual agreement shall determine the positions, salaries, qualifications, and conditions of employment within the Servicio, all in accordance with the general policies previously agreed upon between the Minister and the Chief of Field Party of the Institute in Colombia. The Director of the Servicio shall select and discharge its employees but his determination shall be subject to the approval of the Minister. The Ministry shall issue the appropriate resolutions. The Director of the Servicio shall also select and discharge the laborers of the Servicio.

Execution o contracts.

(15) All contracts and agreements relating to the administration of the Servicio and to the execution of projects previously agreed upon between the Minister and the Chief of Party, shall be executed in the name of the Servicio and by its Director, provided, however,

that contracts governing the operation of services or facilities established by the Servicio, or contracts providing for the expenditure of more than Col.$3,000.00 should be signed and executed jointly with the Minister.

Rights and privileges of Servicio personnel, etc.

(16) All rights and privileges which are enjoyed by government departments and official agencies of government in Colombia and by the personnel and employees of the same shall accrue to the Servicio and to all its personnel and employees in its and their official business. Such rights and privileges shall include, for example and not exclusively, free postal, telegraph and telephone service whenever possible, passes on railroads administered by the Government of Colombia and the right to rebates or preferential tariffs allowed to departments of the Government of Colombia by domestic companies of maritime and river navigation, rail, auto and air transportation, telegraph, telephone, etc. and also freedom and immunity from excise, stamp, property, income and any and all other taxes as well as from consular charges and customs duties upon imports for the use of the Servicio, whether imported in the name of the Servicio or in the name of a third person and contracted for by the Servicio. The activities and contracts of the Servicio shall enjoy the same exemptions and prerogatives as the activities and contracts of the Colombian Government.

Immunities, etc., of Institute and employees.

The Institute of Inter-American Affairs shall enjoy the immunities to which it is entitled as an agency of the Government of the United States of America and in addition the Institute and its employees shall enjoy the same rights, privileges, exemptions and immunities as the Servicio and its employees, with respect to its and their operations which are related to, and property which is to be used for, the program herein agreed upon.

Expenses of field party.

(17) All remuneration and expenses, including travelling expenses, of the Field Party shall be paid exclusively from the funds of the Institute and not by the Servicio and shall not be credited against the funds herein described.

Exemption of U. S. personnel from income taxes, etc.

(18) All employees of the Institute who are citizens of the United States of America and are engaged in carrying out the objectives of the cooperative health and sanitation program shall be exempt from all income taxes and social security taxes with respect to income on which they are obligated to pay income or social security taxes to the Government of the United States of America and from property taxes on personal property intended for their own use. Said employees who are members of the Field Party shall also be exempt from the payment of customs and import duties on their personal effects and equipment and supplies for their own use; and from investments and deposit requirements and other foreign exchange controls, on funds brought into Colombia for normal living expenses.

Ownership of Servicio property.

(19) At the termination of this agreement all real and personal property of the Servicio shall be and remain the property of the Government of Colombia, in accordance with the laws of Colombia.

Delegation of powers, etc.

(20) All rights, powers, privileges or duties conferred by this agreement upon the Minister and upon the Chief of Field Party may be

delegated to representatives. Such delegation shall be in writing and shall state either generally or specifically the powers and duties of said representative. The National Director of Health may act for the Minister by reason of his office and without any other requisite, and should advise the Minister in relation to action to be taken by him in the course of the cooperative program. Regardless of the existence of persons empowered to act for them, the Minister and the Director of the Servicio or the Chief of Field Party shall have the right to refer any matter directly to one another and to decide it.

Activities pursuant to previous agreements.

(21) Without prejudice to the power of agreeing upon later amendments or changes, the projects and activities undertaken by the Servicio pursuant to the previous basic agreements shall continue to be carried out in accordance with the terms of the agreements and understandings entered into between the Minister and the Chief of Field Party, or the Director of the Servicio (or their representatives). In the same manner, the rules, regulations and procedures which have been mutually agreed upon between them shall remain in effect insofar as they are not inconsistent with the express provisions of this Basic Agreement. Action already taken with respect to the naming or approval of personnel shall not be affected hereby. Funds retained by the Institute in the United States in accordance with Clause 10 of the previous basic agreement, shall remain available for the cooperative program.

Legislation, etc.

(22) The Government of Colombia will obtain or endeavor to obtain the legislation, decrees, orders or resolutions necessary to carry out the terms of this agreement.

Replacement of previous agreements.

Since all the funds allocated by the previous basic agreements have already been deposited and since the provisions of the previous basic agreements are incorporated in this agreement with the few amendments necessary for the continuation of the program, it is proposed that this Basic Agreement, provided it is accepted and agreed to by your Excellency, shall replace previous agreements and shall govern the future operations of the entire cooperative health and sanitation program of Colombia and the disbursement of both the new funds and the balance of the old funds.

As President of The Institute of Inter-American Affairs, I am prepared to consider this letter and Your Excellency's acceptance of the provisions contained in it as constituting in form and effect a completely binding and effective agreement between The Institute of Inter-American Affairs and the Government of Colombia in accordance with the terms contained herein.

I am replying to your kind note of February 19, in which you, as a representative of the Institute of Inter-American Affairs, propose to this Ministry a plan for an additional agreement to our present cooperative program of health and sanitation which is being carried out in Colombia through the intermediary of the Inter-American Cooperative Public Health Service.

Acceptance of agreement by Colombia.

Duly authorized by His Excellency the President of the Republic and by the Minister of Foreign Relations, I have the honor to inform you that this Ministry accepts in its entirety the contents of the addi-

tional enclosed agreement, and avails itself of the opportunity to express its most sincere thanks to the Institute of Inter-American Affairs and to the Government of the United States of America for the contribution which they are making to our country by the carrying out of health campaigns of great significance for the Colombian people.

EXCELLENCY:

57 Stat. 1310, 1313.

I have the honor to refer to my Note no. 115 of October 23, 1942 and to Communication no. S 1110 of October 23, 1942 from the Ministry of Foreign Affairs with regard to the establishment of a cooperative program of public health and sanitation in Colombia. It will be recalled that my government agreed to send experts to Colombia to cooperate with officials of the Colombian Government, and particularly the Ministry of Trabajo, Higiene y Prevision Social, in a specific program for the improvement of health and sanitation conditions in Colombia in accordance with a detailed agreement to be worked out between the Ministry of Trabajo, Higiene y Prevision Social and the Coordinator of Inter-American Affairs. It was agreed at that time that the Government of the United States, through the agency of the Coordinator of Inter-American Affairs would provide not to exceed one million dollars for the execution of this program and it was subsequently agreed, in the exchange of communications between the Ministry of Trabajo, Higiene y Prevision Social and the representative of the Institute of Inter-American Affairs, that the Colombian Government would make available the sum of one million pesos as its financial contribution to the joint enterprise, and in addition would furnish such expert personnel and services as it might consider necessary for the efficient development of the program.

Following the exchange of communications between Your Excellency's Ministry and this Embassy details with regard to the execution of the program were worked out between the Minister of Trabajo, Higiene y Prevision Social and General George C. Dunham, representing the Coordinator of Inter-American Affairs. This led to the establishment within the Ministry of Trabajo, Higiene y Prevision Social of the Servicio Cooperativo Interamericano de Salud Publica which has been administering the details of the program.

Availability of additional funds.

I have now been informed by the Department of State at Washington that additional funds amounting to $600,000 have been made available by the Institute of Inter-American Affairs for the continuation of the joint program in Colombia, to be expended over a

period to be mutually agreed upon between the appropriate officials of the Colombian Government and the Vice President of the Institute of Inter-American Affairs, General Dunham, who is now in Bogotá. It is proposed that for the continuation of this program the Government of Colombia likewise contribute the sum of $600,000 U. S. currency, and that further additional details with regard to the continuance and scope of the program be worked out by mutual agreement between the Minister of Trabajo, Higiene y Prevision Social and General Dunham.

I am hopeful that the proposed arrangement as outlined above is agreeable to Your Excellency's government and I would appreciate receiving an expression of Your Excellency's opinion as soon as may be possible in order that the technical details of the program may be worked out during General Dunham's stay in Bogotá.

I avail myself of this opportunity to renew to Your Excellency the assurances of my highest and most distinguished consideration.

I have the honor to refer again to Your Excellency's Note No. 285, of January 24 last, relating to the matter of the increase in the appropriations of the Inter-American Cooperative Public Health Service.

The Ministry of Labor, Hygiene and Social Welfare, upon being consulted, states that, according to the conversations held with General George C. WASHINGTON, D. C.

Bogotá, January 27, 1944

Sr. Dr. JORGE ELIECER GAITÁN
Ministro de Trabajo, Higiene y Prevision Social
E. S. D.

I have the honor to refer to the communications between His Excellency, the Ambassador of the United States of America in the Republic of Colombia, and His Excellency, the Minister of Foreign Affairs of the Republic of Colombia, both dated October 23, 1942, and to further communications between the Ambassador and the Minister of Foreign Affairs in January 1944; and to the communications between the writer of this letter and His Excellency, the Minister of Labor, Health and Social Welfare, dated October 20, 1942

57 Stat. 1310, 1313.

Ante, p. 2892.

and October 23, 1942, [1] respectively, and the writer's communication to Your Excellency dated December 15, 1943.[1] These communications relate to the cooperative program of public health and sanitation provided for by Resolution XXX, approved at the Third Meeting of the Ministers of Foreign Affairs held at Rio de Janeiro, Brazil, in January 1942.[2]

Availability of additional U. S. funds.

The Government of the United States of America, as represented by the Institute of Inter-American Affairs, an agency of the Office of the Coordinator of Inter-American Affairs, is now prepared to make available an additional sum of money for the purpose of cooperating with the Ministry of Labor, Health and Social Welfare in extending the cooperative program of public health and sanitation and providing for the termination of the program within a predetermined period of time insofar as funds appropriated by the Government of the United States of America are concerned.

Amount of contributions.

It is proposed for consideration by Your Excellency that the Institute of Inter-American Affairs make available an additional sum of not to exceed $600,000 U.S. to be expended over a period of two years beginning July 1, 1944 and that the Government of the Republic of Colombia contribute a sum in pesos equivalent to $600,000 U.S. at the present rate of exchange to be combined with the funds allocated by the Government of the United States of America through the Institute of Inter-American Affairs, and expended over the same period of time for the cooperative program of public health and sanitation in the Republic of Colombia.

The sums mentioned would be in addition to the $1,000,000 U.S. already allocated by the Government of the United States and the 1,000,000 pesos allocated by the Government of Colombia.

Conditions.

It is proposed that the cooperative health and sanitation program and the expenditure of the funds in connection therewith, as hereinabove referred to, be subject to the following conditions:

Maintenance of the Servicio.

1. The Ministry of Labor, Health and Social Welfare (hereinafter called the Ministry) and the Institute of Inter-American Affairs shall continue to maintain the special technical service known as the Servicio Cooperativo Inter-Americano de Salud Pública (hereinafter called the Servicio) which shall function as a separate section within and subordinated to the Ministry. The Director of the Servicio shall be responsible to the Minister or his representative for the execution of the cooperative program of health and sanitation and for doing all that may be necessary or desirable for the accomplishment of this purpose.

Director.

Maintenance of field party of technicians.

2. The Institute of Inter-American Affairs (hereinafter referred to as the Institute) which is a corporate instrumentality of the United States Government devoted to the execution of certain of its public purposes and having juridic personality, may continue to maintain in Colombia a field party of technicians to consummate the cooperative program hereinafter described. The party of technicians shall be of such size

[1] [Not printed.]

[2] [*Department of State Bulletin*, Feb. 7, 1942, p 137.]

Chief.

as the Institute considers appropriate and shall be under the direction of an official who shall have the title of Chief of Field Party, Health and Sanitation Division, The Institute of Inter-American Affairs, which Chief of Party shall be acceptable to the Minister of Labor, Health and Social Welfare (hereinafter called the Minister). This official shall be the representative of the Health and Sanitation Division of the Institute in Colombia in connection with the program to be undertaken in accordance with this agreement. The Government of Colombia may ask for the withdrawal of the Chief of Party when in its opinion his performance does not satisfy or interpret the objectives contained in this agreement, and may ask for a replacement satisfactory to both parties.

Appointment of Director.

3. The Government of Colombia shall appoint as Director of the Servicio the Chief of Field Party, Health and Sanitation Division, The Institute of Inter-American Affairs. With the approval of the Minister, the Director of the Servicio may delegate his authority to persons employed by the Servicio or members of the Field Party of the Institute in Colombia.

Projects.

4. The cooperative health and sanitation program in Colombia shall continue to consist of individual projects. The kind of work and the specific projects to be undertaken in the execution of this agreement and the allocation of funds therefor shall be agreed upon in writing by the Minister and by the Chief of Field Party in his capacity as representative of the Health and Sanitation Division of the Institute in Colombia and shall be carried out by the Director of the Servicio in conformity with policies prescribed jointly by the Minister and the said Chief of Field Party for the Institute. No project will be carried out without the presentation of studies and definite plans for both the technical and administrative aspects of the work, and without the appropriate Resolution of the Ministry authorizing the work to begin. New and fundamental modifications in the campaigns can be made only by Resolutions passed as a result of mutual agreement between the Ministry and the Chief of Field Party as representative of the Institute. Servicio funds shall be disbursed only upon projects previously agreed to in this manner.

Limitation of program.

It is suggested that the cooperative program of health and sanitation be limited to relatively few projects each of which would be of special interest to the Government of Colombia, in order that definite results may be obtained, and that such results would be indicative of the cooperation existing between the Government of Colombia and the Government of the United States in the important field of health and sanitation.

It is suggested that the work of the Servicio with the new funds be limited to the following activities:

Organization and operation of five model Health Centers
Public Health Education
Nutrition in its economic, social and educational aspects
Studies and measures for the control of malaria
Organization of maritime, river and aerial sanitation (quarantine service) and the sanitation of ports.

Deposit of funds.

5. For the purpose of continuing the cooperative health and sanitation program in Colombia, it is proposed for consideration by Your Excellency that the Institute deposit in the Banco de la Republica in Bogotá (or in such other bank as may be mutually agreed upon by the Minister and the Chief of the Field Party in his capacity as representative of the Institute) to the account of the Servicio Cooperativo Inter-Americano de Salud Pública the said sum of $600,000 U.S. on the following basis:

During July 1944	$300, 000
During July 1945	300, 000

and that the Government of Colombia deposit in the Banco de la Republica in Bogotá to the account of the Servicio Cooperativo Inter-Americano de Salud Pública the sum of 1,050,000 pesos (being the equivalent of $600,000 U.S. at the present official rate of exchange) on the following basis:

During July 1944	350, 000
During July 1945	700, 000

Exemption of funds from currency controls.

6. Funds introduced into Colombia by the Institute for the purpose of the cooperative program shall be exempt from the taxes, service charges, investment or deposit requirements and other currency controls imposed upon the foreign exchange of private persons, and shall enjoy the most favorable government rate of exchange.

Consideration of materials, etc., as cash payment.

7. Materials and equipment or other property furnished by the Government of Colombia or by the Institute to the Servicio at the request of its Director shall be considered as a cash payment equal to the cost thereof (including shipping, handling, insurance and other incidentals) if purchased on the current market; but if not so purchased, it shall be treated as a cash payment in an amount agreed on in writing by the Minister and Chief of Party in his capacity as representative of the Health and Sanitation Division of the Institute. Interest, if any, earned on deposits of Servicio funds shall not be credited against the obligations of the parties, but shall be added to Servicio funds.

Interest on deposits.

Withdrawals.

8. The funds deposited by the Government of Colombia for any particular year or the funds deposited by the Institute for any particular year to the credit of the Servicio in the designated bank, as provided in paragraph 5 hereof, are not to be drawn against by the Director of the Servicio until the funds for that year are deposited by both parties as agreed to herein. Funds paid over by either party and not matched by the other party within sixty days may be returned by the Servicio to the contributor.

Unmatched funds.

Nonreversion of funds.

9. All funds deposited, under this and the original agreement, to the credit of the Servicio in the designated bank and not spent during the calender year or fiscal year in which deposited, shall continue to be available for the purposes of this program during the existence of this agreement and shall not revert to the Governments of the United States of America or of Colombia. The Minister and Chief of Field

Disposition of remaining funds, etc.

Party in Colombia shall determine by mutual agreement the disposition and disbursement of any unexpended funds remaining to the credit of the Servicio on the final termination of this agreement, June 30, 1946.

Sums withheld for purchases made in U. S. A.

10. In view of the fact that many purchases of materials and supplies must necessarily be made in the United States of America, the Minister and the Chief of Field Party may agree to withhold from the deposits to be made by the Institute as hereinabove provided an amount estimated to be necessary to pay for the purchases of materials and supplies in the United States of America. Sums so withheld shall be considered as if deposited under the terms of this agreement, but any of such funds not expended or obligated for materials and supplies for the Servicio at the end of any calender year shall be deposited to the Servicio account.

Unexpended funds.

Administrative autonomy of Servicio.

11. The Servicio shall enjoy administrative autonomy within the limits of this agreement, and shall have the right to make its own purchases and to execute its own contracts. The deposit, expenditure, audit and accounting of funds in the Servicio account as well as the purchase, inventory, use and sale of all real and personal property for the account of the Servicio, and all other administrative matters, shall be regulated, controlled and conducted by and under such rules, regulations and procedures as shall be mutually agreed upon by the Minister and the Chief of Field Party in his capacity as representative of the Health and Sanitation Division of the Institute. No funds shall be disbursed from Servicio bank accounts without the signature of the Director of the Servicio, or his delegate.

Accounts of expenditures, etc.

12. The Director of the Servicio shall present to the Minister monthly or at such other intervals as the Minister may desire, a complete account of all its expenditures, financial transactions and obligations. The accounts and books of the Servicio shall be available for audit, whenever it is considered necessary, by either an appropriate agency of the Government of Colombia or by the Chief of Field Party in his capacity as representative in Colombia of the Division of Health and Sanitation of the Institute, or his delegate. Any such audit shall be conducted with reference to the standards, rules and procedures established by or pursuant to the terms of this agreement.

Information; progress reports.

13. The Director of the Servicio shall furnish the Minister any information which is desired concerning the Servicio or its activities. Monthly and at such other intervals as the Ministry may desire, the Director shall submit a report to the Minister regarding the progress of the work of the Servicio and its specific projects.

Determination of conditions of employment.

14. The Minister and the Director of the Servicio by mutual agreement shall determine the salaries, positions, qualifications and conditions of employment within the Servicio, all in accordance with general policies previously agreed upon between the Minister and the Chief of Field Party of the Institute in Colombia. All of the appointees of the Servicio who are to be paid out of the funds provided under

this new agreement shall be named by the Minister of Labor, Health and Social Welfare from among persons who, in his opinion, have the necessary qualifications of integrity and competence for the position in question.

For this purpose and in order to achieve greater success in the work, the Chief of Field Party may make recommendations with respect to the hiring and discharge, when justifiable, of employees, in order that they may be studied by the Minister of Labor, Health and Social Welfare.

Execution of contracts.

15. All contracts and agreements relating to the administration of the Servicio and to the execution of projects previously agreed upon between the Minister and the Chief of Party, acting as representative in Colombia of the Health and Sanitation Division of the Institute, shall be executed in the name of the Servicio and by its Director, provided, however, that contracts governing the operation of services or facilities established by the Servicio, or contracts providing for the expenditure of more than 3,000.00 pesos should be signed and executed jointly with the Minister.

Rights and privileges of Servicio personnel, etc.

16. All rights and privileges which are enjoyed by government departments and official agencies of government in Colombia and by the personnel and employees of the same shall accrue to the Servicio and to all its personnel and employees in its and their official business. Such rights and privileges shall include, for example and not exclusively, free postal, telegraph and telephone service whenever possible, passes on railroads administered by the Government of Colombia and the right to rebates or preferential tariffs allowed to departments of the Government of Colombia by domestic companies of maritime and river navigation, rail, auto, and air transportation, telegraph, telephone, etc. and also freedom and immunity from excise, stamp, property, income and any and all other taxes as well as from consular charges and customs duties upon imports for the use of the Servicio, whether imported in the name of the Servicio or in the name of a third person and contracted for by the Servicio. The activities and contracts of the Servicio shall enjoy the same exemptions and prerogatives as the activities and contracts of the Colombia Government.

Immunities, etc., of Institute and employees.

The Institute of Inter-American Affairs and its employees shall enjoy the same rights, privileges, exemptions and immunities as the Servicio and its employees, with respect to its and their operations which are related to, and property which is to be used for, the program herein agreed upon.

Expenses of field party.

17. All remuneration and expenses, including travelling expenses, of the Field Party shall be paid exclusively from the funds of the Institute and not by the Servicio and shall not be credited against the funds herein described.

Exemption of U. S. personnel from income taxes, etc.

18. All employees of the Institute who are citizens of the United States of America and are engaged in carrying out the objectives of the cooperative health and sanitation program shall be exempt from all income taxes and social security taxes with respect to income on which

they are obliged to pay income or social security taxes to the Government of the United States of America and from property taxes on personal property intended for their own use. Said employees who are members of the Field Party shall also be exempt from the payments of customs and import duties on their personal effects and equipment and supplies for their own use; and from investment and deposit requirements and other foreign exchange controls, on funds brought into Colombia for normal living expenses.

Ownership of Servicio property.

19. At the termination of this agreement all real and personal property of the Servicio shall be and remain the property of the Governemnt of Colombia, in accordance with the laws of Colombia.

Nonavailability of war materials.

20. The Institute does not engage to make available any equipment, supplies or materials which are deemed necessary and essential by the Government of the United States of America to any phase of the war effort.

Delegation of powers, etc.

21. All rights, powers, privileges or duties conferred by this agreement upon the Minister and upon the Chief of Field Party in his capacity as representative of the Health and Sanitation Division of the Institute, may be delegated to representatives. Such delegation shall be in writing and shall specify either generally or specifically the powers and duties of the said representative. Regardless of the naming of said representatives the Minister and the Director of the Servicio shall have the right to refer any matter directly to one another for discussion and decision.

Continuance of projects, etc.

22. The cooperative program of health and sanitation in Colombia was inaugurated under the mentioned exchange of letters between the Institute and the Ministry of Labor, Health and Social Welfare dated October 20 and October 23, 1942, respectively in which the Institute as an agency of the Government of the United States agreed to make available for the program the sum of $1,000,000 U.S., and the Government of Colombia agreed to contribute the sum of 1,000,000 pesos for the same purpose. The financial commitments made in those letters shall remain in effect. Projects and activities undertaken by the Servicio pursuant to those letters shall continue to be carried out in accordance with the terms of the agreements and understandings entered into between the Minister and the Chief of Field Party in his capacity as representative in Colombia of the Health and Sanitation Division, Institute of Inter-American Affairs or the Director of the Servicio (or their representatives) except insofar as said agreements and understanding may be later modified by mutual consent of the said Minister and Chief of Party or Director.

The balance of said $1,000,000 U.S. made available by the Institute, and of said 1,000,000 pesos made available by the Government of Colombia, pursuant to the commitments made in the letters of October 20 and 23, 1942, shall continue to be transferred to the Servicio (in the proportion of one peso for each dollar) by instalments at intervals and in amounts that will be required for the work of the

Servicio and in accordance with policies agreed to between the Minister and the said Chief of Party in his capacity as representative in Colombia of the Health and Sanitation Division of the Institute.

23. The Government of Colombia will obtain or endeavor to obtain the legislation, decrees, orders or resolutions necessary to carry out the terms of this agreement. Legislation, etc.

For the sake of convenience it is proposed that the future operation of the entire cooperative program of health and sanitation in Colombia and the expenditure of the balance of funds provided under the letters of October 20 and October 23, 1942, as well as the new funds, shall be governed by the terms of this letter, to the extent that they may be acceptable and agreed to by Your Excellency, and that the said letters of October 20 and October 23, 1942 be superseded.

I am prepared as Executive Vice-President of The Institute of Inter-American Affairs to consider this letter and Your Excellency's acceptance as constituting in form and effect a completely binding and effective agreement between the Institute of Inter-American Affairs of the Office of the Coordinator of Inter-American Affairs and the Minister of Labor, Health and Social Welfare of the Republic of Colombia in accordance with the terms contained herein.

No. 414 *Mexico, D.F., September 23, 1946*

EXCELLENCY:

I have the honor to refer to the Embassy's Note No. 3041 dated September 7, 1944, and to the Ministry's Note No. 560440 dated October 18, 1944, which exchange of correspondence served to extend for a period of two years or to October 23, 1946, the Memorandum Agreement of October 23, 1942, regulating the activities of the United States Fisheries Mission to Mexico. The Embassy has received from the Department of State a copy of Note No. 4791[1] addressed by the Mexican Embassy in Washington, on July 11, 1946, to the Department of State, requesting the extension of the Memorandum Agreement for an indefinite period.

58 Stat. 1562.

The Embassy has now been instructed by the Department of State to effect by an exchange of notes between the Embassy and the Ministry the extension of the agreement for another two-year period, or to October 23, 1948. The United States Fish and Wild Life Service of the Department of Interior desires to reserve the privilege of withdrawing Messrs. Lindner and Smyth for temporary duty elsewhere. Your Excellency will recall that the present agreement states, with reference to Mr. Lindner, that "his services will be rendered on a full-time basis, with the exception of possible assignments of nominal lengths only outside of Mexico". I am also instructed to advise Your Excellency that the commitment to be entered into by the United States Government, beyond the fiscal year ending June 30, 1947, in the extension of the agreement, is subject to the availability of appropriated funds. May I suggest to Your Excellency that the eventual agreement of the Mexican Government to the amendment suggested above providing for the temporary assignments of Messrs. Lindner and Smyth for duty elsewhere, and the extension of the amended agreement for a period of two years or to October 23, 1948, be effected by the completion of this exchange of communications between the Embassy and the Ministry.

Extension of agreement to Oct. 23, 1948.

Accept, Excellency, the renewed assurances of my highest and most distinguished consideration.

AMERICAN EMBASSY
No. 230 *Athens, Greece, May 26, 1947*

EXCELLENCY:

I have the honor to inform Your Excellency that I have been instructed to convey to the Greek Government the following communication from the Government of the United States.

"In response to an appeal by the Greek Government in its Note of March 3, 1947 [1] to the Government of the United States, and through it to the American people, for financial, economic, and expert aid to assist the Greek people in restoring their country, the President of the United States on March 12, 1947 requested from the Congress the necessary authority to permit him to extend the help requested.

"The Government of the United States now informs the Greek Government that the President has been authorized to extend assistance to Greece under the provisions of an Act of Congress signed May 22, 1947.

61 Stat., Pt. 1, p. 103.

"The Government of the United States will welcome an indication from the Greek Government of its general recovery program and assurances that the proffered assistance will be effectively utilized. This Government will also welcome assurances from the Greek Government that it is prepared to enter into negotiations leading to a mutually acceptable agreement between the two Governments on the terms under which American aid will be extended."

I avail myself of this opportunity to renew to Your Excellency the assurances of my highest consideration.

YOUR EXCELLENCY:

By your note No 230 of May 26, 1947 you were good enough to inform me that, in response to an appeal by the Greek Government in its note of March 3, 1947 to the Government of the United States and through it to the American people, for financial, economic and

expert aid to assist the Greek people in restoring their country, the President of the United States has been authorised to extend assistance to Greece under the provisions of an act of Congress signed May 22, 1947. 61 Stat., Pt. 1, p. 103.

In reply, I have the honour to request that you be kind enough to convey to the United States Government the following communication from the Greek Government:

Expression of appreciation by Greek Government.

The hearts of the Greek people are profoundly touched by this proof of the generosity and goodwill of the American people and of the benevolent interest of a great and friendly nation in the welfare of Greece. The Greek Government on its own behalf and on behalf of the Greek people, wishes to express its deepest appreciation for this magnanimous response to the request of the Greek Government and takes this opportunity to repeat that it turned to the United States for aid only because the devastating results of the war were such as to render impossible the enormous task of reconstruction with the resources remaining to Greece after years of conflict and enemy occupation.

The Greek Government wishes to give assurances that any assistance it may receive will be used in conformance with the purposes for which it may be made available. Aid given for military purposes will be used in the restoration and maintenance of internal order. Aid furnished for the economic recovery and physical reconstruction of the country will be expended in a manner which will have a lasting beneficial effect on the country as a whole.

Greek plans for recovery.

The Greek Government also wishes to make known at this time its own plans for action which will lay a basis for American assistance in Greek recovery and reconstruction. The Greek people realize that ultimate solution of their problem requires great and continuous effort by themselves. They are aware that the extensive aid of the United States will not alone be sufficient to meet the large costs of restoring public order and reconstructing productive facilities over a period of years. The Greek Government will lead its people in their effort to achieve these ends. This responsibility entails the composing of internal differences, the collection of more revenues, the rebuilding of foreign trade, the conservation of foreign exchange, the reconstruction of public works, the improvement of Government administration, assistance and guidance to agriculture and industry, establishment of protective labor measures, encouragement of democratic organizations among economic and social groups, measures to control inflation and assure equitable distribution of supplies and services, and the restraint of excesses and extravagances on the part of any segment of the population. The Greek Government will undertake these and all other necessary measures to marshal Greece's own resources to the fullest extent in attaining the ends for which American assistance may be extended. This organization of Greek effort will require economic contributions and cooperation from all.

The Greek Government is ever mindful that primary responsibility

for the economic welfare of the country rests with the Greek Government, and it is therefore proceeding with plans for the early institution and vigorous administration of those measures which will enable full use of capital, productive facilities, manpower resources and natural wealth to be found in Greece. Certain measures proposed by the Greek Government are stated in general terms in this note, these and other measures will be developed further after consultation with American advisers.

Rehabilitation of national revenue system, etc.

In order to achieve budgetary balance and economic stability at the earliest possible time the Greek Government will undertake to rehabilitate its national and local revenue system by all necessary measures including the modernization of tax administration, elimination of tax evasion and the use of every practicable source of revenue. Full regard will be given to equitable distribution of the tax burden and to the principle of ability to pay. Measures will be taken to control and curtail expenditures of the Government. The Government audit and accounting system will be strengthened, and the budget will be published and used as an effective control of expenditures.

Increase of foreign exchange, etc.

With a view to steadily increasing the ratio of official acquisitions of foreign exchange to import requirements, a program will be undertaken to increase the amounts of foreign exchange coming into the Greek economy through normal commercial channels. Vigorous efforts to increase exports, including the resumption of the export of olive oil and the rebuilding of foreign markets, will be made. Measures will be adopted to assure the operation of Greek shipping in a manner which will provide the greatest benefit for the national economy. Existing regulations on the import and export of foreign exchange will be enforced and strengthened by all possible means. To make the most effective use of available exchange, imports will be limited to those which are essential to the Greek economy, and they will be brought in as an integral part of a national import program which includes goods purchased with American aid. The planning and supervising of the administration of the program of public and private imports and exports will be centralized in a foreign trade committee comprizing Greek and American technicians and headed by an American in the employ of the Greek Government. To guard against further inflation, a vigorous program will be undertaken to hold down prices and to establish an equitable relation between prices and wages. As further deterrents to inflation, rent control and rationing of commodities will be continued and controls on credit and banking will be instituted.

Foreign trade committee.

Price controls, etc.

Agricultural and industrial production.

The agricultural and industrial production of the country will be increased by Government guidance and financial assistance. Unduly restrictive taxes, detrimental employment practices and monopoly regulations will be reexamined and all unnecessary deterrents to production eliminated. To this end the Greek Government will encourage increased labor productivity while fostering the right of workers to organize and join free democratic labor unions and to

engage in activities to promote their mutual protection and economic status.

Improvement of governmental organizations, etc.

In order to fill its increasingly active role in guiding the recovery and reconstruction efforts during the American aid program, the Government will undertake an extensive program to improve its governmental organizations and civil service, which were so disrupted by the long years of war.

Request for assistance of American personnel.

The Greek Government wishes to take this opportunity to renew its request to the United States Government for American personnel who can assist in the Greek recovery effort, including a special American Mission to administer the extension of American aid, observe its use by the Greek Government and advise the Greek Government. In order to expedite recovery in Greece and because of the large financial contribution of the United States to Greece, the Mission should participate in the development of revenue and expenditure policies, approve Government expenditures for activities which directly or indirectly involve the use of American aid, take part in the planning of the import program, and approve the use of foreign exchange. The Greek Government would also wish the Mission to assist in the execution of reconstruction projects, improvement of public administration, technical training of civil servants and other personnel, continuation of the health program, development of exports, programming and disposition of Government purchased supplies, promotion of agricultural and industrial recovery, and regulation of wages and prices. In general, the Greek Government will wish to consult with the Mission before taking any economic steps which might affect the success of the American aid program.

In addition to the members of the Mission who will act as reprsentatives of the United States Government, the Greek Government wishes the assistance of the United States Government in employing a limited number of American experts to act in technical and supervisory capacities within the Greek Government. The Government will continue a currency committee consisting of Greeks and foreign experts with functions modified to fit in with those of the American Mission. As mentioned above, a Foreign Trade Administration headed by an American technician is also planned.

In the light of the recent legislation by the Congress of the United States and of the views expressed by the United States Government in its Note No. 230 of May 26, 1947, it is suggested that the two Governments should enter into a formal agreement on these matters.

Having in mind the Resolution signed under date of December 7, 1944, at the International Civil Aviation Conference in Chicago, Illinois, [1] for the adoption of a Standard Form of Agreement for provisional air routes and services, and the desirability of mutually stimulating and promoting the sound economic development of air transportation between the United States and Greece, the two Governments parties to this Agreement agree that the establishment and development of air transport services between their respective territories shall be governed by the following provisions:

ARTICLE 1

In order to prevent discriminatory practices and to assure equality of treatment, both Contracting Parties agree that:

(a) Each of the Contracting Parties may impose or permit to be imposed just and reasonable charges for the use of public airports and other facilities under its control. Each of the Contracting Parties agrees, however, that these charges shall not be higher than would be paid for the use of such airports and facilities by its national aircraft engaged in similar international services.

(b) Fuel, lubricating oils and spare parts introduced into the territory of one Contracting Party by the other Contracting Party or its nationals, and intended solely for use by aircraft of such other Contracting Party shall be accorded national and most-favored-nation treatment with respect to the imposition of customs duties, inspection fees or other national duties or charges by the Contracting Party whose territory is entered.

(c) The fuel, lubricating oils, spare parts, regular equipment and aircraft stores retained on board civil aircraft of the airlines of one Contracting Party authorized to operate the routes and services described in the Annex shall, upon arriving in or leaving the territory of the other Contracting Party, be exempt from customs, inspection fees or similar duties or charges, even though such supplies be used or consumed by such aircraft on flights in that territory.

Certificates of airworthiness, etc.

Certificates of airworthiness, certificates of competency and licenses issued or rendered valid by one Contracting Party shall be recognized as valid by the other Contracting Party for the purpose of operating the routes and services described in the Annex. Each Contracting Party reserves the right, however, to refuse to recognize, for the purpose of flight above its own territory, certificates of competency and licenses granted to its own nationals by another state.

Post, p. 2941.

ARTICLE 5

Laws and regulations.

(a) The laws and regulations of one Contracting Party relating to the admission to or departure from its territory of aircraft engaged in international air navigation, or to the operation and navigation of such aircraft while within its territory, shall be applied to the aircraft of the other Contracting Party, and shall be complied with by such aircraft upon entering or departing from or while within the territory of the first party.

(b) The laws and regulations of one Contracting Party as to the admission to or departure from its territory of passengers, crew, or cargo of aircraft, such as regulations relating to entry, clearance, immigration, passports, customs, and quarantine shall be complied with by or on behalf of such passengers, crew, or cargo of the other Contracting Party upon entrance into or departure from, or while within the territory of the first party.

ARTICLE 6

Withholding or revocation of certificate or permit.

Each Contracting Party reserves the right to withhold or revoke a certificate or permit to an airline of the other party in any case where it is not satisfied that substantial ownership and effective control are vested in nationals of either party to this Agreement, or in case of failure of an airline to comply with the laws of the State over which it operates as described in Article 5 hereof, or to perform its obligations under this Agreement.

ARTICLE 7

Registration.

This Agreement and all contracts connected therewith shall be registered with the Provisional International Civil Aviation Organization.

ARTICLE 8

Termination.

Either Contracting Party may terminate the rights for services granted by it under this Agreement by giving one year's notice to the other Contracting Party.

ARTICLE 9

Modification of annex.

In the event either of the Contracting Parties considers it desirable to modify the routes or conditions set forth in the attached Annex, it may request consultation between the competent authorities of both Contracting Parties, such consultation to begin within a period of sixty days from the date of the request. When these authorities mutually agree on new or revised conditions affecting the Annex, their recommendations on the matter will come into effect after they have been confirmed by an exchange of diplomatic notes.

Post, p. 2941.

ARTICLE 10

Disputes.

Any dispute between the Contracting Parties relating to the interpretation or application of this Agreement or its Annex which cannot be settled through consultation shall be referred for an advisory report to the Interim Council of the Provisional International Civil Aviation Organization (in accordance with the provisions of Article III Section 6 (8) of the Interim Agreement on International Civil Aviation signed at Chicago on December 7, 1944) or its successor.

59 Stat. 1521.

ARTICLE 11

Amendment.

If a general multilateral air Convention enters into force in relation to both Contracting Parties, the present Agreement shall be amended so as to conform with the provisions of such Convention.

ARTICLE 12

Entry into force.

The provisions of this Agreement shall become operative from the day it is signed. The Greek Government shall notify the Government of the United States of America of the approval of the Agreement by the Greek Parliament, and the Government of the United States of America shall consider the Agreement as becoming definitive upon the date of such notification by the Greek Government.

Surplus sum

(e) The funds credited to the account of Service, in conformity with Article IV (a) and (c), do not have to be deposited in a special account, but may be deposited in the general account of the Service, and, if the Minister and the Chief of the Mission decide, at any time, that the funds which must be deposited in conformity with the said Article IV (a) and (c) exceed the sum necessary to pay the calculated expenses of the Amazon Program, during the period covered by this Supplementary Agreement, then the surplus sum may be used for any other purpose of the cooperative program, by mutual agreement between the Minister and the Chief of the Mission.

Additional contributions.

(f) The Service may receive contributions from any source, in addition to those mentioned in Article IV (a) and (c), and the Service may spend such contributions, in the same manner

Likewise, the Government of Peru shall permit the free entry of, or guarantee the respective duties on, the personal effects of the members of the Mission, in accordance with the restrictive conditions to which the members of the Diplomatic Corps accredited to the Government of Peru are subject; for the purposes of this Agreement, the members of the Mission shall be considered as First Secretaries of the Diplomatic Service as regards exemptions'. Exemption of members of Mission from taxes, etc.

ARTICLE VI.

"The Basic Contract and the Extension Contract above-mentioned shall remain in full force and therefore continues the obligation of the Peruvian Government to pay the instalments for January and April, 1947, in the amount of ten thousand seven hundred and twenty-five dollars ($10,725) each, at the rate of exchange of 6.50 soles per dollar, except as they have been modified by this Supplementary Agreement or by reason of their being contradictory thereto. Continued obligation of Peruvian Government. *Ante*, p. 2488.

ARTICLE VII.

"This Supplementary Agreement shall have the effect of a formal Agreement completely obligating the Contracting Parties and shall come into force after January 1, 1947, as soon as Diplomatic Notes have been exchanged, confirming and approving the terms of this Supplementary Agreement between the Minister of Foreign Affairs and Worship of the Government of Peru and the Embassy of the United States of America in Peru. Entry into force.

"In witness whereof, the Contracting Parties had this Supplementary Agreement executed by their duly authorized representatives, in duplicate, in the English and Spanish languages, at Lima, Peru, on March 27, 1947.

./.

ten, Kommandierender General der amerikanischen Streitkräfte in Österreich, übereingekommen wie folgt:

Artikel I.
Durchführung von Lieferungen.

(A) Das durchzuführende Hilfsprogramm soll solche Arten und Mengen von Lieferungen, sowie die mit diesen Lieferungen verbundenen Beschaffungen, Einlagerungen, Land-und Seetransporte umfassen, wie sie von Zeit zu Zeit von der Regierung der Vereinigten Staaten nach Besprechung mit der österreichischen Bundesregierung in Übereinstimmung mit Gesetz 84, 80.Kongreßperiode vom 31.Mai 1947 und etwaigen Abänderungs-oder Ergänzungsbestimmungen festgelegt werden.

Diese Lieferungen sollen auf bestimmte grundlegende, lebenswichtige Waren beschränkt sein, das sind Lebensmittel, Medikamente, verarbeitetes und unverarbeitetes Material für Kleidung, Kunstdünger, landwirtschaftliche Desinfektionsmittel, Brennstoffe und Saatgut.

(B) Vorbehaltlich der Bestimmungen des Artikels III wird die Regierung der Vereinigten Staaten keinen Anspruch erheben und keine Rechte besitzen auf Bezahlung für Hilfslieferungen der Vereinigten Staaten und Dienste, die gemäß dieses Abkommens geleistet werden.

(C) Dienststellen der Regierung der Vereinigten Staaten werden für die Beschaffung, Einlagerung, den Land-und Seetransport der Hilfslieferungen der Vereinigten Staaten nach Österreich Sorge tragen. Dies schließt jedoch nicht aus, daß die Regierung der Vereinigten Staaten andere Mittel für die Durchführung dieser Dienste nach von der Regierung der Vereinigten Staaten festgelegten Richtlinien genehmigt. Alle Hilfslieferungen der Vereinigten Staaten sollen in den Vereinigten Staaten beschafft werden, sofern nicht eine besondere Genehmigung zur Beschaffung außer-

./.

halb der Vereinigten Staaten durch die Regierung der Vereinigten Staaten erteilt wird.

(D) Die österreichische Bundesregierung wird von Zeit zu Zeit im voraus dem Hochkommissär der Vereinigten Staaten für Österreich ihre Programmvorschläge für den Einfuhrbedarf von Hilfslieferungen vorlegen. Diese Programme sind der Prüfung und Genehmigung durch die Regierung der Vereinigten Staaten unterworfen; es wird nur die Beschaffung jener Waren zulässig sein, die in den genehmigten Programmen enthalten sind.

(E) Die Übergabe von Hilfslieferungen der Vereinigten Staaten soll so erfolgen, wie dies vom Hochkommissär der Vereinigten Staaten oder anderen hierzu bevollmächtigten Beauftragten der Regierung der Vereinigten Staaten nach Beratung mit der österreichischen Bundesregierung festgelegt wird. Die Regierung der Vereinigten Staaten kann - wenn immer sie es für wünschenswert hält - sich das Eigentum an irgendwelchen Hilfslieferungen der Vereinigten Staaten vorbehalten. Sie kann das Eigentum an Hilfslieferungen der Vereinigten Staaten auch wieder erlangen, selbst wenn diese Lieferungen bereits an Städte oder Gemeinden übertragen wurden, wo diese Lieferungen dem endgiltigen Verbraucher verfügbar gemacht werden.

Artikel II.

Verteilung der Hilfslieferungen in Österreich.

(A) Alle Hilfslieferungen der Vereinigten Staaten sollen durch die österreichische Bundesregierung unter direkter Aufsicht und Kontrolle der Vertreter der Vereinigten Staaten und in Übereinstimmung mit den Bedingungen dieses Abkommens verteilt werden. Die Verteilung soll durch den Handel erfolgen, soweit dies zweckmäßig und wünschenswert erscheint.

./.

(B) Alle Importe von Hilfslieferungen der Vereinigten Staaten sollen frei von staatlichen Abgaben, einschließlich Zöllen, erfolgen. Diese Abgabenfreiheit soll für ihre Behandlung bis zu dem Zeitpunkt Geltung haben, an dem sie gegen Bezahlung in österreichischer Währung verkauft werden, wie dies in Artikel III dieses Vertrages vorgesehen ist. Ausnahmen sind zulässig, wenn es aus Gründen der Preisgebarung wünschenswert erscheint, Zölle oder Steuern in die festgesetzten Preise einzubeziehen. In diesem Falle sollen die so auf Hilfslieferungen der Vereinigten Staaten erhobenen Beträge dem in Artikel III erwähnten besonderen Konto zuwachsen. Alle Hilfslieferungen der Vereinigten Staaten, die bedürftigen, juristischen oder anderen Personen umsonst übergeben werden, sollen von allen staatlichen Abgaben einschließlich Zöllen, befreit sein.

(C) Die österreichische Bundesregierung wird einen hohen Staatsbeamten bestimmen, der die Verantwortlichkeit für die Verbindung zwischen der österreichischen Bundesregierung und den für das Hilfsprogramm verantwortlichen Vertretern der Vereinigten Staaten haben wird.

(D) Die österreichische Bundesregierung wird die Hilfslieferungen der Vereinigten Staaten und ähnliche aus der Inlandsproduktion stammende oder eingeführte Lieferungen ohne Rücksicht auf Rasse, Glaubensbekenntnis, Zugehörigkeit zu politischen Parteien oder Weltanschauung verteilen. Diese Lieferungen sollen nicht für nicht lebenswichtige oder Exportzwecke verwendet und nicht aus dem Lande verbracht werden. Es soll nicht ein übermäßig großer Teil dieser Lieferungen für die Haltung österreichischer Streitkräfte verwendet werden und auf keinen Fall dürfen solche Lieferungen zum Unterhalt der Streitkräfte einer Besatzungsmacht Ver-

./.

wendung finden.

(E) Die österreichische Bundesregierung wird die Verteilung der Hilfslieferungen der Vereinigten Staaten und ähnlicher Lieferungen, die aus der Inlandsproduktion oder aus Importen stammen, so lenken, daß für alle Bevölkerungsklassen überall in Österreich ein gerechter und billiger Anteil an diesen Lieferungen gesichert ist.

(F) Rationierung und Preiskontrolle sollen aufrecht erhalten werden und die Verteilung soll so gelenkt werden, daß alle Klassen der Bevölkerung, unabhängig von ihrer Kaufkraft, einen gerechten Anteil an den Lieferungen erhalten, die auf Grund dieses Abkommens erfolgen.

Artikel III.

Verwendung der Geldmittel, die durch Verkauf von Hilfslieferungen der Vereinigten Staaten eingehen.

(A) Die Preise, zu denen Hilfslieferungen der Vereinigten Staaten in Österreich verkauft werden, sind durch Vereinbarung zwischen der österreichischen Bundesregierung und der Regierung der Vereinigten Staaten festzulegen.

(B) Wenn Hilfslieferungen der Vereinigten Staaten gegen Bezahlung in österreichischer Währung verkauft werden, so sind die so erlösten Beträge durch die österreichische Bundesregierung auf ein besonderes, auf den Namen der österreichischen Bundesregierung lautendes Konto einzuzahlen.

(C) Bis einschließlich 30.Juni 1948 dürfen diese Beträge nur mit Genehmigung von gehörig bevollmächtigten Vertretern der Regierung der Vereinigten Staaten und dann nur für Hilfszwecke und Zwecke der Arbeitsbeschaffung innerhalb Österreichs einschließlich Ausgaben der Vereinigten Staaten in österreichischer Währung im Zusammenhang mit den Hilfs-

./.

lieferungen verwendet werden. Der am 30.Juni 1948 auf diesem Konto verbleibende unbelastete Betrag soll innerhalb Österreichs für Zwecke verwendet werden, die die Regierung der Vereinigten Staaten in Durchführung eines Act oder einer Joint Resolution des Kongresses bestimmt.

(D) Die österreichische Bundesregierung wird auf Anforderung dem Vertreter der Vereinigten Staaten jene Beträge vorschießen, die notwendig sind, um die Ausgaben in österreichischer Währung zu decken, die mit den Hilfslieferungen in Zusammenhang stehen.

(E) Es ist nicht in Aussicht genommen, daß die aus den Verkäufen von Hilfslieferungen der Vereinigten Staaten eingehenden Beträge regelmäßig dazu verwendet werden, die der österreichischen Bundesregierung durch die Verteilung der Hilfslieferungen der Vereinigten Staaten in Österreich entstehenden Kosten zu decken. Der Vertreter der Vereinigten Staaten soll jedoch gemeinsam mit der österreichischen Bundesregierung die Verwendung solcher Beträge zur Abdeckung ungewöhnlicher Kosten erwägen, die der österreichischen Bundesregierung eine unbillige Last auferlegen würden.

(F) Die österreichische Bundesregierung wird monatlich den Vertretern der Vereinigten Staaten Berichte über die Eingänge, den Saldo und die Ausgaben des besonderen Kontos zugänglich machen.

(G) Die österreichische Bundesregierung wird Beamte bestimmen, die mit den Vertretern der Vereinigten Staaten bezüglich der Verfügung über die aus den Verkäufen eingenommenen Beträge zu beraten und zu planen sowie die angemessene Verwendung dieser Beträge sicher

./.

zu stellen haben.

Artikel IV.
Möglichst große Produktion. Lebensmittellieferungen und Verwendung der vorhandenen Mittel zur Reduzierung des Hilfsbedarfs.

(A) Die österreichische Bundesregierung versichert, daß sie alle erforderlichen wirtschaftlichen Maßnahmen ergriffen hat und soweit dies möglich ist, weiterhin ergreifen wird, um den Hilfsbedarf zu verringern und für den künftigen eigenen Wiederaufbau Vorsorge zu treffen.

(B) Die österreichische Bundesregierung verpflichtet sich, keine Maßnahmen zu gestatten, die die Auslieferung, den Verkauf oder die unentgeltliche Abgabe von Waren der in diesem Abkommen behandelten Art beinhalten, wenn die im Inland bestehenden Liefermöglichkeiten solcher Waren verringert und die Last der Hilfsleistung hiedurch gesteigert würden.

(C) Die österreichische Bundesregierung wird regelmäßig laufende Berichte über Pläne und Fortschritte in der Produktionsvermehrung und in der besseren Erfassung der inländischen Erzeugung, soweit diese für Hilfslieferungen in irgendeinem Teil Österreichs in Frage kommt, an die Vertreter der Vereinigten Staaten geben.

Artikel V.
Reliefmission der Vereinigten Staaten.

(A) Die Regierung der Vereinigten Staaten wird der Gesandtschaft der Vereinigten Staaten in Wien Vertreter zuteilen, die eine Reliefmission bilden und bei Erfüllung der Verpflichtungen der Regierung der Vereinigten Staaten aus diesem Abkommen und dem Gesetz 84, 80.Kongreßperiode,

./.

31.Mai 1947, gemäß den Weisungen des Hochkommissärs der Vereinigten Staaten für Österreich handeln sollen. Die österreichische Bundesregierung wird die Reise der Vertreter der Vereinigten Staaten nach, in und von Osterreich erlauben und erleichtern.

(B) Die österreichische Bundesregierung wird den Vertretern der Vereinigten Staaten die freie Überwachung, Besichtigung, Berichterstattung und Reisemöglichkeit durch ganz Österreich zu jeder Zeit gestatten und in jeder Weise erleichtern, sowie mit diesen in der Ausführung aller Bestimmungen dieses Abkommens voll zusammenarbeiten. Die österreichische Bundesregierung wird die nötigen Kraftfahrmittel beistellen, um den Vertretern der Vereinigten Staaten zu ermöglichen, frei und ohne Verzögerung durch ganz Österreich zu reisen.

(C) Die Vertreter der Vereinigten Staaten, das Eigentum der Mission und deren Personal sollen in Österreich dieselben Privilegien und Immunitäten genießen, wie sie das Personal der Gesandtschaft der Vereinigten Staaten in Österreich, das Eigentum der Gesandtschaft und deren Personal genießen.

Artikel VI.

Freiheit der Presse-und Rundfunkvertreter der Vereinigten Staaten bezüglich Beobachtung und Berichterstattung.

Die österreichische Bundesregierung übernimmt es, den Vertretern der Presse und des Rundfunks der Vereinigten Staaten zu gestatten, bezüglich der Verteilung und Verwendung der Hilfsleistungen und der Verwendung von Beträgen, die aus dem Verkauf von Hilfsleistungen herrühren, freie Beobachtungen zu machen

./.

und vollständig und unzensuriert zu berichten.

Artikel VII.

(A) Die österreichische Bundesregierung wird ausreichende statistische und andere Aufzeichnungen über die Hilfeleistung führen und wird sich auf Verlangen der Vertreter der Vereinigten Staaten mit diesen über die Führung solcher Aufzeichnungen beraten.

(B) Die österreichische Bundesregierung wird auf Verlangen der Vertreter der Vereinigten Staaten prompte Informationen liefern, betreffend die Produktion, den Gebrauch, die Verteilung, den Import und den Export aller Waren, die den Hilfsbedarf des Volkes berühren.

(C) Falls die Vertreter der Vereinigten Staaten von angeblichen Mißbräuchen oder Verletzungen dieses Abkommens berichten, wird die österreichische Bundesregierung dies untersuchen und berichten und umgehende geeignete Abhilfsmaßnahmen treffen, um solche festgestellte Mißbräuche oder Verletzungen abzustellen.

Artikel VIII.
Publizität der Hilfsleistungen der Vereinigten Staaten.

(A) Die österreichische Bundesregierung wird volle und dauernde Bekanntgabe erlauben und bewerkstelligen über das Ziel, die Quelle, den Charakter, den Zweck, die Menge und den Fortschritt des Hilfsprogramms der Vereinigten Staaten in Österreich mit Einschluß der Verwendung von Beträgen, die aus Verkäufen von Hilfslieferungen der Vereinigten Staaten zum Wohle des Volkes entstehen. Außerdem wird die österreichische Bundesregierung wenigstens bei zwei Anlässen, und zwar beim Inkrafttreten und einmal während der Zeit, in der die Verteilung der Hilfslieferungen

./.

durchgeführt wird, dafür sorgen, daß dieses Abkommen in vollem Wortlaut in den Zeitungen der drei größten Orte des Landes publiziert wird.

(B) Alle Waren aus den Hilfsleistungen der Vereinigten Staaten und alle Artikel, die aus solchen Waren hergestellt sind, oder Behälter solcher Waren oder Artikel sollen, soweit dies durchführbar ist, an einer auffälligen Stelle bezeichnet, bedruckt, gebrannt oder etikettiert werden in einer Art, die geeignet ist, dem endgiltigen Verbraucher zur Kenntnis zu bringen, daß diese Waren oder Artikel von den Vereinigten Staaten als Hilfsleistung geliefert wurden; oder wenn solche Waren, Artikel oder Behälter nicht geeignet sind, in dieser Weise bezeichnet, bedruckt, gebrannt oder etikettiert zu werden, werden von der österreichischen Bundesregierung alle geeigneten Maßnahmen getroffen werden, um den endgiltigen Verbraucher darüber zu unterrichten, daß diese Waren oder Artikel von den Vereinigten Staaten als Hilfsleistung geliefert worden sind.

Artikel IX.

Ende der Hilfeleistung.

Die Regierung der Vereinigten Staaten wird ihre Hilfeleistung jederzeit teilweise oder ganz einstellen, wenn sie entscheidet,

1.) daß infolge veränderter Bedingungen die Beistellung von Hilfeleistungen von der durch Gesetz 84, 80.Kongreßperiode, 31.Mai 1947, genehmigten Art nicht länger erforderlich ist,

2.) daß irgendwelche Bestimmungen dieses Abkommens nicht ausgeführt werden,

3.) daß eine übermäßig große Menge von Waren aus Hilfslieferungen der Vereinigten Staaten oder von ähnlichen Waren, die im Inland erzeugt oder von auswärtigen Quellen importiert werden, zum Unterhalt von österrei-

AIR TRANSPORT AGREEMENT BETWEEN THE UNITED STATES OF AMERICA AND LEBANON

Having in mind the resolution signed under date of December 7, 1944,[1] at the International Civil Aviation Conference in Chicago, Illinois, for the adoption of a standard form of agreement for provisional air routes and services, and the desirability of mutually stimulating and promoting the sound economic development of air transportation between the United States and Lebanon, the two Governments parties to this arrangement agree that the establishment and development of air transport services between their respective territories shall be governed by the following provisions:

ARTICLE 1

The Contracting Parties grant the rights specified in the Annex hereto necessary for establishing the international civil air routes and services therein described, whether such services be inaugurated immediately or at a later date at the option of the Contracting Party to whom the rights are granted.

(b) It is understood that either Contracting Party granted commercial rights under this Agreement should exercise them at the earliest practicable date except in the case of temporary inability to do so.

ARTICLE 3

Prevention of discrimination, etc.

In order to prevent discriminatory practices and to assure equality of treatment, both Contracting Parties agree that:

(a) Each of the Contracting Parties may impose or permit to be imposed just and reasonable charges for the use of public airports and other facilities under its control. Each of the Contracting Parties agrees, however, that these charges shall not be higher than would be paid for the use of such airports and facilities by its national aircraft engaged in similar international services.

(b) Fuel, lubricating oils and spare parts introduced into the territory of one Contracting Party by the other Contracting Party or its nationals, and intended solely for use by aircraft of such other Contracting Party shall be accorded national and most-favored-nation treatment with respect to the imposition of customs duties, inspection fees or other national duties or charges by the Contracting Party whose territory is entered.

(c) The fuel, lubricating oils, spare parts, regular equipment and aircraft stores retained on board civil aircraft of the airlines of one Contracting Party authorized to operate the routes and services described in the Annex shall, upon arriving in or leaving the territory of the other Contracting Party, be exempt from customs, inspection fees or similar duties or charges, even though such supplies be used or consumed by such aircraft on flights in that territory.

Certificates of airworthiness, etc.

Certificates of airworthiness, certificates of competency and licenses issued or rendered valid by one Contracting Party shall be recognized as valid by the other Contracting Party for the purpose of operating the routes and services described in the Annex. Each Contracting Party reserves the right, however, to refuse to recognize, for the purpose of flight above its own territory, certificates of competency and licenses granted to its own nationals by another state.

Post, p. 2991.

ARTICLE 5

Laws and regulations.

(a) The laws and regulations of one Contracting Party relating to the admission to or departure from its territory of aircraft engaged in

international air navigation, or to the operation and navigation of such aircraft while within its territory, shall be applied to the aircraft of the other Contracting Party, and shall be complied with by such aircraft upon entering or departing from or while within the territory of the first Party.

(b) The laws and regulations of one Contracting Party as to the admission to or departure from its territory of passengers, crew, or cargo of aircraft, such as regulations relating to entry, clearance, immigration, passports, customs, and quarantine shall be complied with by or on behalf of such passengers, crew or cargo of the other Contracting Party upon entrance into or departure from, or while within the territory of the first party.

ARTICLE 6

Withholding or revocation of certificate or permit.

Each Contracting Party reserves the right to withhold or revoke a certificate or permit to an airline of the other Party in any case where it is not satisfied that substantial ownership and effective control are vested in nationals of either Party to this Agreement, or in case of failure of an airline to comply with the laws of the State over which it operates as described in Article 5 hereof, or to perform its obligations under this Agreement.

ARTICLE 7

Registration.

This Agreement and all contracts connected therewith shall be registered with the Provisional International Civil Aviation Organization.

ARTICLE 8

Termination.

Either Contracting Party may terminate the rights for services granted by it under this Agreement by giving one year's notice to the other Contracting Party.

ARTICLE 9

Modification of routes, etc.

In the event either of the Contracting Parties considers it desirable to modify the routes or conditions set forth in the attached Annex,

it may request consultation between the competent authorities of both Contracting Parties, such consultation to begin within a period of sixty days from the date of the request. When these authorities mutually agree on new or revised conditions affecting the Annex, their recommendations on the matter will come into effect after they have been confirmed by an exchange of diplomatic notes.

ARTICLE 10

Disputes.

Any dispute between the Contracting Parties relating to the interpretation or application of this Agreement or its Annex, which cannot be settled through consultation, shall be referred for an advisory report to the Interim Council of the Provisional International Civil Aviation Organization (in accordance with the provisions of Article 3, Section 6 (8) of the Interim Agreement on Civil Aviation signed at Chicago on December 7, 1944) or its successors.

EXCELLENCY:

With reference to the bilateral Air Transport Agreement between Lebanon and United States of America signed today, I have the honor to inform your Excellency that it is the understanding of my government that the so-called Fifth Freedom traffic which may be carried by United States air services between Beirut and Baghdad is dependent upon the conclusion of an appropriate air transport agreement between the United States of America and Iraq. Agreement between the United States of America and the United Kingdom of Great Britain and Northern Ireland respecting intergovernmental claims, interpreting the agreement of March 27, 1946. Effected by exchange of notes signed at Washington February 19 and 28, 1947; entered into force February 28, 1947.

The Secretary of State to the British Ambassador

DEPARTMENT OF STATE
WASHINGTON
Feb 19, 1947

EXCELLENCY:

I have the honor to refer to the "Agreement on Settlement of Intergovernmental Claims", which was one of the specific Agreements between the British Government and the United States Government signed on March 27, 1946, pursuant to the Joint Statement of December 6, 1945, Regarding Settlement for Lend-Lease, Reciprocal Aid, Surplus War Property, and Claims. Paragraph 6 of the Agreement provides "that all financial claims whatsoever of one Government against the other which (a) arose out of lend-lease or reciprocal aid, or (b) otherwise arose on or after September 3, 1939 and prior to September 2, 1945 out of or incidental to the conduct of World War II, and which are not otherwise dealt with in the Agreements concluded this day, are hereby waived, and neither Government will hereafter raise or pursue any such claims against the other."

60 Stat. 1525, 1564.
60 Stat. 1536.

Espoused claims.

A question has been raised as to whether the expression "all financial claims whatsoever of one Government against the other which (a) arose out of lend-lease or reciprocal aid, or (b) otherwise arose on or after September 3, 1939 and prior to September 2, 1945 out of or incidental to the conduct of World War II" is properly interpreted as applying to claims submitted in accordance with the practice whereby one government espouses a claim of one of its nationals and presents it through diplomatic channels to another government. After consideration of the general purposes of the waiver of claims provision and of the discussions leading to the adoption of that provision, the Department has concluded that the proper interpretation of the Agreement is that such espoused claims are not properly included among the financial claims covered by the Agreement.

I would appreciate being advised whether your Government concurs in this interpretation.

Accept, Excellency, the renewed assurances of my highest consideration.

For the Secretary of State:
DEAN ACHESON

His Excellency
The Right Honorable
THE LORD INVERCHAPEL, P.C., G.C.M.G.,
British Ambassador.

Agreement between the United States of America and Canada respecting termination of the reciprocal trade agreement signed December 13, 1940, relating to fox furs and skins. Effected by exchange of notes signed at Washington March 18, 1947; entered into force March 18, 1947. And proclamation by the President of the United States of America terminating proclamations of December 18, 1940, and August 21, 1941, relating to the reciprocal trade agreement signed December 13, 1940; issued March 18, 1947; effective May 1, 1947.

The Acting Secretary of State to the Canadian Ambassador

DEPARTMENT OF STATE
WASHINGTON
March 18, 1947.

EXCELLENCY:

Fox furs and skins.

I have the honor to refer to the supplementary trade agreement between the United States of America and Canada with respect to fox furs and skins signed December 13, 1940 and effective December 20, 1940, under which a quantitative restriction was imposed on imports of certain fox furs and skins into the United States and the rate of import duty was fixed at 35 percent *ad valorem*. That agreement was negotiated in the light of the emergency existing at that time with respect to marketing of silver or black fox furs and skins. Article VI thereof contains provisions looking toward the termination of the agreement in the event that the emergency conditions which had given rise to it should disappear.

55 Stat. 1319.
19 U. S. C. § 1351 note.

55 Stat. 1324.

Proposed termination of agreement of Dec. 13, 1940.

Since in the opinion of the Government of the United States of America the emergency conditions referred to above no longer exist, it is considered desirable to terminate the agreement relating to fox-furs and skins in accordance with its terms. This note is, therefore, to record the understanding of our two Governments, reached during the recent conversations on the subject, that the agreement of December 13, 1940 relating to fox furs and skins shall be terminated in whole on May 1, 1947. Such termination will result in removing the quantitative limitations on imports into the United States of silver or black fox furs and skins and the parts thereof and articles made therefrom, and of certain silver or black foxes, and in restoring to 37½ percent *ad valorem* the import duty on silver or black fox furs or skins provided for in item 1519 (c) of Schedule II of the trade agreement between the United States and Canada signed on November 17, 1938.

55 Stat. 1319.
19 U. S. C. § 1351 note.

Accept, Excellency, the renewed assurances of my highest consideration.

[T. I. A. S. 1639]

AGREEMENT
BETWEEN
THE GOVERNMENT OF THE UNITED STATES
OF AMERICA
AND
THE GOVERNMENT OF THE UNION OF
SOUTH AFRICA
RELATING TO
AIR SERVICES BETWEEN THEIR RESPECTIVE
TERRITORIES.

AGREEMENT BETWEEN THE GOVERNMENT OF THE UNITED STATES OF AMERICA AND THE GOVERNMENT OF THE UNION OF SOUTH AFRICA RELATING TO AIR SERVICES BETWEEN THEIR RESPECTIVE TERRITORIES.

The Government of the United States of America and the Government of the Union of South Africa, considering—

that the possibilities of commercial aviation as a means of transport have greatly increased, and

that it is desirable to organize the international air services in a safe and orderly manner and to further as much as possible the development of international co-operation in this field,

have appointed their representatives, who duly authorized, have agreed upon the following:

ARTICLE I.

Post, p. 3062.

The contracting parties grant to each other the rights specified in the annex hereto for the establishment of the international air services set forth in that annex, (hereinafter referred to as the "agreed services").

ARTICLE II.

Inauguration of services.

(A) The agreed services may be inaugurated immediately or at a later date at the option of the contracting party to whom the rights are granted, on condition that—

(1) the contracting party to whom the rights have been granted shall have designated an air carrier or carriers for the specified route or routes;

(2) the contracting party which grants the rights shall have given the appropriate operating permission to the air carrier or carriers concerned pursuant to paragraph (B) of this article which (subject to the provisions of Article VI) it shall do with the least possible delay.

(B) The designated air carrier or carriers may be required to satisfy the aeronautical authorities of the contracting party granting the rights that it or they is or are qualified to fulfil the conditions prescribed by or under the laws and regulations normally applied by those authorities to the operations of commercial air carriers.

ARTICLE III.

Charges.

(A) The charges which either contracting party may impose or permit to be imposed on the designated air carrier or carriers of the other contracting party for the use of airports and other facilities

shall not be higher than would be paid for the use of such airports and facilities by its national aircraft employed in similar international air services.

(B) Fuel, lubricating oils and spare parts introduced into, or taken on board aircraft in the territory of one contracting party by, or on behalf of, any designated air carrier of the other contracting party and intended solely for use by the aircraft of such carrier shall be accorded, with respect to customs duties, inspection fees and other charges imposed by the former contracting party, treatment not less favourable than that granted to national air carriers engaged in international air services or such carriers of the most favoured nation.

(C) Aircraft of the designated airline of one contracting party operating on the agreed services on a flight to, from or across the territory of the other contracting party shall be admitted temporarily free from customs duties subject otherwise to the customs regulations of such other contracting party. Supplies of fuel, lubricating oils, spare parts, regular equipment and aircraft stores retained on board aircraft of any designated air carrier of one contracting party shall be exempt in the territory of the other contracting party from customs duties, inspection fees or similar duties or charges, even though such supplies be used by such aircraft on flights within that territory.

ARTICLE IV.

Certificates of airworthiness, etc.

Certificates of airworthiness, certificates of competency and licences issued or rendered valid by one contracting party and still in force shall be recognized as valid by the other contracting party for the purpose of operation of the agreed services. Each contracting party reserves the right, however, to refuse to recognize for the purpose of flight above its own territory, certificates of competency and licences granted to its own nationals by another state.

ARTICLE V.

Laws and regulations.

(A) The laws and regulations of one contracting party relating to the admission to or departure from its territory of aircraft engaged in international air navigation, or to the operation and navigation of such aircraft while within its territory, shall be applied to the aircraft of the other contracting party, and shall be complied with by such aircraft upon entering or departing from or while within the territory of the first party.

(B) The laws and regulations of each contracting party as to the admission to, sojourn in and departure from its territory of passengers, crew and cargo of aircraft, such as regulations relating to entry, clearance, immigration, passports, customs and quarantine, shall be observed.

ARTICLE VI.

Withholding or revocation of certificate or permit.

Each contracting party reserves the right to withhold or revoke a certificate or permit to an air carrier designated by the other contracting party in the event that it is not satisfied that substantial ownership and effective control of such carrier are vested in nationals of the other contracting party, or in case of failure by that carrier to comply with

the laws and regulations referred to in Article V hereof, or otherwise to fulfil the conditions under which the rights are granted in accordance with this agreement and its annex.

ARTICLE VII.

Consultation.

(A) In a spirit of close collaboration, the aeronautical authorities of the two contracting parties will consult regularly with a view to assuring the observance of the principles and the implementation of the provisions outlined in this the present agreement and its annex.

Failure to publish information, etc.

(B) In the event of the aeronautical authorities of either contracting party failing or ceasing to publish information in relation to the agreed services on lines similar to that included in the Airline Traffic Surveys (Station to Station and Origination and Destination) now published by the Civil Aeronautics Board and failing or ceasing to supply such data of this character as may be required by the International Civil Aviation Organization, the aeronautical authorities of such contracting party shall supply, on the request of the aeronautical authorities of the other contracting party, such information of that nature as may be requested.

ARTICLE VIII.

For the purpose of the present agreement and its annex—

"Territory."

(A) the term "territory" as applied to each contracting party shall be deemed to be the land areas and territorial waters adjacent thereto under the sovereignty, suzerainty, protection, mandate, or trusteeship of such contracting party;

"Aeronautical authorities."

(B) the term "aeronautical authorities" shall mean in the case of the Union of South Africa the Minister in Charge of Civil Aviation, and in the case of the United States the Civil Aeronautics Board, and in both cases any person or body authorized to perform the functions presently exercised by the aeronautical authorities as defined herein;

"International air services."

(C) the term "international air services" shall have the meaning specified in Article 96 of the Convention on International Civil Aviation signed at Chicago on December 7, 1944.

61 Stat., Pt. 2, p. 1207.

ARTICLE IX.

Disputes.

Except as otherwise provided in this agreement or its annex, any dispute between the contracting parties relative to the interpretation or application of this agreement or its annex, which cannot be settled through consultation, shall be submitted for an advisory report to a tribunal of three arbitrators, one to be named by each contracting party, and the third to be agreed upon by the two arbitrators so chosen, provided that such third arbitrator shall not be a national of either contracting party. Each of the contracting parties shall designate an arbitrator within two months of the date of delivery by either party to the other party of a diplomatic note requesting arbitration of a dispute; and the third arbitrator shall be agreed upon within one month after such period of two months. If the third arbitrator is not agreed upon, within the time limitation indicated, the vacancy thereby created shall be filled by the appointment of a person, designated by the president of the council of ICAO, from a panel of arbitral

personnel maintained in accordance with the practice of ICAO. The executive authorities of the contracting parties will use their best efforts under the powers available to them to put into effect the opinion expressed in any such advisory report. A moiety of the expenses of the arbitral tribunal shall be borne by each party.

ARTICLE X.

Registration.

This agreement and all relative contracts shall be registered with the International Civil Aviation Organization.

ARTICLE XI.

Entry into force.

(A) This agreement, including the provisions of the annex thereof, will come into force on the day it is signed.

Consultation to initiate amendments.

(B) Either contracting party may at any time request consultation with the other with a view to initiating any amendments of this agreement or its annex which may be desirable in the light of experience. If a multilateral air convention enters into force in relation to both contracting parties, such consultation shall take place with a view to amending the present agreement or its annex so as to conform to the provisions of such a convention.

(C) Except as otherwise provided in this agreement or its annex, if either of the contracting parties considers it desirable to modify the terms of the annex to this agreement it may request consultation between the aeronautical authorities of both contracting parties, such consultation to begin within a period of sixty days from the date of the request. Any modification in the annex agreed to by said aeronautical authorities shall come into effect when it has been confirmed by an exchange of diplomatic notes.

Notice of desire to terminate agreement.

(D) When the procedure for a consultation provided for in paragraph (B) of the present article has been initiated, either contracting party may at any time give notice to the other of its desire to terminate this agreement. Such notice shall be simultaneously communicated to the International Civil Aviation Organization.

This agreement shall terminate one year after the date of receipt of the notice to terminate by the other contracting party unless the notice is withdrawn by agreement before the expiration of this period. In the absence of acknowledgment of receipt by the other contracting party, notice shall be deemed to have been received fourteen days after the receipt of the notice by the International Civil Aviation Organization.

ANNEX.

SECTION I.

South African rights of transit in U. S.

The Government of the United States of America grants to the Government of the Union of South Africa the right to conduct air transport services by one or more air carriers of South African nationality designated by the latter country on the routes, specified in Schedule I attached, which transit or serve commercially the territory of the United States of America.

Post, p. 3066.

SECTION II.

U. S. rights of transit in South Africa.

The Government of the Union of South Africa grants to the Government of the United States of America the right to conduct air transport services by one or more carriers of United States nationality designated by the latter country on the routes, specified in Schedule II attached, which transit or serve commercially territory of the Union of South Africa.

Post, p. 3066.

SECTION III.

One or more air carriers designated by each of the contracting parties under the conditions provided in this agreement will enjoy, in the territory of the other contracting party, rights of transit, of stops for non-traffic purposes and of commercial entry and departure for international traffic in passengers, cargo and mail at the points enumerated and on each of the routes specified in the schedules attached at all airports open to international traffic.

SECTION IV.

It is agreed between the contracting parties—

Encouragement of air travel.

(A) that the two governments desire to foster and encourage the widest possible distribution of the benefits of air travel for the general good of mankind at the cheapest rates consistent with sound economic principles; and to stimulate international air travel as a means of promoting friendly understanding and good will among peoples and ensuring as well the many indirect benefits of this new form of transportation to the common welfare of both countries;

Equal opportunity for operation of services.

(B) that the designated airlines of the two contracting parties operating on the routes described in this annex shall enjoy fair and equal opportunity for the operation of the agreed services. If the designated airline of one contracting party is temporarily unable, as a result of the war to take advantage of such opportunity, the contracting parties shall review the situation with the object of assisting the said airline to take full advantage of the fair and equal opportunity to participate in the agreed services;

(C) that in the operation by the air carriers of either contracting party of international services described in the present annex, the interests of the air carriers of the other country shall, however, be taken into consideration so as not to affect unduly the services which the latter provide on all or part of the same route;

(D) that the total air transport services offered by the carriers of both countries should bear a close relationship to the requirements of the public for such services;

(E) that the services provided by a designated air carrier under this agreement and its annex shall retain as their primary objective the provision of capacity adequate to the traffic demands between the country of which such air carrier is a national and the country of ultimate destination of the traffic; Provision of adequate capacity.

(F) that the right of the air carriers of either country to embark and to disembark at points in the territory of the other country international traffic destined for or coming from third countries at a point or points on the routes specified in the schedules attached shall be applied in accordance with the general principles of orderly development to which both governments subscribe and shall be subject to the general principle that capacity shall be related— Right to embark, etc.

(1) to traffic requirements between the country of origin and the countries of destination;
(2) to the requirements of through airline operation; and
(3) to the traffic requirements of the area through which the airline passes after taking account of local and regional services.

SECTION V.

(A) The determination of rates in accordance with the following paragraphs shall be made at reasonable levels, due regard being paid to all relevant factors, such as cost of operation, reasonable profit, and the rates charged by any other carriers, as well as the characteristics of each service. Determination of rates.

(B) The rates to be charged by the air carriers of either contracting party between points in the territory of the United States and points in the territory of the Union of South Africa referred to in this annex shall, consistent with the provisions of the present agreement and its annex, be subject to the approval of the aeronautical authorities of the contracting parties, who shall act in accordance with their obligations under the present annex, within the limits of their legal powers. Approval.

(C) The Civil Aeronautics Board of the United States having approved the traffic conference machinery of the International Air Transport Association (hereinafter called "IATA"), for a period of one year beginning in February, 1947, any rate agreements concluded through this machinery during this period and involving United States air carriers will be subject to approval by the Board. "IATA."

(D) Any rate proposed by the air carrier or carriers of either contracting party shall be filed with the aeronautical authorities of both contracting parties at least thirty days before the proposed date of introduction; provided that this period of thirty days may be reduced in particular cases if so agreed by the aeronautical authorities of both contracting parties. Filing of proposed rate.

(E) The contracting parties agree that the procedure described in paragraphs (F), (G) and (H) of this section shall apply—

(1) if, during the period of the Civil Aeronautics Board's approval of the IATA traffic conference machinery, either any specific rate agreement is not approved within a reasonable time by either contracting party or a conference of IATA is unable to agree on a rate; or
(2) if at any time no IATA machinery is applicable; or
(3) if either contracting party at any time withdraws or fails to renew its approval of that part of the IATA traffic conference machinery relevant to this section.

Prevention of unfair or uneconomic rates.

(F) In the event that power is conferred by law upon the aeronautical authorities of the United States to fix fair and economic rates for the transport of persons and property by air on international services and to suspend proposed rates in a manner comparable to that in which the Civil Aeronautics Board at present is empowered to act with respect to such rates for the transport of persons and property by air within the United States, each of the contracting parties shall thereafter exercise its authority in such manner as to prevent any rate or rates proposed by one of its carriers for services from the territory of one contracting party to a point or points in the territory of the other contracting party from becoming effective, if in the judgment of the aeronautical authorities of the contracting party whose air carrier or carriers is or are proposing such rate, that rate is unfair or uneconomic. If one of the contracting parties on receipt of the notification referred to in paragraph (D) above is dissatisfied with the rate proposed by the air carrier or carriers of the other contracting party, it shall so notify the other contracting party prior to the expiry of the first fifteen of the thirty days referred to, and the contracting parties shall endeavour to reach agreement on the appropriate rate.

Notice of dissatisfaction with proposed rate.

In the event that such agreement is reached, each contracting party will exercise its statutory powers to give effect to such agreement.

Provisional rate pending settlement of dispute.

If agreement has not been reached at the end of the thirty day period referred to in paragraph (D) above, the proposed rate may, unless the aeronautical authorities of the country of the air carrier concerned see fit to suspend its application, go into effect provisionally pending the settlement of any dispute in accordance with the procedure outlined in paragraph (H) below.

(G) Prior to the time when such power may be conferred by law upon the aeronautical authorities of the United States, if one of the contracting parties is dissatisfied with any rate proposed by the air carrier or carriers of either contracting party for services from the territory of one contracting party to a point or points in the territory of the other contracting party, it shall so notify the other prior to the expiry of the first fifteen of the thirty day period referred to in paragraph (D) above, and the contracting parties shall endeavour to reach agreement on the appropriate rate.

In the event that such agreement is reached each contracting party will use its best efforts to cause such agreed rate to be put into effect by its air carrier or carriers.

It is recognized that if no such agreement can be reached prior to the expiry of such thirty days, the contracting party raising the

objection to the rate may take such steps as it may consider necessary to prevent the inauguration or continuation of the service in question at the rate complained of.

Arbitration.

(H) When in any case under paragraphs (F) and (G) above the aeronautical authorities of the two contracting parties cannot agree within a reasonable time upon the appropriate rate after consultation initiated by the complaint of one contracting party concerning the proposed rate or an existing rate of the air carrier or carriers of the other contracting party, upon the request of either, both contracting parties shall submit the question to arbitration in the manner prescribed in Article IX of the Agreement.

Ante, p. 3060.

(I) The Executive Branch of the Government of the United States agrees to use its best efforts to secure legislation empowering the aeronautical authorities of the United States to fix fair and economic rates for the transport of persons and property by air on international services, and to suspend proposed rates in a manner comparable to that in which the Civil Aeronautics Board at present is empowered to act with respect to such rates for the transport of persons and property by air within the United States.

SECTION VI.

Determination of tariffs.

It is recognized that the determination of tariffs to be applied by an air carrier of one contracting party between the territory of the other contracting party and a third country is a complex question, the overall solution of which cannot be sought through consultation between only two countries. It is noted, furthermore, that the method of determining such tariffs is now being studied by ICAO. It is understood under these circumstances—

(A) that, pending the acceptance by both parties of any recommendations which ICAO may make after its study of this matter, such tariffs shall be subject to consideration under the provisions of Section IV (C) of the annex to the agreement.

(B) that in case ICAO fails to establish a means of determining such rates satisfactory to both contracting parties, the consultation provided for in Article XI (B) of the agreement shall be in order.

Ante, p. 3061.

SECTION VII.

Changes in routes.

Changes made by either contracting party in the routes described in the schedules attached except those which change the points served by airlines of one contracting party in the territory of the other contracting party shall not be considered as modifications of the annex. The aeronautical authorities of either contracting party may therefore proceed unilaterally to make such changes, provided, however, that notice of any change is given without delay to the aeronautical authorities of the other contracting party.

Notice.

Consultation.

If such other aeronautical authorities find that, having regard to the principles set forth in Section IV of the present annex, interests of their air carrier or carriers are prejudiced by the carriage by the air carrier or carriers of the first contracting party of traffic between the territory of the second contracting party and the new point in

Ante, p. 3062.

the territory of a third country, the authorities of the two contracting parties shall consult with a view to arriving at a satisfactory agreement.

SECTION VIII.

Exchange of information.

After the present agreement comes into force, the aeronautical authorities of both contracting parties will exchange information as promptly as possible concerning the authorizations extended to their respective designated air carriers to render service to, through and from the territory of the other contracting party. This will include copies of current certificates and authorizations for service on the routes which are the subject of this agreement and, for the future, such new authorizations as may be issued together with amendments, exemption orders and authorized service patterns.

SCHEDULE I.

South African rights of transit and stop in the U. S.

Airlines of the Union of South Africa authorized under the present agreement are accorded in the territory of the United States on a service or services between the Union of South Africa and New York rights of transit and non-traffic stop, as well as the right to pick up and discharge international traffic in passengers, cargo and mail at such points and over such routes as may be determined at a later date.

SCHEDULE II.

U. S. rights of transit and stop in South Africa.

Airlines of the United States of America authorized under the present agreement are accorded rights of transit and non-traffic stop in the territory of the Union of South Africa, as well as the right to pick up and discharge international traffic in passengers, cargo and mail at Johannesburg and Cape Town on the following routes in both directions. On each of the routes described below the airline or airlines designated to operate such route may operate non-stop flights between any of the points on such route omitting stops at one or more of the other points on such route.

(1) United States via the North Atlantic and Africa to Johannesburg.

(2) United States via the Caribbean, South America, the South Atlantic and Africa to Cape Town.

(2) die kontrakterende party wat die regte verleen, die vereiste bedryfsvergunning ingevolge paragraaf (B) van hierdie artikel aan die betrokke lugeksploitant of -eksploitante verleen het, wat (onderworpe aan die bepalings van artikel VI) met die minste moontlike vertraging moet geskied.

(B) Van die aangewese lugeksploitant of -eksploitante kan verlang word om die lugvaartoutoriteite van die kontrakterende party wat die regte verleen, te oortuig dat hy of hulle in staat is om te voldoen aan die bepalings neergelê deur of kragtens die wette en regulasies wat gewoonlik deur genoemde outoriteite op die eksploitasie van handelslugdienste toegepas word.

ARTIKEL III.

(A) Die gelde vir die gebruik van lughawens en ander geriewe, wat elk van die kontrakterende partye van die aangewese lugeksploitant of -eksploitante van die ander kontrakterende party kan vorder of kan laat vorder, mag nie hoër wees as dié wat vir die gebruik van sulke lughawens en geriewe deur sy nasionale vliegtuie wat vir soortgelyke internasionale lugdienste gebruik word, betaalbaar is nie.

(B)/ ...

(B) Brandstof, smeerolie en onderdele wat in die gebied van een kontrakterende party ingebring of aan boord van vliegtuie geneem word deur of namens enige aangewese lugeksploitant van die ander kontrakterende party, en uitsluitlik vir gebruik deur die vliegtuie van sodanige eksploitant bedoel is, geniet, wat betref doeaneregte, inspeksiegeld en ander koste gehef deur eersgenoemde kontrakterende party, behandeling wat nie ongunstiger is as dié verleen aan nasionale lug-eksploitante wat internasionale lugdienste eksploiteer of aan sodanige eksploitante van die mees begunstigde nasie nie.

(C) Vliegtuie van die aangewese lugeksploitant van een kontrakterende party wat op die ooreengekome dienste gebruik word vir 'n vlug na, van of oor die gebied van die ander kontrakterende party, word tydelik vry van doeaneregte toegelaat onderworpe andersins aan die doeaneregulasies van sodanige ander kontrakterende party. Voorrade brandstof, smeerolie, onderdele, gewone uitrusting en vliegtuigbenodigdhede wat aan boord van vliegtuie van enige aangewese lugeksploitant van een kontrakterende party gehou word, is in die gebied van die ander kontrakterende party van doeaneregte, inspeksiegeld of soortgelyke regte of koste vrygestel, selfs al word sodanige voorrade deur sulke vliegtuie op vlugte in daardie gebied gebruik.

ARTIKEL IV.

Lugwaardigheidsertifikate, bevoegdheidsertifikate en lisensies wat deur een kontrakterende party uitgereik of geldig gemaak is en wat nog van krag is, word deur die ander kontrakterende party vir die eksploitasie van die ooreengekome dienste as geldig erken.

Elke/ ....

Elke kontrakterende party behou egter die reg voor om vir die doel van vlugte oor sy eie gebied te weier om bevoegdheidsertifikate en lisensies wat deur 'n ander staat aan sy eie landsburgers uitgereik is, te erken.

ARTIKEL V.

(A) Die wette en regulasies van een kontrakterende party betreffende die binnekoms in of vertrek uit sy gebied van vliegtuie wat vir internasionale lugvaart gebruik word, of betreffende die gebruik en navigasie van sulke vliegtuie terwyl hulle in sy gebied is, is op die vliegtuie van die ander kontrakterende party van toepassing en moet deur sulke vliegtuie by hul binnekoms in of vertrek uit die gebied van eersgenoemde party, of terwyl hulle daarin vertoef, nagekom word.

(B) Die wette en regulasies van elke kontrakterende party betreffende die binnekoms en verblyf in en vertrek uit sy gebied van passasiers, bemanning en vrag van vliegtuie, soos regulasies met betrekking tot binnekoms, klaring, immigrasie, paspoorte, doeane en kwarantyn, moet nagekom word.

ARTIKEL VI.

Elke kontrakterende party behou die reg voor om 'n sertifikaat of permit in die geval van 'n aangewese lugeksploitant van die ander kontrakterende party te weier of in te trek indien hy nie daarvan oortuig is dat oorwegende eiendomsreg van en doeltreffende beheer oor sodanige eksploitant by landsburgers van die ander kontrakterende party berus nie, of ingeval die eksploitant versuim om die wette en regulasies vermeld in artikel V van hierdie ooreenkoms na te kom, of om andersins die voorwaardes waarop die regte ingevolge hierdie ooreenkoms en sy aanhangsel verleen word, uit te voer.

ARTIKEL VII/ ....

ARTIKEL VII.

(A) Die lugvaartoutoriteite van die twee kontrakterende partye sal in 'n gees van noue samewerking gereeld beraadslaag ten einde te verseker dat die beginsels en bepalings uiteengesit in hierdie ooreenkoms en sy aanhangsel gehandhaaf en nagekom word.

(B) Indien die lugvaartoutoriteite van enigeen van die kontrakterende partye versuim of ophou om inligting met betrekking tot die ooreengekome dienste te publiseer, soos dié vervat in die Opgawes van Lugdiensverkeer (Landingsplek na Landingsplek en Oorsprong en Bestemming) wat tans deur die "Civil Aeronautics Board" uitgegee word, en versuim of ophou om die gegewens van hierdie aard wat deur die Internasionale Organisasie vir Burgerlike Lugvaart vereis mag word, te verstrek, moet die lugvaartoutoriteite van dié kontrakterende party, op versoek van die lugvaartoutoriteite van die ander kontrakterende party, enige inligting van hierdie aard wat gevra word, verskaf.

ARTIKEL VIII.

Vir die doel van hierdie ooreenkoms en sy aanhangsel -

(A) word die uitdrukking „gebied" soos op elke kontrakterende party toegepas, geag die grondgebiede en aangrensende territoriale waters onder die soewereiniteit, suisereiniteit, beskerming, mandaat, of voogdyskap van sodanige kontrakterende party te behels;

(B)/ ....

(B) beteken die uitdrukking „lugvaartoutoriteite" in die geval van die Unie van Suid-Afrika die Minister belas met burgerlike lugvaart, en in die geval van die Verenigde State die "Civil Aeronautics Board", en in beide gevalle enige persoon of liggaam wat gemagtig is om die werksaamhede wat tans deur die hierin omskrewe lugvaartoutoriteite verrig word, uit te voer;

(C) het die uitdrukking „internasionale lugdienste" die betekenis daaraan toegeskryf in artikel 96 van die Konvensie oor Internasionale Burgerlike Lugvaart wat op 7 Desember 1944 te Chicago onderteken is.

ARTIKEL IX.

Behalwe soos andersins in hierdie ooreenkoms of sy aanhangsel bepaal, word enige geskil tussen die kontrakterende partye met betrekking tot die vertolking of toepassing van hierdie ooreenkoms of sy aanhangsel, wat nie deur beraadslaging besleg kan word nie, vir 'n adviserende verslag verwys na 'n arbitrasieliggaam bestaande uit drie arbiters, een deur elk van die kontrakterende partye benoem te word en die derde deur die twee aldus gekose arbiters in oorleg met mekaar aangewys te word, met dien verstande dat sodanige derde arbiter nie 'n landsburger van enigeen van die kontrakterende partye is nie. Elk van die kontrakterende partye moet 'n arbiter aanwys binne twee maande na die afleweringsdatum van 'n diplomatieke nota van enigeen van die partye aan die ander, waarin die beslegting van 'n geskil deur middel van arbitrasie versoek word; en oor die derde arbiter moet binne een maand na sodanige tydperk van twee maande ooreengekom word. Indien daar nie binne hierdie bepaalde tyd oor die derde arbiter

ooreengekom/ ....

ooreengekom word nie, moet die vakature wat daardeur ontstaan, aangevul word deur die aanstelling van 'n persoon, aangewys deur die president van die raad van die Internasionale Organisasie vir Burgerlike Lugvaart, uit 'n naamlys van arbitrasiepersoneel wat volgens gebruik van genoemde Organisasie in stand gehou word. Die uitvoerende outoriteite van die kontrakterende partye sal kragtens die bevoegdhede tot hulle beskikking, alles in hul vermoë doen om aan die mening wat in so 'n adviserende verslag uitgespreek word, gevolg te gee. Die helfte van die uitgawes van die arbitrasieliggaam word deur elke party gedra.

ARTIKEL X.

Hierdie ooreenkoms en alle betreklike kontrakte moet by die Internasionale Organisasie vir Burgerlike Lugvaart geregistreer word.

ARTIKEL XI.

(A) Hierdie ooreenkoms, asook die bepalings van sy aanhangsel, tree op die dag waarop dit onderteken word, in werking.

(B) Enigeen van die kontrakterende partye kan te eniger tyd versoek dat daar met die ander party beraadslaag word met die oog daarop om enige wysigings van hierdie ooreenkoms of sy aanhangsel wat uit ondervinding wenslik blyk te wees, aan te bring. As 'n veelsydige konvensie wat op beide kontrakterende partye betrekking het, in werking tree, word daar aldus beraadslaag met die oog op die wysiging van hierdie ooreenkoms of sy aanhangsel in dier voege dat dit aan die bepalings van so 'n konvensie voldoen.

(C)/ ....

(C) Behalwe soos andersins in hierdie ooreenkoms of sy aanhangsel bepaal, kan enigeen van die kontrakterende partye, indien hy dit wenslik ag dat die bepalings van die aanhangsel van hierdie ooreenkoms gewysig word, versoek dat die lugvaartoutoriteite van beide kontrakterende partye met mekaar beraadslaag; sodanige beraadslaging binne 'n tydperk van sestig dae vanaf die datum van die versoek 'n aanvang te neem. Enige wysiging van die aanhangsel waarop bedoelde lugvaartoutoriteite ooreenkom, tree in werking wanneer dit deur die wisseling van diplomatieke notas bekragtig is.

(D) Wanneer die prosedure vir beraadslaging, soos bepaal in paragraaf (B) van hierdie artikel, in werking gestel is, kan enigeen van die kontrakterende partye te eniger tyd aan die ander kontrakterende party kennis gee dat hy verlang om hierdie ooreenkoms te beëindig. Die Internasionale Organisasie vir Burgerlike Lugvaart moet tegelykertyd van hierdie kennisgewing verwittig word.

Hierdie ooreenkoms tree buite werking 'n jaar na die datum van ontvangs van die beëindigingskennisgewing deur die ander kontrakterende party, tensy daar ooreengekom word om die kennisgewing voor die verstryking van hierdie tydperk terug te trek. As die ander kontrakterende party versuim om ontvangs te erken, word die kennisgewing geag ontvang te gewees het veertien dae nadat dit deur die Internasionale Organisasie vir Burgerlike Lugvaart ontvang is.

AANHANGSEL.

AFDELING I.

Die regering van die Verenigde State van Amerika verleen aan die regering van die Unie van Suid-Afrika die reg om lugvervoerdienste deur een of meer deur laasgenoemde land aangewese lugeksploitante wat Suid-Afrikaanse landsburgers is, te eksploiteer oor die roetes, vermeld in bygaande Bylae I, wat oor die gebied van die Verenigde State van Amerika gaan of dit op handelsgebied bedien.

AFDELING II.

Die regering van die Unie van Suid-Afrika verleen aan die regering van die Verenigde State van Amerika die reg om lugvervoerdienste deur een of meer deur laasgenoemde land aangewese lugeksploitante wat landsburgers van die Verenigde State is, te eksploiteer oor die roetes, vermeld in bygaande Bylae II, wat oor die gebied van die Unie van Suid-Afrika gaan of dit op handelsgebied bedien.

AFDELING III.

Aan een of meer lugeksploitante wat deur elk van die kontrakterende partye kragtens die bepalings van hierdie ooreenkoms aangewys is, word die reg verleen om oor die gebied van die ander kontrakterende party te vlieg, vir nie-verkeersdoeleindes daarin te land, en dit vir handelsdoeleindes binne te kom en daaruit te vertrek met die oog op die vervoer van internasionale verkeer bestaande uit passasiers, vrag en posstukke by die plekke aangetoon en oor elk van die roetes vermeld in die bygaande bylaes by alle lughawens wat vir internasionale verkeer oopgestel is.

AFDELING IV/ ....

95347°—49—PT. III——51

AFDELING IV.

Die kontrakterende partye kom as volg ooreen:-

(A) Dat die twee regerings begeer om die grootste moontlike verspreiding van die voordele verbonde aan lugvervoer in die algemene belang van die mensdom teen die goedkoopste tariewe bestaanbaar met gesonde ekonomiese beginsels te bevorder en aan te moedig; en om internasionale lugvervoer aan te wakker as 'n middel tot bevordering van 'n vriendskaplike gesindheid en welwillendheid onder die volke, en tewens tot aanwending van die talle onregstreekse voordele verbonde aan hierdie nuwe metode van vervoer vir die gemeenskaplike welsyn van beide lande.

(B) Dat aan die aangewese lugeksploitante van die twee kontrakterende partye wat die roetes vermeld in hierdie aanhangsel eksploiteer, billike en gelyke geleenthede verskaf moet word vir die eksploitasie van die ooreengekome dienste. As die aangewese lugeksploitant van een kontrakterende party, as gevolg van die oorlog tydelik nie van sodanige geleenthede gebruik kan maak nie, moet die kontrakterende partye die toestand hersien ten einde bedoelde lugeksploitant te help om volle gebruik te maak van die billike en gelyke geleenthede om aan die ooreengekome dienste mee te doen.

(C) Dat by die eksploitasie van die in hierdie aanhangsel bedoelde internasionale dienste deur die lugeksploitante van enigeen van die kontrakterende partye, die belange van die lugeksploitante van die ander land egter in aanmerking geneem moet word sodat die dienste wat laasgenoemde oor dieselfde roete of 'n gedeelte daarvan verskaf, nie buitematig nadelig getref word nie.

(D)/ ....

(D) Dat al die lugvervoerdienste wat deur die eksploitante van beide lande aangebied word, in noue verband met die behoeftes van die publiek aan sodanige dienste moet staan.

(E) Dat die dienste wat deur 'n aangewese lugeksploitant ingevolge hierdie ooreenkoms en sy aanhangsel geëksploiteer word, die verskaffing van vervoervermoë wat aan die verkeersvereistes tussen die land waarvan sodanige lugeksploitant 'n landsburger is, en die land wat die uiteindelike bestemming van die verkeer is, sal voldoen, as hoofdoel moet behou.

(F) Dat die reg van die lugeksploitante van enigeen van die lande om internasionale verkeer bestem vir of afkomstig uit derde lande by 'n plek of plekke op die roetes in die bygaande bylaes vermeld, by plekke in die gebied van die ander land op en af te laai, toegepas moet word in ooreenstemming met die algemene beginsels van ordelike ontwikkeling, wat beide regerings onderskryf, en onderworpe moet wees aan die algemene beginsel dat vervoervermoë verband moet hou met -

(1) verkeersvereistes tussen die land van oorsprong en die lande van bestemming;

(2) die vereistes van deurgaande lugeksploitasie; en

(3) die verkeersvereistes van die gebied waaroor die lugdiens geëksploiteer word nadat met plaaslike en streekdienste rekening gehou is.

AFDELING V.

(A) Die vaststelling van tariewe ooreenkomstig die volgende paragrawe moet op 'n redelike peil geskied, met behoorlike inagneming van alle ter sake dienende faktore,

soos/ ....

soos bedryfskoste, redelike wins, en die tariewe gehef deur enige ander eksploitante, asook die aard van elke diens.

(B) Die tariewe wat tussen plekke in die gebied van die Verenigde State en plekke in die gebied van die Unie van Suid-Afrika vermeld in hierdie aanhangsel, deur die lugeksploitante van enigeen van die kontrakterende partye gehef word, is, in ooreenstemming met die bepalings van hierdie ooreenkoms en sy aanhangsel, onderworpe aan die goedkeuring van die lugvaartoutoriteite van die kontrakterende partye, wat, binne die perke van hul regsbevoegdheid, ooreenkomstig hul verpligtinge kragtens hierdie aanhangsel moet handel.

(C) Aangesien die "Civil Aeronautics Board" van die Verenigde State die verkeerskonferensie-prosedure van die Vereniging vir Internasionale Lugvervoer (hierna V.I.L. genoem) vir 'n tydperk van een jaar vanaf Februarie 1947 goedgekeur het, is enige tariefooreenkomste wat gedurende dié tydperk deur middel van hierdie prosedure aangegaan is en waarby lugeksploitante van die Verenigde State betrokke is, aan die goedkeuring van die Raad onderworpe.

(D) Besonderhede van enige tarief voorgestel deur die lugeksploitant of -eksploitante van enigeen van die kontrakterende partye, moet ten minste dertig dae voor die voorgestelde datum waarop die tarief in werking tree, by die lugvaartoutoriteite van beide kontrakterende partye ingedien word; met dien verstande dat hierdie tydperk van dertig dae in besondere gevalle verkort kan word as die lugvaartoutoriteite van beide kontrakterende partye daartoe instem.

(E)/ ....

(E) Die kontrakterende partye kom ooreen dat die prosedure wat in paragrawe (F), (G) en (H) van hierdie afdeling voorgeskryf word, van toepassing is -

(1) indien, gedurende die tydperk waarvoor die verkeerskonferensie-prosedure van V.I.L. deur die "Civil Aeronautics Board" goedgekeur is, enige bepaalde tarief-ooreenkoms nie binne 'n redelike tyd deur enigeen van die kontrakterende partye goedgekeur word of 'n konferensie van V.I.L. nie in verband met 'n tarief ooreen kan kom nie; of

(2) indien daar op een of ander tydstip van geen V.I.L.-prosedure gebruik gemaak kan word nie; of

(3) indien enigeen van die kontrakterende partye op een of ander tydstip sy goedkeuring van die deel van die V.I.L.-verkeerskonferensie-prosedure wat op hierdie afdeling betrekking het, terugtrek of versuim om sodanige goedkeuring te hernu.

(F) Indien die lugvaartoutoriteite van die Verenigde State by wet gemagtig word om billike en ekonomiese tariewe vir die lugvervoer van persone en goedere op internasionale dienste vas te stel en om voorgestelde tariewe op te skort op 'n wyse vergelykbaar met dié waarop die "Civil Aeronautics Board" tans gemagtig is om op te tree in verband met sodanige tariewe vir die lugvervoer van persone en goedere in die Verenigde State, oefen elk van die kontrakterende partye daarna sy bevoegdheid uit op 'n wyse wat sal verhoed dat enige tarief of tariewe, voorgestel deur een van sy eksploitante vir dienste tussen die gebied van

een/ ....

een kontrakterende party en 'n plek of plekke in die gebied van die ander kontrakterende party, van krag word, as die tarief na die mening van die kontrakterende party wie se lugeksploitant of -eksploitante sodanige tarief voorstel, onbillik of onekonomies is. As een van die kontrakterende partye na ontvangs van die in paragraaf (D) hierbo bedoelde kennisgewing, nie met die tarief voorgestel deur die lugeksploitant of -eksploitante van die ander kontrakterende party tevrede is nie, moet hy die ander kontrakterende party voor die verstryking van die eerste vyftien van vermelde dertig dae dienooreenkomstig verwittig, en moet die kontrakterende partye trag om oor 'n gepaste tarief ooreen te kom.

Indien so 'n ooreenkoms getref word, sal elke kontrakterende party sy regsbevoegdheid uitoefen ten einde aan sodanige ooreenkoms gevolg te gee.

As 'n ooreenkoms nie by verstryking van die tydperk van dertig dae genoem in paragraaf (D) hierbo getref is nie, kan die voorgestelde tarief, tensy die lugvaartoutoriteite van die land van die betrokke lugeksploitant dit goed vind om die toepassing van die tarief op te skort, voorlopig in werking gestel word hangende die beslegting van 'n geskil ooreenkomstig die prosedure in paragraaf (H) hieronder omskryf.

(G) As een van die kontrakterende partye, voordat sodanige bevoegdheid by wet aan die lugvaartoutoriteite van die Verenigde State verleen is, nie met enige tarief voorgestel deur die lugeksploitant of -eksploitante van enigeen van die kontrakterende partye vir dienste tussen die gebied van een kontrakterende party en 'n plek of plekke in die gebied van die ander kontrakterende party tevrede is nie, moet hy die ander kontrakterende party

voor die verstryking van die eerste vyftien dae van die dertigdaagse tydperk genoem in paragraaf (D) hierbo, dienooreenkomstig verwittig, en moet die kontrakterende partye trag om oor 'n gepaste tarief ooreen te kom.

Indien so 'n ooreenkoms getref word, sal elke kontrakterende party alles in sy vermoë doen met die oog op die inwerkingstelling van sodanige ooreengekome tarief deur sy lugeksploitant of -eksploitante.

Daar word erken dat as so 'n ooreenkoms nie voor die verstryking van sodanige dertig dae getref kan word nie, die kontrakterende party wat teen die tarief beswaar gemaak het, sulke stappe as wat nodig geag word kan doen om die instelling of voortsetting van die betrokke diens teen die gewraakte tarief, te verhinder.

(H) Wanneer die lugvaartoutoriteite van die twee kontrakterende partye na beraadslaging as gevolg van die klagte van een kontrakterende party betreffende die voorgestelde tarief of 'n bestaande tarief van die lug-eksploitant of -eksploitante van die ander kontrakterende party, in enige geval genoem in paragrawe (F) en (G) hierbo nie binne 'n redelike tyd in verband met die gepaste tarief ooreen kan kom nie, moet beide kontrakterende partye, op versoek van enigeen van hulle, die saak deur middel van arbitrasie laat besleg op die wyse voorgeskryf in artikel IX van die ooreenkoms.

(I) Die uitvoerende gesag van die regering van die Verenigde State onderneem om alles in sy vermoë te doen om te bewerkstellig dat wetgewing aangeneem word wat die lugvaartoutoriteite van die Verenigde State magtig om billike en ekonomiese tariewe vir die lugvervoer van persone en goedere op internasionale dienste vas te stel en om voorgestelde tariewe op te skort op 'n wyse vergelykbaar met dié waarop die "Civil Aeronautics Board"

tans/ ....

tans gemagtig is om op te tree in verband met sodanige tariewe vir die lugvervoer van persone en goedere in die Verenigde State.

AFDELING VI.

Daar word erken dat die vasstelling van tariewe deur 'n lugeksploitant van een kontrakterende party gehef te word tussen die gebied van die ander kontrakterende party en 'n derde land, 'n ingewikkelde vraagstuk is, waarvan die algehele oplossing nie deur beraadslaging tussen slegs twee lande verkry kan word nie. Daar word voorts daarvan kennis geneem dat die metode van vasstelling van sodanige tariewe tans die aandag van die Internasionale Organisasie vir Burgerlike Lugvaart geniet.

Onder hierdie omstandighede word daar aangeneem -

(A) dat, tot tyd en wyl albei partye sodanige aanbevelings aanvaar het as wat die Internasionale Organisasie vir Burgerlike Lugvaart na bestudering van die saak mag doen, sulke tariewe onderworpe sal wees aan oorweging kragtens die bepalings van afdeling IV(C) van die aanhangsel van hierdie ooreenkoms;

(B) dat, ingeval die Internasionale Organisasie vir Burgerlike Lugvaart nie daarin slaag om 'n metode van vasstelling van sulke tariewe wat vir albei partye aanneemlik is, daar te stel nie, daar ooreenkomstig die bepalings van artikel XI(B) van die ooreenkoms beraadslaag sal word.

AFDELING VII.

Veranderings wat deur enigeen van die kontrakterende partye aan die roetes genoem in die bygaande

bylaes/ ....

bylaes aangebring word, uitgesonderd veranderings van die plekke wat deur lugeksploitante van een van die kontrakterende partye in die gebied van die ander kontrakterende party bedien word, word nie as wysigings van die aanhangsel beskou nie. Die lugvaartoutoriteite van enigeen van die kontrakterende partye kan dus sodanige veranderings eensydig aanbring, met dien verstande egter dat die lugvaartoutoriteite van die ander kontrakterende party onverwyld van enige veranderings verwittig word.

As sodanige ander lugvaartoutoriteite vind dat die belange van hul lugeksploitant of -eksploitante, met die oog op die beginsels vervat in afdeling IV van hierdie aanhangsel, benadeel word deur die vervoer deur die lugeksploitant of -eksploitante van eersgenoemde kontrakterende party van verkeer tussen die gebied van laasgenoemde party en die nuwe plek in die gebied van 'n derde land, beraadslaag die outoriteite van die twee kontrakterende partye ten einde 'n bevredigende ooreenkoms te tref.

AFDELING VIII.

Na die inwerkingtreding van hierdie ooreenkoms, verstrek die lugvaartoutoriteite van beide kontrakterende partye so spoedig moontlik inligting aan mekaar betreffende die magtigings verleen aan hul onderskeie aangewese lugeksploitante om diens aan, deur en van die gebied van die ander kontrakterende party te verskaf. Dit sluit in afskrifte van bestaande sertifikate en magtigings vir diens oor die roetes waaroor hierdie ooreenkoms gaan en, wat die toekoms betref, van sodanige nuwe magtigings as wat verleen mag word tesame met wysigings, vrystellingsorders en planne van gemagtigde dienste.

BYLAE I.

Aan lugeksploitante van die Unie van Suid-Afrika wat ingevolge die onderhawige ooreenkoms aangewys is, word in die gebied van die Verenigde State in verband met 'n diens of dienste tussen die Unie van Suid-Afrika en New York die reg verleen om daardie gebied oor te vlieg en vir nie-verkeersdoeleindes daarin te land, asook die reg om internasionale verkeer bestaande uit passasiers, vrag en posstukke by sodanige plekke en oor sodanige roetes as wat op 'n later datum vasgestel mag word, op en af te laai.

BYLAE II.

Aan lugeksploitante van die Verenigde State van Amerika wat ingevolge die onderhawige ooreenkoms aangewys is, word die reg verleen om die gebied van die Unie van Suid-Afrika oor te vlieg en vir nie-verkeersdoeleindes daarin te land, asook die reg om internasionale verkeer bestaande uit passasiers, vrag en posstukke by Johannesburg en Kaapstad oor die volgende roetes in beide rigtings op en af te laai; oor elk van die ondervermelde roetes kan die lugeksploitant of -eksploitante wat aangewys is om so 'n roete te eksploiteer, ononderbroke vlugte tussen enige plekke langs daardie roete onderneem en een of meer van die ander aandoenplekke langs daardie roete verbysteek :-

(1) Verenigde State oor die Noord-Atlantiese Oseaan en Afrika na Johannesburg.

(2) Verenigde State oor die Karribiese Eilande, Suid-Amerika, die Suid-Atlantiese Oseaan en Afrika na Kaapstad.

SEÑOR EMBAJADOR:

El día 31 del presente mes vence el Acuerdo Adicional de Comercio concertado entre nuestros Gobiernos por cambio de notas de 23 y 30 de julio del año próximo pasado. El mantenimiento y desarrollo del intercambio comercial entre Chile y los Estados Unidos de América me mueve a expresar a Vuestra Excelencia que mi Gobierno está dispuesto a renovar por el período de un año el Acuerdo anterior y, por consiguiente, a otorgar a los productos norteamericanos que se especifican en la Lista anexa a la nota n* 4024 de este Ministerio, fechada el 30 de julio de 1945, el tratamiento que en la misma lista quedó indicado, con excepción de las Partidas 552, 553 y 554, relativas a paraguas y quitasoles.

La presente nota y la respuesta de Vuestra Excelencia que exprese la aceptación del Gobierno de los Estados Unidos constituirán un nuevo Acuerdo entre ambos Gobiernos, entendiéndose que el plazo de su validez será de un año a contar del 31 de julio en curso, a menos que sea denunciado por cualquiera de las Altas Partes mediante una notificación escrita dada con treinta días de anticipación, o que sea reemplazado por un Acuerdo Comercial más amplio.

No. 009623 DEPARTMENT OF COMMERCIAL POLICY
Santiago, July 30, 1947.

MR. AMBASSADOR:

On the 31st day of the current month, the Additional Trade Agreement concluded between our two Governments by exchange of notes dated July 23 and 30, last, expires. The maintenance and development of commercial exchange between Chile and the United States of America prompts me to inform Your Excellency that my Government is prepared to renew the former Agreement for the period of one year and, consequently, to grant to the North American products which are specified in the list annexed to Note No. 4024 of this Ministry, dated July 30, 1945, the treatment which was indicated in the same list, with the exception of items 552, 553 and 554, relating to umbrellas and parasols. 60 Stat. 1713. 60 Stat. 1724.

The present note and Your Excellency's reply announcing the acceptance of the Government of the United States will constitute a new Agreement between the two Governments, it being understood that the term of its validity will be one year, counting from July 31, of the present year, unless it is denounced by either of the High Contracting Parties by a written notice given thirty days in advance, or is replaced by a more extensive trade agreement.

Without prejudice to the provisions of the present Additional Agreement, I have the honor to state to Your Excellency that the Government of Chile repeats its approval of the desires of the United States Government to open negotiations, within the next twelve months, in order to reach an agreement concerning a treaty of friendship, commerce and navigation which will assure the reciprocal interest of both countries.

I avail myself of this opportunity to renew to Your Excellency the assurances of my highest and most distinguished consideration.

ment of the Republic of Chile to concede to the commerce of the United States of America, without compensation, reductions in the Chilean import duties on certain products as set forth in the enclosure with Your Excellency's Note No. 4024 of July 30, 1945, excepting therefrom items Nos. 552, 553, and 554 relative to umbrellas and parasols, such reductions to continue in force for a further period of one year commencing on July 31, 1947, unless the present agreement is superseded in that time by a more comprehensive commercial agreement, it being understood, however, that the present agreement may be terminated by either Government upon the giving of thirty days' notice in writing.

60 Stat. 1724.

I have the honor to assure Your Excellency that the Government of the United States of America greatly appreciates the interest of the Chilean Government in adopting measures to expand and to liberalize trade in accordance with the economic objectives of the Atlantic Charter and of the Inter-American Conference on Problems of War and Peace, and is pleased to accept the proposal of the Government of Chile.

In accepting this proposal I take this opportunity to reaffirm the desire of the Government of the United States of America to initiate concrete negotiations with Your Excellency's Government for a Treaty of Friendship, Commerce and Navigation responsive to the reciprocal interests of both countries and note with satisfaction the expressed willingness of Your Excellency's Government that such negotiations be initiated within the next twelve months.

No. SG/A-3 : 903 PORT-AU-PRINCE, *le 4 juillet 1947.*

MONSIEUR L'AMBASSADEUR,

J'ai l'honneur de faire savoir à Votre Excellence qu'à partir du 1er. Août 1947 ou avant, le Gouvernement de la République d'Haiti donnera, en conformité de l'Article 5 des contrats d'emprunt des titres des séries A et C de 1922–1923, avis du rachat, le 1er. Octobre 1947 de tous les titres de ces émissions et des certificats d'intérêt des titres de la série C, et informera qu'à ce sujet et pour d'autres buts publics, le Gouvernement de la République d'Haiti désire procéder immédiatement à l'émission d'un emprunt intérieur se chiffrant à dix millions de dollars.

Dans la mesure où cela sera nécessaire, le produit de l'emprunt intérieur projeté sera d'abord employé exclusivement au rachat des dits titres et certificats d'intérêt. A cette fin, le produit de l'emprunt intérieur sera remis au représentant désigné en Haiti des porteurs des titres des séries A et C. dès réception de ce produit par le Gouvernement de la République d'Haiti et ce représentant fera convertir ledit produit en dollars des Etats-Unis d'Amérique aussi promptement que possible et le fera transférer à l'agent fiscal des emprunts. Afin d'assurer encore davantage le rachat des dits titres et certificats d'intérêt au 1er. Octobre 1947, mon Gouvernement conférera à l'agent fiscal des emprunts le pouvoir irrévocable de faire donner, au nom de mon Gouvernement, de la manière prévue, avis du rachat des dits titres, obtiendra de la Banque Nationale de la République d'Haiti et remettra à votre Gouvernement et à l'agent fiscal, avant la première publication de cet avis de rachat, l'engagement de la dite banque qu'au 1er. Octobre 1947 ou avant, l'agent fiscal aura en dépôt, en fidéicommis pour le rachat des dits titres et certificats d'intérêt à ladite date, une somme en dollars des Etats-Unis d'Amérique (en fonds immédiatement disponibles dans la ville de New-York), suffisante pour le rachat de ceux-ci.

A ce sujet, je réfère Votre Excellence au second paragraphe de l'article 7 de l'Accord Exécutif du 13 septembre 1941, qui prévoit que, jusqu'à complet amortissement de l'intégralité des titres de la dette extérieure de 1922 et 1923 du Gouvernement d'Haiti, la dette publique de la République d'Haiti ne sera pas augmentée sauf accord

préalable entre les Gouvernements des Etats-Unis d'Amérique et de la République d'Haiti.

Je saurais gré à Votre Excellence de confirmer ce que pense mon Gouvernement, à savoir que le Gouvernement des Etats-Unis ne voit aucune objection à l'émission dudit emprunt intérieur, et que, lorsque l'avis du rachat des dits titres des séries A et C et des certificats d'intérêt des titres de la série C aura été donné conformément aux contrats d'emprunts et que des fonds suffisants pour leur rachat auront été déposés ès-mains de l'agent fiscal en fidéicommis pour le rachat des dits titres et certificats d'intérêt au 1er. Octobre 1947, comme prévu plus haut, le Gouvernement des Etats-Unis considérera que les conditions prévues au second paragraphe de l'article 11 de l'accord du 13 Septembre 1941 ont été remplies.

J'ai l'honneur d'informer Votre Excellence que mon Gouvernement considérera cette note conjointement avec une note de vous en réponse, comportant l'approbation de votre Gouvernement, comme constituant un accord entre les deux Gouvernements, dans les termes ci-dessus, en ce qui a trait à l'emprunt intérieur haitien projeté et au rachat des titres extérieurs de 1922 et 1923 en circulation et des certificats d'intérêt.

Veuillez agréer, Monsieur l'Ambassadeur, l'assurance de ma haute considération.

No. SG/A-3: 903 PORT-AU-PRINCE, *July 4, 1947.*

MR. AMBASSADOR:

Proposed Haitian internal loan.

I have the honor to inform Your Excellency that, on or before August 1, 1947, the Government of the Republic of Haiti will, in conformity with Article 5 of the loan contracts for bonds in Series A and C of 1922–23, issue redemption notices for October 1, 1947 of all bonds of those issues and certificates of interest on Series C bonds and will announce that in this connection and for other public purposes the Government of the Republic of Haiti desires to proceed immediately to the floating of an internal loan amounting to the sum of 10 million dollars.

Redemption of designated bonds, etc.

To the extent that this may be necessary, the proceeds of the internal loan proposed will be utilized in the first place exclusively for the redemption of said bonds and certificates of interest. To this end, the proceeds of the internal loan will be turned over to the designated representative in Haiti of the Series A and C bondholders

immediately upon receipt of such proceeds by the Government of the Republic of Haiti and this representative will have said proceeds converted into dollars of the United States of America as promptly as possible and will have the amount transferred to the fiscal agent of the loans. In order further to ensure the redemption of said bonds and certificates of interest by October 1, 1947, my Government will confer upon the fiscal agent of the loans irrevocable power to have notice of the redemption of said bonds issued, in the name of my Government, in the prescribed manner, and will obtain from the National Bank of the Republic of Haiti and remit to your Government and to the fiscal agent, before the first publication of such redemption notice, the undertaking of the said Bank that, by October 1 or before, the fiscal agent will have on deposit, in trust for the redemption of said bonds and certificates of interest on the said date a sum of United States dollars (in funds immediately available in the city of New York) sufficient for their redemption.

In this connection, I refer Your Excellency to the second paragraph of Article 7 of the Executive Agreement of September 13, 1941, which provides that, until the complete amortization of all the bonds of the foreign debt of 1922–23 of the Government of Haiti, the public debt of the Republic of Haiti shall not be increased except upon previous agreement between the Governments of the United States of America and the Republic of Haiti. 55 Stat. 1355.

I should appreciate it if Your Excellency would confirm what my Government believes, namely that the Government of the United States sees no objection to the floating of the internal loan and that, when the redemption notices for said bonds in Series A and C and certificates of interest in Series C bonds shall have been issued in conformity with the loan contracts and when sufficient funds for their redemption shall have been deposited in the hands of the fiscal agent in trust for the redemption of said bonds and certificates of interest by October 1, 1947, as provided for above, the Government of the United States will consider that the conditions stipulated in the second paragraph of Article 11 of the Agreement of September 13, 1941 will have been fulfilled. 55 Stat. 1357.

I have the honor to inform Your Excellency that my Government will consider this note together with your note in reply containing the approval of your Government as constituting an agreement between our two Governments in the above terms, in relation to the proposed Haitian internal loan and the redemption of the foreign bonds of 1922 and 1923 in circulation and of the certificates of interest.

Please accept, Mr. Ambassador, the assurance of my high consideration.

In reply to the inquiry in Your Excellency's note of July 4, 1947, I take pleasure in informing you, pursuant to instructions from my Government, as follows:

The Government of the United States of America is agreeable to the proposed internal loan.

The Government of the United States of America will consider the full execution of the undertakings set forth in your note, including the calling for redemption of the outstanding bonds of Series A and C and certificates of interest in Series C bonds and the deposit of monies with the fiscal agent in trust for the redemption of such bonds and certificates of interest, all as set forth in your note, as meeting the conditions set forth in the second paragraph of Article 11 of the Executive Agreement of September 13, 1941.

With reference to recent conversations between representatives of the Department of State and representatives of the Royal Norwegian Embassy, relative to mutual waiver of visa requirements for non-immigrants, I have the honor to propose that the following agreement be effected between the Government of Norway and the Government of the United States of America:

Waiver of visa requirements, etc., by Norwegian Government.

"The Norwegian Government on and after August 1, 1947, will waive visa requirements, but not passport requirements for American citizens proceeding to continental Norway, and will waive the passport visa fees for American citizens proceeding to Norwegian territory outside continental Norway. American citizens, who desire to take employment in Norway or to stay there for a long period of time, will be required to obtain a permit, except in the cases of officials of the United States Government, their families, servants and employees. Any number of entries may be made into Norway without a visa.

Waiver by U. S. of passport visa fees for non-immigrants.

Effective on and after August 1, 1947, the Government of the United States of America will waive the passport visa fees for citizens or subjects of Norway, who are bona fide non-immigrants within the meaning of the immigration laws of the United States, and who are proceeding to the United States and possessions. SEÑOR EMBAJADOR:

Tengo a honra dar respuesta a la estimable nota de Vuestra Excelencia número 199, de 30 de setiembre último, en la cual tiene a bien referirse a la del Excelentísimo Señor John Campbell White, número 812, de 11 de junio del año próximo pasado, conteniendo los textos en inglés y español del memorándum de acuerdo suscrito el 8 de junio de 1945, por el señor Ministro de Agricultura, ingeniero Godofredo A, Labarthe, en nombre del Perú, y por el señor W. C. Brister, por el Instituto de Asuntos Interamericanos—dependencia del Gobierno de los Estados Unidos de América—por el cual prorróga el programa de producción de alimentos hasta el 31 de diciembre de 1946.

En respuesta, debo manifestar a Vuestra Excelencia que por Resolución Suprema N°. 473, expedida por el Ministerio de Agricultura con fecha 8 de junio de 1945, se dispuso aprobar el citado convenio de prórroga, referente a la continuación del funcionamiento del Servicio Cooperativo de Producción de Alimentos, como dependencia del Ministerio de Agricultura.

También me es grato comunicar a Vuestra Excelencia que el Ministro de Agricultura, en nota reciente, expresa a este Despacho el deseo de renovar sin modificación alguna el contrato con el Servicio Cooperativo Interamericano de Producción de Alimentos. Tal deseo se sustenta en el hecho de que la actual misión del Scipa lleva tiempo en el país y ha comprobado la comprensión de nuestros problemas encontrándose, en el momento actual, en inmejorables condiciones para rendir su máximo fruto. Por estas razones nuestra Embajada en los Estados Unidos de América realizó gestiones para dicha renovación.

Aprovecho esta oportunidad para reiterar a Vuestra Excelencia, los sentimientos de mi más alta y distinguida consideración.

LIMA, *November 22, 1946.*

MR. AMBASSADOR:

I have the honor to reply to Your Excellency's esteemed note number 199, [1] of the 30th of last September, in which you are pleased to refer to that of His Excellency Mr. John Campbell White, number 812, of June 11th of last year, containing the texts in English and Spanish of the memorandum of agreement signed on June 8, 1945, by the Minister of Agriculture, engineer Godofredo A. Labarthe, in the name of Peru, and by Mr. W. C. Brister, for the Institute of Inter-American Affairs—an agency of the Government of the United States of America—by which the food production program is extended until December 31, 1946.

Ante, p. 3123.

In reply, I must inform Your Excellency that by Supreme Resolution No. 473, issued by the Ministry of Agriculture on June 8, 1945, it was decided to approve the said agreement for extension, with reference to the continuing of the functioning of the Cooperative Food Production Service, as a branch of the Ministry of Agriculture.

I am also pleased to inform Your Excellency that the Minister of Agriculture, in a recent note, expressed to this Office the desire to renew without any change the contract with the Inter-American Cooperative Food Production Service. Such desire is supported by the fact that the present Scipa mission has been in the country some time and has increased the understanding of our problems, being, at the present time, in the most favorable situation for obtaining the best results. For these reasons our Embassy in the United States of America took steps for the said renewal.

I avail myself of this opportunity to renew to Your Excellency, the assurances of my highest and most distinguished consideration.

On the coming into force of this agreement, standardization of D.M.E. for civil aviation shall be in the 1000 Mc/s. band and not in the 200 Mc/s. band.

They will also make such information available to the other members of the International Civil Aviation Organization.

Article 7

Limitation of designated D.M.E.

With the object of ensuring world-wide standardization on 1000 Mc/s. D.M.E. at the earliest possible date, the contracting Governments shall limit the supply and installation of 200 Mc/s. D.M.E. to the essential minimum requirements of civil air navigation during the period up to January 1, 1954.

Italian advances.

(*D*) The Italian Government will, upon request, advance funds to the United States representatives to meet local currency expenses incident to the furnishing of relief.

Unusual costs.

(*C*) The Italian Government will furnish regularly current information to the United States representatives regarding plans and progress in achieving this objective.

EMBASSY OF THE
UNITED STATES OF AMERICA

F. O. 318 *Rome, July 4, 1947.*

EXCELLENCY,

I have the honor to refer to the Agreement signed today by our two Governments providing for the extension of relief to Italy under the United States Foreign Relief Program, and in that connection I take pleasure in advising Your Excellency of certain interpretations which my Government places upon those clauses of the Agreement which have given rise to oral queries on the part of the Italian Government. These are identified below by reference to the pertinent Articles and sub-Articles of the Agreement.

Ante, p. 3138. *Article I (D):* In response to the suggestion advanced by the Italian Government, the text of the Agreement has been changed to provide that the Government need submit to the United States Government, in advance, its proposed programs for relief import requirements only in the case of United States relief supplies. It is understood however that the United States Government will expect to receive through its Embassy in Rome pertinent information concerning supplies from other sources.

Ante, p. 3138. *Article I (E):* Although my Government recognizes the delicate problems that may arise from the second sentence of Article I (E), 61 Stat., Pt. 1, p. 125. we are specifically instructed by the Act of Congress of May 31, 1947, as follows: "When it is deemed desirable by the Field Administrator *Ante*, p. 3142. (Note: Head of the Field Mission described in Article V of the Agreement) . . . . . such missions shall be empowered to retain possession of such supplies up to the city or local community where such supplies are actually made available to the ultimate consumers".

This provision of Article I (E) is therefore obligatory. It is recognized, however, that it would be invoked only under highly unusual circumstances and only if other normal distribution arrangements fail to assure proper implementation of the Agreement.

Ante, p. 3138. *Article II (A):* This Article does not in any way require exclusive use of commercial channels for the distribution of United States relief supplies. So long as an equitable distribution to consumers is maintained, it is agreed that the channels now used by the Italian Government for similar imports may be used whenever suitable, subject to change in the light of unforeseen circumstances.

Ante, p. 3138. *Article II (B):* The validity of the point raised by the Italian Government with respect to the imposition of customs duties and other charges has been recognized. It is not the intention of the Agreement to require a dual pricing system within Italy for commodities obtained from two or more sources. The procedure for assuring collections of these taxes and fiscal charges and for determining proper accruals to the special account described in Article III (B) can be worked *Ante*, p. 3140. out as part of the pricing procedures described in Article III (A) with the understanding, however, that those relief supplies which are given

free to indigents, institutions and others will not be subject to any fiscal charges payable by the recipients.

Article IV (A): With respect to the word "collection" in the English text of the Agreement, it is the intent and explicit provision of the Act of Congress and of the Agreement that during the period of time relief is received under the Act the recipient Governments shall insofar as possible take the economic measures necessary to reduce their relief needs. This would involve, in the case of food items such as cereals and olive oil, maximum efforts by the Italian Government to bring into its amassing system whatever amounts can feasibly be collected. *Ante*, p. 3142.

On the other hand, it is not the intention of the United States Government to require Italian Government-administered amassing of items that do not lend themselves to this technique or have not previously been so collected. The meaning of the English word "collection" in these instances will depend upon the particular commodity in question and the determination of the most appropriate and practical methods to promote flow of the locally produced supplies to consumers in such a manner as to assure that all classes of consumers, regardless of purchasing power, receive their fair share (although not necessarily an equal share) of the supplies, and that in no event shall there be discrimination as to race, creed or political belief.

This therefore becomes a matter to be worked out in Rome between the Italian Government and the United States Embassy, for each commodity included in the relief program.

Article IV (D): The Italian Government has pointed out its desire of reserving maximum autonomy and flexibility in facing its economic difficulties. The United States Government wishes to make clear that nothing in Article IV(D) is intended to derogate Italian independence or sovereignty in taking the economic measures demanded by situations that may arise, so long as the spirit of cooperation and goodwill are observed in the implementation of this Agreement. In earlier discussions held between representatives of the United States Government and the Italian Government regarding this Article IV (D), considerable attention was directed to the problem of exporting commodities such as olive oil, rice and seed wheat. These questions, although generally pertinent to Article IV (D), are particularly pertinent to Articles II (D), IV (B), and IX (4). My Government has authorized me to furnish you the following legal opinion. I believe that this interpretation adequately covers the points raised by the Italian Government in the general discussions on Article IV (D): *Ante*, p. 3142. *Ante*, pp. 3140, 3142, 3146.

"If a portion of such supplies or articles (i.e., articles produced locally or imported from outside sources that are of the same character or similar to the United States relief supplies), even though substitutable for United States relief supplies could be exported in exchange for corresponding or greater quantities of other items also substitutable for United States relief items, the relief needs of the country could be more adequately met . . . . . Thus, a locally produced quantity of rice might be exchangeable for a greater quantity

of wheat which could then form an important supplement to wheat furnished by the United States. Exports of this character should probably be permitted only when the relatively greater relief need for the imported items can be clearly established".

It should be understood, however, that any arrangements for exports of the above nature will be subject to prior agreement between the Italian Government and the United States Relief Representatives in Italy.

Accept, Excellency, the assurances of my most distinguished consideration.

F. L'Agence Interalliée des Réparations, qui doit être instituée conformément à la Partie II du présent Accord, débitera le compte réparations de chacun des Gouvernements signataires des avoirs allemands soumis à sa juridiction, en répartissant les débits sur une période de cinq ans. Les débits portés en compte à la date de l'entrée en vigueur du présent Accord ne doivent pas être inférieurs à 20 p. 100 de la valeur nette de ces avoirs (définie à l'artice 6 de la Partie I du présent Accord), selon l'estimation qui en sera faite à cette date; au début de la deuxième année, ils ne devront pas être inférieurs à 33⅓ p. 100 du solde, selon l'estimation qui en sera faite à cette date; au début de la quatrième année, ils ne devront pas être inférieurs à 50 p. 100 du solde, selon l'estimation qui en sera faite à cette date; au début de la cinquième année, ils ne devront pas être inférieurs à 90 p. 100 du solde, selon l'estimation qui en sera faite à cette date et, à la fin de la cinquième année, ils seront égaux au solde du montant total effectivement réalisé.

F. The Inter-Allied Reparation Agency, to be established in accordance with Part II of this Agreement, shall charge the reparation account of each Signatory Government for the German assets within that Government's jurisdiction over a period of five years. The charges at the date of the entry into force of this Agreement shall be not less than 20 per cent of the net value of such assets (as defined in Article 6 of Part I of this Agreement) as then estimated, at the beginning of the second year thereafter not less than 25 per cent of the balance as then estimated, at the beginning of the third year not less than 33, ⅓ per cent of the balance as then estimated, at the beginning of the fourth year not less than 50 per cent of the balance as then estimated, at the beginning of the fifth year not less than 90 per cent of the balance as then estimated, and at the end of the fifth year the entire remainder of the total amount actually realized.

G. Les dérogations suivantes aux dispositions des paragraphes D et E ci-dessus sont applicables au cas d'un Gouvernement signataire, dont les droits dans l'ensemble des biens de la catégorie B sont inférieurs aux droits dans l'ensemble des biens de la catégorie A:

other types of assets in Category B, except to the extent that such receipts exceed the value obtained when that Government's Category A percentage is applied to the total value of merchant ships.

(ii) Si la valeur des avoirs allemands soumis à la juridiction d'un Gouvernement se trouvant dans la même situation excède sa quote-part dans l'ensemble des avoirs allemands soumis à la juridiction des Gouvernements signataires, telle qu'elle résulte du pourcentage qui lui est attribué dans l'ensemble des biens de la catégorie A, la différence sera imputée en premier lieu sur la fraction additionnelle du pourcentage auquel ce Gouvernement aurait droit dans l'ensemble des biens de la catégorie B, si l'on appliquait le pourcentage auquel il a droit dans l'ensemble des biens de la catégorie A aux formes de réparations prévues dans la catégorie B.

(ii) Any excess of German assets within the jurisdiction of such Government over its Category A percentage share of the total of German assets within the jurisdiction of Signatory Government as a whole shall be charged first to the additional share in Category B to which that Government would be entitled if its share in Category B were determined by applying its Category A percentage to the forms of German reparation in Category B.

Distribution of renounced shares, etc.

H. Si un Gouvernement signataire renonce à la totalité ou à une fraction de ses droits dans l'ensemble des réparations allemandes, tels qu'ils sont indiqués au Tableau des parts ci-dessus, ou si ledit Gouvernement se retire de l'Agence Interalliée des Réparations à une époque où tout ou partie de ses droits dans les réparations allemandes n'ont pas été couverts, la part ou fraction de part à laquelle il renonce, ou qui lui reste due au moment de son retrait, sera répartie entre les autres Gouvernements signataires au prorata de leurs propres pourcentages.

H. If any Signatory Government renounces its shares or part of its shares in German reparation as set out in the above Table of Shares, or if it withdraws from the Inter-Allied Reparation Agency at a time when all or part of its shares in German reparation remain unsatisfied, the shares or part thereof thus renounced or remaining shall be distributed rateably among the other Signatory Governments.

ARTICLE 2.

Règlement des créances sur l'Allemagne.

A. Les Gouvernements signataires conviennent entre eux que leurs quotes-parts respectives de réparations, telles qu'elles sont fixées par le présent Accord, doivent être considérées par chacun d'eux comme couvrant toutes ses créances et celles de ses ressortissants sur l'ancien Gouvernement allemand et les Agences gouvernementales allemandes, créances qui ne font pas expressément l'objet d'autres dispositions, créances de caractère public ou privé, issues de la guerre, y compris le coût de l'occupation allemande, les avoirs en compte de clearing acquis pendant l'occupation et les créances sur les Reichskreditkassen.

B. Les dispositions du paragraphe A ci-dessus ne préjugent pas:

(i) La détermination, en temps utile, des formes, de la durée ou du montant total des réparations à effectuer par l'Allemagne;

(ii) Le droit que chacun des Gouvernements signataires peut avoir en ce qui concerne le règlement définitif des réparations allemandes;

(iii) Toutes revendications d'ordre politique, territorial ou autre, qu'un Gouvernement signataire pourra présenter à propos du règlement de la Paix avec l'Allemagne.

C. Nonobstant les dispositions du paragraphe A ci-dessus, le présent Accord doit être considéré comme n'affectant pas:

(i) L'obligation qui incombe aux Autorités allemandes compétentes d'assurer ultérieurement le payement des dettes de l'Allemagne et de ses ressortissants, résultant de

ARTICLE 2.

Settlement of Claims against Germany.

A. The Signatory Governments agree among themselves that their respective shares of reparation, as determined by the present Agreement, shall be regarded by each of them as covering all its claims and those of its nationals against the former German Government and its Agencies, of a governmental or private nature, arising out of the war (which are not otherwise provided for), including costs of German occupation, credits acquired during occupation on clearing accounts and claims against the Reichskreditkassen.

B. The provisions of paragraph A above are without prejudice to:

(i) the determination at the proper time of the forms, duration or total amount of reparation to be made by Germany;

(ii) the right which each Signatory Government may have with respect to the final settlement of German reparation; and

(iii) any political, territorial or other demands which any Signatory Government may put forward with respect to the peace settlement with Germany.

Claims, etc., not affected.

C. Notwithstanding anything in the provisions of paragraph A above, the present Agreement shall no be considered as affecting:

contrats et autres obligations qui étaient en vigueur, ainsi que de droits qui étaient acquis, avant que l'état de guerre existât entre l'Allemagne et le Gouvernement signataire intéressé ou avant l'occupation par l'Allemagne du pays intéressé, selon que l'un ou l'autre événement est survenu le plus tôt;

(ii) Les créances d'institutions d'Assurances sociales des Gouvernements signataires ou de leurs ressortissants sur les institutions d'assurances sociales de l'ancien Gouvernement allemand;

(iii) Les billets de banque de la Reichsbank et de la Rentenbank, étant entendu que leur réalisation ne peut avoir pour conséquence de diminuer indûment la masse des réparations et ne pourra s'effectuer qu'avec l'accord du Conseil de Contrôle en Allemagne.

Right of Czechoslovak Government to draw upon Giro account.

D. Nonobstant les dispositions du paragraphe A du présent article, les Gouvernements signataires conviennent, pour autant que la question les concerne, que le Gouvernement tchécoslovaque sera habilité à tirer sur le compte Giro de la Banque nationale de Tchécoslovaquie à la Reichsbank, dans le cas où telle mesure serait décidée par le Gouvernement tchécoslovaque et approuvée par le Conseil de Contrôle en Allemagne, en rapport avec le mouvement de Tchécoslovaquie vers l'Allemagne d'anciens ressortissants tchécoslovaques.

of contracts and other obligations entered into, and rights acquired, before the existence of a state of war between Germany and the Signatory Government concerned or before the occupation of its territory by Germany, whichever was earlier;

(ii) the claims of Social Insurance Agencies of the Signatory Governments or the claims of their nationals against the Social Insurance Agencies of the former German Government; and

(iii) banknotes of the Reichsbank and the Rentenbank, it being understood that their realization shall not have the result of reducing improperly the amount of reparation and shall not be effected without the approval of the Control Council for Germany.

D. Notwithstanding the provisions of Paragraph A of this Article, the Signatory Governments agree that, so far as they are concerned, the Czechoslovak Government will be entitled to draw upon the Giro account of the National Bank of Czechoslovakia at the Reichsbank, should such action be decided upon by the Czechoslovak Government and approved by the Control Council for Germany, in connection with the movement from Czechoslovakia to Germany of former Czechoslovak nationals.

Renonciation aux créances sur les biens attribués au titre des réparations.

Chacun des Gouvernements signataires s'engage à ne pas faire valoir, ni porter devant des tribunaux internationaux, ni soutenir

ARTICLE 4.

Principes généraux pour la répartition de l'outillage industriel ou d'autres biens d'équipement en capital.

ARTICLE 4.

General Principles for the Allocation of Industrial and other Capital Equipment.

A. Aucun Gouvernement signataire ne devra demander l'attribution, dans sa part de réparations, d'outillage industriel ou d'autres biens d'équipement en capital enlevés d'Allemagne si ce n'est aux fins d'utilisation sur son propre territoire, ou, en dehors de son territoire, par ses propres nationaux.

A. No Signatory Government shall request the allocation to it as reparation of any industrial or other capital equipment removed from Germany except for use in its own territory or for use by its own nationals outside its own territory.

Submission of comprehensive programs of requests.

B. En soumettant leurs demandes à l'Agence Interalliée des Réparations, les Gouvernements signataires s'efforceront de présenter des programmes d'ensemble comprenant des groupes de biens connexes plutôt que des demandes visant des biens isolés ou de petits groupes de biens. Il est reconnu que l'activité du Secrétariat de l'Agence sera d'autant plus efficace que les programmes que lui présenteront les Gouvernements signataires auront davantage le caractère de programmes d'ensemble.

B. In submitting requests to the Inter-Allied Reparation Agency, the Signatory Governments should endeavour to submit comprehensive programs of requests for related groups of items, rather than requests for isolated items or small groups of items. It is recognized that the work of the Secretariat of the Agency will be more effective, the more comprehensive the programs which Signatory Governments submit to it.

General principles.

C. In the allocation by the Inter-Allied Reparation Agency of items declared available for reparation (other than merchant ships, inland water transport and German assets in countries which remained neutral in the war

guerre contre l'Allemagne, l'Agence Interalliée des Réparations s'inspirera des principes généraux suivants:

(i) Tout bien ou groupe de biens connexes, dans lesquels un pays demandeur possède des intérêts financiers substantiels antérieurs à la guerre, doit être attribué à ce pays, s'il le désire. Dans le cas où deux ou plusieurs pays possèdent des intérêts substantiels de cette nature, dans un bien ou un groupe de biens définis, l'attribution doit se faire en tenant compte des critères énoncés ci-après:

(ii) Dans le cas de demandes concurrentes, si l'attribution n'est pas déterminée par les dispositions du paragraphe (i), il sera fait état, entre autres facteurs pertinents, des considérations suivantes :

a. Le degré d'urgence du besoin qu'a chaque pays demandeur de disposer du bien ou des biens disponibles pour remettre en état, reconstruire ou d'une manière générale restaurer son économie nationale dans sa pleine activité;

b. La mesure dans laquelle le bien, ou les biens remplaceraient des biens détruits, endommagés ou ayant fait l'objet de spoliations pendant la guerre, ou des biens qui doivent être remplacés à la suite d'usure anormale due à la production du temps de guerre, et qui sont susceptibles de jouer un rôle important dans l'économie du pays demandeur;

c. Le rôle du bien ou des biens dont il s'agit dans le cadre général de l'économie d'avant-guerre du pays demandeur et dans les programmes établis en vue de l'ajustement et du développement de son économie d'après-guerre;

d. Les demandes des pays dont

(i) Any item or related group of items in which a claimant country has a substantial prewar financial interest shall be allocated to that country if it so desires. Where two or more claimants have such substantial interests in a particular item or group of items, the criteria stated below shall guide the allocation:

(ii) If the allocation between competing claimants is not determined by paragraph (i), attention shall be given, among other relevant factors, to the following considerations:

a. The urgency of each claimant country's needs for the items or item to rehabilitate, reconstruct or restore to full activity the claimant country's economy;

b. The extent to which the item or items would replace property which was destroyed, damaged or looted in the war, or requires replacement because of excessive wear in war production, and which is important to the claimant country's economy;

c. The relation of the item or items to the general pattern of the claimant country's prewar economic life and to programs for its postwar economic adjustment or development;

(iii) Les programmes d'attribution devront conserver un équilibre raisonnable entre les différents ayants droit en ce qui concerne la fraction déjà satisfaite de leurs quotes-parts respectives, sous réserve des exceptions temporaires qui peuvent se justifier par les considérations du paragraphe (ii) (*a*) ci-dessus.

ARTICLE 5.

Principes généraux pour la répartition des navires marchands et des bateaux de navigation intérieure.

A. (i) Les navires de commerce allemands disponibles pour répartition au titre des réparations entre les Gouvernements signataires seront répartis entre ceux-ci au prorata des pertes globales respectives de navires marchands, calculées en prenant comme base le tonnage brut, que les Gouvernements signataires et leurs ressortissants ont subies par suite de faits de guerre. Il est reconnu que la cession de navires de commerce par les Gouvernements des États-Unis d'Amérique et du Royaume-Uni à d'autres Gouvernements est effective sous réserve de telle approbation définitive par les organes législatifs de ces deux pays qui pourrait être nécessaire.

(ii) Un Comité spécial, composé de représentants des Gouvernements signataires, sera constitué par l'Assemblée de l'Agence Interalliée des Réparations pour présenter des recommandations au sujet de la détermination de ces pertes et de l'attribution des navires de commerce allemands disponibles pour répartition.

tries whose reparation shares are small but which are in need of certain specific items or categories of items.

(iii) In making allocations a reasonable balance shall be maintained among the rates at which the reparation shares of the several claimant Governments are satisfied, subject to such temporary exceptions as are justified by the considerations under paragraph (ii) (*a*) above.

ARTICLE 5.

General Principles for the Allocation of Merchant Ships and Inland Water Transport.

A. (i) German merchant ships available for distribution as reparation among the Signatory Governments shall be distributed among them in proportion to the respective over-all losses of merchant shipping, on a gross tonnage basis, of the Signatory Governments and their nationals through acts of war. It is recognized that transfers of merchant ships by the United Kingdom and United States Governments to other Governments are subject to such final approvals by the legislatures of the United Kingdom and United States of America as may be required.

(ii) A special committee, composed of representatives of the Signatory Governments, shall be appointed by the assembly of the Inter-Allied Reparation Agency to make recommendations concerning the determination of such losses and the allocation of German merchant ships available for distribution.

(iii) La valeur des navires de commerce allemands portée dans les comptes de réparations sera la valeur fixée par la Commission tripartite de la Marine marchande sur la base des prix de 1938 en Allemagne, majorée de 15 p. 100 et avec application d'un coefficient de dépréciation.

B. En raison du fait reconnu que certains pays ont particulièrement besoin de bateaux de navigation intérieure, la répartition de ces bateaux sera confiée à un Comité spécial constitué par l'Assemblée de l'Agence Interalliée des Réparations dans les cas où des bateaux de navigation intérieure deviendraient disponibles ultérieurement au titre des réparations pour les Gouvernements signataires. L'évaluation des bateaux de navigation intérieure sera faite sur la base adoptée pour la marine marchande ou sur une base équitable en rapport avec elle.

ARTICLE 6.

Avoirs allemands à l'étranger.

A. Chacun des Gouvernements signataires, par les méthodes de son choix, retiendra les avoirs allemands ennemis se trouvant dans les territoires soumis à sa juridiction, ou en disposera, de telle manière qu'ils ne puissent redevenir propriété allemande ou retomber sous contrôle allemand, et imputera sur sa quote-part de réparations les avoirs dont il s'agit (nets d'impôts arriérés, privilèges et frais de gestion, et libres de toutes autres charges *in rem* grevant des éléments déterminés de ces avoirs ainsi que de tous droits contractuels légitimes à l'égard des anciens propriétaires allemands de ces avoirs).

(iii) The value of German merchant ships for reparation accounting purposes shall be the value determined by the Tri-partite Merchant Marine Commission in terms of 1938 prices in Germany plus 15 per cent, with an allowance for depreciation.

B. Recognizing that some countries have special need for inland water transport, the distribution of inland water transport shall be dealt with by a special committee appointed by the Assembly of the Inter-Allied Reparation Agency in the event that inland water transport becomes available at a future time as reparation for the Signatory Governments.

The valuation of inland water transport will be made on the basis adopted for the valuation of merchant ships or on an equitable basis in relation to that adopted for merchant ships.

ARTICLE 6.

German External Assets.

A. Each Signatory Government shall, under such procedures as it may choose, hold or dispose of German enemy assets within its jurisdiction in manners designed to preclude their return to German ownership or control and shall charge against its reparation share such assets (net of accrued taxes, liens, expenses of administration, other *in rem* charges against specific items and legitimate contract claims against the German former owners of such assets).

B. Les Gouvernements signataires communiqueront à l'Agence Interalliée des Réparations toutes les informations que celle-ci demandera sur le montant de ces avoirs et sur les produits périodiquement réalisés par la liquidation desdits avoirs.

B. The Signatory Governments shall give to the Inter-Allied Reparation Agency all information for which it asks as to the value of such assets and the amounts realized from time to time by their liquidation.

Information as to value of assets, etc.

C. La propriété ou le contrôle des avoirs allemands se trouvant dans les pays restés neutres pendant la guerre contre l'Allemagne sera retiré à l'Allemagne. Ces avoirs seront liquidés ou il en sera disposé, conformément aux décisions que peuvent prendre les États-Unis d'Amérique, la France et le Royaume-Uni, en exécution d'accords que ces Puissances négocieront avec les pays neutres; le produit net de la liquidation ou des actes de disposition de ces avoirs sera mis à la disposition de l'Agence Interalliée des Réparations pour être réparti au titre des réparations.

C. German assets in those countries which remained neutral in the war against Germany shall be removed from German ownership or control and liquidated or disposed of in accordance with the authority of France, the United Kingdom and the United States of America, pursuant to arrangements to be negotiated with the neutrals by these countries. The net proceeds of liquidation or disposition shall be made available to the Inter-Allied Reparation Agency for distribution on reparation account.

Assets in neutral countries.

D. Dans l'application des dispositions du paragraphe A ci-dessus, les avoirs qui étaient la propriété d'un pays membre des Nations Unies ou d'une personne ressortissant de ce pays et non de l'Allemagne au moment de l'annexion ou de l'occupation de ce pays par l'Allemagne ou de son entrée en guerre, ne seront pas imputés à son compte de réparations, étant entendu que la disposition qui précède ne préjuge aucune des questions qui pourraient se poser au sujet d'avoirs qui n'étaient pas la propriété d'un ressortissant du pays en question au moment de l'annexion ou de l'occupation de ce pays par l'Allemagne ou de son entrée en guerre.

D. In applying the provisions of paragraph A above, assets which were the property of a country which is a member of the United Nations or its nationals who were not nationals of Germany at the time of the occupation or annexation of this country by Germany, or of its entry into war, shall not be charged to its reparation account. It is understood that this provision in no way prejudges any questions which may arise as regards assets which were not the property of a national of the country concerned at the time of the latter's occupation or annexation by Germany or of its entry into war.

E. Les avoirs allemands de caractère ennemi à imputer sur les quotes-parts de réparations devront inclure les avoirs qui sont

E. The German enemy assets to be charged against reparation shares shall include assets which are in reality German enemy

en réalité des avoirs allemands de caractère ennemi, même si le propriétaire apparent de tels avoirs n'est pas un Allemand de caractère ennemi.

Chaque Gouvernement signataire, si ce n'est déjà fait, devra promulguer des textes législatifs et prendre toutes autres mesures appropriées pour annuler tous les transferts effectués après l'occupation de son territoire ou son entrée en guerre, dans l'intention frauduleuse de dissimuler des intérêts allemands de caractère ennemi et de les soustraire aux effets des mesures de contrôle sur les intérêts allemands de caractère ennemi;

Committee of Experts.

F. L'Assemblée de l'Agence Interalliée des Réparations constituera un Comité d'Experts en matière de séquestre de biens ennemis en vue de résoudre les difficultés pratiques de droit et d'interprétation qui pourraient surgir. Le Comité devra veiller notamment à éviter tout ce qui pourrait avoir pour résultat le maintien de transactions fictives ou autres, destinées soit à favoriser des intérêts ennemis, soit à diminuer indûment la masse des biens susceptible d'être affectée aux réparations.

assets, despite the fact that the nominal owner of such assets is not a German enemy.

Each Signatory Government shall enact legislation or take other appropriate steps, if it has not already done so, to render null and void all transfers made, after the occupation of its territory or its entry into war, for the fraudulent purpose of cloaking German enemy interests, and thus saving them harmless from the effect of control measures regarding German enemy interests.

F. The Assembly of the Inter-Allied Reparation Agency shall set up a Committee of Experts in matters of enemy property custodianship in order to overcome practical difficulties of law and interpretation which may arise. The Committee should in particular guard against schemes which might result in effecting fictitious or other transactions designed to favour enemy interests, or to reduce improperly the amount of assets which might be allocated to reparation.

ARTICLE 7.

Approvisionnements capturés.

La valeur des approvisionnements et autres matériels susceptibles de servir à des usages civils, pris aux forces armées allemandes hors d'Allemagne et remis à des Gouvernements signataires, sera imputée sur leurs parts de réparations pour autant que ces approvisionnements et ces matériels n'auront pas été payés, ou

ARTICLE 7.

Captured Supplies.

The value of supplies and other materials susceptible of civilian use captured from the German Armed Forces in areas outside Germany and delivered to Signatory Governments shall be charged against their reparation shares in so far as such supplies and materials have not been or are not, in the future either paid for or

bien remis en vertu d'autres arrangements ne prévoyant pas de contre-partie.

Il est reconnu que les transferts de tels matériels et approvisionnements par les Gouvernements des États-Unis d'Amérique et du Royaume-Uni à d'autres Gouvernements sont soumis à telle approbation définitive par les organes législatifs de ces deux pays qui pourrait être nécessaire.

ARTICLE 8.

Attribution d'une part des réparations aux victimes non rapatriables de l'action allemande.

Étant donné qu'un grand nombre de personnes ont souffert cruellement du fait des nazis et ont actuellement un besoin impérieux d'être aidées pour leur "réhabilitation", mais ne peuvent demander l'assistance d'aucun Gouvernement recevant des réparations de l'Allemagne, les Gouvernements des États-Unis d'Amérique, de la France, du Royaume-Uni, de la Tchécoslovaquie et de la Yougoslavie, en consultation avec le Comité Intergouvernemental des Réfugiés, établiront d'urgence un plan, agréé d'un commun accord, et ce sur les bases générales suivantes:

A. Une part des réparations, constituée par l'ensemble de l'or non monétaire trouvé en Allemagne par les forces armées alliées et par une somme complémentaire n'excédant pas 25 millions de dollars, sera affectée à la "réhabilitation" et au réétablissement des victimes non rapatriables de l'action allemande.

B. Cette somme de 25 millions de dollars sera prélevée sur le produit de la liquidation des avoirs

delivered under arrangements precluding any charge.

It is recognized that transfers of such supplies and materials by the United Kingdom and United States Governments to other Governments are agreed to be subject to such final approval by the legislature of the United Kingdom or the United States of America as may be required.

ARTICLE 8.

Allocation of a Reparation Share to Nonrepatriable Victims of German Action.

In recognition of the fact that large numbers of persons have suffered heavily at the hands of the Nazis and now stand in dire need of aid to promote their rehabilitation but will be enable to claim the assistance of any Government receiving reparation from Germany, the Governments of the United States of America, France, the United Kingdom, Czechoslovakia and Yugoslavia, in consultation with the Inter-Governmental Committee on Refugees, shall as soon as possible work out in common agreement a plan on the following general lines:

A. A share of reparation consisting of all the non-monetary gold found by the Allied Armed Forces in Germany and in addition a sum not exceeding 25 million dollars shalf be allocated for the rehabilitation and resettlement of non-repatriable victims of German action.

B. The sum of 25 million dollars shall be met from a portion of the proceeds of German assets

allemands se trouvant dans les pays neutres et disponibles pour les réparations.

C. Les Gouvernements des pays neutres seront priés de rendre disponibles à cette fin (en sus de la somme de 25 millions de dollars), les avoirs dans les dits pays appartenant à des victimes d'actes des nazis qui sont mortes depuis sans laisser d'héritiers.

D. Seules seront susceptibles d'être admises à bénéficier de l'assistance prévue par le plan dont il s'agit les personnes—ainsi que leur famille et les personnes à leur charge—qui ont été réellement victimes des persécutions nazies et qui appartiennent aux catégories suivantes:

(i) Réfugiés de l'Allemagne ou de l'Autriche national-socialistes qui ont besoin d'assistance et ne peuvent pas être renvoyés dans leur pays dans un délai raisonnable par suite des conditions existantes;

(ii) Ressortissants allemands et autrichiens résidant actuellement en Allemagne ou en Autriche, dans les cas exceptionnels où il est raisonnable, pour des considérations d'humanité, de les aider à émigrer et pourvu qu'ils émigrent effectivement dans un délai raisonnable;

(iii) Ressortissants des pays antérieurement occupés par les Allemands qui ne peuvent pas être rapatriés, ou ne sont pas à même de l'être dans un délai raisonnable. Afin de réserver toute l'assistance aux réfugiés les plus malheureux et les plus méritants, et d'exclure de son bénéfice les personnes dont la loyauté à l'égard des Nations Unies est, ou a été, douteuse, l'assistance ne sera accordée aux ressortissants ou anciens ressortissants des pays

in neutral countries which are available for reparation.

C. Governments of neutral countries shall be requested to make available for this purpose (in addition to the sum of 25 million dollars) assets in such countries of victims of Nazi action who have since died and left no heirs.

D. The persons eligible for aid under the plan in question shall be restricted to true victims of Nazi persecution and to their immediate families and dependents, in the following classes:

(i) Refugees from Nazi Germany or Austria who require aid and cannot be returned to their countries within a reasonable time because of prevailing conditions;

(ii) German and Austrian nationals now resident in Germany or Austria in exceptional cases in which it is reasonable on grounds of humanity to assist such persons to emigrate and providing they emigrate to other countries within a reasonable period;

(iii) Nationals of countries formerly occupied by the Germans who cannot be repatriated or are not in a position to be repatriated within a reasonable time. In order to concentrate aid on the most needy and deserving refugees and to exclude persons whose loyalty to the United Nations is or was doubtful, aid shall be restricted to nationals or former nationals of previously occupied countries who were victims of German concentration camps or

of concentration camps established by regimes under Nazi influence but not including persons who have been confined only in prisoners of war camps.

E. Les fonds rendus disponibles conformément aux paragraphes A et B ci-dessus seront gérés par le Comité Intergouvernemental des Réfugiés ou par un Organisme des Nations Unies auquel les fonctions que le Comité Intergouvernemental exerce dans ce domaine pourront être transférées dans l'avenir. Les fonds rendus disponibles aux termes du paragraphe C ci-dessus seront gérés pour les fins générales visées par le présent article, conformément à un programme de gestion qui sera établi par les cinq Gouvernements ci-dessus.

E. The sums made available under paragraphs A and B above shall be administered by the Inter-Governmental Committee on Refugees or by a United Nations Agency to which appropriate functions of the Inter-Governmental Committee may in the future be transferred. The sums made available under paragraph C above shall be administered for the general purposes referred to in this Article under a program of administration to be formulated by the five Governments named above.

Administration of sums.

F. L'or non monétaire trouvé en Allemagne sera mis à la disposition du Comité Intergouvernemental des Réfugiés aussitôt que le plan aura été élaboré.

F. The non-monetary gold found in Germany shall be placed at the disposal of the Inter-Governmental Committee on Refugees as soon as a plan has been worked out as provided above.

G. Le Comité Intergouvernemental des Réfugiés aura le pouvoir d'assurer la réalisation des fins pour lesquelles le fonds est créé, par l'intermédiaire d'organismes d'exécution compétents de caractère public ou privé.

G. The Inter-Governmental Committee on Refugees shall have power to carry out the purposes of the fund through appropriate public and private field organisations.

H. Les fonds seront employés, non à indemniser des victimes individuelles, mais à faciliter la "réhabilitation" ou le réétablissement des personnes appartenant aux catégories bénéficiaires de l'assistance.

H. The fund shall be used, not for the compensation of individual victims, but to further the rehabilitation or resettlement of persons in the eligible classes.

PART II.

Inter-allied reparation agency.

ARTICLE PREMIER.

Constitution de l'agence.

Les Gouvernements signataires du présent Accord établissent une Agence Interalliée des Réparations (ci-après appelée "l'Agence"). Chacun d'eux nomme un délégué à l'Agence et peut également nommer un délégué suppléant, lequel, en l'absence du délégué, a les fonctions et pouvoirs de celui-ci.

ARTICLE 1.

Establishment of the Agency.

The Governments Signatory to the present Agreement hereby establish an Inter-Allied Reparation Agency (hereinafter referred to as "The Agency"). Each Government shall appoint a Delegate to the Agency and shall also be entitled to appoint an Alternate who, in the absence of the Delegate, shall be entitled to exercice all the functions and rights of the Delegate.

ARTICLE 2.

Fonctions de l'Agence.

A. PARTIE III.

Restitution de l'or monétaire.

ARTICLE UNIQUE.

Distribution pool.

A. Tout l'or monétaire trouvé en Allemagne par les forces armées alliées et celui visé au paragraphe G ci-dessus (y compris les monnaies d'or, à l'exception de celles qui ont une valeur numismatique ou historique, qui seront restituées immédiatement si elles sont identifiables) sera réuni en une masse commune pour être réparti à titre de restitutions, entre les pays admis à bénéficier de cette masse, au prorata des quantités d'or qu'ils ont respectivement perdues du fait de spoliations par l'Allemagne ou de transferts illégitimes en Allemagne.

B. Sans préjudice des demandes visant l'or non restitué, présentées au titre des réparations, la quantité d'or monétaire revenant à chacun des pays admis à bénéficier de cette masse sera acceptée par ce dernier en règlement complet et définitif de toute créance sur l'Allemagne au titre des restitutions d'or monétaire.

C. Une part proportionnelle de l'or sera attribuée à chacun des pays intéressés qui accepte le présent arrangement concernant la restitution de l'or monétaire et qui peut établir qu'une quantité déterminée d'or monétaire lui appartenant a fait l'objet de spoliation par l'Allemagne ou, à une date quelconque après le 12 mars 1938, de transfert illégitime en territoire allemand.

PART III.

Restitution of monetary gold.

SINGLE ARTICLE.

A. All the monetary gold found in Germany by the Allied Forces and that referred to in paragraph G below (including gold coins, except those of numismatic or historical value, which shall be restored directly if identifiable) shall be pooled for distribution as restitution among the countries participating in the pool in proportion to their respectives losses of gold through looting or by wrongful removal to Germany.

B. Without prejudice to claims by way of reparation for unrestored gold, the portion of monetary fold thus accruing to each country participating in the pool shall be accepted by that country in full satisfaction of all claims against Germany for restitution of monetary gold.

C. A proportional share of the gold shall be allocated to each country concerned which adheres to this arrangement for the restitution of monetary gold and which can establish that a definite amount of monetary gold belonging to it was looted by Germany or, at any time after March 12th, 1938, was wrongfully removed into German territory.

D. La question de la participation éventuelle de pays non représentés à la Conférence (autres que l'Allemagne, mais y compris l'Autriche et l'Italie) à la répartition susmentionnée est réservée et l'équivalent de ce qui constituerait la totalité des quotes-parts de ces Etats, s'ils venaient à être admis à cette répartition, sera mis en réserve pour qu'il en soit disposé ultérieurement selon ce qui sera décidé par les Gouvernements alliés intéressés.

E. Les divers pays admis à bénéficier de cette masse fourniront aux Gouvernements des Etats-Unis d'Amérique, de la France et du Royaume-Uni, en tant que Puissances occupantes intéressées, des renseignements détaillés et vérifiables sur les pertes d'or qu'ils ont subies du fait que l'Allemagne les a spoliés de cet or ou que cet or a été transporté sur son territoire.

F. Les Gouvernements des Etats-Unis d'Amérique, de la France et du Royaume-Uni prendront toutes mesures utiles dans les zones qu'ils occupent respectivement en Allemagne pour l'exécution d'une répartition conforme aux dispositions qui précèdent.

G. Tout or monétaire qui pourra être récupéré d'un pays tiers dans lequel il a été transféré par l'Allemagne sera réparti conformément au présent arrangement concernant la restitution de l'or monétaire.

D. The question of the eventual participation of countries not represented at the Conference (other than Germany but including Austria and Italy) in the above mentioned distribution shall be reserved, and the equivalent of the total shares which these countries would receive, if they were eventually admitted to participate, shall be set aside to be disposed of at a later date in such manner as may be decided by the Allied Governments concerned.

E. The various countries participating in the pool shall supply to the Governments of the United States of America, France and the United Kingdom, as the occupying Powers concerned, detailed and verifiable data regarding the gold losses suffered through looting by, or removal to, Germany.

Data regarding gold losses.

F. The Governments of the United States of America, France and the United Kingdom shall take appropriate steps within the Zones of Germany occupied by them respectively to implement distribution in accordance with the foregoing provisions.

G. Any monetary gold which may be recovered from a third country to which it was transferred from Germany shall be distributed in accordance with this arrangement for the restitution of monetary gold.

PARTIE IV.

Le présent Accord pourra être signé par tout Gouvernement

PART IV.

Accord between the United States of America, France, the United Kingdom, and Sweden respecting the liquidation of German property in Sweden. Effected by exchanges of notes signed at Washington July 18, 1946; entered into force March 28, 1947.

[T. I. A. S. 1657]

The Chiefs of the Allied Delegations to the Chief of the Swedish Delegation

WASHINGTON, D.C.
July 18, 1946

DEAR JUSTICE SANDSTRÖM:

Understanding between Swedish and Allied Delegations.

Delegations representing the Governments of the United States of America, France, and the United Kingdom of Great Britain and Northern Ireland on the one hand (hereinafter referred to as the Allies) and the Government of Sweden on the other hand have met in Washington and exchanged views on questions relative to German interests in Sweden and the elimination of any possible risk of those interests being used to support renewed German aggression.

Following this exchange of views, and in reaffirmation of their mutual support of these economic security objectives, the Swedish and Allied Delegations have arrived at the following understanding:

Swedish intention to eliminate German interests in Sweden.

1. (a) The Swedish Government confirms its intention to pursue a program of economic security by the elimination of German interests in Sweden.

FCCO.

(b) The Swedish Government further affirms that the Foreign Capital Control Office (Flyktkapitalbyrån or the FCCO) will, for this purpose, continue to uncover, take into control, liquidate, sell, or transfer German property, that the procedure already informally established between the FCCO and the Allied Missions in Stockholm shall be continued, as previously, as a means of exchanging information regarding the discovery and liquidation of German property and affording mutual assistance in this program.

Availability of special account.

2. The disposition of the proceeds of the German assets in Sweden, after clearing against certain Swedish claims, will leave a balance which shall be considered to be 150 million kronor. To assist in preventing disease and unrest in Germany, this sum of 150 million kronor will be made available in a special account with the Swedish Riksbank to be used for financing such purchases—in Sweden or in any other market—of essential commodities for the German economy as may be agreed upon between the Swedish Government and the Allies. Insofar as such purchases are made in the Swedish market the deliveries will be limited by the scarcity of available supplies.

Indemnification of German owners.

3. The German owners concerned shall be indemnified in German money for the property which has been liquidated or disposed of in Sweden pursuant to this understanding. For this purpose, the competent Swedish authority will give the Allies the necessary details

with regard to the amount realized with particulars of the names and addresses of the German owners, and the Allied authorities in Germany will take the necessary steps in order that there will be recorded the title of the German owners of the property liquidated to receive the counter value thereof.

Restitution of looted gold to Allies.

4. (a) In pursuance of its policy to restitute looted property, the Swedish Government will effect restitution to the Allies of all gold acquired by Sweden and proved to have been taken by the Germans from occupied countries, including any such gold transferred by the Swedish Riksbank to third countries. Any claims by Governments of the occupied countries or their banks of issue not presented before July 1, 1947 shall be considered to be barred.

Barred claims.

(b) On the basis of present evidence, subject to further checking, it is assumed that the gold the Swedish Government has to restitute amounts to 7,155.32664 kilograms of fine gold, corresponding to the quantity of gold deriving from the Bank of Belgium which was acquired by the Swedish Riksbank and which is to be restituted in accordance with the foregoing.

(c) The Allied Governments undertake to hold the Swedish Government harmless from any claims deriving from transfers from the Swedish Riksbank to third countries of gold to be restituted according to the above declaration.

5. Divergencies on the interpretation and scope of the above clauses may, if the four Governments do not otherwise agree, be referred to arbitration.

Representation of designated governments by Allied delegations.

6. The undersigned representatives of the Governments of the United States of America, France, and the United Kingdom of Great Britain and Northern Ireland state that insofar as the preceding provisions are concerned, they are also acting on behalf of the Governments of Albania, Australia, Belgium, Canada, Denmark, Egypt, Greece, India, Luxembourg, Norway, New Zealand, the Netherlands, Czechoslovakia, the Union of South Africa and Yugoslavia, and so far as it is material, the banks of issue of those countries.

Inspection of Swedish-owned property in Germany.

7. (a) The three Allied Governments will make arrangements, through their Missions in Stockholm, for the admission of an official Swedish delegation which will be permitted to visit the zones of Germany in the charge of those Governments, and to inspect properties of corporations in which Swedish nationals have a substantial ownership interest, or which are directly owned by Swedish nationals. The inspection and other activities of the delegation will be limited only by general requirements of military security and convenience, and by such general laws and regulations as are applicable to all persons travelling in Germany.

Property in Germany of nationals of friendly foreign states.

(b) It is the intention of the three Allied Governments to give non-discriminatory protection to the property in Germany of nationals of friendly foreign states, including property of corporations in which they have a substantial ownership interest. Provision will be made for equitable compensation in Germany with respect to removals and other dispositions of such properties by the Allied authorities in the zones of Germany occupied by them.

8. The Allied Governments will, in due time, require Germany or the future German Government to confirm the provisions of this understanding insofar as they affect German property in Sweden. Confirmation of understanding by Germany.

9. This understanding, together with the further letters exchanged today, shall, except where otherwise provided, take effect upon approval by the Swedish Riksdag. [1] Effective date.

Accept, Sir, the renewed assurances of our most distinguished consideration.

DEAR JUSTICE SANDSTRÖM:

Restitution of looted property in Sweden.

During the course of the discussions which have been concluded concerning German property in Sweden, you advised us of the procedures in effect in Sweden for the restitution of property located in Sweden which was looted by Germany or its nationals. You made known to us the fact that these procedures, as established by Swedish law of June 29, 1945 (No. 520), provide a simple and inexpensive method by which victims of spoliation may obtain restitution of their property in Sweden.

We wish to express our appreciation of these procedures which we have confidence the Government of Sweden will continue. In this

connection, you will recall that the problem of locating looted securities was discussed. We appreciate the fact that your Government will consider sympathetically this problem and such procedures as the Allied Governments may subsequently propose to you for the purpose of facilitating the location of such securities.

Accept, Sir, the renewed assurances of our most distinguished consideration.

Investigation of German assets held outside of Sweden.

In connection with the understanding we have reached, the Allied Delegations pointed out the importance of the Swedish Government conducting investigations of German assets which are held outside of Sweden by or through Swedish nationals or institutions. The Allied Delegations pointed out that the uncovering of such assets can only take place with the cooperation and assistance of the Government of Sweden.

It is therefore requested that the Government of Sweden take appropriate action through census and other means to identify such German assets as may be held outside Sweden by or through Swedish nationals or institutions and to make this information available to the Allied Governments.

German-owned patents in Sweden.

In connection with the understanding we have reached, it has been agreed that, pending the conclusion of multilateral arrangements, to which it is the intention of the Allies to invite the Swedish Government to adhere, and pending the decision of the Swedish Government regarding participation in such arrangements, no German owned patent in Sweden shall be sold or otherwise transferred for a period of three months from today's date or such further period as may then be agreed, except where, after notice to the Allies, it is found appropriate to sell patent rights as part of the sale of a German-controlled enterprise.

German trademarks and copyrights.

We have also discussed the problems arising out of German trademarks and copyrights. The Allied Governments contemplate that international discussions may also take place with respect to these matters, with the objective of establishing by agreement general policies with a view to eliminating certain German trademarks and to making freely available to the community such German copyrights as have special value. Pending the making of multilateral arrangements and the decision of the Swedish Government regarding participation in such arrangements, it is hoped that the Swedish Government will not take any action which would preclude their adherence to a policy consistent with such arrangements.

WASHINGTON, D.C.
July 18, 1946

GENTLEMEN:

I am authorized to make, on behalf of my Government, the following statement.

Contributions of Swedish Government.

The Swedish Government in pursuing its policy to participate in the work of reconstruction and rehabilitation has in connection with the understanding we have reached found it appropriate to make the following contributions:

Funds available to Inter-Governmental Committee on Refugees.

1. The Swedish Government will make available 50 million kronor to the Inter-Governmental Committee on Refugees for use in rehabilitation and resettlement of non-repatriable victims of German action.

You may rest assured that my Government, while reserving its decision as to the manner in which the funds will be made available, will use its best efforts to make the funds available as soon as possible and in such manner as to best carry out the aims of the Committee.

Countries party to Paris Agreement on Reparations.

2. The Swedish Government will further make available 75 million kronor, which it will allocate among countries party to the Paris Agreement on Reparations. Decisions upon allocation will be made after exchanges of views with the Allies acting on behalf of those countries and with favorable consideration of their views.

There will also be consultation between the Swedish Government and each of the countries which may receive credit for any part of this sum as regards the extent to which or manner in which benefit from its share shall be applied either in the remission, reduction or extension of any existing or future credit with Sweden of each such country, or otherwise, as may be agreed between each such country and Sweden.

Accept, Gentlemen, the renewed assurances of my most distinguished consideration.

Files of German Chamber of Commerce in Sweden, etc.

In connection with the understanding reached today, we raised the problem of having access to the files of the German Chamber of Commerce in Sweden.

You stated that the Government of Sweden will disclose to the representatives of the Allies any information contained in the files of the German Chamber of Commerce which may be relevant to the objectives of our understanding.

In view of the fact that approximately two-thirds of the funds which were made available to the German Chamber of Commerce were furnished by the German Government or its agents, the Government of Sweden is requested sympathetically to consider the suggestion that it should accordingly treat that proportion of the net proceeds of liquidation as a German asset.

The Chiefs of the Allied Delegations to the Chief of the Swedish Delegation

WASHINGTON, D.C.
le 18 juillet 1946.

MONSIEUR LE PRÉSIDENT,

Des Délégations représentant d'une part les Gouvernements des Etats-Unis d'Amérique, de la République Française et du Royaume Uni de Grande Bretagne et d'Irlande du Nord (ci-dessous désignés comme les Alliés), et d'autre part le Gouvernement de la Suède, se sont réunies à Washington pour échanger leurs vues sur des questions relatives aux intérêts allemands en Suède et à l'élimination de toute possibilité de risque de voir ces intérêts utilisés au service d'une nouvelle agression allemande.

Comme suite à cet échange de vues, et pour affirmer à nouveau leur volonté de se donner un appui mutuel pour atteindre ces objectifs de sécurité économique, les Délégations suédoise et alliées sont parvenues à l'accord suivant:

1. a) Le Gouvernement suédois confirme son intention de poursuivre un programme de sécurité économique par l'élimination des intérêts allemands en Suède.

b) Le Gouvernement suédois affirme, en outre, que le Bureau des Avoirs Etrangers (Flyktkapitalbyrån) continuera, à cette fin, de rechercher, de prendre sous contrôle, de liquider, de vendre ou de transférer les biens allemands, et que la procédure, déjà officieusement établie d'accord entre le Bureau des Avoirs Etrangers et les représentations alliées à Stockholm, sera poursuivie comme précédemment, comme un moyen d'échanger des informations relativement à la découverte et la liquidation des biens allemands, et de se prêter mutuellement assistance dans la réalisation de ce programme.

2. Le produit de la liquidation des avoirs allemands en Suède laissera, après que certaines créances suédoises auront été compensées, un solde qui sera considéré comme étant de 150 millions de couronnes. Afin d'aider à prévenir le danger d'épidémies et de troubles en Allemagne, cette somme de 150 millions de couronnes sera versée à un compte spécial chez la Banque d'Etat suédoise et utilisée pour financer tels achats—en Suède ou sur tout autre marché—de produits essen-

tiels pour l'économie allemande, dont il sera convenu entre le Gouvernement suédois et les Alliés. Dans la mesure où ces achats seront faits sur le marché suédois, les livraisons tiendront compte des limites imposées par le degré de rareté des produits disponibles.

3. Les propriétaires allemands interessés seront indemnisés en monnaie allemande en contrepartie de ceux de leurs biens qui auront été liquidés ou qui auront été l'objet d'un acte de disposition en Suède en vertu du présent accord. A cette fin, l'autorité suédoise compétente donnera aux Alliés les précisions nécessaires concernant le produit obtenu, avec indication du nom et de l'adresse du titulaire allemand du droit, et les autorités alliées en Allemagne prendront les mesures nécessaires pour enregistrer le titre des interessés allemands aux biens liquidés à recevoir la contre-partie de ceux-ci.

4. a) Fidèle à sa politique de restitution des biens pillés, le Gouvernement suédois restituera aux Alliés tout l'or qui a été acquis par la Suède et dont il sera prouvé qu'il a été pris par les Allemands dans les pays occupés, y compris l'équivalent de celui qui a été transféré à d'autres pays par la Banque d'Etat suédoise. Toute revendication de la part des gouvernements des pays occupés ou de leurs banques d'émission non présentée avant le 1er juillet 1947 sera réputée irrecevable.

b) Sur la base des renseignements actuellement produits, et sous réserve de plus amples vérifications, il est présumé que le poids de l'or que le Gouvernement suédois est tenu de restituer est de 7.155,32664 Kgs. d'or fin, correspondant à la quantité d'or provenant de la Banque de Belgique qui a été acquise par la Banque d'Etat suédoise et doit être restituée en application de ce qui précède.

c) Les Gouvernements alliés s'engagent à garantir le Gouvernement suédois contre toute réclamation qui pourra résulter de transferts effectués par la Banque d'Etat suédoise à d'autres pays d'or qui doit être restitué en vertu de la déclaration ci-dessus.

5. Les divergences sur l'interprétation et la portée des clauses ci-dessus seraient, si les quatre gouvernements n'en convenaient autrement, soumises à l'arbitrage.

6. Les représentants soussignés des Gouvernements des Etats-Unis d'Amérique, de la République Française et du Royaume Uni de Grande Bretagne et d'Irlande du Nord déclarent qu'en ce qui concerne les dispositions qui précèdent ils agissent également pour le compte des gouvernements des pays suivants: Albanie, Australie, Belgique, Canada, Danemark, Egypte, Grèce, Inde, Luxembourg, Norvège, Nouvelle Zélande, Pays-Bas, Tchécoslovaquie, Union de l'Afrique du Sud, Yougoslavie, et, en tant que de besoin, pour le compte de leurs banques d'émission.

7. a) Les trois Gouvernements alliés prendront, par l'intermédiaire de leurs représentations à Stockholm, des dispositions pour qu'une délégation officielle suédoise soit admise à visiter les zones dont ils ont respectivement la charge en Allemagne, et inspecter les biens des entreprises qui sont la propriété de ressortissants suédois ou dans lesquels des ressortissants suédois ont une participation substantielle. Le droit de regard et les activités de la Délégation ne seront limités

que par les exigences générales de la sécurité et des besoins militaires, et par les lois et règlements généraux applicables à toutes personnes voyageant en Allemagne.

b) Les trois Gouvernements alliés ont l'intention d'accorder une protection sans discrimination aux biens possédés en Allemagne par des ressortissants de pays étrangers amis, y compris les biens d'entreprises dans lesquelles ces ressortissants ont une participation substantielle. Des dispositions seront prises pour qu'une compensation équitable soit accordée en Allemagne dans le cas où de tels biens auront été l'objet de mesures d'enlèvement ou d'autres actes de disposition par les autorités alliées dans leurs zones d'occupation en Allemagne.

8. Les Alliés requerront en temps opportun l'Allemagne ou le futur gouvernement allemand de confirmer les stipulations du présent accord pour autant qu'elles concernent les biens allemands en Suède.

9. Le présent accord entrera en vigueur après approbation par le parlement suédois [1], ainsi que les autres lettres échangées en date de ce jour sauf dans les cas où il aura été prévu autrement./.

Veuillez agréer, Monsieur le Président, l'assurance de notre haute considération.

MONSIEUR LE PRÉSIDENT,

Au cours des négociations qui viennent de se terminer au sujet des avoirs allemands en Suède, vous nous avez fait savoir quelles étaient les procédures suivies en Suède pour la restitution des biens qui s'y trouvent et qui ont été pillés par l'Allemagne ou par ses ressortissants. Vous avez porté à notre connaissance le fait que ces procédures, telles qu'établies par la loi suédoise du 29 juin 1945 (No. 520) constituent un moyen simple et peu coûteux par lequel les victimes des spoliations peuvent obtenir la restitution de leurs biens en Suède.

Nous tenons à vous dire que ces procédures nous donnent satisfaction et que nous faisons confiance au Gouvernement suédois pour qu'il les continue. Vous vous souviendrez à ce sujet que nous avons abordé dans nos discussions le problème de la recherche des valeurs mobilières pillées. Nous notons avec satisfaction que votre Gouvernement entend examiner avec sympathie ce problème ainsi que les propositions de procédures destinées à faciliter la découverte de ces valeurs que les Gouvernements alliés pourront ultérieurement présenter./.

MONSIEUR LE PRÉSIDENT,

A l'occasion de l'accord auquel nous sommes parvenus, il a été entendu qu'en attendant la conclusion d'accords multipartites auxquels les Alliés ont l'intention d'inviter le Gouvernement suédois à adhérer, et la décision du Gouvernement suédois au sujet de sa participation aux dits arrangements, aucun brevet, propriété allemande en Suède, ne sera cédé pendant trois mois après la signature de la présente lettre, ou pendant telle période plus longue qui pourra être convenue, sauf dans les cas où, après avis donné aux Alliés, il serait jugé opportun de céder des droits de brevets englobés dans la vente d'une entreprise sous contrôle allemand.

Nous avons aussi discuté des problèmes posés par les marques de fabrique et droits d'auteurs allemands. Les gouvernements alliés envisagent des discussions internationales qui pourraient également avoir lieu sur ces matières afin d'établir par accord général une politique tendant à éliminer certaines marques de fabrique allemandes et à mettre à la libre disposition de la communauté les droits d'auteurs allemands qui ont une valeur particulière. En attendant de faire des accords multipartites et en attendant la décision du Gouvernement suédois au sujet de sa participation dans de tels accords, nous espérons que le Gouvernement suédois évitera d'entreprendre toute action qui rendrait impossible son adhésion à une politique compatible avec ces arrangements./.

MESSIEURS,

A l'occasion de l'accord auquel nous sommes parvenus, j'ai l'honneur de déclarer, au nom de mon Gouvernement, que, dans l'élimination des

intérêts allemands en Suède, la liquidation, la vente ou le transfert de biens allemands, et pour l'agrément des acquéreurs de ces biens, les principes et les pratiques appliqués et qui continueront d'être observés sont, entre autres, les suivants:

1/ Compte sera dûment tenu des nécessités de la sécurité mondiale, et notamment de la nécessité d'éliminer complètement toute forme de contrôle allemand et d'influence économique allemande, ainsi que des intérêts de l'économie suédoise, et de l'intérêt d'obtenir le plus haut prix possible.

2/ Les ventes seront faites à des personnes autres que des ressortissants allemands et seront, dans la mesure du possible, publiques, sauf dans les cas où les avoirs seront acquis par le Gouvernement suédois.

3/ Lors de toute vente ou liquidation, les intérêts des ressortissants étrangers autres qu'allemands seront, qu'il s'agisse d'intérêts directs ou indirects, protégés dans la même mesure et de la même manière que ceux des ressortissants suédois, sous condition de réciprocité dans le pays de ces étrangers.

4/ Le Bureau des Avoirs Etrangers s'enquerra de la bonne foi des transactions qui sont à l'origine de sûretés et de créances portant sur des biens allemands, et notamment de celles qui sont intervenues immédiatement avant le début des hostilités ou depuis lors.

5/ L'expression "biens allemands" telle qu'elle est employée dans l'accord comprend tous biens possédés ou contrôlés, directement ou indirectement, par des personnes morales ou physiques de nationalité allemande en Allemagne, ou devant être rapatriées en Allemagne, autres que celles dont le cas mérite un traitement exceptionnel./.

Je suis autorisé à faire, au nom de mon Gouvernement, la déclaration suivante.

Le Gouvernement suédois, fidèle à sa politique de participation à l'oeuvre de reconstruction et de restauration, a jugé convenable, à

l'occasion de l'accord auquel nous sommes parvenus, d'apporter les contributions suivantes:

1) Le Gouvernement suédois mettra à la disposition du Comité Intergouvernemental des Réfugiés une somme de cinquante millions de couronnes qui sera employée au relèvement et au réétablissement des victimes non rapatriables de l'action allemande.

Vous pouvez être assurés que mon Gouvernement, bien qu'il réserve sa décision sur la façon dont les fonds seront rendus disponibles, fera tous ses efforts pour que les fonds soient rendus disponibles aussitôt que possible et de la manière la plus apte à atteindre les objectifs du Comité.

2) Le Gouvernement suédois affectera en outre une somme de soixante-quinze millions de couronnes pour la répartir au bénéfice de pays signataires de l'Accord de Paris sur les réparations. Les décisions relatives à la répartition seront prises après échanges de vues avec les Alliés agissant au nom de ces pays, et en examinant leurs vues avec faveur.

Des consultations auront également lieu entre le Gouvernement suédois et chacun des pays qui pourront recevoir une part quelconque de cette somme, en ce qui concerne la mesure dans laquelle, ou la manière suivant laquelle, ce pays bénéficiera de sa part, soit par la remise, la réduction ou l'augmentation d'un crédit présent, ou l'octroi d'un nouveau crédit accordé par la Suède à ce pays, soit autrement, suivant ce qui sera convenu entre ce pays et la Suède./.

(d) The fuel, lubricating oils, spare parts, regular equipment and aircraft stores retained on board civil aircraft of the airlines of one Contracting Party authorized to operate the routes and services described in the Annex shall, upon arriving in or leaving the territory of the other Contracting Party, be exempt from customs, inspection fees or similar duties or charges, even though such supplies be used or consumed by such aircraft on flights in that territory.

ARTICLE V

Laws and regulations.

(a) The laws and regulations of one Contracting Party relating to the admission to or departure from its territory of aircraft engaged in international air navigation, or to the operation and navigation of such aircraft while within its territory, shall be applied to the aircraft of the other Contracting Party, and shall be complied with by such aircraft upon entering or departing from or while within the territory of the first Party.

ARTICLE VI

Withholding or revocation of rights.

Notwithstanding the provisions of Article XI of this Agreement, each Contracting Party reserves the right to withhold or revoke the exercise of the rights specified in the Annex to this Agreement by an airline designated by the other Contracting Party in the event that it is not satisfied that substantial ownership and effective control of such airline are vested in nationals of the other Contracting Party, or in case of failure by such airline or the government designating such airline, to comply with the laws and regulations referred to in Article V hereof, or otherwise to perform its obligations hereunder, or to fulfil the conditions under which the rights are granted in accordance with this Agreement and its Annex.

Registration.

This Agreement and all contracts connected therewith shall be registered with the International Civil Aviation Organization.

ARTICLE IX

Disputes.
Post, p. 3246.

Except as otherwise provided in this Agreement or its Annex, any dispute between the Contracting Parties relative to the interpretation or application of this Agreement or its Annex, which cannot be settled through consultation, shall be submitted for an advisory report to a tribunal of three arbitrators, one to be named by each Contracting Party, and the third to be agreed upon by the two arbitrators so chosen, provided that such third arbitrator shall not be a national of either Contracting Party. Each of the Contracting Parties shall designate an arbitrator within two months of the date of delivery by either Party to the other Party of a diplomatic note requesting arbitration of a dispute; and the third arbitrator shall be agreed upon within one month after such period of two months. If the third arbitrator is not agreed upon within the time limitation indicated, the vacancy thereby created shall be filled by the appointment of a person, designated by the President of the Council of the International Civil Aviation Organization, from a panel of arbitral personnel maintained in accordance with the practice of the International Civil Aviation Organization. The executive authorities of the Contracting Parties will use their best efforts under the powers available to them to put into effect the opinion expressed in any such advisory report. This Agreement, including the provisions of the Annex thereto, will come into force on the day it is signed.

ARTICLE XI

Notice of intention to terminate agreement.

Either Contracting Party may at any time give notice to the other of its intention to terminate this Agreement. Such notice shall be simultaneously communicated to the International Civil Aviation Organization. If such notice is given, this Agreement shall terminate one year after the date of receipt of such notice by the Contracting Party, unless such notice is, by mutual assent of both Contracting Parties, withdrawn. In the absence of acknowledgment by the other Contracting Party specifying an earlier date of receipt, notice shall be deemed to have been received 14 days after the receipt of the notice by the International Civil Aviation Organization.

ARTICLE XII

Duration.
Post, p. 3246.

This Agreement, including the provisions of the Annex thereto, shall, subject to the provisions for termination of the Agreement contained in Article XI above, remain in force from its effective date until such time as it is replaced by a permanent air transport agreement which may be negotiated between the Contracting Parties subsequent to the entry into force of a treaty between the Allied Powers and Austria.

PROVISORISCHES LUFTVERKEHRSABKOMMEN ZWISCHEN DER ÖSTERREICHISCHEN BUNDESREGIERUNG UND DER REGIERUNG DER VEREINIGTEN STAATEN VON AMERIKA.

Im Hinblick einerseits auf die Moskauer Erklärung über Österreich, die von der vom 19. bis 30. Oktober 1943 abgehaltenen Moskauer Konferenz, an der die Regierungen der Vereinigten Staaten von Amerika, des Vereinigten Königreiches von Großbritannien und Nordirland und der Union der Sozialistischen Sowjetrepubliken beteiligt waren, abgegeben wurde, und im Hinblick anderseits auf die der Österreichischen Bundesregierung erteilte Befugnis, internationale Abkommen einzugehen, die den Bestimmungen des am 28. Juni 1946 in Kraft getretenen "Kontrollabkommen für Österreich" unterliegt;

Im Hinblick ferner auf die Resolution, die in der am 7. Dezember 1944 in Chicago unterzeichneten Abschluß-Akte der Internationalen Zivilluftfahrtkonferenz enthalten ist, welche eine einheitliche Form für Abmachungen über provisorische Luftwege und Luftverkehrsdienste empfiehlt, sowie von dem Wunsche geleitet, die gesunde wirtschaftliche Entwicklung des Luftverkehrs zwischen den Vereinigten Staaten von Amerika und der Republik Österreich gegenseitig anzuregen und zu fördern;

Vereinbaren die beiden an dieser Abmachung beteiligten Regierungen, die Entwicklung der regelmäßigen Luftverkehrsdienste zwischen ihren Gebieten durch die folgenden Bestimmungen zu regeln :

Artikel I.

Die vertragschließenden Teile gewähren die Rechte, welche in der beiliegenden Anlage präzisiert und für die Einrichtung der darin beschriebenen regelmäßigen internationalen Zivilluftwege und Luftverkehrsdienste erforderlich sind, gleichviel, ob diese Dienste sofort aufgenommen werden, oder aber zu einem späteren Zeitpunkte, infolge von :
a) freier Wahl der vertragschließenden Teile, denen die Rechte gewährt werden; oder b) Beschränkungen, die auf Grund der Ver-

./.

ordnungsgewalt des Alliierten Rates auferlegt werden, die in dem am 28. Juni 1946 in Kraft getretenen "Kontrollabkommen für Österreich" nebst eventuellen Ergänzungen niedergelegt sind; oder
c) eventuellen zwischen den Okkupationsmächten später zu vereinbarenden Kontrollabkommen.

ARTIKEL II.

Vorbehaltlich der Bestimmungen dieses Abkommens, ist jeder der hier angeführten Luftverkehrsdienste in Betrieb zu setzen, sobald derjenige vertragschließende Teil, dem in Artikel I das Recht gewährt wurde, eine oder mehrere Luftfahrtunternehmen für die betreffende Strecke namhaft zu machen, einem Luftfahrtunternehmen für diese Strecke die Genehmigung erteilt hat, und derjenige vertragschließende Teil, der das Recht gewährt, ist, vorbehaltlich Artikel VI dieses Abkommens, verpflichtet, dem oder den betreffenden Luftfahrtunternehmen die erforderliche Betriebserlaubnis zu erteilen; mit der Maßgabe, daß die derart namhaft gemachten Luftfahrtunternehmen verhalten werden können, den zuständigen Luftfahrtbehörden des vertragschließenden Teiles, welcher die Rechte gewährt, auf Grund der normalerweise von diesen Behörden angewendeten Gesetze und Vorschriften ihre Befähigung nachzuweisen, bevor es ihnen gestattet ist, den in diesem Abkommen in Aussicht genommenen Betrieb aufzunehmen. In Kampfgebieten oder militärisch besetzten Gebieten oder in davon berührten Gebieten unterliegt der Betrieb der Genehmigung der zuständigen militärischen Stellen.

ARTIKEL III.

Um jeder unterschiedlichen Behandlung vorzubeugen und um gleiche Behandlung zu gewährleisten, wird vereinbart, daß :
a) jeder der vertragschließenden Teile dem oder den nahmhaft gemachten Luftfahrtunternehmen des anderen vertragschließenden Teiles das Recht einräumt, seine Handelsflughäfen an den in der beiliegenden Anlage angeführten Orten zu benützen u.zw. auf der gleichen und nicht unterschiedlichen Grundlage wie heimische oder ausländische Luftfahrtunternehmen, die internationalen Luftverkehr betreiben.
b) jeder der vertragschließenden Teile für die Benützung öffentlicher Flughäfen und anderer unter seiner Aufsicht stehender Einrichtungen angemessene und mäßige Gebühren erheben oder erheben lassen kann. Jeder der vertragschließenden Teile erklärt sich aber damit einverstanden, daß diese Gebühren diejenigen nicht übersteigen

./.

dürfen, die von heimischen Luftfahrzeugen, die ähnlichen internationalen Luftverkehr betreiben, für die Benützung der betreffenden Flughäfen und Einrichtungen entrichtet werden.

c) Brennstoff, Schmieröl und Ersatzteile, die in das Gebiet eines der vertragschließenden Teile von dem anderen vertragschließenden Teile oder dessen Staatsangehörigen eingebracht werden und ausschließlich für den Gebrauch von Luftfahrzeugen des betreffenden vertragschließenden Teiles bestimmt sind, hinsichtlich der zu erhebenden Zölle, Abfertigungsgebühren oder anderer inländischen Zölle oder Abgaben desjenigen vertragschließenden Teiles, in dessen Gebiet sie eingebracht sind, der gleichen Behandlung zu unterliegen haben, wie die heimischen Luftfahrtunternehmen und diejenigen des meistbegünstigten Staates.

d) Brennstoff, Schmieröl, Ersatzteile, normale Ausrüstung und an Bord von Zivilluftfahrzeugen verbleibende Bordvorräte der Luftfahrtunternehmen eines vertragschließenden Teiles, der befugt ist, die in der Anlage angeführten Luftwege und Luftverkehrsdienste zu betreiben, bei der Ankunft im Gebiete oder beim Verlassen des Gebietes des anderen vertragschließenden Teiles von Zoll, Abfertigungsgebühren oder anderen ähnlichen Gebühren oder Abgaben zu befreien sind, selbst wenn derartige Vorräte während des Fluges innerhalb des betreffenden Gebietes von dem Luftfahrzeug gebraucht oder verbraucht werden.

ARTIKEL IV.

Die von einem der vertragschließenden Teile ausgestellten oder anerkannten Lufttüchtigkeitsscheine, Befähigungszeugnisse und Zulassungsscheine sind von dem anderen vertragschließenden Teile für den Betrieb der in der Anlage angeführten Strecken und Dienste als gültig anzuerkennen. Jeder der vertragschließenden Teile behält sich aber das Recht vor, den seinen Staatsangehörigen von einem anderen Staat ausgestellten Befähigungszeugnissen und Zulassungsscheinen zum Überfliegen seines eigenen Gebietes die Anerkennung zu versagen.

ARTIKEL V.

a) Die Gesetze und Vorschriften eines vertragschließenden Teiles, betreffend die Zulassung in sein Gebiet oder den Ausflug aus seinem Gebiet für Luftfahrzeuge im internationalen Luftverkehr, oder betreffend den Betrieb und die Navigation solcher Luftfahrzeuge innerhalb seines Gebietes sind auf die Luftfahr-

./.

zeuge des anderen vertragschließenden Teiles anzuwenden und müssen von solchen Luftfahrzeugen beim Einflug, Ausflug und innerhalb des Gebietes des erstgenannten Teiles befolgt werden.

b) Die Gesetze und Vorschriften eines vertragschließenden Teiles, betreffend die Zulassung in oder den Ausflug aus seinem Gebiet von Fluggästen, Besatzung oder Ladung von Luftfahrzeugen, wie zum Beispiel Vorschriften über Grenzübertritt, Abfertigung, Einwanderung, Passkontrolle, Zollabfertigung und Quarantäne müssen beim Einflug, Ausflug und innerhalb des Gebietes des erstgenannten Teiles von oder hinsichtlich derartiger Fluggäste(n), Besatzung oder Ladung eingehalten werden.

ARTIKEL VI.

Ungeachtet der Bestimmungen des Artikels XI dieses Abkommens behält sich jeder der vertragschließenden Teile das Recht vor, die Ausübung der in der Beilage dieses Abkommens umschriebenen Rechte durch ein von dem anderen vertragschließenden Teile namhaft gemachtes Luftfahrtunternehmen zurückzuhalten oder zu widerrufen, falls er nicht davon überzeugt ist, daß ein beträchtlicher Teil des Eigentumsrechtes und die tatsächliche Aufsicht des betreffenden Luftfahrtunternehmens in den Händen von Staatsangehörigen des anderen vertragschließenden Teiles liegt oder, wenn das Luftfahrtunternehmen oder die Regierung, die dieses Luftfahrtunternehmen namhaft gemacht hat, die im Artikel V dieses Abkommens erwähnten Gesetze und Vorschriften nicht befolgt oder sonst seine Verpflichtungen gemäß diesem Abkommen nicht einhält oder die Bedingungen nicht erfüllt, unter denen die Rechte im Sinne dieses Abkommens und der Anlage gewährt werden.

ARTIKEL VII.

Dieses Abkommen und alle damit zusammenhängenden Verträge sind bei der Internationalen Zivilluftfahrtorganisation (ICAO) eintragen zu lassen.

ARTIKEL VIII.

Im Falle einer der beiden vertragschließenden Teile es für wünschenswert erachtet, die in der beiliegenden Anlage angeführten Flugwege- oder Bedingungen abzuändern, kann er eine Beratung der zuständigen Behörden beider vertragschließenden

./.

Teile verlangen, die innerhalb einer Frist von sechzig Tagen vom Datum des Verlangens zu beginnen hat. Falls diese Behörden über neue oder abgeänderte Bestimmungen hinsichtlich der Anlage zu einem beiderseitigen Einvernehmen gelangen, werden ihre diesbezüglichen Empfehlungen nach Bestätigung durch einen diplomatischen Notenwechsel in Kraft gesetzt werden.

ARTIKEL IX.

Streitigkeiten, die sich zwischen den vertragschließenden Teilen über die Auslegung oder Anwendung dieses Abkommens oder seiner Anlage ergeben, sind soweit in diesem Abkommen oder seiner Anlage nichts anderes vorgesehen ist und soweit sie nicht durch Verständigung beigelegt werden können, zur Einholung eines Konsultativbescheides einem Schiedsgerichte, bestehend aus drei Schiedsrichtern, zu unterbreiten, von denen je einer von jedem vertragschließenden Teil und der dritte durch Vereinbarung der zwei Schiedsrichter zu bestimmen ist, wobei dieser dritte Schiedsrichter kein Staatsangehöriger der beiden vertragschließenden Teile sein darf. Jeder der vertragschließenden Teile macht einen Schiedsrichter innerhalb von zwei Monaten vom Datum der Einhändigung einer von dem einen Teile dem anderen Teile gerichteten diplomatischen Note namhaft, in der ein Schiedsspruch über eine Streitigkeit verlangt wird; das Einverständnis über den dritten Schiedsrichter muß innerhalb eines Monats nach Ablauf dieser Frist von zwei Monaten erzielt werden. Wenn kein Einverständnis über den dritten Schiedsrichter innerhalb der angegebenen Frist erzielt werden kann, ist die unbesetzte Stelle durch Ernennung einer vom Ratspräsidenten der ICAO zu bestimmenden Persönlichkeit zu besetzen, die einer nach den Gepflogenheiten der ICAO geführten Schiedsrichterliste zu entnehmen ist. Die ausführenden Behörden der vertragschließenden Teile werden innerhalb ihrer Befugnisse ihr Möglichstes tun, um dem in einem solchen Konsultativbescheid abgegebenen Gutachten Wirkung zu verleihen. Die Kosten des Schiedsgerichtes werden von jeder Partei zur Hälfte getragen.

ARTIKEL X.

Dieses Abkommen, einschliesslich der in der Anlage enthaltenen Bestimmungen, tritt am Tage der Unterzeichnung in Kraft.

./.

ARTIKEL XI

Jeder der beiden vertragschliessenden Teile kann jederzeit dem anderen seine Absicht bekanntgeben, dieses Abkommen zu kündigen. Diese Kündigung ist gleichzeitig der ICAO mitzuteilen. Wenn eine solche Kündigung erfolgt ist, läuft dieses Abkommen nach einem Jahr von dem Datum ab, an dem der vertragschliessende Teil die Kündigung erhalten hat, sofern die Kündigung nicht mit gegenseitiger Zustimmung beider vertragschliessender Teile zurückgezogen wird. Mangels einer von dem anderen Vertragsstaat erfolgten Bestätigung, die ein früheres Empfangsdatum festsetzt, ist die Kündigung als vierzehn Tage nach Eingang bei der ICAO erfolgt anzusehen.

ARTIKEL XII.

Das vorliegende Abkommen einschliesslich der in der Anlage enthaltenen Bestimmungen bleibt, vorbehaltlich der im obigen Artikel XI enthaltenen Bestimmungen über die Aufhebung des Abkommens, von dem Tage seines Inkrafttretens solange in Kraft, bis es von einem permanenten Luftverkehrsabkommen abgelöst wird, das zwischen den vertragschliessenden Teilen nach dem Inkrafttreten eines Vertrages zwischen den Alliierten Mächten und Österreich eventuell zum Abschluss gebracht wird.

Zur Urkunde dessen haben die Unterfertigten, die von ihren Regierungen dazu ordnungsgemäss bevollmächtigt sind, dieses Abkommen in doppelter Urschrift in deutscher und englischer Sprache unterzeichnet, die beide in gleicher Weise massgebend sind.

Agreement between the United States of America and Ecuador respecting a cooperative educational program in Ecuador. Effected by exchange of notes signed at Quito January 22, 1945; entered into force January 22, 1945.

January 22, 1945
[T. I. A. S. 1660]

The American Ambassador to the Ecuadoran Minister for Foreign Affairs

EMBASSY OF THE
UNITED STATES OF AMERICA
Quito, January 22, 1945

No. 18

EXCELLENCY:

I have the honor to refer to previous conversations between myself and Mr. Kenneth Holland, President of the Inter-American Educational Foundation, Inc., the Minister of Public Education and other officials of the Government of Ecuador, concerning the possibility of a cooperative program of education in Ecuador.

I have the honor to inform your Excellency that pursuant to Resolution No. 28 of the First Conference of Ministers and Directors of Education of the American Republics,[1] and pursuant to the expressed desire of the Government of the Republic of Ecuador, the Government of the United States is prepared to undertake a cooperative program of education with the Government of Ecuador, for the purpose of bringing about a better interchange of educational ideas and methods between the two countries.

Contributions.

I have the honor to state that my Government, acting through the Inter-American Educational Foundation, Inc., a corporation of the Office of the Coordinator of Inter-American Affairs, is prepared to make available for such a cooperative program of education the sum of One Hundred Thousand Dollars ($100,000.00 U. S.) at an agreed minimum rate of exchange, on the understanding that the Government of Ecuador for its part will contribute the sum of Six Hundred Seventy Thousand Sucres (S/670.000,00), being the equivalent of Fifty Thousand Dollars ($50,000.00 U.S.) at the same rate of exchange, as well as such personnel, supplies and materials as it may see fit to provide within Ecuador.

It is proposed that the program be carried on for approximately three years, in accordance with the following general plan.

Educational specialists.

At the request of Your Excellency's Government and within the limit of the funds set aside for the purpose, the Foundation will send to Ecuador such educational specialists as may be considered necessary in order to collaborate with your Excellency's Government in the cooperative program, and they shall be acceptable to the Ecuadoran Government. This group shall be under the direction of an official

[1] [Not printed].

who will be designated as the Special Representative of the Inter-American Educational Foundation, Inc., and will be the representative of the Foundation in Ecuador in connection with this program.

The specific projects and activities to be undertaken and the allocation of program funds therefor, and the methods and procedures and administrative practices to be employed in conducting the program, will be mutually agreed upon by the Minister of Education of the Government of Ecuador and the Special Representative of the Foundation. Such projects will include the sending of Ecuadoran specialists in education to the United States.

It is proposed that the program be carried out through an appropriate organization, section or procedures to be established within the Ministry of Education itself with administrative autonomy and that the said Special Representative shall also be named as the Director of such organization or section and shall administer the program.

Salaries and expenses.

Of the funds made available by the United States Government, Seventy Thousand Dollars ($70,000.00 U. S.) will be set aside and used for paying the salaries and other expenses of the educational specialists furnished by the Foundation, and the balance, together with the funds contributed by the Government of Ecuador, would be made available in Ecuador for the projects and activities mutually agreed upon for the program.

Ownership of property.

All property purchased with the funds made available in accordance with this proposal will become the property of the Government of Ecuador and shall be used for the cooperative program of education.

Exemption of specialists from taxes, etc.

Inasmuch as the specialists to be sent to Ecuador by the Foundation will be United States citizens and employees of the United States Government and also non-residents of Ecuador, it is suggested that they shall be exempt from all income taxes and social security taxes with respect to income on which they are obliged to pay income or social security taxes to the Government of the United States of America, and from payment of customs and import duties and other taxes on their personal effects and equipment and supplies for their own use, and from investment and deposit requirements and other foreign exchange controls on funds brought into Ecuador for their normal living expenses.

I should be glad if your Excellency would be so good as to confirm to me your approval of this general proposal, with the understanding that the details for the establishment and organization of the proposed cooperative program shall be further discussed and settled by written agreement between the Foundation and the Minister of Education.

Please accept, Excellency, the renewed assurances of my highest and most distinguished consideration.

Señor Doctor CAMILO PONCE ENRÍQUEZ,

SEÑOR EMBAJADOR:

Tengo a honra responder a la atenta nota de Vuestra Excelencia, signada con el número 18 y de fecha 22 del mes en curso, en la que, con referencia a las conversaciones que ha mantenido con el señor Ministro de Educación Pública y con el señor Kenneth Holland, Presidente de la "Inter-American Educational Foundation Inc." y otros funcionarios del Gobierno del Ecuador, sobre la posibilidad de emprender un programa cooperativo de educación, me informa que el Gobierno de los Estados Unidos está dispuesto a acceder al deseo del Gobierno ecuatoriano para realizar aquel proyecto que, indiscutiblemente, serviría para un intercambio más intenso de ideas y métodos de educación entre los dos países.

2. Me manifiesta Vuestra Excelencia que el Gobierno de los Estados Unidos, por intermedio de la "Inter-American Educational Foundation Inc." cooperaría a dicho programa educacional con la suma de $100.000, a un tipo de cambio mínimo, siempre que, por su parte, el Gobierno del Ecuador destine al efecto una cantidad equivalente a $50.000, al mismo tipo de cambio, así como el personal y más elementos que crea necesarios proveer.

3. Expresa Vuestra Excelencia que el Gobierno de Estados Unidos, por intermedio de la Fundación, enviará los especialistas que fueren necesarios para colaborar con el personal ecuatoriano. El personal de especialistas deberá estar bajo la dirección de un funcionario norteamericano que será el representante especial de la Fundación.

4. Indica que, de acuerdo con las resoluciones adoptadas con el Señor Ministro de Educación, los proyectos y actividades a llevarse a cabo, así como los demás detalles referentes al desenvolvimiento del programa de cooperación educacional, tendrán que ser aportados, oportunamente, de común acuerdo entre los funcionarios ecuatorianos y los especialistas de Estados Unidos de Norte América.

5. En nombre del Gobierno del Ecuador expreso a Vuestra Excelencia la satisfacción conque se ha visto el empeño del Gobierno Norte americano por cooperar al esfuerzo educacional del país y agradezco a Vuestra Excelencia por las oportunas y eficientes gestiones llevadas a cabo para convertir en realidad aquel anhelo ecuatoriano.

6. El Ministerio de Educación, en momento adecuado, procederá a establecer el Organismo que, con autonomía administrativa, se encargue, dentro de los lineamientos del Convenio, del desarrollo científico y eficiente del programa acordado.

7. Por mi parte, al aprobar las bases generales sobre las que deberá establecerse el Convenio de cooperación educacional, debo manifestar a Vuestra Excelencia que, dentro de las posibilidades, no omitiré esfuerzo alguno para el buen éxito del programa y para que éste

ensayo de cooperación constituya nuevo motivo para el mejor conocimiento de nuestros dos países.

8. Con respecto a la posibilidad de que se conceda a funcionarios Norteamericanos ciertos privilegios y excenciones constantes en la nota a que respondo, creo que no es posible pronunciarse de momento, pues habrá que hacer un detenido estudio de la Legislación ecuatoriana, para ver de conformar la concesión de dichos privilegios con las disposiciones legales pertinentes.

Válgome de esta oportunidad para renovar a Vuestra Excelencia las seguridades de mi más alta y distinguida consideración,

C. PONCE ENRÍQUEZ.

REPUBLIC OF ECUADOR
MINISTRY OF FOREIGN RELATIONS

28-DDP-5

QUITO, *January 22, 1945.*

Mr. AMBASSADOR:

I have the honor to reply to Your Excellency's courteous note number 18 of the 22d of the current month, in which, with reference to the conversations held with the Minister of Public Education and Mr. Kenneth Holland, President of the "Inter-American Educational Foundation Inc." and other officials of the Government of Ecuador concerning the possibility of undertaking a cooperative program of education, you inform me that the United States Government is prepared to comply with the Ecuadoran Government's desire to carry out that project which assuredly would serve to stimulate the exchange of educational ideas and methods between the two countries.

2. Your Excellency informs me that the United States Government, acting through the "Inter-American Educational Foundation Inc." will cooperate in the said educational program by making available the sum of $100,000 at a minimum rate of exchange—provided that the Government of Ecuador for its part allocates for that purpose an amount equivalent to $50,000 at the same rate of exchange—as well as such personnel and other essentials as it may consider necessary to provide.

3. Your Excellency states that the United States Government acting through the Foundation, will send such specialists as may be necessary to collaborate with the Ecuadoran personnel. The specialized personnel is to be under the direction of a North American official who will be the special representative of the Foundation.

4. You indicate that, in accordance with the decisions made in agreement with the Minister of Education, the projects and activities to be undertaken, as well as the other details related to the development of the cooperative educational program, must be duly carried out by mutual agreement between the Ecuadoran officials and the North American specialists.

5. In the name of the Ecuadoran Government, I wish to express to Your Excellency the satisfaction with which the intention of the North American Government to cooperate in this country's educational endeavors is regarded, and I thank Your Excellency for the timely and effective steps taken to bring to fruition that aspiration on the part of Ecuador.

6. The Ministry of Education will, in due time, proceed to establish the Organization with administrative autonomy which, within the framework of the Agreement, will take charge of the Scientific and effective development of the program agreed upon.

7. For my part, in giving my approval to the general basis on which the Cooperative Educational Agreement is to be effected, I must inform Your Excellency that I will not fail to make every possible effort tending toward the success of the program, and to the end that this test of cooperation may become a new factor for a better understanding between our two countries.

8. With respect to the possibility that certain privileges and exemptions specified in the note to which I am replying may be granted to North American officials, I do not believe it possible to make a definite statement at this time; for a careful study of Ecuadoran legislation will have to be made in order to determine how to reconcile the granting of such privileges with the pertinent legal provisions.

I avail myself of this opportunity to renew to Your Excellency the assurances of my highest and most distinguished consideration.

C. PONCE ENRÍQUEZ.

His Excellency
MR. ROBERT MCGREGOR SCOTTEN
Ambassador Extraordinary and Plenipotentiary of the United States of America.

Contract Between the President of the Inter-American Educational Foundation, Inc., and the Ecuadoran Minister of Public Education

The REPUBLIC OF ECUADOR (hereinafter called the "Republic"); and the INTER-AMERICAN EDUCATIONAL FOUNDATION, INC., a corporation of the Office of the Coordinator of Inter-American Affairs and an agency of the Government of the United States of America (hereinafter called the "Foundation"), have decided to enter into the following contract to undertake a cooperative educational program to promote Inter-American understanding by bringing about a better interchange of educators, educational ideas and methods between Ecuador and the United States, pursuant to Resolution 28 adopted by the First Conference of Ministers and Directors of Education of the American Republics held in Panama in September and October 1943.

1. The said cooperative educational program shall include:

a. Furnishing by the Foundation of a small Field Staff of educational specialists for service in Ecuador in carrying out the cooperative educational program;

e. Local projects needed to implement the program in Ecuador.

The cooperative program of education shall be limited to relatively few projects, each of which is of special interest to the Government of Ecuador, in order that definite results may be obtained and that such results will be indicative of the cooperation existing between the Government of Ecuador and the Government of the United States in the important field of public education.

The Ministry of Education considers the solution of the following problems as being particularly important:

a. The training of school administrators (school directors, school inspectors, provincial directors of education, etc.)

The Special Representative of the Foundation shall be named as Director of the Servicio.

Director.

4. The program shall consist of individual projects. The kind of work and the specific projects to be undertaken in the execution of this agreement and the allocation of funds therefor shall be agreed upon in writing by the Minister of Public Education and the Special

Representative of the Foundation, and shall be carried out by the Director of the Servicio in conformity with policies prescribed jointly by the Minister and the Special Representative of the Foundation. The Ecuadoran educators to be sent to the United States and the terms of their scholarships or grants shall be mutually agreed upon in writing by the Minister and the Special Representative.

Payment of salaries and expenses of Field Staff.

5. The Foundation shall determine and pay the salary and other expenses payable directly to members of the Field Staff in an amount not to exceed Seventy Thousand Dollars ($70,000) U. S. currency, which it will retain in the United States, and shall in addition deposit in the Banco Central del Ecuador in Quito (or in any other bank which may be mutually agreed upon by the Minister and the Special Representative of the Foundation) to the account of the Servicio Cooperativo Interamericano de Educación, the sum of Thirty Thousand Dollars ($30,000) U. S. currency, the total contribution of the United States Government to this program being therefore One Hundred Thousand Dollars ($100,000).

The Republic shall deposit in the same bank and to the account of the Servicio Cooperativo Interamericano de Educación the sum of Six Hundred Seventy Thousand Sucres (S/.670.000), being the equivalent of Fifty Thousand Dollars, at the rate of exchange of 13.4 sucres per dollar. 6. Inasmuch as the program funds will be used entirely for the benefit of Ecuador, the funds introduced into Ecuador by the Foundation for the purpose of the cooperative program shall be exempt from taxes, service charges, investment or deposit requirements, and other currency controls, and shall be converted into sucres at a rate of exchange of not less than 13.4 sucres per dollar. Similarly where it is necessary to convert sucres into dollars for the financing of scholarships or grants or other expenditures in the United States, the sucres shall be converted into dollars at the rate of exchange of not more than 13.5 sucres per dollar.

Conversion of currency.

Withholding of funds from account.

7. In view of the fact that many purchases of materials and supplies and other disbursements relating to the execution of the Program, must necessarily be made in the United States of America, the Minister and the Special Representative of the Foundation may agree to withhold from the payments to be made by the Foundation into the said Servicio bank account, as provided in clause 5 hereof, an amount deemed to be necessary to pay for such purchases and disbursements in the United States of America. Said amount shall be considered as if deposited under the terms of this agreement. Any funds so withheld by the Foundation for such purposes and not expended or obligated therefor, shall be deposited in the said Servicio bank account at any time upon the mutual agreement of the Minister and the Special Representative of the Foundation.

General policies and procedures.

8. All contracts necessary to carry out the terms of the projects mutually agreed to as herein provided shall be made in the name of the Servicio and shall be signed by the Minister and the Director of the Servicio. Personnel to be paid out of Program funds deposited in Ecuador shall be selected by the Director of the Servicio, subject to the approval of the Minister. The general policies and procedures for the execution of the Program and for the disbursement and accounting of funds, for the purchase, use, inventory, control and disposition of property, and any other administrative matters, shall be determined or established by mutual agreement between the Minister and the Special Representative of the Foundation. No disbursement from the said Servicio bank account may be made without the signed authorization of the Director of the Servicio or his delegate and of the Minister or his delegate. Checks for an amount of more than Three Thousand Sucres (S/.3,000) also should bear both signatures. The books and records of the Servicio relating to the said cooperative educational program shall be open at all times for inspection by representatives of the Republic and of the Foundation, and the Director of the Servicio shall render financial reports to the Republic and to the Foundation at such intervals as may be agreed upon between the Minister and the Special Representative of the Foundation.

Additional assistance.

9. The Foundation shall use its best efforts to obtain such assistance and cooperation of the Office of the Coordinator of Inter-American Affairs and other agencies, both public and private, in the United States, as may be appropriate for the execution of the said cooperative educational program. The Republic, in addition to its cash contribution as provided herein, shall (a) appoint specialists, in agreement with the Director of the Servicio, to collaborate with the Field Staff of the Foundation; (b) make available office space, furnishings and such other facilities, materials, equipment and supplies as it may conveniently provide for the said program; and (c) lend the general assistance thereto of the other Departments of the Republic.

Availability of funds.

10. The funds payable by the Foundation under this agreement or paid by the parties hereto into the said Servicio bank account shall continue to be available for the said cooperative educational program

during the existence of this agreement, without regard to annual periods or fiscal years.

Surplus funds.

In the event that upon the expiration of each twelve-month period of this agreement, and again six months before its final expiration, the Foundation deems that the funds which it has set aside for the payment of salaries and other expenses directly payable to members of the Field Staff, as provided in Clause 5 hereof, will be more than is needed for the purpose, the Foundation will thereupon advise the Republic of the surplus which it can accordingly make available for projects and such additional sum shall be paid into the Servicio bank account or be otherwise disposed of pursuant to this agreement.

Ante, p. 3263.

The Minister and the Special Representative of the Foundation shall determine by mutual agreement the disposition of any unobligated funds and of any personal property remaining in the control of the Servicio upon the termination of this agreement.

Rights and privileges.

11. All rights and privileges which are enjoyed by governmental and official divisions or agencies of the Republic shall accrue to the Servicio. Such rights and privileges shall include, for example, free postal, telegraph, and telephone service, special government rates on transportation companies, and also freedom and immunity from excise, stamp, property, income and all other taxes, as well as from consular charges and customs duties upon imports for the use of the Servicio in the cooperative educational program. The Foundation shall enjoy the same rights and exemptions with respect to its acts and property relating to the cooperative program.

Ownership of equipment, etc.

12. All materials, equipment, and supplies purchased with program funds shall become and remain the property of the Republic and shall be devoted to the program.

Delegation of power, etc.

13. Any right, power, or duty conferred by this agreement upon either the Minister, the Special Representative of the Foundation, or the Director of the Servicio, may be delegated by the recipient thereof to representatives in writing, provided that such representatives are satisfactory to the other parties. Regardless of the naming of said representatives, the Minister and the Special Representative of the Foundation shall have the right to refer any matter directly to one another for discussion and decision.

Amendments.

14. This agreement may be amended from time to time if deemed advisable by the parties hereto, such amendments to be in writing and signed by the representatives of the Republic and the Foundation.

Legislation, etc.

15. The Executive Power of the Republic will take the necessary steps to obtain the legislation, decrees, orders or resolutions necessary to carry out the terms of this agreement.

Duration of agreement.

16. This agreement shall be in force for a period of three years from the date hereof, and may be extended by mutual agreement for additional periods.

IN WITNESS WHEREOF, the parties hereto have caused this agreement to be executed by their duly authorized representatives, in English

REPUBLIC OF ECUADOR
By ALFREDO VERA
Ministro de Educación Publica

INTER-AMERICAN EDUCATIONAL FOUNDATION, INC.
By KENNETH HOLLAND
President

La REPUBLICA DEL ECUADOR (de aquí en adelante llamada "República") y la Inter-American Educational Foundation, Inc. (Fundación Educacional Interamericana), corporación de la Oficina del Coordinador de Asuntos Interamericanos y dependencia del Gobierno de los Estados Unidos de América (en adelante llamada "Fundación"), han decidido celebrar el siguiente contrato para llevar a cabo un programa educacional cooperativo para promover la comprensión interamericana por medio de un mejor intercambio, entre Ecuador y Estados Unidos, de educadores y de ideas y métodos educacionales, de acuerdo con la Resolución No. 28 adoptada por la Primera Conferencia de Ministros y Directores de Educación de las Repúblicas Americanas, efectuada en Panamá en los meses de septiembre y octubre de 1943.

1. El tal programa educacional cooperativo debe incluir:

a. Suministro por la Fundación de un pequeño cuerpo de especialistas en educación para trabajar en el Ecuador en la realización del programa educacional cooperativo;

b. Subvenciones para que educadores ecuatorianos puedan viajar a los Estados Unidos para adquirir entrenamiento especializado, para dar conferencias, enseñar e intercambiar ideas y experiencias con los educadores estadounidenses;

c. La exploración y estudio de las necesidades locales en el Ecuador y de los recursos con que cuenta para llevar a cabo proyectos educacionales en el campo de enseñanza primaria y secundaria y de perfeccionamiento del profesorado;

d. Desarrollo, adaptación e intercambio de materiales de enseñanza apropiados para los maestros en la enseñanza primaria, secundaria y del profesorado;

e. Proyectos locales necesarios para la aplicación del programa en el Ecuador.

El programa cooperativo educacional deberá ser limitado a relativamente pocos proyectos, cada uno de los cuales será de interés especial para el Gobierno del Ecuador, a fin de poder lograr resultados definitivos y de que tales resultados demuestren la cooperación existente entre el Gobierno del Ecuador y el Gobierno de los Estados Unidos en el importante campo de la educación pública.

El Ministerio de Educación considera especialmente importante la solución de los siguientes problemas:

a. La preparación de administradores escolares (directores de escuelas, inspectores escolares, directores provinciales de educación, etc.);

b. Orientación de las escuelas técnico-profesionales de tipo secundario, urbanos y rurales, incluyendo las secciones de orientación vocacional;

c. Orientación de las escuelas de experimentación pedagógica;

d. Tecnificación de la educación pre-escolar.

2. El cuerpo de especialistas (Field Staff) estará bajo la dirección de un funcionario que llevará el título de "Special Representative, Inter-American Educacional Foundation, Inc." (Representante Especial), y quien será el representante de la Fundación (corporación con personería jurídica) en relación con el programa a llevarse a cabo de conformidad con este acuerdo. El Representante Especial y los demás miembros del Cuerpo de Especialistas deberán ser aceptados por el Ministro de Educación Pública (en adelante llamado "Ministro").

3. Se establecerá en el Ministerio de Educación Pública un servicio especial técnico que será denominado "Servicio Cooperativo Interamericano de Educación" (de aquí en adelante llamado "Servicio"), que actuará como intermediario entre el Gobierno del Ecuador y la Inter-American Educational Foundation, Inc. y que llevará a cabo el programa cooperativo. El Representante Especial de la Fundación será nombrado Director del Servicio.

4. El programa consistirá de proyectos individuales. Las clases de actividades, y los proyectos específicos a efectuarse en la ejecución de este acuerdo y la asignación de los fondos para los mismos serán acordados por escrito por el Ministro de Educación Pública y el Representante Especial de la Fundación, y serán ejecutados por el Director del Servicio en conformidad con las normas y procedimientos establecidos conjuntamente por el Ministro y el Representante Especial de la Fundación. Los Educadores ecuatorianos a enviarse a Estados Unidos así como las condiciones de sus becas o subvenciones de entrenamiento, serán mutuamente acordados por escrito entre el Ministro y el Representante Especial de la Fundación.

5. La Fundación determinará y pagará los sueldos y otros gastos pagaderos directamente a los miembros del Cuerpo de Especialistas, cuyo monto no excederá de Setenta Mil Dólares ($ 70.000,oo U.S.), cantidad que retendrá en los Estados Unidos y, además, depositará en el Banco Central del Ecuador en Quito (o en cualquier otro banco que sea mutuamente convenido por el Ministro y el Representante Especial de la Fundación) a la cuenta del Servicio Cooperativo Interamericano de Educación, la suma de Treinta Mil Dólares ($ 30.000,oo U.S.), siendo por lo tanto la contribución total del Gobierno de los Estados Unidos para este programa, la cantidad de Cien Mil Dólares ($100.000,oo U.S.).

La República del Ecuador depositará en el mismo banco y a la cuenta del Servicio Cooperativo Interamericano de Educación la suma de Seiscientos Setenta Mil Sucres (S/.670.000,oo) siendo ésta el

equivalente de Cincuenta Mil Dólares, al tipo de cambio de 13.4 sucres por dólar. La mencionada contribución será en adición al presupuesto normal del Gobierno para la educación.

Los pagos serán efectuados por las partes en las fechas y cuotas estipuladas a continuación:

	EE.UU. de América	Ecuador
Marzo 20 de 1945	$10.000,oo U.S.	S/.220.000,oo
Enero 20 de 1946	$10.000,oo U.S.	S/.220.000,oo
Enero 20 de 1947	$10.000,oo U.S.	S/.230.000,oo
Total a depositarse	$30.000,oo U.S.	S/.670.000,oo
Sueldo y transporte a pagarse al personal estadounidense	$70.000,oo U.S.	
Total	$100.000,oo U.S.	

Los fondos depositados por cualquiera de las partes contratantes para cualquier año estipulado no serán girados hasta que los fondos para el mismo año no sean depositados por la otra parte. En caso de que una parte deposite su aporte y la otra no haga el depósito correspondiente dentro de los 30 días siguientes, aquel aporte será devuelto al contribuyente.

6. Por cuanto los fondos destinados al programa serán usados enteramente en beneficio del Ecuador, los fondos introducidos en el Ecuador por la Fundación para fines del programa cooperativo deberán ser exentos de impuestos, recargos por servicio, requerimientos de inversión o depósito, y otros controles de cambio, y serán convertidos en sucres a un tipo de cambio de no menos de 13.4 sucres por dólar. Así mismo cuando sea necesario convertir sucres a dólares para financiar las becas y subvenciones de entrenamiento y otros gastos en los Estados Unidos, los sucres serán convertidos en dólares a un tipo de cambio de no más de 13.5 sucres por dólar.

7. En vista de que muchas compras de materiales y equipos y otros desembolsos relacionados con la ejecución del Programa necesariamente tendrán que hacerse en los Estados Unidos de América, el Ministro y el Representante Especial de la Fundación podrán acordar el retener de los depósitos que la Fundación deberá hacer en la cuenta bancaria del Servicio, tal como se estipula en el artículo 5 de este contrato, la cantidad que consideren necesaria para efectuar dichas compras y desembolsos en los Estados Unidos de América. Esta cantidad será considerada como si se hubiera depositado bajo las disposiciones de este acuerdo. Cualesquiera fondos así retenidos por la Fundación para tales fines y no gastados o comprometidos para esto, serán depositados en la mencionada cuenta bancaria del Servicio en cualquier momento cuando el Ministro y el Representante Especial de la Fundación así lo convengan.

8. Todos los contratos necesarios para llevar a cabo los proyectos mutuamente acordados, de conformidad con este acuerdo, serán celebrados a nombre del Servicio y serán firmados por el Ministro y el Director del Servicio. El personal que será remunerado con fondos del Programa depositados en el Ecuador será seleccionado por el

Director del Servicio, sujeto a la aprobación del Ministro. Las normas generales y procedimientos para la ejecución del Programa y para el desembolso y contabilidad de los fondos, para la compra, uso, inventario, control y disposición de bienes y cualesquiera otros asuntos administrativos, serán determinados o establecidos por mutuo acuerdo entre el Ministro y el Representante Especial de la Fundación. No se hará ningún desembolso de la susodicha cuenta bancaria del Servicio sin la autorización firmada del Director del Servicio o de su delegado y del Ministro o de su delegado. Los cheques que pasen de Tres Mil Sucres (S/.3,000,oo) deberán también llevar ambas firmas. Los libros y records del Servicio relacionados con el programa cooperativo de educación estarán en todo tiempo disponibles para inspección por representantes de la República y de la Fundación; y el Director del Servicio rendirá informes financieros a la República y a la Fundación en los intervalos que sean acordados entre el Ministro y el Representante Especial de la Fundación.

9. La Fundación hará lo posible para conseguir de la Oficina del Coordinador de Asuntos Interamericanos y de otras entidades, tanto públicas como privadas, en los Estados Unidos, la ayuda y cooperación que sean convenientes para la ejecución del programa cooperativo educacional. La República, además de su contribución en efectivo aquí estipulada, (a) nombrará, de acuerdo con el Director del Servicio, especialistas para colaborar con el Cuerpo de Especialistas de la Fundación; (b) suministrará locales para oficinas, así como muebles y cualesquiera otras facilidades, materiales, equipos y suministros que pueda convenientemente aportar para tal programa y (c) en general, prestará al programa la ayuda de las demás dependencias de la República.

10. Los fondos pagaderos por la Fundación según este acuerdo, o depositados por las partes contratantes en la cuenta bancaria del Servicio, seguirán disponibles para dicho programa cooperativo de educación durante la vigencia de este acuerdo, sin tomar en consideración períodos anuales o años fiscales. En el caso de que a la expiración de cada período de 12 meses de este acuerdo, y también seis meses antes de su expiración final, la Fundación crea que los fondos segregados para el pago de sueldos y otros gastos pagaderos directamente a los miembros del Cuerpo de Especialistas, de conformidad con el Artículo 5 de éste, sea más de lo necesario para ese fin, la Fundación entonces avisará a la República del sobrante que, por consiguiente, podrá transferir para invertirse en proyectos y esta cantidad adicional se depositará en la cuenta bancaria del Servicio o se dispondrá de otra manera, de conformidad con este acuerdo.

El Ministro y el Representante Especial de la Fundación determinarán por mutuo acuerdo la disposición de cualesquiera fondos no comprometidos y de cualesquiera otros bienes que queden bajo el control del Servicio, al vencimiento de este acuerdo.

11. El Servicio disfrutará de todos los derechos y privilegios de que gozan dependencias y entidades gubernamentales y oficiales de la República. Tales derechos y privilegios incluirán, por ejemplo,

franquicia postal, telegráfica y telefónica, tarifas gubernamentales especiales en compañías de transportes, y también exención e inmunidad de toda clase de impuestos, (timbres, sobre la renta, etc.) así como de derechos consulares e impuestos aduaneros sobre importaciones destinadas para el uso del Servicio en el programa cooperativo de educación. La Fundación gozará de los mismos derechos y exenciones con respecto a sus actos y bienes relacionados con el programa cooperativo.

12. Todo material, equipo y suministros comprados con fondos del programa, pasarán a ser propiedad de la República y serán dedicados al programa.

13. Cualquier derecho, facultad o deber conferido por este acuerdo al Ministro, al Representante Especial de la Fundación o al Director del Servicio, podrá ser delegado, por escrito, a representantes, siempre y cuando tales representantes sean aceptables a las otras partes. No obstante el nombramiento de tales representantes, el Ministro y el Representante Especial de la Fundación podrán tratar cualquier asunto directamente entre ellos y resolverlo.

14. Este acuerdo puede ser reformado posteriormente si las partes lo creyeren necesario, y tales reformas deberán ser efectuadas por escrito y firmadas por los representantes de la República y de la Fundación.

15. El Poder Ejecutivo de la República dará los pasos necesarios para obtener los decretos, órdenes y resoluciones que sean necesarios para cumplir las estipulaciones de este acuerdo.

16. Este acuerdo estará en vigencia por un período de tres años desde esta fecha y podrá ser prorrogado de mutuo acuerdo por nuevos períodos.

EN FE DE LO CUAL, las partes contratantes han celebrado este acuerdo, en inglés y en español, por medio de sus representantes debidamente autorizados, en la ciudad de Quito, el día 22 del mes de enero de 1945.

With reference to your Embassy's courteous note No. 2591, [1] dated January 30, 1947, and as a result of the conversations held subsequently, I have the honor to confirm that it has been agreed between the Governments of the United States of Venezuela and the United States of America to extend a second time, for an additional period of 18 months, beginning January 1, 1947, the cooperative program of health and sanitation which is being carried out by the Oficina Cooperativa Interamericana de Salud Pública in conformity with the Modus-Vivendi concluded by an exchange of notes, dated February 18, 1943, which was first extended, through the same procedure, on June 28, 1944, for a period of 30 months which expired on December 31, 1946. The extension to which the present communication refers shall be effected subject to the following provisions:

First: It is considered that the financial obligations of the Institute of Inter-American Affairs and the Government of Venezuela, derived from the initial Modus-Vivendi, have been fulfilled, on the part of the said Institute, by the contribution of $950,000 (American dollars) furnished in the manner specified, and on the part of the Government of Venezuela, by the investment of Bs. 2.00 for each dollar contributed by the former. Likewise, it is recognized that the obligations of the same nature resulting from the first extension of the Modus-Vivendi have been fulfilled, on the part of the said Institute, by the contribution of $500,000 (American currency), in the manner specified, and on the part of the Government of Venezuela, by the investment of a sum in bolivars equivalent to $500,000 (American currency). Third: The cooperative program of health and sanitation shall be financed by the Contracting Parties during the period of extension indicated in this Agreement, in the following manner:

The remainder of the $166,000, that is, $141,000 shall be contributed in accordance with the terms of paragraph (c) of this clause.

(b) The Institute may retain from the deposits indicated in paragraph (a) of the present clause the estimated sum which the Ministry of Health and Social Assistance and the Chief of the Mission may deem necessary for the purchase of material and equipment in the United States of America and for any other expenditure connected with the execution of this program. Any funds so retained by the Institute shall be considered as deposited under the terms contained in paragraph (a). If the said sums are not spent or allotted for such purposes, they shall be deposited to the order of the Oficina at any time, by mutual agreement between the Ministry and the Chief of the Mission.

(c) In addition to the sum which shall be deposited to the account of the Oficina in accordance with paragraph (a), the Institute shall make, separately, the allocation of the necessary funds to pay the salaries, maintenance, transportation and traveling expenses, and other administrative expenses of the employees of the Mission or other employees of the Institute in the United States of Venezuela during the period of this extension. From this estimated sum of $141,000.00 the sum necessary for the above-mentioned purposes shall be taken. (f) In addition to the contributions indicated in paragraphs (a) and (d), the Oficina may receive contributions of any other origin and spend them in the same manner as the funds mentioned above and for the purposes and objectives of the Program of Health and Sanitation.

(g) Any sum or property acquired by the Oficina, which has not been spent, utilized or allotted at the expiration of the period indicated in this extension, shall remain the property of the Government

of the United States of Venezuela and shall continue to be used for the purposes established by the Cooperative Program. Nevertheless, to ensure the attainment of the objective of the said Program, the Ministry and the Chief of the Mission shall determine by mutual agreement the exact use and disposal which shall be made of the money and properties not used and not allotted at the termination of this Agreement.

(h) By mutual agreement between the Ministry and the Chief of the Mission, the funds of the Oficina may be used to reimburse for or pay the salaries, maintenance, traveling expenses or other expenses of such additional members of the Mission or other employees of the Institute as the Contracting Parties may deem it necessary to employ. These funds may be appropriated or granted for such purposes by the Oficina to the Institute or to any other organization, but in each case the Ministry and the Chief of the Mission shall conclude a project agreement specifying the purposes and all the conditions for granting such appropriations.

Fourth: The Cooperative Program of Health and Sanitation shall continue to be carried out through individual Projects which shall have as their principal objective the construction and installation of waterworks in the rural communities of the United States of Venezuela and any other enterprise which affects the health and sanitation of the Venezuelan people. Each Project shall be provided for in a Project Agreement which shall be signed by mutual accord by the Minister of Health and Social Assistance and the Chief of the Mission in the United States of Venezuela. The staff of the Oficina shall be selected by mutual agreement between the Ministry of Health and Social Assistance and the Director of the former, and the appropriate appointments shall be made by a Resolution of the said Executive Department.

Seventh: The books, documents and accounts of the Oficina shall at all times be at the disposal of the authorized representatives of the Government of Venezuela and the Institute for their inspection and auditing, and the Director of the Oficina shall make Reports to the said Government and to the Institute with such frequency as the

Ministry of Health and Social Assistance and the Chief of the Mission may determine by mutual agreement.

Eleventh: The provisions of the original Modus Vivendi and of the First Agreement of Extension (June 1944 to December 1946) shall remain in force unless invalidated directly or indirectly by the terms of the present Agreement.

This note and your reply in the same terms shall constitute an agreement respecting the provisions of the preceding clauses.

6. Il Comitato puo' determinare che le spese, o qualunque parte di esse, da esso incontrate, ad eccezione delle spese dei rispettivi rappresentanti del Comitato, saranno a carico degli introiti derivanti da tali beni.

AGREEMENT BETWEEN THE UNITED STATES OF AMERICA AND FRANCE CONCERNING THE RESTORATION OF CERTAIN INDUSTRIAL PROPERTY RIGHTS AFFECTED BY WORLD WAR II

The Government of the United States of America and the Government of the French Republic,

Being desirous of remedying the effects on industrial property rights of their nationals resulting from World War II by concluding an agreement for extending the rights of priority in patent matters and the times for taking action with respect to patents and patent applications, and related matters,

Have agreed as follows:

ARTICLE I

Periods of priority.

The periods of priority provided by Article 4 of the Convention of Union of Paris for the Protection of Industrial Property, last revised at London on June 2, 1934, and by the laws of the respective countries in accordance therewith, for the filing of applications for patents or designs and models, which had not expired on September 8, 1939, and those

ACCORD ENTRE LES ETATS-UNIS D'AMERIQUE ET LA FRANCE CONCERNANT LA RESTAURATION DE CERTAINS DROITS DE PROPRIETE INDUSTRIELLE ATTEINTS PAR LA DEUXIEME GUERRE MONDIALE

Le Gouvernement des Etats-Unis d'Amérique et le Gouvernement de la République Française,

Soucieux de remédier aux atteintes subies par les droits de propriété industrielle de leurs ressortissants, du fait de la deuxième guerre mondiale, ont décidé de réaliser un accord ayant pour objet de prolonger, d'une part, les droits de priorité en matière de brevet, d'autre part, les délais nécessaires pour remplir les formalités concernant les brevets et demandes de brevets; enfin, de régler un certain nombre de questions connexes,

Ils ont en conséquence convenu ce qui suit:

ARTICLE I

Les délais de priorité prévus par l'Article 4 de la Convention d'Union de Paris pour la Protection de la Propriété industrielle, revisée en dernier lieu à Londres le 2 juin 1934, et par les lois qui s'y rapportent dans chacun des deux pays, pour le dépôt des demandes de brevets d'invention, ou de dessins et modèles, non expirés le 8 septembre 1939, ainsi que ceux

which have arisen since that date, are extended by each of the countries, in favor of the nationals of the other country, until August 7, 1947.

Documents required for support of a claim of priority may be filed before the expiration of six months from the date of filing of the application.

Patents already issued without a claim for priority shall benefit from the provisions of the first paragraph of this Article on the condition that the request for priority and the required documents be filed by August 7, 1947.

qui ont pris naissance depuis cette date, sont prolongés par chacun des deux pays, en faveur des nationaux de l'autre pays, jusqu'au 7 août, 1947.

Les documents exigés à l'appui d'une revendication de priorité pourront être déposés jusqu'à l'expiration d'un délai de six mois, à dater de la demande.

Les brevets déjà délivrés sans revendication du droit de priorité, bénéficieront des dispositions du premier paragraphe du présent Article, à la condition que la demande et les documents ne soient pas déposés après le 7 août 1947.

ARTICLE II

Applications for patents, etc.

Applications for patents or designs and models in one of the countries by nationals of the other country, considered as abandoned or forfeited since September 8, 1939, are restored, and the time for the payment of any fee, or the taking of any action or the accomplishment of any formality prescribed by the laws of each country with respect to applications for patents or designs and models which had not expired on September 8, 1939, or which arose after that date, is extended to August 7, 1947, without additional tax.

ARTICLE II

Les droits résultant des demandes de brevets ou de dessins et modèles, formulées par les ressortissants de l'un des deux pays, dans l'autre pays, et considérées comme abandonnées ou déchues depuis le 8 septembre 1939, sont restaurés. Les délais pour le paiement de toute taxe, l'accomplissement de tout acte et de toute formalité prescrits par les lois de chacun des deux pays, pour les demandes de brevets d'invention ou de dessins et modèles qui n'étaient pas expirés le 8 septembre 1939, ou qui ont pris naissance après cette date, sont, dans ce cas, prolongés jusqu'au 7 août 1947, sans aucune surtaxe.

ARTICLE III

Right of third parties.

Patents or designs and models obtained pursuant to the present Agreement shall not affect the right of third parties, or their agents or successors in business, who, before August 8, 1946, or before the date of the restoration of an application under Article II, have in good faith begun the working of an invention, design, or

ARTICLE III

Les brevets d'invention, ou les dessins et modèles obtenus en vertu du présent Accord, ne pourront en aucun cas, affecter le droit des tiers ou de leurs ayants-droit à continuer leur exploitation si ceux-ci ont de bonne foi entrepris l'exploitation d'une invention, dessin ou modèle, avant le 8 août 1946, ou avant la date de restaura-

model, to continue such working, or the right of those bona fide in possession of patents and applications for patents, designs, or models, or their agents or licensees before August 8, 1946, to use the inventions covered by such patents or applications for patents or designs and models.

tion des demandes formulées en application de l'Article II. Ces brevets d'invention, dessins ou modèles, ne pourront d'autre part affecter les droits acquis avant le 8 août 1946, par les détenteurs de bonne foi de brevets d'invention, de demandes de brevets, de dessins et modèles ou par leurs ayants-droit, d'exploiter les inventions protégées par de tels brevets, demandes de brevets ou de dessins et modèles.

ARTICLE IV

Duration of patents.

The duration of patents obtained pursuant to the present Agreement by nationals of each of the two countries shall not exceed twenty years from the day of the first application filed.

Annual taxes.

The dates on which annual taxes are due under the laws of France shall remain unchanged.

Nothing in the present Agreement shall be construed to extend the time for filing requests for extensions of the duration of patents authorized by the French law concerning exceptional extension of the duration of patents on account of the war.

ARTICLE IV

La durée de validité des brevets d'invention délivrés en application du présent Accord aux ressortissants de chacun des deux pays ne pourra excéder vingt années, à compter du jour du dépôt de la première demande. Les dates normales d'échéance des annuités prévues par les lois françaises resteront inchangées.

Pour l'application des dispositions spéciales autorisées par les lois françaises relatives à la prolongation exceptionnelle de la durée du brevet d'invention, du fait de la guerre, le présent Accord ne pourra être considéré comme prolongeant les délais impartis aux intéressés pour formuler leurs demandes.

ARTICLE V

Nationals of the United States of America may pay up to August 7, 1947:

1. those annual taxes for patents which could have been paid on September 8, 1939, accompanied by any additional delay fee due on that date, and

2. the annual taxes due since September 8, 1939, without any additional delay fees, and in such

ARTICLE V

Les ressortissants des Etats-Unis d'Amérique pourront, jusqu'au 7 août 1947, acquitter:

1o. accompagnées du montant de la taxe supplémentaire de retard due au 8 septembre 1939, les taxes d'annuité des brevets d'invention qui pouvaient encore être valablement acquittées à la date ci-dessus;

2o. sans taxe supplémentaire, les annuités échues depuis le 8 septembre 1939. Dans ces deux

cases the payments will be considered as having been made in time.

cas, les paiements seront considérés comme ayant été effectués en temps voulu.

ARTICLE VI

ARTICLE VI

Period not taken into account.

The period between September 8, 1939 and the date of the coming into force of the present Agreement shall not be taken into account in the term provided for the working of a patent.

La période comprise entre le 8 septembre 1939 et la date de mise en vigueur du présent Accord n'entre pas en ligne de compte dans le délai prévu pour la mise en exploitation d'un brevet.

ARTICLE VII

ARTICLE VII

Validity of decisions.

In no case shall the present Agreement invalidate a judicial decision regarding the validity of a patent rendered prior to the date of the coming into force of the present Agreement.

En aucun cas le présent Accord ne pourra avoir pour effet d'invalider une décision judiciaire, concernant la validité d'un brevet, intervenue antérieurement à la date de sa mise en application.

ARTICLE VIII

ARTICLE VIII

Renewal of trade-mark registrations.

Trade-mark registrations in one of the countries, of the nationals of the other country, which have expired since September 8, 1939, may be renewed before June 30, 1948, and such renewals shall have retroactive effect to the date of the expiration of the normal term of the expired registrations.

L'enregistrement des marques de fabrique et de commerce d'un ressortissant de l'un des deux pays, dans l'autre pays, dont la validité serait venue à expiration après le 8 septembre 1939, pourra être renouvelé à condition que ce renouvellement soit effectué avant le 30 juin 1948. Un tel renouvellement aura effet rétroactif à la date d'expiration de la durée normale du précédent enregistrement.

ARTICLE IX

ARTICLE IX

June 25, 1947

SIR:

I refer to recent informal discussions between representatives of the Government of Canada and the United States concerning the entrance into Canada of United States vehicles equipped with land mobile radio transmitting equipment.

The present laws of the United States prohibit operation of unlicensed radio transmitting equipment, and station licenses cannot be issued to aliens. It is the Department's understanding that the laws of Canada contain similar provisions.

Proposals have been made for certain modifications of United States laws which, if adopted, would permit on a reciprocal basis alien operation of certain foreign licensed mobile equipment while it is within the territory of the United States. However, this problem is still under consideration, and it is believed that an interim arrangement would be desirable, in order to permit the carriage across the border of radio transmitting equipment installed aboard vehicles.

It would, therefore, be appreciated if you could inform this Department whether the Canadian Government would be disposed to consider a reciprocal interim arrangement under which mobile radio

transmitting stations licensed by the United States or Canadian Governments could be carried from the territory in which it is licensed into the territory of the other country, without being removed from the vehicles in which such equipment is installed, on condition that this equipment be sealed in such a manner as to prevent its operation while it is in the territory of the latter country.

I am enclosing samples of the seals [1] which United States Customs officials would use in sealing Canadian equipment entering the United States. Conversely, if the arrangement is satisfactory to your Government, it is suggested that similar samples of seals, to be used by Canadian Customs officials for the same purpose, be transmitted to this Government, together with a statement of conditions concerning their use. This exchange of seals would be useful as a basis in arranging notification of the licensees of the equipments that they may expect to have their equipment sealed and that it should be so adapted as to permit sealing.

I suggest that, if an agreement in the sense of the foregoing paragraphs is acceptable to the Government of Canada, this note and your reply thereto in similar terms be regarded as constituting the terms of an understanding on the subject between the two Governments.

Accept, Sir, the renewed assurances of my high consideration.

For the Secretary of State:
GARRISON NORTON

Samples of Seals. [1]

No. 317 AUGUST 20, 1947.

SIR:

I have the honour to refer to your note of June 25, 1947, in which you proposed a reciprocal interim arrangement between the Government of Canada and the Government of the United States of America, under which mobile radio transmitting stations licensed by the United States or Canadian Governments could be carried from the territory in which they are licensed into the territory of the other country, without being removed from the vehicles in which such equipment is installed, on condition that this equipment be sealed in such a manner as to prevent its operation while it is in the territory of the latter country.

I have received samples of the seals which United States Customs officials will use in sealing Canadian equipment entering the United States. I enclose samples of seals [1] which will be used by Canadian

[1] [The seals are not reproduced.]

Customs officials for the same purpose with respect to United States equipment entering Canada.

I am instructed to state that the terms of this arrangement are acceptable to my Government, and that your note and this reply thereto shall constitute the terms of an understanding on the subject between the two Governments.

Accept, Sir, the renewed assurances of my highest consideration.

The Honourable ROBERT A. LOVETT,

[T. I. A. S. 1672]

Agreement between the United States of America and Belgium respecting American dead in World War II. Effected by exchange of notes signed at Brussels June 6 and July 23, 1947; entered into force July 23, 1947.

The American Chargé d'Affaires ad interim to the Belgian Minister for Foreign Affairs

EMBASSY OF THE
UNITED STATES OF AMERICA

No. 927

Brussels, June 6, 1947.

EXCELLENCY:

Interment, etc., of American nationals killed in World War II.

I have the honor to inquire whether Your Excellency's Government would be willing to accord to the United States Government the concessions set forth below. These concessions are desired in order to facilitate the interment in Belgium, or the removal to their own country, of the bodies of American nationals killed in the World War of 1939–1945, or whose death in the European theater of operations can be directly attributed to that war, or who died in this theater of operations while employed or otherwise engaged in activities contributing to the prosecution of that war, and to permit the establishment, construction, improvement and proper maintenance of permanent cemeteries for the final burial of, and memorials in commemoration of, American nationals who lost their lives in the above-mentioned war.

I

Temporary cemeteries within Belgium.

The Belgian Government grants to the United States of America the right to establish and maintain temporary cemeteries within Belgium subject to such control as is necessary, for the burial of persons who so lost their lives, and to make exhumations therefrom or from other locations for return to the United States or for concentration in permanent cemeteries within Belgium including movement of bodies from other countries into Belgium. In view of the limited area of Belgium and the large number of military cemeteries therein already established, the Government of the United States will limit as much as possible the number of bodies of American Nationals to be moved into Belgium from other countries. No mass movement of bodies from other countries to cemeteries within Belgium for permanent interment will be undertaken by the Government of the United States.

Restriction.

II

Exemption from Belgian laws relating to hygiene, permits, etc.

The Government of the United States shall be exempted from generally applicable laws and regulations of the Belgian Government relating to hygiene and the securing of permits in connection with

the burial, disinterment for reburial and movement of bodies. However the Government of the United States engages to conduct such work in a manner which will in no way constitute a danger to public health and to make such sanitary arrangements as are necessary for the purpose. Exhumations, burials and movements of bodies shall be exempted from all Belgian taxes, excepting stamp taxes.

III

U. S. importation of necessary equipment, etc.

The Government of the United States may import into Belgium from any country, and re-export therefrom after use thereof, free of customs duties and other taxes, excepting stamp taxes, the equipment, supplies and materials, including means of transportation by air, land or water, as are necessary for the accomplishment of any of the purposes of this agreement. None of such equipment, supplies and/or materials will be sold in Belgium, or be left in Belgium after completion of the mission in which it is used, excepting with the express permission of the Belgian Government.

Free entry and departure of U. S. personnel.

American personnel designated by the Government of the United States shall be permitted free entry into, and departure from, Belgium.

IV

Use by U. S. of railroads, services, etc.

The Government of the United States shall be permitted the use of railroads, highways, navigable waters, ports, port installations and buildings for office, warehouse and billet purposes, together with the necessary services and Belgian labor, to the extent required for the accomplishment of the purposes of this agreement, subject only to payment of the established rates of compensation therefor.

V

Acquisition of sites.

The Belgian Government will acquire such sites for permanent cemeteries (Fields of Honor) and/or memorials, as are deemed necessary by the Government of the United States, with usage thereof in perpetuity reserved to the Government of the United States, free of charge or compensation. Such sites shall be at locations mutually agreed upon and include sufficient ground in addition to burial space, for proper beautification, required approach roads and the construction of such buildings as are essential to the reception of visitors, housing of caretakers and maintenance purposes. Land so acquired, and the buildings and improvements thereon, shall be exempt from taxes excepting the registration tax. The right to the usage of such lands includes the right to plan, design, layout and improve permanent cemeteries, memorials, monuments and other buildings thereon, and to beautify the grounds and provide for the perpetual custody and maintenance of such cemeteries and memorials, upon receiving prior approval of competent Belgian authorities. No construction, including the establishment of simple inclosures, may be undertaken within 10 meters of foreign territory, or within 5 meters of any road, the center of which constitutes an international boundary line.

Right to usage.

VI

Exemption of salaries, etc., from taxation.

Salaries and other remuneration paid by the United States to personnel who are citizens of the United States while engaged in the operations contemplated by this agreement, shall be exempted from any and all forms of taxation, direct or indirect, excepting however that such citizens, if domiciled in, or having their permanent residence in Belgium, shall be liable for payment of the professional tax and the national emergency tax on their earnings and also the complimentary personal tax. It is understood that if a treaty for the avoidance of double taxation, now under negotiation between the Belgian and United States Governments, is adopted and supplemented by law, American personnel in charge of permanent cemeteries will be exempted from tax on their earnings. Pending adoption of such treaty, temporary postponement of taxation on such earnings may be arranged if expressly requested by competent United States authorities, with indication of names and addresses of the persons concerned.

VII

Applicability where next of kin reside in Belgium.

The provisions of this agreement shall apply with equal force and effect to the shipment of remains from other foreign countries into Belgium and the disposition thereof, where the next of kin reside in Belgium or one of its possessions or territories and request final interment of remains in a permanent United States Military Cemetery in Belgium.

VIII

The Belgian Government will undertake to initiate legislation in the Belgian Parliament for the exemption from stamp taxes and other taxes not expressly waived in this agreement, referred to in paragraphs II, III and V above.

IX

Time limit; exception.

The rights, privileges and prerogatives reserved to the United States herein shall be exercised prior to 1 January 1955, except as relates to use of lands acquired for permanent cemeteries and/or memorials, including improvements thereto and buildings constructed thereon, which shall run in perpetuity.

I take this occasion to renew to Your Excellency the assurances of my highest consideration.

BRUXELLES, *le 23 Juil 1947*

MONSIEUR L'AMBASSADEUR,

Me référant à la lettre de l'Ambassade, en date du 6 juin 1947, n° 927, j'ai l'honneur de porter à la connaissance de Votre Excellence que le Gouvernement belge marque bien volontiers son accord au Gouvernement des Etats-Unis au sujet des privilèges énumérés ci-après, tendant à permettre d'inhumer en territoire belge ou de rapatrier les restes de citoyens américains tués pendant la guerre mondiale de 1939 à 1945, ou dont le décès sur le théâtre européen des opérations peut être imputé directement à cette guerre, ou qui sont morts sur ledit théâtre d'opérations tandis qu'ils étaient employés ou participaient autrement à des activités destinées à la poursuite de la guerre, et d'établir, de construire, d'aménager et d'entretenir convenablement des cimetières permanents pour l'inhumation définitive des citoyens américains qui ont perdu la vie dans ladite guerre, ainsi que des monuments destinés à leur commémoration.

I. Le Gouvernement belge accorde aux Etats-Unis d'Amérique le droit d'établir et d'entretenir des cimetières temporaires en Belgique, sous réserve du contrôle nécessaire, pour y enterrer les citoyens américains, qui sont morts comme il est dit ci-dessus, ainsi que le droit d'exhumer des corps de ces cimetières temporaires et d'autres endroits pour les reconduire aux Etats-Unis ou pour les réunir dans des cimetières permanents en Belgique, y compris le droit de transporter des corps d'autres pays en Belgique. Vu l'exiguïté du territoire belge et le grand nombre de cimetières militaires qui s'y trouvent déjà, le Gouvernement des Etats-Unis limitera autant que possible le nombre des corps de citoyens américains qui seront transportés d'autres pays en Belgique. Le Gouvernement des Etats-Unis n'entreprendra pas de transport massif de corps d'autres pays vers des cimetières en Belgique en vue de leur inhumation définitive.

II. Le Gouvernement des Etats-Unis ne sera pas soumis aux lois et réglementations généralement applicables du Gouvernement Belge, relatives à l'hygiène et à l'obtention des permis nécessaires pour inhumer, exhumer, réinhumer et transporter les corps. Cependant le Gouvernement des Etats-Unis s'engage à exécuter ces travaux de telle sorte qu'ils ne constituent pas un danger pour l'hygiène publique et à prendre les mesures sanitaires nécessaires à cette fin. Les exhumations, les inhumations et le transport des corps seront exempts de toutes taxes belges.

III. Le Gouvernement des Etats-Unis pourra importer en Belgique, de n'importe quel pays, et en réexporter après usage, en exemption des droits de douane et autres taxes, l'équipement, les fournitures et le matériel, y compris les moyens de transport par air, par terre ou par eau, qui seront nécessaires pour l'exécution des fins du présent accord.

Aucune partie de ces équipements, fournitures et/ou matériel ne sera vendue en Belgique, ni laissée en Belgique après l'achèvement de la mission à laquelle ils sont utilisés, sauf avec l'autorisation expresse du Gouvernement Belge.

Le personnel américain, désigné par le Gouvernement des Etats-Unis, pourra entrer librement en territoire belge et en ressortir librement.

IV. Le Gouvernement des Etats-Unis pourra user des chemins de fer, des routes, des voies navigables, des ports, des installations portuaires, des locaux à usage de bureau, d'entrepôt et de logement, et avoir recours aux services et à la main-d'oeuvre belges nécessaires, dans la mesure exigée par l'exécution des fins du présent accord, à la condition unique d'en payer la rétribution aux taux établis.

V. Le Gouvernement belge acquerra pour y établir les cimetières permanents (Champs d'Honneur) et (ou) les monuments, les terrains que le Gouvernement des Etats-Unis jugera nécessaires, et dont ledit Gouvernement des Etats-Unis aura perpétuellement l'usage, sans qu'il soit astreint à des charges ou indemnités. L'emplacement de ces terrains sera choisi d'un commun accord et les terrains seront d'une superficie suffisante pour comprendre, outre les tombes, les embellissements et les routes d'accès nécessaires ainsi que la contruction de locaux indispensables à la réception des visiteurs, au logement des jardiniers et à la resserre du matériel d'entretien. Le terrain acquis dans ces conditions et les constructions et aménagements qui y seront faits seront exempts de taxes.

Le droit d'utiliser les terrains en question comprend aussi celui de projeter, dessiner, tracer, aménager les cimetières permanents, les monuments et autres constructions qui y seront édifiés, ainsi que d'embellir les terrains et prendre les dispositions nécessaires en vue de la garde et de l'entretien perpétuels des cimetières et monuments, après accord des autorités belges compétentes. Aucune construction y compris la création de simples enceintes, ne pourra être entreprise à moins de 10 mètres d'un territoire étranger, ou à moins de 5 mètres d'une route dont l'axe forme frontière.

VI. Les salaires et autres rémunérations payés par les Etats-Unis au personnel de nationalité américaine occupé aux travaux visés par le présent accord seront exempts de toute

espèce de taxe directe ou indirecte; étant entendu cependant que les membres de ce personnel qui sont domiciliés en Belgique ou bien qui ont leur résidence permanente dans ce pays seront redevables de la taxe professionnelle et de la taxe nationale de crise, sur leurs salaires, ainsi que de l'impôt complémentaire personnel. Il est entendu que, si l'accord pour éviter la double imposition qui est actuellement négocié entre le Gouvernement belge et le Gouvernement des Etats-Unis est adopté et ratifié, le personnel américain s'occupant des cimetières sera exempté de la taxe sur les salaires. En attendant l'adoption de cet accord, on pourra convenir d'ajourner provisoirement la perception de la taxe sur les salaires, si les autorités américaines compétentes en font la demande expresse en indiquant les noms et adresse des personnes dont il s'agit.

VII. Les dispositions du présent accord s'appliquent, avec mêmes force et effet, au transport par mer de dépouilles mortelles en provenance de pays étrangers et à destination de la Belgique, ainsi qu'à l'inhumation, si les plus proches parents résident en Belgique, ou dans l'un de ses territoires ou possessions et demandent qu'elles soient inhumées définitivement dans un cimetière permanent des Etats-Unis en Belgique.

VIII. Le Gouvernement belge s'engage à soumettre, le cas échéant, au Parlement belge les projets de loi qui s'avéreront nécessaires en vue de l'exonération des divers droits et taxes qui n'auraient pas fait l'objet d'une exemption formelle dans le présent accord.

IX. Les droits, privilèges et prérogatives réservés aux Etats-Unis en vertu du présent accord seront exercés avant le 1er janvier 1955, excepté s'il s'agit de l'utilisation de terrains acquis pour en faire des cimetières permanents et (ou) pour y édifier des monuments, y compris les aménagements qui s'y rapportent et les constructions qui y seront élevées, auxquels cas lesdits droits, privilèges et prérogatives seront perpétuels.

Je saisis cette occasion, Monsieur l'Ambassadeur, de renouveler à Votre Excellence l'assurance de ma très haute considération.

GENERAL ADMINISTRATION C.

No. 55.828/Pr/Cim. Mil. Am.

BRUSSELS, *July 23, 1947*

MR. AMBASSADOR:

Ante, p. 3352.

Referring to the Embassy's note No. 927 dated June 6, 1947, I have the honor to inform Your Excellency that the Belgian Government is happy to signify to the Government of the United States its agreement concerning the privileges enumerated below, which are intended to permit the burial in Belgian territory, or the repatriation, of the remains of American citizens who were killed during the World War of 1939 to 1945, or whose death in the European theater of operations may be ascribed directly to that war, or who died in the said theater of operations while they were employed or were otherwise taking part in activities for carrying on the war, and the establishment, construction, laying out, and proper maintenance of permanent cemeteries for the final burial of American citizens who lost their lives in the said war, as well as of monuments intended to commemorate them.

I. The Belgian Government grants to the United States of America the right to establish and maintain temporary cemeteries in Belgium, subject to the necessary supervision, to bury therein American citizens who died as stated above, as well as the right to exhume bodies from such temporary cemeteries and from other places in order to take them back to the United States or to bring them together in permanent cemeteries in Belgium, including the right to transport bodies from other countries to Belgium. In view of the exiguity of the Belgian territory and the great number of military cemeteries which are already there, the Government of the United States will limit as far as possible the number of bodies of American citizens which are transported from other countries to Belgium. The Government of the United States will not undertake the mass transportation of bodies from other countries to cemeteries in Belgium with a view to their final burial.

II. The Government of the United States will not be subject to the laws and regulations of the Belgian Government which are generally applicable relative to hygiene and the obtaining of the necessary permits for burying, exhuming, reburying and transporting the bodies. However, the Government of the United States will promise to carry out that work so that it will not constitute a danger to public health and to take the sanitary measures necessary for that purpose. The exhumations, burials and transportation of the bodies shall be exempt from all Belgian taxes.

III. The Government of the United States may import into Belgium, from any country whatsoever, and re-export therefrom after using them, with exemption from customs duties and other charges, the equipment, supplies and materials, including such means of transportation by air, land or water, as may be necessary for fulfilling the purposes of the present Agreement.

No part of such equipment, supplies and/or materials shall be sold in Belgium or left in Belgium after the completion of the mission for which they have been used, except by the express authorization of the Belgian Government.

The American personnel appointed by the Government of the United States may enter Belgian territory freely and depart freely therefrom.

IV. The Government of the United States may use the railroads, roads, navigable waterways, ports, harbor installations and buildings for use as offices, storage and lodging, and draw upon the necessary Belgian services and man power to the extent required for fulfilling the purposes of the present Agreement, on the sole condition of paying the remuneration therefor at the established rates.

V. The Belgian Government will acquire, in order to establish thereon the permanent cemeteries (Fields of Honor) and (or) monuments, and plots of land which the Government of the United States deems necessary, and of which the said Government of the United States shall have the perpetual use, without being compelled to pay charges or compensation. The locations of these plots of land shall be chosen by mutual agreement and the plots shall have sufficient area to include, in addition to the graves, such embellishments and roads of approach as may be necessary as well as the construction of the buildings required for the reception of visitors, the quarters of gardeners, and the storage of maintenance equipment. The land acquired under these conditions and the buildings and improvements added shall be tax-exempt.

The right to use the plots in question shall include also the right to plan, design, mark out and lay out the permanent cemeteries, monuments and other structures which will be built there, as well as to embellish the plots and to take the necessary measures for the perpetual guarding and maintaining of the cemeteries and monuments, after approval by the proper Belgian authorities. No construction, including the creation of simple enclosures, shall be undertaken less than 10 meters from a foreign territory or less than 5 meters from a road the axis of which constitutes a boundary.

VI. The wages and other remuneration paid by the United States to the personnel of American nationality engaged in the work contemplated by the present agreement shall be exempt from

every kind of direct or indirect tax; it being understood, however, that the members of such personnel who are domiciled in Belgium or who have their permanent residences in that country shall be subject to the professional tax and the national emergency tax on their salaries, as well as on the supplementary personal tax. It is understood that, if the agreement to prevent double-taxation which is being negotiated at the present time between the Belgian Government and the Government of the United States is adopted and ratified, the American personnel concerned with the cemeteries shall be exempt from the income-tax. Pending adoption of that agreement, it may be agreed to postpone provisionally the collection of the income-tax, if the proper American authorities make an express request to that effect, indicating the names and addresses of the persons concerned.

VII. The provisions of the present Agreement shall apply with the same force and effect to the transportation of mortal remains by sea to Belgium from foreign countries, as well as to their burial, if the next of kin live in Belgium or in one of its territories or possessions and request that they be buried definitively in a permanent cemetery of the United States in Belgium.

VIII. The Belgian Government pledges itself to submit to the Belgian Parlement, should the occasion arise, such proposed laws as may be found necessary for exemption from the various charges and fees which have not been the subject of a formal exemption in the present Agreement.

IX. The rights, privileges and prerogatives reserved for the United States by virtue of the present Agreement shall be exercised before January 1, 1955, except when it is a question of the use of land acquired for the purpose of making permanent cemeteries and (or) for the purpose of erecting monuments thereon, including the appurtenances thereof and the buildings which will be erected there, in which cases the said rights, privileges and prerogatives shall be perpetual.

I avail myself of this occasion, Mr. Ambassador, to renew to Your Excellency the assurances of my very high consideration.

The approval of the above-mentioned Agreement will in no way affect this right.

Ante, pp. 3376, 3379.

On the other hand, in accordance with Public Law 84 passed by the Eightieth Congress, which authorizes the furnishing of relief assistance, the President of the United States is directed to terminate the provision of the United States relief assistance to the people of any country whenever, in his judgment, an excessive amount of supplies being made available by the United States to the people of any country or of similar supplies produced locally or imported from outside sources, is being used in the maintenance of armed forces in such country.

61 Stat., Pt. 1, p. 125.

In the light of this provision of the relief law, the Government of the United States must reserve the right to terminate its relief shipments to China if, in its determination, an excessive amount of relief supplies or similar supplies produced locally or imported from outside sources is being used for the maintenance of armed forces in China.

It would be appreciated if you would confirm that the above is the understanding of both Governments and forms a part of the aforementioned Agreement.

I avail myself of this opportunity to renew to your Excellency the assurances of my highest consideration.

茲因美利堅合眾國意欲對中國人民給予救濟援助，使其免受苦難，並得繼續切實努力，以求恢復元氣；

又因中國政府曾向美國政府請求救濟援助，並曾提供情報，使美國政府深信中國政府亟需援助，以獲得中國人民生活之基本必需品；

又因美國國會曾以一九四七年五月三十一日第八十屆國會第八十四號法案規定，對於總統認為確係需要此項援助國家之人民，而各該國家對於該項國會法案所需之救濟計劃曾作滿意保證者，供應救濟援助；

又因美國政府與中國政府均願確定關於處理及

分配美國救濟物資之若干條件及瞭解，並規定兩國政府合作之一般辦法，以使適應中國人民之救濟需要，

美利堅合眾國政府由司徒雷登大使為代表

中華民國政府由外交部政務次長代理部務劉師舜博士為代表

(丁) 中國政府將隨時於事前向美國政府提出其為救濟之輸入需要所擬之計劃。此種計劃應經美國政府之審查及核准。救濟物資之取得，以經核准之計劃中所載項目為限。

(戊) 美國救濟物資之移轉，應依美國政府會商中國政府後所決定之辦法辦理。美國政府於無論何時認為合宜時，得保留任何美國救濟物資，或收回業已移轉之此項物資，直至其到達能備供最後消費者之城市或地

之輸入所課之稅款，將併存於第三條所述之特別賬戶內。所有美國救濟物資之輸入，凡屬免費給與貧民團體及其他方面者，以及交由各志願機構分配者，均應免除財政課稅，包括關稅在內。

(丙)中國政府將指派高級官員一人，擔任中國政府與負責救濟計劃之美國代表間之聯繫責任。

(丁)美國救濟物資及中國當地所產或自國外輸入之同樣物資，應由中國政府及志願機構分配之，不因種族、宗教或政治信仰而有所歧視。且為救濟目的物資之需要繼續存在時，中國政府應不許將任何此項物資移

作不重要之用途，或由中國輸出或移送國外。中國政府應不許將美國救濟物資或以過多數量之中國當地所產或自國外輸入與美國救濟物資同樣之物資，移用於維持武裝部隊。

(戊)對於美國救濟物資及中國當地所產與自國外輸入同樣物資之分配，中國政府將採取適當步驟，確保各階層人民均獲得公正平等之份量。

(丁)因救濟之供給，包括駐華美國救濟代表團之工作及中國政府機關與志願機構現正進行中之若干緊急救濟方案，而發生之中國錢幣開支，中國政府應依美國代表之請求，以美國救濟物資出售之價款作抵，預墊資金。

以償付中國政府因對於美國救濟物資之處理、內地輸送及分配而有之當地費用，包括卸貨及其他港口費用之中國錢幣開支在內；但美國代表願與中國政府考慮使用此項資金，以應付非常費用，俾免以過分負擔加諸中國政府。

(己) 中國政府每月將以此項資金之收入、盈虧及開支作成報告，備交美國代表。

Agreement and accompanying notes between the United States of America and Czechoslovakia respecting the settlement of certain war accounts and claims. Signed at Praha July 25, 1947; entered into force July 25, 1947.

AGREEMENT BETWEEN THE GOVERNMENT OF THE UNITED STATES OF AMERICA AND THE GOVERNMENT OF THE CZECHOSLOVAK REPUBLIC REGARDING SETTLEMENT FOR CERTAIN WAR ACCOUNTS AND CLAIMS INCIDENT TO THE OPERATIONS OF THE U.S. ARMY IN EUROPE

The Government of the United States of America and the Government of the Czechoslovak Republic have reached an understanding regarding the settlement for outstanding War Accounts and claims incident to the operations of the U.S. Army in Czechoslovakia. This settlement is complete and final, and the signatory governments agree that, except as herein specifically provided, no further benefits will be sought by either of them as consideration for the foregoing. In arriving at this understanding, the signatory governments have recognized the benefits accruing to each from their contributions to the defeat of their common enemies as well as the difficulties connected on each side with the keeping of detailed accounts during a period of and following actual combat operations of field armies. Further, the rapid removal of American troops from Czechoslovakia tended to create certain economic and financial unbalances within the accounts of each government or its governmental agencies.

Article 1.

U. S. Army procurement in Czechoslovakia.

With respect to U.S. Army procurement in Czechoslovakia including procurement of coal through 31 March 1946, certain Allied Military Marks held by the Czechoslovak Republic, Czech crowns advanced by the U.S. Army to Czechoslovak troops, and certain supplies and services provided representatives of the Czechoslovak Government by the U.S. Army, there is agreed to be due from the Government of the United States to the Czechoslovak Republic, the net amount of $5,018,007.07. In addition, the United States Government will return to the Czechoslovak Republic a total of 42,500.000 crowns presently held by the U.S. Army.

Amounts due Czechoslovak Republic.

Article 2.

Unsettled claims against U. S. Armed Forces.

All claims by the Czechoslovak Republic and its nationals against the United States Armed Forces with respect to procurement of facilities, goods and services/other than coal/by official, quasi-official

and personal representatives of the United States Army in Czechoslovakia through 31 March 1946, and not heretofore finally settled by the United States Army, will be considered discharged in full in accordance with the terms of the settlement set out in paragraph one. In this connection, financial responsibility for such procurement has been calculated at a dollar-crown conversion rate of 50 Czech crowns equal 1 dollar in accordance with prior agreement between the U.S. military authorities and the Czechoslovak government.

Article 3.

Settlement for coal.

Amounts owing the Czechoslovak government in full settlement for coal provided to the U.S. Army by the Czechoslovak government during the war through 31 March 1946, and which are considered a dollar obligation of the U.S. Army, are considered paid in full by the terms of payment included in paragraph one. In this connection, financial responsibility for coal has been calculated at 50 crowns equal one U.S. dollar in accordance with prior agreement between the U.S. Military Authorities and the Czechoslovak government.

Article 4.

Redemption of Allied Military Marks.

In consideration of this settlement, and the payments by the United States Government in paragraph one, the Czechoslovak Government will consider 1,500.000 Allied Military Marks, presently held by that government and claimed to be a result of expenditures by U.S. Army personnel in Czechoslovakia, as redeemed with full dollar value at a rate of 10 marks equal 1 dollar. These Allied Military Marks will be returned to the U.S. Army by the Czechoslovak Government at the time of and in accordance with the terms of this settlement.

Article 5.

Return of Czech crowns.

Czech crowns presently held in official U.S. Army disbursing officers' accounts, representing captured enemy funds will be returned to the Czechoslovak Government without reimbursement.

Article 6.

Settlement for services provided Czechoslovak nationals.

Amounts owing by the Czechoslovak Government for certain supplies and services provided Czechoslovak Nationals by the United States Forces, European Theatre in the occupied zone of Germany from 2 March 1946 through 31 March 1947, on a cash reimbursable basis are considered as finally settled within the terms of payment in paragraph one. The records of the U. S. Army will be made available for inspection upon request relative to these supplies and services thus furnished.

Article 7.

Crowns advanced to Czechoslovak military units by U. S. Army.

To the extent that the United States Army advanced Czech crowns to Czechoslovak military units, and has not heretofore been reimbursed by the Czechoslovak Government or any other Allied Government with

whom the Czech military forces were operating during the war, such advances are considered a responsibility of the Czechoslovak Government. All such outstanding advances are considered to be reimbursed to the U.S. Army under the terms of payment in paragraph one.

Article 8.

Payments for facilities, etc., procured by U. S. Army.

Facilities, goods and services procured by the United States Army subsequent to 31 March 1946 will be paid for on the basis of the Czechoslovak authorities presentation of appropriate documents in a form acceptable to the United States Army as has been, or may be, agreed upon between the Czechoslovak authorities and the U.S. Army. Payments already made by the United States Army for facilities, goods and services provided by the Czechoslovak Government prior to 31 March 1946, are not included within the payment terms of paragraph one of this settlement and are final.

Article 9.

Payments made by the U.S. Army under the agreement of 28 June 1946, [1] and similar supplemental agreement of 25 September 1946 [1] between representatives of the two signatory governments are also to be considered final.

Article 10.

U. S. payment of claims for damages, etc.

Payment of such claims will be in accordance with the terms of agreement of 6 November 1946 [1] between representatives of the two signatory governments and will be final.

Article 11.

All claims against the U.S. Army arising out of the operations of the U.S. Army in Czechoslovakia through 31 March 1946, other than those in paragraph ten above, are considered as settled under the provisions of this agreement. This agreement shall supersede all prior agreements between the two governments or officials thereof relating to the matters referred to herein.

Article 12.

Entry into force.

The present Agreement comes into force on the day it is signed.

Si l'une des Parties Contractantes, après réception de la notification prévue au paragraphe d) ci-dessus, n'approuve pas le tarif proposé par une entreprise de l'autre Partie Contractante, elle en avisera cette dernière Partie Contractante avant l'expiration de la moitié du délai de trente jours prévu, et les Parties Contractantes s'efforceront d'aboutir à un accord sur un tarif convenable.

Si un tel accord est obtenu, chaque Partie Contractante exercera ses pouvoirs légaux en vue d'en assurer l'application.

Si un accord n'a pas pu être obtenu à l'expiration de la période de trente jours prévue au paragraphe d) ci-dessus, le tarif proposé peut être mis en application à titre provisoire en attendant le réglement du différend conformément à la procédure définie au paragraphe h) ci-dessous, à moins que les autorités aéronautiques du pays de l'entreprise intéressée estiment devoir suspendre cette entrée en application.

g) Aussi longtemps que les autorités aéronautiques des Etats-Unis ne disposeront pas de tels pouvoirs légaux, si l'une des Parties Contractantes n'approuve pas un tarif proposé par une entreprise de l'une ou l'autre des Parties Contractantes pour des services visés au paragraphe b) reliant le territoire de l'une des Parties Contractantes à celui de l'autre, ladite Partie Contractante en avisera l'autre avant l'expiration de la moitié du délai de trente jours prévu au paragraphe d) ci-dessus, et les Parties Contractantes s'efforceront d'aboutir à un accord sur un tarif convenable.

Si un tel accord est obtenu chaque Partie Contractante s'emploiera de son mieux à faire en sorte que le tarif convenu soit mis en application par son entreprise ou ses entreprises.

It is recognised that if no such agreement can be reached prior to the expiry of such thirty days, the Contracting Party raising the objection to the rate may take such steps as it may consider necessary to prevent the inauguration or continuation of the service in question at the rate complained of.

Advisory report.

(h) When in any case under paragraph (f) and (g) above the aeronautical authorities of the two Contracting Parties cannot agree within a reasonable time upon the appropriate rate after consultation initiated by the complaint of one Contracting Party concerning the proposed rate or an existing rate of the air carrier or carriers of the other Contracting Party, upon the request of either, both Contracting Parties shall submit the question to the Provisional International Civil Aviation Organization or to its successor for an advisory report, and each Party will use its best efforts under the powers available to it to put the opinion [1] expressed in such report.

SECTION VI

"Transshipment."

(a) For the purpose of the present Section, the term "transshipment" shall mean the transportation by the same carrier of traffic beyond a certain point on a given route by different aircraft from those employed on the earlier stages of the same route.

(b) Transshipment when justified by economy of operation will be permitted at all points mentioned in the attached Schedules in territory of the two Contracting Parties.

(c) However, no transshipments will be made in the territory of either Contracting Party which would alter the long range characteristics of the operation or which would be inconsistent with the standards set forth in this Agreement and its Annex and particularly Section IV of this Annex.

Ante, p. 3456.

SECTION VII

Changes in routes.

Post, p. 3466.

Changes made by either Contracting Party in the routes described in the Schedules attached except those which change the points served by these airlines in the territory of the other Contracting Party shall not be considered as modifications of the Annex. The aeronautical authorities of either Contracting Party may therefore proceed unilaterally to make such changes, provided, however, that notice of any change is given without delay to the aeronautical authorities of the other Contracting Party.

[1] [By an exchange of notes dated Feb. 19 and Mar. 10, 1947, between the American Embassy at Paris and the French Ministry of Foreign Affairs it was agreed that the words "into effect" were omitted inadvertently and that "put the opinion" should read "put into effect the opinion".]

Il est entendu que si un tel accord ne peut être obtenu avant l'expiration desdits trente jours, la Partie Contractante qui élève des objections au tarif pourra prendre telle mesure qu'elle estimera nécessaire en vue d'empêcher l'inauguration ou le maintien du service en question au tarif discuté.

h) Au cas où la procédure de consultation définie aux paragraphes f) et g) ci-dessus n'aboutirait pas dans un délai raisonnable à un accord entre les autorités aéronautiques des des deux Parties Contractantes sur un tarif convenable, le différend serait, sur la demande de l'une ou l'autre des Parties Contractantes, porté pour avis consultatif devant l'Organisation Provisoire de l'Aviation Civile Internationale ou devant l'Organisme appelé à lui succéder, et chacune des Parties Contractantes s'emploiera de son mieux, dans les limites des pouvoirs dont elle dispose, pour donner suite à l'opinion exprimée par l'Organisme International.

SECTION VI.–

a) Au sens de la présente Section l'expression "rupture de charge" à une escale donnée signifie qu'au-delà de ce point le trafic sur la ligne considérée est assuré par la même entreprise avec un appareil différent de celui qui a été utilisé sur la même ligne avant ladite escale.

b) Toute rupture de charge justifiée par des raisons d'économie d'exploitation sera admise en tout point du territoire des deux Parties Contractantes mentionné aux tableaux ci-annexés.

c) Toutefois aucune rupture de charge ne pourra intervenir sur le territoire de l'une ou l'autre des Parties Contractantes dans les cas où elle modifierait les caractéristiques de l'exploitation d'un service long-courrier, ou serait incompatible avec les principes énoncés dans le présent Accord et son Annexe et particulièrement la Section IV de ladite Annexe.

SECTION VII.–

Toute modification des lignes aériennes mentionnées aux tableaux ci-annexés, qui affecterait le tracé de ces lignes sur des territoires d'Etat tiers autres que ceux des Parties Contractantes, ne sera pas considérée comme une modification à l'Annexe. Les autorités aéronautiques de chaque Partie Contractante pourront en conqéquence procéder unilatéralement à une telle modification sous réserve toutefois de sa notification sans délai aux autorités aéronautiques de l'autre Partie Contractante.

Ante, p. 3456.

If such other aeronautical authorities find that, having regard to the principles set forth in Section IV of the present Annex, interests of their air carrier or carriers are prejudiced by the carriage by the air carrier or carriers of the first Contracting Party of traffic between the territory of the second Contracting Party and the new point in the territory of a third country, the authorities of the two Contracting Parties shall consult with a view to arriving at a satisfactory agreement.

SECTION VIII

Exchange of information.

After the present Agreement comes into force, the aeronautical authorities of both Contracting Parties will exchange information as promptly as possible concerning the authorizations extended to their respective designated air carriers to render service to, through and from the territory of the other Contracting Party. This will include copies of current certificates and authorizations for service on the routes which are the subject of this Agreement and, for the future, such new authorizations as may be issued together with amendments, exemption orders and authorized service patterns.

Si ces dernières estiment, eu égard aux principes énoncés à la Section IV de la présente Annexe, que les intérêts de leurs entreprises nationales sont affectés par le fait qu'un trafic est assuré entre leur propre territoire et la nouvelle escale en pays tiers par les entreprises de l'autre pays, elles se concerteront avec les autorités aéronautiques de l'autre Partie Contractante afin de parvenir à un accord satisfaisant.

SECTION VIII.–

A partir de l'entrée en vigueur du présent Accord, les autorités aéronautiques des deux Parties Contractantes devront se communiquer aussi rapidement que possible les informations concernant les autorisations données à leur ou leurs propres entreprises désignées pour exploiter les lignes mentionnées aux tableaux ci-annexés ou des fractions desdites lignes. Ces informations comporteront notamment copie des autorisations accordées, de leurs modifications éventuelles ainsi que tous documents annexes.

PROTOCOLE DE SIGNATURE

Points of agreement.

It appeared in the course of negotiations leading up to the conclusion of the Agreement on air services between French territory and the territory of the United States of America signed at Paris today that the representatives of the two Contracting Parties were in agreement on the following points:

Equal opportunity for operation of routes.
Ante, p. 3456.

1. The air carriers of the two Contracting Parties operating on the routes described in the Annex of said Agreement shall enjoy equal opportunity for the operation of the said routes.

2. To the extent that the carrier or carriers of one of the governments is temporarily unable to take advantage of such opportunities as a result of the war, the situation will be mutually examined by the two governments for the purpose of aiding as soon as possible the said air carrier or carriers to increasingly make their proper contribution to the services contemplated.

Airports constructed on French territory and financed by U. S.

3. The airports which were constructed on French territory and financed in whole or part by the Government of the United States and which will be open to international civil traffic will be open to the duly authorized air carriers of the United States who will enjoy thereon, on a non-discriminatory basis, rights of transit and non-traffic stop. They will likewise enjoy there the commercial rights which may be granted them by the present Agreement or any other agreement now in force or later concluded.

Legislation.
Ante, p. 3460.

4. In order to give effect to the provisions of Section V (f) of the Annex to the Agreement, the executive branch of the United States Government will use its best efforts to secure legislation empowering the aeronautical authorities of the United States to fix fair and economic rates for international services and to suspend proposed rates, in the same manner as the Civil Aeronautics Board is qualified to act with respect to air transportation within the United States.

Determination of tariffs.

5. It is recognized that the determination of tariffs to be applied by an air carrier of one Contracting Party between the territory of the other Contracting Party and a third country is a complex question, the overall solution of which cannot be sought through consultation between only two countries. It is noted, furthermore, that the method of determining such tariffs is now being studied by the Provisional International Civil Aviation Organization. It is understood under these circumstances:

PROTOCOLE DE SIGNATURE.

Il est apparu au cours des négociations ayant abouti à la conclusion de l'Accord relatif aux services aériens entre les territoires français et les territoires des Etats-Unis d'Amérique signé à Paris en date de ce jour que les représentants des deux Parties Contractantes étaient d'accord sur les points suivants:

1°/ Les entreprises aériennes des deux Parties Contractantes exploitant les lignes mentionnées à l'Annexe audit Accord doivent pouvoir bénéficier de possibilités égales pour l'exploitation des dites lignes.

2°/ Dans la mesure où l'entreprise ou les entreprises de l'un des Gouvernements ne pourraient temporairement bénéficier de telles possibilités, en raison des conséquences de la guerre, la situation serait examinée en commun par les deux Gouvernements à l'effet d'aider aussitôt que possible les dites entreprises ou entreprises à apporter progressivement une contribution appropriée aux services envisagés; et

3°/ Les aérodromes dont la construction sur les territoires français a été financée en tout ou partie par le Gouvernement des Etats-Unis et qui seraient affectés au trafic international civil seront ouverts aux entreprises aériennes des Etats-Unis dûment autorisés, qui y jouiront sans discrimination des droits de transit et d'escales pour raisons non-commerciales. Elles y jouiront également des droits commerciaux qui leur seraient octroyés par le présent Accord ou par tout autre Accord maintenu en vigueur ou ultérieurement conclu.

4°/ En vue de donner effet aux dispositions de la Section V,f de l'Annexe à l'Accord, les organes exécutifs du Gouvernement des Etats-Unis s'efforceront d'obtenir que les Autorités aéronautiques des Etats-Unis reçoivent les pouvoirs légaux leur permettant de fixer des tarifs justes et économiques pour le transport des personnes et des messageries sur les services aériens internationaux et de suspendre la mise en application des tarifs proposés, de même que le "Civil Aeronautics Board" est habilité à le faire en ce qui concerne les transports Aériens à l'intérieur des Etats-Unis.

5°/ Il est reconnu que la fixation des tarifs à appliquer par une entreprise ressortissant d'une Partie Contractante entre le territoire de l'autre Partie Contractante et celui d'un pays tiers est une question complexe dont la solution d'ensemble ne peut être recherchée par des consultations entre deux Pays seulement. Il est pris acte, au demeurant, de ce que les conditions de fixation desdits tarifs sont actuellement étudiées par l'Organisation Provisoire de l'Aviation Civile Internationale. Il est entendu dans ces conditions:

(a) That, pending the acceptance by both parties of any recommendations which the Provisional International Civil Aviation Organization may make after its study of this matter, such tariffs shall be subject to consideration under the provisions of Section IV (b) of the Annex to the Agreement.

Ante, p. 3456.

(b) That in case the Provisional International Civil Aviation Organization fails to establish a means of determining such rates satisfactory to both Contracting Parties, the consultation provided for in Article XIII (b) of the Agreement shall be in order.

Ante, p. 3452.

Service to Martinique.

6. For fifteen months from the signing of these documents, pending the completion of necessary improvements to the airport at Martinique (expected in the first quarter of 1947), it is understood that the French Transatlantic service to Martinique will have its temporary terminus at Puerto Rico. During this period, the French air carrier shall have at Puerto Rico the right of commercial entry and departure for international traffic in passengers, cargo and mail on the above service.

Service at Dakar.

Ante, p. 3466.

7. It is understood that the United States air carrier or air carriers operating on the route listed in Schedule II as Route No. 4 will afford reasonable service at Dakar.

JM

GB

JC
LWP
G. P. B.

a) qu'en attendant l'acceptation par les deux Parties Contractantes des recommandations que l'Organisation Provisoire de l'Aviation Civile Internationale serait amenée à faire en conclusion de ses travaux sur ce point, de tels tarifs seront appréciés en fonction des dispositions de la section IV (b) de l'Annexe à l'Accord;

b) qu'au cas où l'Organisation Provisoire de l'Aviation Civile Internationale ne parviendrait pas à établir des conditions de fixation desdits tarifs donnant satisfaction aux deux Parties Contractantes, la consultation prévue à l'article XIII-b) de l'Accord serait de droit.

6°/ Pour une durée de quinze mois à compter de la signature du présent Accord, en attendant l'achèvement des aménagements nécessaires à l'aérodrome de la Martinique (prévu pour le premier trimestre de 1947), il est entendu que le service Transatlantique français vers la Martinique aura son terminus provisoire à Porto-Rico. Pendant cette période, l'entreprise française jouira à Porto-Rico sur ledit service du droit de débarquer et d'embarquer en trafic international des passagers, du courrier et des marchandises.

7°/ Il est entendu que l'entreprise ou les entreprises de transport aérien des Etats-Unis qui assureront l'exploitation de la route figurant au tableau II sous le Numéro 4 effectueront un service raisonnable à Dakar.

The American Ambassador to the French Minister of Foreign Affairs

EMBASSY OF THE
UNITED STATES OF AMERICA
Paris, December 28, 1945

No. 1022

EXCELLENCY:

I have the honor to refer to the Air Transport Agreement concluded between the Governments of the United States and France by an exchange of notes dated July 15, 1939.

53 Stat. 2422.

Authorization to operate over designated routes.

As Your Excellency is aware, it is the desire of my Government to see the restoration of international civil air services at the earliest practicable date. I venture to inquire, therefore, if Your Excellency's Government would be disposed, in view of the existing Agreement, to grant authorization for American air carriers to operate over the following routes:

1. The United States via intermediate points over a North Atlantic route to Paris and beyond via intermediate stops in Switzerland, Italy and Greece to the Near East and India; in both directions.
2. The United States via intermediate points over a North Atlantic route to Lisbon, Barcelona and Marseille; in both directions.

In making this request, I should state that my Government desires that the American carriers concerned shall have the right to pick up and discharge international traffic in passengers, mail and cargo at the points in French territory named above.

Although it is unknown at this moment the number of schedules the American operators would be prepared to perform, it is hoped that Your Excellency's Government would be disposed to permit a greater frequency than the two flights weekly accorded in the Air Transport Agreement under reference.

My Government suggests that the addition to the existing Agreement, which would be constituted by the present letter together with a favorable response from Your Excellency, should be subject to termination at any time by either Government on one month's notice in writing to the other.

I take this occasion to renew to Your Excellency the assurances of my highest consideration.

JEFFERSON CAFFERY

His Excellency
Monsieur GEORGES BIDAULT,
Minister of Foreign Affairs,

The French Minister of Foreign Affairs to the American Ambassador

MINISTÈRE DES AFFAIRES ETRANGÈRES

RÉPUBLIQUE FRANÇAISE

PARIS, le *29 Décembre 1945*

MONSIEUR L'AMBASSADEUR,

Votre Excellence a bien voulu me faire tenir en date d'hier la lettre suivante:

"MONSIEUR LE MINISTRE,

"J'ai l'honneur de me référer à l'Arrangement pour le fonctionnement des Services de Transports Aériens conclu entre les Gouvernements américain et français par un échange de lettres en date du 15 Juillet 1939.

"Votre Excellence n'ignore pas que mon Gouvernement souhaiterait voir restaurer le plus tôt possible les services aériens civils internationaux. Je vous serais donc reconnaissant de bien vouloir me faire savoir si le Gouvernement de Votre Excellence serait disposé, eu égard à l'Arrangement en vigueur, à autoriser des entreprises américaines de transport aérien à assurer des services sur les routes suivantes:

I – Des ETATS-UNIS, via des points intermédiaires sur une route Nord-Atlantique, vers PARIS et les audelà à destination des INDES, avec escales intermédiaires en SUISSE, en ITALIE, en GRECE et dans le PROCHE-ORIENT; dans les deux sens.

2 – Des ETATS-UNIS, via des points intermédiaires sur une route Nord-Atlantique, vers LISBONNE, BARCELONE et MARSEILLE; dans les deux sens.

"En présentant cette demande, j'ajoute que mon Gouvernement souhaiterait que les entreprises américaines aient le droit de charger et de décharger en trafic international des passagers, du frêt et du courrier aux points sus-mentionnés du territoire français.

"Bien que ne soient pas connues pour le moment les fréquences que les entreprises américaines seraient prêtes à exploiter, le Gouvernement des Etats-Unis espère que le Gouvernement de Votre Excellence serait disposé à autoriser des fréquences plus nombreuses que les deux aller et retour hebdomadaires accordés par l'Arrangement sur le Fonctionnement des Services de Transports Aériens ci-dessus mentionné.

"Mon Gouvernement estime enfin que l'avenant à l'Arrangement en vigueur que constituerait, avec la présente lettre, une réponse favorable de Votre Excellence, devrait pouvoir être dénoncé à tout moment par l'un ou l'autre des deux Gouvernements, une telle dénonciation portant effet à l'expiration d'un délai d'un mois après sa notification par écrit à l'autre Gouvernement.

"Veuillez agréer . . . ."

J'ai l'honneur de faire savoir à Votre Excellence qu'en attendant la conclusion d'un nouvel accord général en cette matière, le Gouvernement français est tout disposé, en se référant à l'Arrangement sur le fonctionnement des Services de Transports Aériens en date du 15

Juillet 1939, à accorder aux entreprises de transport aérien des Etats-Unis le droit de charger et de décharger en trafic international, à Paris et à Marseille, des passagers, du courrier et du frêt sur les itinéraires ci-dessus mentionnés, aux conditions suivantes:

A/ Le Gouvernement des Etats-Unis accordera aux entreprises françaises de transport aérien les mêmes droits sur les itinéraires suivants:

1 – De France, via des points intermédiaires sur une route Nord-Atlantique, vers New-York et Washington; dans les deux sens.

2 – De France, via des points intermédiaires sur une route Nord-Atlantique, vers Montréal et Chicago; dans les deux sens.

B/ Dans l'établissement et l'exploitation technique et commerciale des services long courrier mentionnés ci-dessus, les entreprises de chacun des deux pays prendront en considération les intérêts des entreprises de l'autre, afin de ne pas indûment affecter les services que ces dernières assureraient sur tout ou partie des mêmes parcours.

La faculté pour les entreprises de transport aérien de chacun des deux pays de charger et de décharger, dans les villes et sur les itinéraires énumérés ci-dessus, des passagers, du courrier et du frêt à destination ou en provenance de pays tiers, est accordée à l'effet de permettre une exploitation plus économique des services long-courrier assurés par lesdites entreprises, services qui devront conserver comme objet essentiel de relier le pays auquel ressortit chacune de ces entreprises aux pays desservis en dernier lieu.

J'ajoute que le Gouvernement français examinera dans un esprit favorable les demandes d'augmentation de fréquences qui lui seraient présentées par le Gouvernement des Etats-Unis par rapport aux deux aller et retour hebdomadaires prévus à l'Arrangement en vigueur, étant entendu que le Gouvernement français bénéficiera des mêmes fréquences.

Conformément à la proposition faite par le Gouvernement des Etats-Unis, le Gouvernement français accepte que l'avenant à l'Arrangement en vigueur, que constitue la présente communication, conjointement avec la lettre de Votre Excellence en date de ce jour, puisse être dénoncée à tout moment par l'un ou l'autre des deux Gouvernements, une telle dénonciation portant effet à l'expiration d'un délai d'un mois après sa notification par écrit à l'autre Gouvernement./.

Veuillez agréer, Monsieur l'Ambassadeur, les assurances de ma très haute considération.

No. 1023

EXCELLENCY:

I have the honor to refer to Your Excellency's letter of today's date quoting my letter of December 28 on the subject of air transport services between the United States and France and adding the following:

Ante, p. 3474.

"I have the honor to inform Your Excellency that pending the conclusion of a new general agreement on this matter, the French Government is quite disposed, with reference to the Arrangement for the Operation of Air Transport Services dated July 15, 1939, to grant to United States air carriers the right to pick up and discharge, in international traffic, passengers, mail and cargo at Paris and Marseille on the above-mentioned routes, under the following conditions.

Grant by French Government of designated rights.

53 Stat. 2422.

"A. The Government of the United States will grant to French airlines the same rights on the following routes:

"1. France via intermediate points over a North Atlantic route to New York and Washington; in both directions.

"2. France via intermediate points over a North Atlantic route to Montreal and Chicago; in both directions.

"B. In the establishment and technical and commercial operation of the long range services mentioned above, the airlines of each of the two countries shall take into consideration the interests of the airlines of the other in order not to affect unduly the services which the latter perform on all or part of the same routes.

"The right of the airlines of each country to embark and disembark, in the cities and on the routes enumerated above, passengers, mail and goods destined to or coming from third countries, is accorded with the view to permitting more economical operation of the long range services performed by the said airlines, such services to retain as their primary objective the connection between the country of which each airline is a national and the country of ultimate destination.

"I would add that the French Government will consider favorably the requests which may be presented to it by the Government of the United States for flights in addition to the two per week provided in the existing Agreement, it being understood that the French Government will have benefit of the same frequencies.

Termination.

"Conforming to the proposal made by the Government of the United States, the French Government agrees that the addition to the existing Agreement, constituted by the present communication together with the letter from Your Excellency of today's date, may be terminated at any time by either Government, such denunciation to take effect at the expiration of one month following written notification to the other Government."

I have the honor to inform Your Excellency that the foregoing provisions are acceptable to the Government of the United States.

I take this occasion to renew to Your Excellency the assurances of my highest consideration.

ARTICULO 1

Unión Postal de las Américas y España

Los países contratantes, de acuerdo con la precedente declaración, constituyen, bajo la denominación de Unión Postal de las Américas y España, un solo territorio postal.

ARTICULO 2

Uniones restringidas

1. Los países contratantes, ya sea por su situación limítrofe o por la intensidad de sus relaciones postales, podrán establecer entre sí uniones más estrechas, con el fin de reducir tarifas o introducir otras mejoras sobre cualesquiera de los servicios a que se refieren el presente Convenio o los Acuerdos especiales celebrados por este Congreso.

2. Asimismo, y en lo que concierne a asuntos no previstos en el presente Convenio o en el de la Unión Postal Universal, los países signatarios podrán adoptar entre sí las resoluciones que estimen convenientes por medio de correspondencia, o si fuere necesario,

ajustando un Acuerdo especial, de conformidad con la autorización que les confiere el presente artículo o su legislación interna.

ARTICULO 3

Tránsito libre y gratuito

1. La gratuidad del tránsito territorial, fluvial y marítimo es absoluta en el territorio de la Unión Postal de las Américas y España; en consecuencia, los países que la integran se obligan a transportar a través de sus territorios y a conducir en los buques de su matrícula o bandera, sin cargo ninguno para los países contratantes, toda la correspondencia que éstos expidan con cualquier destino.

2. En los casos de reencaminamiento, los países contratantes se comprometen a reexpedir la correspondencia por las vías y conductos que utilicen para sus propios envíos.

ARTICULO 4

Convenio y Acuerdos de la Unión

Objetos de correspondencia

1. Las disposiciones de este Convenio y su Reglamento de Ejecución regularán, en todo lo previsto, los servicios relativos a la correspondencia.

2. Los demás servicios se regirán por los Acuerdos de esta Unión, por los que sobre el particular firmaren entre sí los países o, en su defecto, por los de la Unión Postal Universal.

3. La denominación de objetos de correspondencia se aplica a las cartas, tarjetas postales sencillas y con respuesta pagada, papeles de negocios, impresos, impresiones en relieve para el uso de los ciegos, muestras de mercadería, pequeños paquetes y fonopostales.

4. El intercambio de pequeños paquetes y fonopostales quedará limitado a los países que convengan en realizarlo, ya sea en sus relaciones recíprocas o en una sola dirección.

ARTITULO 5

Tarifa

1. La tarifa del servicio interior de cada país regirá en las relaciones de los países que constituyen la Unión Postal de las Américas y España, excepto cuando dicha tarifa interna sea superior a la que se aplique a la correspondencia destinada a los países de la Unión Postal Universal, en cuyo caso regirá esta última.

2. También regirá la tarifa internacional cuando se trate de servicios que no existan en el régimen interior.

3. Para los pequeños paquetes regirá la tarifa que determina el artículo 6 de este Convenio.

4. Las partes contratantes podrán establecer un derecho de almacenaje sobre los impresos, previo acuerdo entre las Administraciones interesadas, cuando así les conviniere.

ARTICULO 6

Pequeños paquetes

1. En el servicio facultativo de pequeños paquetes de que trata el artículo 4 de este Convenio, cada envío no podrá pesar más de un kilogramo ni contener objetos cuyo valor mercantil, en la localidad en que fuere entregado al Correo, exceda del valor de 10 francos oro o su equivalencia en la moneda del país de origen.

2. Las Administraciones que presten el servicio de pequeños paquetes regulado por el Convenio Universal no estarán obligadas a observar, en sus relaciones recíprocas, cualquiera disposición en conflicto con las respectivas estipulaciones del citado Convenio.

3. Los pequeños paquetes de cualquier especie, intercambiados entre los países de la Unión Postal de las Américas y España, teniendo en cuenta que no están afectos al pago de derechos de tránsito, serán franqueados de conformidad con la tarifa adoptada en cada país para las encomiendas de su servicio interno, pudiendo las Administraciones aplicar a esos pequeños paquetes las tasas previstas por el Convenio Postal Universal.

4. Las Administraciones de destino podrán someter a la fiscalización aduanera los pequeños paquetes, de acuerdo con las disposiciones de su legislación interna.

5. Las Administraciones de los países de destino podrán percibir de los destinatarios de pequeños paquetes:

a) Una cuota de 40 céntimos de franco oro, como máximo, por las operaciones, formalidades y tramitaciones inherentes al despacho aduanero;

b) Una cuota, que no excederá de 15 céntimos de franco oro, por la entrega de cada objeto, que será elevada hasta 30 céntimos de franco oro, como máximo, en el caso de entrega a domicilio.

6. Cuando los pequeños paquetes fueren considerados por la aduana del país de destino como exentos de pago de derechos aduaneros, no serán aplicables las cuotas de entrega previstas en el inciso b), parágrafo 5 de este artículo.

ARTICULO 7

Cupones-respuesta

1. En el régimen de la Unión Postal de las Américas y España el precio de venta al público de los cupones-respuesta será determinado por las Administraciones interesadas, pero no podrá ser inferior al equivalente de 15 céntimos de franco oro en la moneda del país que efectúe la venta.

2. Cada cupón es canjeable en cualesquiera de los países que integran la Unión, por un sello o sellos que representen el franqueo de una carta ordinaria de porte sencillo, originaria de ese mismo país con destino a otro país de la Unión. El plazo de validez de los cupones es ilimitado.

3. Los cupones–respuesta se imprimirán por la Oficina Internacional de Montevideo y serán suministrados a las Administraciones de la Unión a precio de costo.

4. En los ajustes de cuentas entre las Administraciones, el valor de los cupones–respuesta será calculado a razón de 15 céntimos de franco oro por unidad.

5. Cuando, en las relaciones entre dos Administraciones, el saldo anual no sea superior a 10 francos oro, la Administración deudora quedará exenta de cualquier pago.

6. Las Administraciones tienen la facultad de no encargarse de la venta de cupones–respuesta, siendo el canje, sin embargo, obligatorio.

7. Cuando la liquidación de las cuentas a que diere lugar el intercambio de cupones–respuesta américoespañoles no se efectúe directamente entre las Administraciones interesadas, la Oficina Internacional de Montevideo actuará como intermediaria. En este caso, formulará anualmente un estado de Administraciones deudoras y acreedoras, en forma similar a lo establecido en las disposiciones respectivas de la Unión Postal Universal.

ARTICULO 8

Devolución, reexpedición o modificación de dirección

Las disposiciones del Convenio de la Unión Postal Universal y su Reglamento de Ejecución, relativas a solicitudes de devolución, modificación de dirección y reexpedición, regirán en el orden de la Unión Postal de las Américas y España. Sin embargo, se considerarán llegadas fuera de término tales solicitudes cuando la Administración de destino resuelva pasar las piezas a jurisdicción aduanera.

ARTICULO 9

Correspondencia certificada. Responsabilidad

1. Los objetos designados en el artículo 4, podrán ser expedidos con el carácter de certificados, mediante el pago de un derecho igual al establecido para el servicio interno del país de origen, salvo que fuere más elevado que el que se aplique según el Convenio Postal Universal, en cuyo caso regirá este último.

2. Las Administraciones contratantes serán responsables de la pérdida de todo objeto certificado, excepto en los casos de fuerza mayor. El remitente tendrá derecho a una indemnización de 10 francos oro o su equivalente en la moneda del país que deba hacerla efectiva, pudiendo, no obstante, reclamar una indemnización menor.

3. Quedarán las Administraciones relevadas de responsabilidad por la pérdida de objetos certificados cuyo contenido caiga bajo el régimen de las prohibiciones del Convenio Postal Universal o esté prohibido por las leyes o reglamentos del país de origen o de destino, siempre que dichos países hayan dado el debido conocimiento por la vía usual.

4. Se mantiene, con carácter facultativo, una categoría especial de certificados sin derecho a indemnización aplicable a los objetos de correspondencia a que se refiere el artículo 4, parágrafo 3, del presente

Convenio. Las Administraciones que pongan en vigencia dicho servicio están obligadas a comunicarlo por la vía más rápida a la Oficina Internacional, con el fin de que ésta lo lleve a conocimiento de las demás. Los objetos a que se apliquen los derechos de certificación reducidos se singularizarán en el anverso con la mención "S. I." (sin indemnización), haciéndose igual anotación en las listas descriptivas, en la columna de "Observaciones", así como también en las reclamaciones que se formulen para investigar su destino.

5. Las Administraciones que adopten de una manera general un derecho de certificación reducido para todos los objetos que no sean cartas ni tarjetas postales, no estarán obligadas a observar los formalidades establecidas en la parte final del parágrafo anterior.

ARTICULO 10

Reclamaciones

La reclamación o la solicitud de informe con respecto a cualquier envío, dará lugar al cobro de un derecho igual al que tengan establecido en su régimen interno los países contratantes, excepto cuando el derecho interno sea superior al establecido por el Convenio Postal Universal, en cuyo caso regirá éste.

ARTICULO 11

Envíos sujetos a intervención aduanera

1. Es obligatoria la aplicación del marbete C–1, establecido por el Convenio Postal Universal, cuando se trate de piezas de correspondencia, cuyo contenido sea pasible de pago de derechos aduaneros en el país de destino. El uso de la declaración C–2 es facultativo para los envíos precitados.

2. Sin embargo, para los envíos abiertos, excepto los pequeños paquetes, no es obligatorio el uso de una u otra de las fórmulas citadas en el parágrafo anterior, sin perjuicio de la intervención de la aduana del país de destino.

ARTICULO 12

Peso y dimensiones

1. Los límites de peso y las dimensiones de los objetos de correspondencia se ajustarán a lo preceptuado en el Convenio de la Unión Postal Universal, con excepción de los impresos, cuyo peso podrá alcanzar a 5 kilogramos, o hasta 10, cuando se trate de obras de un solo volumen. Sin embargo, se aceptarán envíos con peso mayor de 5 y hasta 10 kilogramos, aún no tratándose de obras de un solo volumen, previo acuerdo entre las Administraciones interesadas.

2. Los envíos en forma de rollo, siempre que se trate de objetos indivisibles, podrán medir, sumada su longitud con el diámetro de ambas bases, hasta 120 centímetros, sin que la dimensión mayor pueda exceder de 100 centímetros.

ARTICULO 13

Franquicia de porte

1. Las partes contratantes convienen en conceder franquicia de porte, en el servicio interno y en el servicio américoespañol:

a) A la correspondencia relativa al servicio postal, cambiada entre las Administraciones de la Unión Postal de las Américas y España; entre estas Administraciones y la Oficina Internacional de Montevideo; entre las mismas Adminisciones y la Oficina de Transbordos de Panamá; entre esta última y la referida Oficina Internacional; entre las Oficinas postales de los países américoespañoles; y entre estas Oficinas y las Administraciones postales de los aludidos países;

b) A la correspondencia de los miembros del Cuerpo Diplomático de los países signatarios;

c) A la correspondencia oficial que los Cónsules y los Vice-cónsules cuando se hallaren en funciones de cónsules, remitan a sus respectivos países; a la que cambien entre sí; a la que dirijan a las autoridades del país en que estuvieren acreditados y a la que crucen con sus respectivas Embajadas y Legaciones, siempre que exista reciprocidad;

d) Gozarán de franquicia de porte los diarios, publicaciones periódicas, libros, folletos y otros impresos, que expidan los editores o autores con destino a las Oficinas de Información establecidas por las Administraciones de Correos de la Unión Postal de las Américas y España, así como los que se remitan gratuitamente a las bibliotecas y demás centros culturales nacionales, oficialmente reconocidos por los Gobiernos de los países que integran esta Unión;

e) A la correspondencia oficial que expida y reciba la Unión Panamericana de Wáshington.

2. La correspondencia a que se refieren los incisos a), b) y c) del parágrafo anterior podrá ser expedida con carácter certificado, exenta del pago del derecho respectivo, pero sin que haya lugar a indemnización alguna.

3. La correspondencia oficial de los Gobiernos Centrales de los países de la Unión Postal de las Américas y España, que conforme a sus leyes interiores circule libre de porte en su régimen interno, se admitirá con igual franquicia en el país de destino, sin ningún gravamen en el mismo, siempre que se observe una estricta reciprocidad.

4. Gozará asimismo, de franquicia de porte, la correspondencia de las Comisiones Nacionales de Cooperación Intelectual constituídas bajo los auspicios de los Gobiernos, de acuerdo con Convenciones Panamericanas y Universales vigentes.

5. El intercambio de correspondencia del Cuerpo Diplomático, entre las Secretarías de Estado de los respectivos países y sus Embajadas o Legaciones, tendrá el carácter de reciprocidad entre los países contratantes y será efectuado al descubierto o por medio de valijas

diplomáticas de conformidad con lo determinado en el artículo 105 del Reglamento de Ejecución. Estas valijas gozarán de franquicia y de todas las garantías de los envíos oficiales.

6. La franquicia de que trata el presente artículo, no alcanza al servicio aéreo ni a los demás servicios especiales existentes en el régimen américoespañol o en el interno de los países contratantes.

ARTICULO 14

Reducción de tasas

Los envíos que contengan objetos de correspondencia, con excepción de los pequeños paquetes, que intercambien las direcciones de las Escuelas de los países de la Unión Postal de las Américas y España o los alumnos de las mismas por intermedio de sus directores, gozarán de una tarifa equivalente al 50% de la ordinaria, siempre que su peso no exceda de un kilogramo y satisfagan las demás condiciones que correspondan a su clasificación postal.

ARTICULO 15

Servicios especiales

Las Altas Partes contratantes podrán, sobre la base de acuerdos especiales o por correspondencia, hacer extensivos a los demás países de la Unión Postal de las Américas y España los servicios postales que presten o puedan, en lo futuro, establecer en el interior de sus respectivos países.

ARTICULO 16

Fórmulas de servicio enviadas por correo aéreo

1. Las fórmulas previstas en el Reglamento de Ejecución del Convenio Postal Universal para las solicitudes de devolución de correspondencia o modificación de dirección, así como las relativas a las reclamaciones de cualquier objeto de correspondencia y petición de informes podrán ser encaminadas por la vía aérea.

2. A tal efecto, las fórmulas C.11, C.12 y C.13, serán diferenciadas del siguiente modo: en color azul, las que corresponda encaminar por la vía aérea y en rosa, las que deban ser contestadas por la misma vía.

3. El encaminamiento por vía aérea dará lugar a la percepción de un derecho suplementario, que el interesado deberá abonar en el acto de formalizar la gestión, equivalente al porte aéreo de una carta de 5 gramos para el país de destino o al duplo de dicho porte si solicita que la respuesta se expida por la misma vía. Estos derechos quedarán totalmente a beneficio de la Administración que los perciba.

ARTICULO 17

Idioma oficial

Se adopta el español como idioma oficial para los asuntos relativos al servicio de Correos. No obstante, los países cuyo idioma no fuere éste, podrán usar el propio.

ARTICULO 18

Protección e intercambio de funcionarios postales

1. Las Administraciones de los países contratantes estarán obligadas a prestarse entre sí, previa solicitud, la cooperación que necesiten sus empleados encargados del transporte de correspondencia en tránsito por tales países. Igualmente proporcionarán toda clase de facilidades a los funcionarios que una de dichas Administraciones acuerde enviar a cualquiera otra, para llevar a cabo estudios acerca del desarrollo y perfeccionamiento de los servicios postales.

2. Las Administraciones, por intermedio de la Oficina Internacional de Montevideo, se pondrán de acuerdo para efectuar entre ellas el intercambio de funcionarios.

No obstante lo establecido precedentemente, las Administraciones podrán también acordar el envío de funcionarios, con fines de aprendizaje o de instrucción, sin que para ello sea indispensable el intercambio de éstos.

3. Una vez convenido entre dos o más Administraciones el intercambio o envío unilateral de funcionarios previstos en los parágrafos anteriores, acordarán aquéllas la forma en que deban sufragarse los gastos correspondientes y, cuando lo consideren necesario, a iniciativa y por intermedio de la Oficina Internacional de Montevideo.

ARTICULO 19

Oficina Internacional de Transbordos

1. Queda subsistente en la República de Panamá una Oficina Internacional de Transbordos, a la cual corresponde recibir y reexpedir todos los despachos postales, originarios de las Administraciones de la Unión que no dispongan de servicios propios en el Istmo, y que transitando por él, den lugar a operaciones de transbordo.

2. La expresada Oficina funcionará de acuerdo con el Reglamento concertado entre la Oficina Internacional de la Unión Postal de las Américas y España y la Administración Postal Panameña.

3. Las reformas que en cualquier tiempo deban introducirse en el Reglamento aludido, se someterán por las Administraciones interesadas a la consideración de la Oficina Internacional de Montevideo, para que, por su mediación, se propongan a la Administración Postal de Panamá.

4. La organización y funcionamiento de la Oficina Internacional de Transbordos quedan sometidos a la vigilancia y fiscalización de la Dirección General de Correos y Telégrafos de Panamá y de la Oficina Internacional de la Unión Postal de las Américas y España con sede en Montevideo, a la cual incumbe, además, actuar como mediadora y asesora en cualquier divergencia que surja entre la Administración Postal de Panamá y los países que utilicen los servicios de la Oficina mencionada.

5. El personal adscrito al servicio de la Oficina será designado por la Dirección General de Correos y Telégrafos de Panamá, y tendrá carácter inamovible, conforme con las disposiciones que al respecto establece el Reglamento de la Oficina. Tendrá también los mismos

derechos y obligaciones que las leyes postales de la República de Panamá dispongan para los empleados de correos.

6. Los gastos que demande el sostenimiento de esta Oficina quedarán a cargo de los países que utilicen sus servicios, repartidos aquéllos proporcionalmente al número de valijas propias que intercambien por su mediación.

La Administración de Panamá adelantará las cantidades necesarias para mantener regularmente los servicios de la Oficina.

Dichas cantidades se reintegrarán trimestralmente por cada Administración interesada, pero los pagos que no se produzcan dentro de un plazo de seis meses, a partir de la fecha en que la Administración deudora reciba la cuenta que le formule la Oficina Internacional de Transbordos, devengarán en favor de aquella Administración un interés anual del 5%.

ARTICULO 20

Arbitrajes

Todo conflicto o desacuerdo que se suscite en las relaciones postales de los países contratantes, será resuelto por juicio arbitral que se tramitará en la forma dispuesta por el Convenio vigente de la Unión Postal Universal. La designación de árbitros deberá recaer en los países signatarios, y llegado el caso, con intervención de la Oficina Internacional de la Unión Postal de las Américas y España.

ARTICULO 21

p) De organizar una sección especial, encargada de la colección de los sellos que remitan las Administraciones en cumplimiento del artículo 113, parágrafo 1, inciso k) del Reglamento de Ejecución y de centralizar las informaciones filatélicas de los países de la Unión Postal de las Américas y España;

Los gastos que se relacionen con la celebración de los expresados Congresos y Conferencias, serán fijados, en cada ocasión, por la Dirección General de Correos de la República Oriental del Uruguay, de acuerdo con la Oficina Internacional de Montevideo.

5. La Dirección General de Correos del Uruguay fiscalizará los gastos de la Oficina Internacional de la Unión Postal de las Américas y España y le hará los anticipos que ésta necesite.

6. Las cantidades adelantadas por la Administración del Uruguay en concepto de anticipos, a que se refiere el parágrafo anterior, se abonarán por las Administraciones deudoras tan pronto como sea posible y, a más tardar, antes de seis meses, a partir de la fecha en que el país interesado reciba la cuenta formulada por la Dirección General de Correos del Uruguay. Después de esa fecha, las cantidades adeudadas devengarán interés a razón de 5% al año, a contar del día de expiración de dicho plazo.

7. Los países contratantes se comprometen a incluir en sus presupuestos, una cantidad anual destinada a atender puntualmente al pago de la cuota que les corresponda sufragar.

ARTICULO 22

1. Todos los asuntos que se relacionen con el canje de correspondencia entre los países contratantes y que no estén previstos en este Convenio, se sujetarán a las disposiciones del Convenio de la Unión Postal Universal y su Reglamento. En caso de nueva adhesión, el Gobierno de la República Oriental del Uruguay, de común acuerdo con la Oficina Internacional de Montevideo y el Gobierno del país interesado, determinará el grupo en el cual debe ser aquél incluído, a los efectos del reparto de los gastos de la Oficina Internacional.

ARTICULO 31

1. El presente Convenio empezará a regir el primero de enero de 1947 y quedará en vigencia sin limitación de tiempo, reservándose cada una de las Partes Contratantes el derecho de retirarse de esta Unión, mediante aviso dado por su Gobierno al de la República Oriental del Uruguay, con un año de anticipación.

2. El depósito de las ratificaciones se hará en la ciudad de Río de Janeiro, República de los Estados Unidos del Brasil, en el más breve plazo posible, procurándose que sea antes de la vigencia del Convenio y Acuerdo a que se refieran; y de cada una de aquéllas se levantará el Acta respectiva, cuya copia remitirá el Gobierno de la República del Brasil, por la vía diplomática, a los Gobiernos de los demás países signatarios.

ARTICULO 102

Sin embargo, las Administraciones podrán ponerse de acuerdo con el fin de utilizarlos para el envío de la propia correspondencia.

ARTICULO 104

Pequeños paquetes

1. El acondicionamiento y envase de los pequeños paquetes se regirán por las mismas disposiciones establecidas para las muestras. Además, deberá figurar en su exterior el nombre y la dirección de los remitentes.

POSTAL UNION OF THE AMERICAS AND SPAIN

CONVENTION

concluded between

Argentina, Bolivia, Brazil, Canada, Colombia, Costa Rica, Cuba, Chile, the Dominican Republic, Ecuador, El Salvador, Spain, the United States of America, the United States of Venezuela, Guatemala, Haiti, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru and Uruguay.

The undersigned, Plenipotentiaries of the Governments of the countries enumerated, assembled in Congress in the city of Rio de Janeiro, Republic of the United States of Brazil, in exercise of the right granted them by the Convention of the Universal Postal Union in force, and inspired by the desire to extend, facilitate and perfect their postal relations and establish a solidarity of action capable of representing effectively in Universal Postal Congresses their common interests in regard to communications by mail, have determined to conclude, *ad referendum*, the following Convention:

54 Stat. 2049.

ARTICLE 1

Postal Union of the Americas and Spain

The contracting countries, in accordance with the foregoing declaration, constitute, under the name of *Postal Union of the Americas and Spain*, a single postal territory.

ARTICLE 2

Restricted Unions

1. The contracting countries, whether on account of their adjacent location or on account of the intensity of their postal relations, may establish closer unions among themselves, with a view to the reduction of rates or the introduction of other improvements in any of the services referred to in the present Convention or in the special Agreements concluded by this Congress.

2. Likewise, concerning matters not provided for in the present Convention, or in that of the Universal Postal Union, the signatory countries may adopt among themselves such resolutions as they deem convenient, through correspondence, or, if necessary, by establishing a special Agreement, in accordance with the authorization conferred upon them by the present Article or their domestic legislation.

Special agreements.
54 Stat. 2049.

ARTICLE 3

Free and gratuitous transit

1. The gratuity of territorial, fluvial and maritime transit is absolute in the territory of the Postal Union of the Americas and Spain; consequently, the countries which form it obligate themselves to transport across their territories, and to convey by the ships of their registry or flag, without any charge whatsoever to the contracting countries, all correspondence which the latter send to any destination.

Reforwarding.

2. In case of reforwarding, the contracting countries are bound to reforward the correspondence by the ways and means which they utilize for their own dispatches.

ARTICLE 4

Convention and Agreements of the Union

Articles of correspondence

Post, p. 3518.

1. The provisions of this Convention and its Regulations of Execution will regulate all matters and services relative to correspondence.

2. The other services will be governed by the Agreements of this Union, by those which the countries may sign among themselves on the subject, or, in their absence, by those of the Universal Postal Union.

"Articles of correspondence."

3. The denomination "articles of correspondence" applies to letters, single and reply post cards, commercial papers, prints, raised print for the use of the blind, samples of merchandise, small packets, and phonopostal articles.

4. The exchange of small packets and phonopostal articles will be restricted to the countries which agree to execute it, either in their reciprocal relations or in only one direction.

ARTICLE 5

Postage rates

1. The postage rates of the domestic service of each country will govern in the relations of the countries which constitute the Postal Union of the Americas and Spain, except when said domestic rates are higher than those applicable to correspondence destined for countries of the Universal Postal Union, in which case the latter will govern.

2. The international rates will also govern when it is a question of services which do not exist in the domestic regime.

3. For small packets the rate will govern which is determined in Article 6 of this Convention.

Storage charge.

4. The contracting Powers may fix a storage charge, upon previous agreement among the interested Administrations, for printed matter, when they deem it desirable.

ARTICLE 6

Small packets

Weight, etc.

1. In the optional service of small packets mentioned in Article 4 of this Convention, no article may weigh more than one kilogram, or contain objects whose mercantile value at the place where they are mailed exceeds the value of 10 gold francs or the equivalent thereof in money of the country of origin.

2. Administrations which execute the service of small packets regulated by the Universal Convention will not be obliged to observe, in their reciprocal relations, any provision in conflict with the respective stipulations of said Convention.

Rates.

3. Small packets of any kind exchanged between countries of the Postal Union of the Americas and Spain, in view of the fact that they are not liable to payment of transit charges, will be prepaid at the rates adopted in each country for parcels in its domestic service, or the Administrations may apply to such small packets the rates prescribed by the Universal Postal Convention.

54 Stat. 2049.

Customs handling.

4. The Administrations of destination may submit small packets to customs handling in accordance with the provisions of their domestic legislation.

Collection of fees.

5. The Administrations of the countries of destination may collect from the addressees of small packets:

a) A fee of 40 centimes of a gold franc at most for the operations, formalities and handling involved in customs clearance;

b) A fee which will not exceed 15 centimes of a gold franc for the delivery of each packet; that fee will be increased to 30 centimes of a gold franc at most in case of delivery at the addressee's residence.

Nonapplicability of delivery fees.

6. When small packets are considered by the customs of the country of destination as exempt from payment of customs duties, the delivery fees provided for in paragraph (b) of Section 5 of this Article will not be applicable.

ARTICLE 7

Reply coupons

Selling price, etc.

1. Under the Postal Union of the Americas and Spain, the selling-price to the public of reply coupons shall be fixed by the interested Administration, but may not be lower than the equivalent of 15 centimes of a gold franc in the money of the country which issues them.

2. Each coupon is exchangeable, in any of the countries which form the Union, for a stamp or stamps representing the postage on an ordinary letter originating in the same country destined for another country of the Union. The period of validity of the coupon is unlimited.

3. Reply coupons will be printed by the International Office of Montevideo and will be furnished to the Administrations of the Union at cost.

4. In the settlement of accounts among the Administrations the value of the reply coupons will be calculated at the rate of 15 centimes of a gold franc per unit.

5. When the annual balance in the relations between two Administrations is not more than 10 gold francs, the debtor Administration will be exempt from any payment.

6. Administrations will be allowed to refuse to sell reply coupons, although their exchange is obligatory.

7. When the settlement of accounts arising from the exchange of Americo-Spanish reply coupons is not effected directly between the Administrations concerned, the International Office of Montevideo will act as intermediary. In this case, it will make up an annual statement of debtor and creditor Administrations, in accordance with the respective provisions of the Universal Postal Union.

ARTICLE 8

Return, reforwarding or change of address

54 Stat. 2049, 2105.

The provisions of the Convention of the Universal Postal Union and its Regulations of Execution relative to the requests for return or change of address and reforwarding will govern in the Postal Union of the Americas and Spain; such requests, however, will be deemed out of order after the Administration of destination has sent the articles to the jurisdiction of the Customs.

ARTICLE 9

Registered correspondence

Responsibility

Fee.

1. The articles designated in Article 4 may be sent under registration upon payment of a fee equal to that established in the domestic service of the country of origin, except when the domestic fee is higher than that applicable under the Universal Postal Convention, in which case the latter will govern.

54 Stat. 2049.

Loss of articles.

2. Save in cases of *force majeure*, the contracting Administrations will be responsible for the loss of every registered article. The sender will be entitled to an indemnity which may in no case exceed ten gold francs or the equivalent thereof in money of the country which must pay it, being able, however, to request a smaller indemnity.

3. Administrations will be relieved of responsibility for loss of registered articles whose contents fall under the prohibitions of the Universal Postal Convention, or which are prohibited by the laws and regulations of the country of origin or of destination, provided that said countries have given due notice by the usual means.

Registers without right to indemnity.

4. There is maintained, as optional, a special category of registers without right to indemnity, applicable to the articles of correspondence referred to in Section 3 of Article 4 of this Convention. The Administrations which put this service into effect are obliged to communicate the fact to the International Office by the most rapid means, so that it may circularize the information among the other countries. Articles to which a reduced registry is applicable will be endorsed on the reverse side with the letters "*S. I.*" (without indemnity) and a similar notation will be made in the descriptive lists, in the "Observations" column, as well as on inquiries made in order to determine the whereabouts of the matter.

5. Administrations which adopt, in a general manner, a reduced registration fee for all articles other than letters and post cards, will not be obliged to observe the formalities prescribed by the last part of the preceding Section.

ARTICLE 10

Inquiries

Complaints or requests for information regarding any article will be charged with a fee equal to that established in the domestic regimes of the contracting powers, except when such domestic fee is higher than that established by the Universal Postal Convention, in which case the latter will govern. 54 Stat. 2049.

ARTICLE 11

Articles subject to customs clearance

1. The application of the label, C–1, established by the Universal Postal Convention, to articles of correspondence whose contents are subject to customs duties in the country of destination, is obligatory. The use of the declaration, C–2, is optional for the aforementioned articles. 54 Stat. 2111.

2. Nevertheless, for unsealed matter, except small packets, the use of neither of the documents mentioned in the foregoing Section is obligatory, without prejudice to customs clearance by the country of destination.

ARTICLE 12

Weight and dimensions

1. The limits of weight and dimensions of articles of correspondence will conform to those fixed by the Universal Postal Convention, with the exception of prints whose weight can attain 5 kilograms, or even as much as 10 kilograms when it is a question of works in a single volume. However, articles with a weight greater than 5, but not exceeding 10 kilograms will be accepted even when it is not a question of works in a single volume, if previous agreement is made between the Administrations concerned. 54 Stat. 2049.

2. Articles in roll form, when it is a question of indivisible objects, may measure as much as 120 centimeters, adding their length to the diameters of both bases, but the greatest dimension may not exceed 100 centimeters. Articles in roll form.

ARTICLE 13

Franking privilege

1. The contracting parties agree to grant the franking privilege, in their domestic service and in the Americo-Spanish service:

a) To correspondence relative to the postal service exchanged between Administrations of the Postal Union of the Americas and Spain; between these Administrations and the International Office of Montevideo; between the same Administrations and the Transfer

d) The franking privilege will be enjoyed by newspapers, periodical publications, books, pamphlets, and other prints sent by publishers or authors to Information Offices established by Postal Administrations of the Postal Union of the Americas and Spain, as well as those sent free of charge to libraries and other national cultural centers officially recognized by the Governments of the countries forming this Union;

e) To official correspondence sent and received by the Pan American Union in Washington.

2. The correspondence referred to by paragraphs (a), (b) and (c) of the preceding Section may also be sent free of postage under registration, but without right to indemnity.

Central Governments of countries of the Postal Union.

3. Official correspondence of the Central Governments of the countries of the Postal Union of the Americas and Spain which circulates free in their domestic services under their domestic legislation is admitted to the same franking privilege in the country of destination without the collection of any charge therefor, whenever strict reciprocity is observed.

National Commissions of Intellectual Cooperation.

4. The franking privilege will also be enjoyed by correspondence of National Commissions of Intellectual Cooperation set up under the auspices of the Governments in accordance with the Pan American and Universal Conventions in force.

Correspondence between Secretariats of State and their Embassies, etc.

5. The exchange of correspondence of the Diplomatic Corps, between the Secretariats of State of the respective countries and their Embassies or Legations will have a reciprocal character among the contracting countries and will be effected in open mail or by means of diplomatic pouches, in accordance with the provisions of Article 105 of the Regulations of Execution. These pouches will enjoy the franking privilege and all safeguards of official dispatches.

Post, p. 3520.

6. The franking privilege dealt with in the present Article will not affect the air service or other special services existing in the Americo-Spanish regime or in the domestic services of the contracting countries.

ARTICLE 14

ARTICLE 15

Special services

The High Contracting Parties may, on the basis of special agreements or by correspondence, extend to the other countries of the Postal Union of the Americas and Spain such postal services as they carry on or may in the future establish within their respective countries.

ARTICLE 16

Service forms sent by air mail

1. The forms provided for in the Regulations of Execution of the Universal Postal Convention for requests for the withdrawal of correspondence or change of address, as well as those provided for inquiries regarding articles of correspondence and requests for information, may be dispatched by air mail. 54 Stat. 2105.

ARTICULO 9

Franquicia de derechos

Estarán exentos de todo derecho los giros relativos al servicio cambiados entre las Administraciones o entre las oficinas de correos dependientes de cada Administración, así como también los que remitan a la Oficina Internacional de Montevideo y viceversa.

ARTICULO 10

Plazo de validez de los giros

1. Salvo acuerdo en contrario, todo giro postal será pagadero en el país de destino dentro de los doce meses siguientes al de su emisión.

2. El importe de los giros que no hayan sido pagados dentro de dicho período, se acreditará a la Administración de origen, a la cual se enviará al efecto una fórmula D con el detalle de tales giros, para que proceda de acuerdo con sus reglamentos.

ARTICULO 11

Cambio de dirección y reintegro de giros

1. Cuando el remitente desee corregir un error en la dirección del destinatario o solicitar la devolución del importe del giro, hará la gestión ante la Administración del país que lo haya emitido.

2. Por lo general, un giro postal no será reintegrado sin autorización de la Administración Central del país pagador. Dicha autorización se dará por medio de una comunicación independiente, dirigida a la Administración de origen, y el monto total de los giros cuyo reintegro se autorice se acreditará en la próxima cuenta a formularse.

ARTICULO 12

Aviso de pago

1. El remitente de un giro podrá obtener un aviso de pago, mediante un derecho equivalente al percibido por la Administración de origen en concepto de aviso de recibo de la correspondencia certificada. Este derecho pertenecerá a la Administración de origen.

2. La Administración de destino extenderá el aviso de pago en un impreso, conforme al modelo F y lo remitirá al propio interesado, directamente, o a la Administración emisora para su entrega a aquél.

ARTICULO 13

Reexpedición

1. A petición del remitente o del destinatario de los giros, éstos podrán ser reexpedidos a otro país distinto, siempre que exista cambio de giros con el nuevo país de destino.

2. La Administración reexpedidora tendrá derecho a deducir del importe del giro las cuotas que le correspondan por concepto de los nuevos giros emitidos por ella, conforme a lo establecido en el artículo 6.

3. En caso de reexpedición, el giro se considerará como si hubiese sido pagado por la Administración reexpedidora, la cual lo incluirá en la cuenta por tal concepto, añadiendo la palabra "Reexpedición".

ARTICULO 14

Legislación interior

Los giros postales que se cambien entre dos países estarán sujetos, en lo que concierne a su emisión y pago, a las disposiciones vigentes en los países de origen o destino, según el caso, aplicables a los giros postales interiores.

ARTICULO 15

Formación de las listas

1. Cada Oficina de Cambio comunicará a la Oficina de Cambio corresponsal diariamente, o en las fechas que de mutuo acuerdo se señalen, las cantidades recibidas en su país para ser pagadas en el otro, haciendo uso del modelo A, anexo.

2. Todo giro postal anotado en las listas llevará un número progresivo que se denominará "número internacional", comenzando el 1º de enero o el 1º de julio de cada año, según se convenga, con el número 1. Las listas llevarán, asimismo, un número de orden, comenzando por el número 1, el 1º de enero o el 1º de julio de cada año. Cuando se produzca el cambio de numeración, la primera lista llevará también el último número de la serie anterior.

3. Las Oficinas de Cambio se acusarán recibo de cada lista por medio de la primera lista siguiente enviada en la dirección opuesta.

4. Cualquier lista que faltare será reclamada inmediatamente por la Oficina de Cambio que comprobare la falta. La Oficina de Cambio remitente, en tal caso, enviará lo antes posible, a la reclamante, un duplicado de la lista pedida, debidamente formalizado.

5. Con los giros expedidos por vía aérea se seguirá el mismo procedimiento establecido en los parágrafos precedentes pero utilizando listas del modelo A, caracterizadas con membrete o rótulo de color azul, para las que se llevará numeración independiente.

ARTICULO 16

Comprobación y rectificación de las listas

1. Las listas serán revisadas cuidadosamente por la Oficina de Cambio destinataria y corregidas cuando contengan simples errores. De estas correcciones será informada la Oficina de Cambio remitente, al acusársele recibo de la lista en que se hubieren hecho.

2. Cuando las listas contengan otras irregularidades, la Oficina de Cambio destinataria pedirá explicaciones a la remitente, la cual deberá informar en el plazo más breve posible. Entretanto se suspenderá la emisión de los giros postales interiores correspondientes a las mencionadas anotaciones irregulares.

ARTICULO 17

Pago de los giros

1. Al recibirse en una Oficina de Cambio una lista de giros con arreglo a lo dispuesto en el artículo 15, dicha Oficina procederá a efectuar u ordenar el pago a los destinatarios en la moneda del país de destino de las cantidades que, en dicha moneda o en otra convenida, figuren en la lista, de conformidad con los reglamentos vigentes en cada país para el pago de los giros internacionales.

2. La Administración de destino procurará en todos los casos realizar sin demora el pago a los beneficiarios. Si transcurrido un mes de remitido el aviso al beneficiario no se hubiere efectuado el pago, se comunicará el hecho a la Administración de origen para que lo ponga en conocimiento del remitente.

3. Los duplicados de giros postales se expedirán solamente por la Administración del país emisor, de conformidad con su legislación interna y previa comprobación de que el giro no ha sido ni pagado al destinatario ni reembolsado el expedidor.

ARTICULO 18

Rendición y liquidación de cuentas

1. Salvo acuerdo en contrario, al final de cada trimestre, la Administración acreedora formulará la cuenta respectiva para la Administración corresponsal, en que conste:

a) Los totales de las listas que contengan el detalle de los giros emitidos en ambos países durante el trimestre;
b) Los totales de los giros que hubieren sido reintegrados a los remitentes;
c) Los totales de los giros que hubieren caducado durante el trimestre.

2. El haber de cada Administración se expresará en la moneda de su país.

El importe menor será convertido a la moneda del país acreedor con arreglo al cambio medio del trimestre a que se refiera la cuenta.

3. Esta cuenta, extendida en doble ejemplar, se enviará por la Administración que la haya formulado, a la Administración correspondiente.

Si el saldo resultare a favor de esta Administración, se pagará uniendo a la cuenta una letra a la vista sobre el país acreedor.

Si el saldo resultare a favor de la Administración que haya formulado la cuenta, el pago se llevará a cabo por la Administración deudora en la forma indicada en el párrafo anterior, al devolverse aceptada la cuenta.

Para la formación de esta cuenta trimestral se utilizarán los modelos B, C, D y E, anexos al presente Acuerdo.

4. También podrán entenderse las Administraciones para no efectuar conversiones, sino para realizar la liquidación unilateralmente;

esto es, para abonar cada Administración a la otra, el importe total de los giros pagados por su cuenta. En tal caso cada Administración habrá de formular una cuenta trimestral.

ARTICULO 19

Supresión de cuentas por intercambio de giros

Las Administraciones podrán, previo mutuo acuerdo, suprimir la formación de cuentas a que se refiere el artículo anterior. En este caso, deberán comprometerse a enviar adjunto a cada lista de giros, modelo A, un cheque por el importe total de los mismos, aplicándose igual procedimiento cuando esté indicado el uso de los modelos C y D.

Los cheques, salvo arreglo en contrario, serán expedidos en la moneda del país acreedor y, en estas condiciones, se hará la conversión por el cambio libre.

ARTICULO 20

Anticipos a buena cuenta

Cuando resultare que una Administración deba a la otra, por cuenta de giros postales, un saldo que exceda de 25.000 francos oro, o la equivalencia aproximada de esta cantidad en su propia moneda, la Administración deudora deberá enviar a la acreedora, a la mayor brevedad posible y como anticipo a buena cuenta, una cantidad aproximada al saldo de la liquidación trimestral a que se refiere el artículo 18.

ARTICULO 21

Suspensión del servicio

1. Las Administraciones de los países contratantes podrán, en circunstancias extraordinarias, suspender temporalmente la emisión de giros postales y adoptar todas aquellas disposiciones que estimen convenientes, para salvaguardar sus intereses y evitar cualquier agio que pudiere intentarse cometer por medio del servicio de giros.

2. La Administración que adopte alguna de las medidas aludidas en el parágrafo anterior, deberá comunicarlo con toda urgencia a las Administraciones con quienes cambie giros postales.

ARTICULO 22

Proposiciones durante el intervalo de las reuniones

El presente Acuerdo podrá ser modificado en el intervalo que medie entre los Congresos, siguiendo el procedimiento establecido en el Convenio de la Unión Postal Universal. Para que tengan fuerza ejecutiva las modificaciones, deberán obtener:

a) unanimidad de sufragios si se trata de introducir nuevas disposiciones o de modificar los artículos 1, 2, 5, 8, 9, 14, 18, 19, 20, 21, 22 y 23;
b) dos tercios de sufragios para modificar los demás artículos.

ARTICULO 23

Vigencia y duración del Acuerdo

1. El presente Acuerdo empezará a regir el 1º de enero de 1947 y quedará en vigencia sin limitación de tiempo, reservándose cada una de las Altas Partes contratantes el derecho de denunciarlo, mediante aviso dado por su Gobierno al de la República Oriental del Uruguay, con un año de anticipación.

2. El depósito de las ratificaciones se hará en la ciudad de Río de Janeiro, República de los Estados Unidos del Brasil, en el más breve plazo posible. Se levantará un acta relativa al depósito de las ratificaciones de cada país, y el Gobierno del Brasil remitirá por la vía diplomática una copia de dicha acta a los Gobiernos de los demás países signatarios.

3. Quedan derogadas a partir de la fecha en que entre en vigor el presente Acuerdo las estipulaciones del Acuerdo de Giros Postales, suscrito en Panamá el 22 de Diciembre de 1936.

4. En el caso de que el Acuerdo no fuere ratificado por uno o varios de los países contratantes, no dejará de ser válido para los que así lo hubieren hecho.

5. Los países contratantes podrán ratificar provisionalmente este Acuerdo por correspondencia, dando aviso de ello a las Administraciones respectivas por medio de la Oficina Internacional, sin perjuicio de que, según la legislación de cada país y previa aprobación de los Congresos Nacionales, sea confirmada por la vía diplomática.

En fe de lo cual, los Plenipotenciarios de los países enumerados suscriben el presente Acuerdo en la ciudad de Río de Janeiro, República de los Estados Unidos del Brasil, a los 25 días del mes de setiembre de mil novecientos cuarenta y seis.

AGREEMENT RELATIVE TO MONEY ORDERS

concluded between

Argentina, Bolivia, Brazil, Colombia, Costa Rica, Cuba, Chile, Ecuador, El Salvador, Spain, the United States of America, the United States of Venezuela, Guatemala, Haiti, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, the Dominican Republic and Uruguay.

The undersigned, Plenipotentiaries of the Governments of the countries mentioned, in exercise of the authority conferred by the Convention of the Universal Postal Union, agree *ad referendum* to execute the money order service, in accordance with the following clauses:

54 Stat. 2049.

ARTICLE 1

Object of the agreement

The exchange of money orders among the contracting countries whose Administrations agree to perform this service will be governed by the provisions of the present Agreement.

ARTICLE 2

Currency

The amount of the money orders will be expressed in the currency of the country of destination. Nevertheless the Administrations are authorized to adopt another currency by common consent if they deem it convenient.

ARTICLE 3

Conditions for the exchange of money orders

Ante, p. 3554.

1. The exchange of money orders between the contracting nations will be effected by means of lists conforming to model A attached, which shall be forwarded to their destination by ordinary or air mail as the interested Administrations may agree.

Addition to forms "A".

2. Furthermore, upon previous agreement, an addition may be made to the aforementioned forms "A" at the request of the remitter of the money order, or a private message addressed to the beneficiary, relative to the respective remittance may be attached to the list.

Offices responsible for issuing lists.

3. Each Administration will designate the Offices of its country which will be responsible for issuing the lists and for forwarding them to the other Offices which will be designated by the other Administrations for the same purpose.

4. In case of *force majeure* which renders impossible the direct exchange of money orders, the issuing country, even without a request of the remitter or of the payee may redirect them, upon previous agree-

ment among the Administrations involved and subject to the aforementioned rules, to a different country that the latter, in its turn, may reforward them to their destination by the route which seems most practical for their delivery.

ARTICLE 4

Telegraphic money orders

The provisions of this Agreement will be extended to telegraphic money order service between the countries which agree to provide it. To this end they will adopt, by agreement among themselves, regulations to govern the service.

ARTICLE 5

Maximum amount of money orders

The Administrations of the countries which agree to provide this service will come to an agreement to fix the maximum amount of the money orders exchanged among them, but this amount may not be less than 300 gold francs or its equivalent in the respective currencies.

Nevertheless, money orders relating to the postal services and which are issued free of charge as provided in Article 9, may exceed the limits fixed by any Administration.

ARTICLE 6

Rates and commission fees

1. The remitter of every money order issued in accordance with the provisions of the present Agreement must pay the fee fixed by the Administration of origin, in accordance with its regulations and the scales adopted and promulgated for its domestic service.

2. When money orders are sent by air mail or special delivery, the Administrations may collect the special rates and the established air mail surtaxes, which must not exceed those in effect for letters. Special rates, etc.

ARTICLE 7

Endorsements

The contracting powers are authorized to permit, in their territories and in accordance with their domestic legislation, the endorsement of money orders originating in any country.

ARTICLE 8

Responsibility

The Administrations will be responsible to the remitters for the amounts which these deposit for conversion into money orders, until they have been paid to the payees or endorsees.

ARTICLE 9

Exemption from charges

Orders relating to the service exchanged between Administrations or between the post offices of any Administration, as well as those

sent to the International Office of Montevideo, and vice-versa, will be exempt from all charges.

ARTICLE 10

Period of validity of orders

1. In the absence of agreement to the contrary, every money order will be payable in the country of destination for a period of twelve months after issue.

Money orders not paid within period.

2. The amount of the money orders which have not been paid within the period stipulated above will be credited to the Administration of origin, to which country there shall be sent for the purpose a form D with the detailed listing of such orders so that it can proceed in accordance with its regulations.

Ante, p. 3560.

ARTICLE 11

Change of address and repayment of order

Request.

1. When the remitter desires to correct an error in the address of the beneficiary or seeks repayment of a money order, he must make his request to the Administration of the country which issued the money order.

Authorization.

2. In general, no money order will be repaid without authorization of the Central Administration of the paying country. This authorization will be granted in a separate communication addressed to the Administration of origin and the total amount of the money orders whose reimbursement is allowed will be added to the next account to be made up.

ARTICLE 12

Advice of payment

1. The remitter of a money order may obtain a notice of payment for a fee equal to that collected by the Administration of origin for a return receipt for a registered letter. The fee will be retained by the Administration of origin.

Ante, p. 3563.

2. The Administration of destination will issue the receipt on a printed form like model F and will send it directly to the interested party or to the Administration of origin for delivery to him.

ARTICLE 13

Reissuance

1. At the request of the remitter or payee of an order, it may be reforwarded to another country, whenever an exchange of money orders exists with the new country of destination.

Deductions.

2. The reissuing Administration will have the right to deduct from the amount of the order the fees due for the issuance of a new money order in accordance with Article 6.

3. In case of reissuance, the order will be considered as having been paid by the reissuing Administrations, which will include it in the account for that purpose, adding the word "Reissued".

ARTICLE 14

Domestic legislation

Money orders exchanged between two countries will be governed by the provisions of the domestic legislation of the countries of origin and destination, applicable to domestic money orders, according to the case, in all matters relative to issuance and payment.

ARTICLE 15

Preparation of lists

Communication of amounts.

1. Each Exchange Office will communicate to the corresponding Exchange Office, daily, or at times mutually agreed on, the amounts received in its country to be paid in the other, making use of model A, attached.

Ante, p. 3554.

International number.

2. Each money order noted in the lists will bear a consecutive number to be known as the "international number" which numbering will begin on January 1 or July 1 of each year as may be agreed upon, with the number 1. The lists will also have a serial number beginning with number 1 on the first of January or first of July, of each year. When a change in numbering occurs, the first list of the new series will bear also the last number of the preceding series.

Serial number.

Acknowledgment of receipt of list.

3. The Exchange Offices will acknowledge the receipt of each list on the first subsequent list sent in the opposite direction.

Missing list.

4. When a list is not received, the Exchange Office which notices the fact will claim it immediately. In such a case the sending Office will send to the claiming Office a duly authenticated duplicate of the missing list at the earliest possible moment.

Money orders sent by air.

5. With respect to money orders sent by air the same procedure will be followed as that established in the above Sections, except that the lists of form A will be used, marked by a heading or label of blue color, and will carry a separate numbering.

Ante, p. 3554.

ARTICLE 16

Verification and correction of the lists

1. The lists will be carefully examined by the receiving Exchange Office and corrected when they contain simple errors. The dispatching Exchange Office will be informed of such corrections when the receipt of the list is acknowledged.

2. When the lists are found to contain other irregularities the Exchange Office of destination will request explanations from the dispatching office, which must forward them at the earliest possible time. In the meantime the issuance of domestic money orders corresponding to the mentioned irregular notations will be suspended.

ARTICLE 17

Payment of orders

1. When the Exchange Office receives a list as provided in Article 15 it will proceed to effect or order the payment to the payees, in the

currency of the country of destination, of the amounts which appear in the list in that currency or any other agreed upon according to the regulations in effect in each country for the payments of international money orders.

Payments not effected.

2. The Administration of destination will endeavor to effect payment in all cases to payees without delay. If, one month after the mailing of the notice to the payee, the payment has not been effected, the fact will be communicated to the Administration of origin in order that the remitter may be notified.

Duplicates of money orders.

3. Duplicates of money orders will be issued only by the Administration of the reissuing country in accordance with its domestic legislation and upon the previous proof that the money order has not been paid to the payee or repaid to the remitter.

ARTICLE 18

Rendering and settlement of accounts

Quarterly accounts.

1. In the absence of agreement to the contrary, the creditor Administration at the end of every quarter will prepare the relative account for the corresponding Administration which will contain in detail the following:

(a) The totals of the lists which give in detail the money orders issued in both countries during the quarter.
(b) The totals of the money orders which have been repaid to the remitters.
(c) The totals of the money orders which have become invalid during the quarter.

Credit balances.

2. The credit balance of each Administration will be expressed in its own currency.

The smaller amount will be converted into the currency of the creditor country on the basis of the average rate of exchange which has prevailed during the quarter covered by the account.

The Acting Secretary of State to the Mexican Ambassador

WASHINGTON, D.C.
November 15, 1946

EXCELLENCY:

I have the honor to refer to the agreement of April 29, 1943, between the Government of the United States of America and the Government of the United Mexican States for the recruiting of Mexican non-agricultural workers to assist in the war effort of the United States, and to Your Excellency's note No. 9942 of January 2, 1946, [1] and memorandum No. 3148 of June 18, 1946, [1] regarding deductions from the workers' salaries under the Railroad Retirement Act.

57 Stat. 1353.

49 Stat. 967.
45 U. S. C. §§ 215-228 note.

The emergency situation which demanded the exertion of every possible effort to consummate the military defeat of the axis powers having come to an end, the services of this group of war workers which constituted such an important contribution to the success of the war effort are no longer necessary. Therefore, if it is agreeable to the Government of the United Mexican States, it is proposed that the agreement be terminated ninety days from December 1, 1946. In order to bring this about in accordance with the terms of the General Provisions of the agreement under reference, the United States Government hereby gives notification to the Government of the United Mexican States of its desire to terminate the agreement as of March 1, 1947.

Termination of agreement.

The Government of the United States wishes again to express to the Government of Mexico and to these workers its sincere appreciation of the wholehearted and effective cooperation of your Government and of the very great services rendered by the workers.

It is the understanding of the Government of the United States that any outstanding accounts, other than those in the Railroad Retirement Fund, due individual workers will continue to be settled through channels already agreed upon and now in operation.

Settlement of outstanding accounts.

With regard to the funds deducted from the salaries of these Mexican workers in accordance with the provisions of the Railroad Retirement Act of the United States, the Government of the United States is aware that when the agreement of April 29, 1943, was in the

Funds deducted from salaries of workers.

57 Stat. 1353.

[1] [Not printed.]

process of negotiation, the position of the Mexican representatives was that the workers' salaries should be exempt from such deductions because they considered that the accompanying benefits could not be administered effectively once the workers had departed from the United States. It was found, however, that because of the terms of the Railroad Retirement Act it was impossible to provide in the agreement for such an exemption without delaying indefinitely the entire program.

The Government of the United States recognizes that the return of these workers to their native country has made difficult the administration of the rights and benefits which the Railroad Retirement Act established in their favor. The Department is, therefore, disposed to agree with Your Excellency that the funds deducted from the salaries of these Mexican workers should be returned to them.

Your Excellency will readily understand, however, that because of limitations of its constitutional procedure the Department of State cannot make, in the absence of enabling legislation, a definite commitment that this refund will be made. Nevertheless, the Department does recognize the desirability of making the refund and of settling this question as soon as possible, and will endeavor to obtain from the next Congress the authorization and appropriation necessary to pay to the Government of the United Mexican States a lump sum equal to the total of all Railroad Retirement Board deductions from the wages of these workers, less the deductions from any workers whose benefits have been previously and duly liquidated. If the necessary legislation is obtained steps will be taken to effect the refund.

Responsibility for individual payments.

It is understood that if the appropriate administrative authorities of the United States be authorized to make the refund in the manner set forth above, the Mexican Government, upon receipt of the lump sum, will undertake to make the individual payments to each of the Mexican workers concerned and will assume the responsibility for the distribution. In order to make it possible for the Mexican Government to effect the distribution, the Government of the United States would furnish Your Excellency's Government a list of the individual workers concerned and of the amounts contributed by each one of them to the Railroad Retirement Fund.

Conditions.

It is further understood that the payment of the lump sum to the Mexican Government would be on the condition: (1) that the individuals involved would be barred forever from all rights and benefits which they acquired as a result of the deductions made under the Railroad Retirement Act; (2) that the Mexican Government would be precluded from presenting any claim on its own behalf or on behalf of such individuals, either for recovery of their contributions to the Retirement Fund or on the basis of the rights or benefits under the retirement law; (3) that the Mexican Government will indemnify the Government of the United States on account of any claims or judgments which may be made or obtained by the individual workers for a refund of their contributions to the Railroad Retirement Fund, and (4) in the event any individual Mexican workman should return to the United States and be re-employed by an American railroad the

Mexican Government will reimburse the Railroad Retirement Fund in the amount of the workman's prior contributions to the fund, plus necessary interest, provided, of course, that the individual worker in question has not cancelled his claim by accepting a refund of the contributions which he made under his previous employment in accordance with the agreement of April 29, 1943. 57 Stat. 1353.

If the foregoing suggestions are acceptable to the Mexican Government, it would be appreciated if Your Excellency would so inform the Department.

Accept, Excellency, the renewed assurances of my highest consideration.

EMBAJADA DE MEXICO

WASHINGTON, D. C.,
15 de noviembre de 1946.

SEÑOR SECRETARIO:

Tengo la honra de acusar recibo de la atenta nota de Vuestra Excelencia, fechada hoy 15 de noviembre de 1946, relativa al arreglo consignado en el cambio de notas de 29 de abril de 1943.

El Gobierno de México está de acuerdo con la sugestión de que se dé por terminado el citado arreglo el primero de marzo de 1947.

Cumplidamente agradezco a Vuestra Excelencia sus expresiones de agradecimiento por la magnífica cooperación que prestaron al esfuerzo bélico de nuestras dos Repúblicas los trabajadores mexicanos que se trasladaron a los Estados Unidos de acuerdo con los términos del arreglo de 29 de abril de 1943.

En cuanto a las cantidades que aún se deben a los trabajadores individuales, excepción hecha de las relativas al fondo del *Railroad Retirement*, también el Gobierno de México tiene entendido que seguirán siendo liquidadas por los medios que al efecto han sido establecidos.

Con respecto de los descuentos que se hicieron de los salarios de los trabajadores en cumplimiento de la Ley del *Railroad Retirement*, la nota de Vuestra Excelencia que por la presente contesto dice textualmente lo siguiente:

"Con relación a los fondos descontados de los salarios de estos trabajadores mexicanos, de acuerdo con lo estipulado en el *Railroad Retirement Act* de los Estados Unidos, el Gobierno de los Estados Unidos está en antecedentes de que, cuando el arreglo de 29 de abril de 1943 estaba siendo negociado, el punto de vista de los

representantes mexicanos fué el de que los salarios de los trabajadores deberían quedar exentos de semejantes descuentos porque consideraron que los beneficios resultantes no podrían ser administrados, en forma efectiva, cuando los trabajadores abandonaran los Estados Unidos. Se llegó a la conclusión, sin embargo, de que, por razón del *Railroad Retirement Act*, era imposible conceder tal exención en el arreglo sin demorar indefinidamente todo el programa.

"El Gobierno de los Estados Unidos reconoce que el regreso de estos trabajadores a su país de origen dificulta la administración de los derechos y beneficios que el *Railroad Retirement Act* estableció en su favor. El Departamento, por lo tanto, está dispuesto a convenir con Vuestra Excelencia en que los fondos descontados de los salarios de estos trabajadores mexicanos deben serles devueltos.

"No obstante lo anterior, Vuestra Excelencia fácilmente comprenderá que el Departamento de Estado, por razón de las limitaciones que fijan los procedimientos de su Constitución, no puede contraer, sin la legislación que lo permita, un compromiso definitivo de que esta devolución se llevará a cabo. Sin embargo, el Departamento sí reconoce que es deseable hacer la devolución y arreglar este asunto tan pronto como sea posible, y se esforzará por obtener de la siguiente Legislatura la autorización y la partida presupuestal necesarias para pagar al Gobierno de los Estados Unidos Mexicanos una cantidad global igual al total de todos los descuentos hechos por el *Railroad Retirement Board* a los salarios de estos trabajadores, menos el monto de los descuentos a aquellos trabajadores cuyos beneficios hayan sido previa y debidamente cubiertos. Si llegare a obtenerse la legislación requerida se darán pasos para efectuar la devolución.

"Se tiene entendido que si las autoridades administrativas competentes fueren autorizadas a hacer la devolución de la manera arriba mencionada, el Gobierno mexicano, al recibir la cantidad global, se encargará de hacer los pagos individuales a cada uno de los trabajadores mexicanos interesados y asumirá la responsabilidad de la distribución. Con el fin de que el Gobierno mexicano pueda efectuar la distribución, el Gobierno de los Estados Unidos facilitaría al Gobierno de Vuestra Excelencia una lista de los trabajadores individuales interesados y de las cantidades contribuídas por cada uno de ellos al fondo del *Railroad Retirement*.

"Se tiene entendido, además, que el pago de la cantidad global al Gobierno de México se haría con la condición de que: (1) los interesados para siempre quedarían imposibilitados para gozar de los derechos y beneficios que adquirieron como resultado de los descuentos hechos según el *Railroad Retirement Act;* (2) el Gobierno de México quedaría imposibilitado para presentar cualquiera reclamación en su propio favor o en el de tales interesados, ya fuera por pago de sus contribuciones al fondo de *Railroad Retirement Act* o basada en los derechos o beneficios otorgados por la Ley de *Railroad Retirement;* (3) el Gobierno de México indemnizará al Gobierno de los Estados Unidos por cualesquiera reclamaciones o sentencias que pudiesen ser presentadas u obtenidas en favor de

los trabajadores individuales para la devolución de sus contribuciones al fondo de *Railroad Retirement;* y (4) en el caso de que cualquier trabajador mexicano regresara a los Estados Unidos y volviera a ser empleado por un ferrocarril norteamericano, el Gobierno de México reembolsaría al fondo de *Railroad Retirement* una cantidad equivalente a las contribuciones anteriores de ese trabajador al fondo más los intereses necesarios, quedando entendido, por supuesto, que en tal caso el trabajador individual no hubiera cancelado su reclamación mediante la aceptación del reintegro de las contribuciones que haya hecho durante su anterior empleo y de acuerdo con el arreglo de 29 de abril de 1943".

En cumplimiento de instrucciones de mi Gobierno, acepto las sugestiones contenidas en los párrafos de la nota de Vuestra Excelencia que acabo de transcribir.

Aprovecho la oportunidad para renovar a Vuestra Excelencia el testimonio de mi más alta y distinguida consideración.

A E DE LOS MONTEROS
Embajador.

MR. SECRETARY:

I have the honor to acknowledge receipt of Your Excellency's courteous note of this date, November 15, 1946, relative to the agreement set forth in the exchange of notes of April 29, 1943. *Ante*, p. 3575. 57 Stat. 1353.

The Government of Mexico is in accord with the suggestion that the aforementioned agreement be considered terminated on March 1, 1947.

I thank Your Excellency most sincerely for your expressions of gratitude for the magnificent cooperation given to the war effort of our two Republics by those Mexican workers who went to the United States in accordance with the terms of the agreement of April 29, 1943.

With regard to the amounts which are still owed to the individual workers, with the exception of those coming under the *Railroad Retirement Act,* it is also the understanding of the Government of Mexico that they shall continue to be settled through the channels which have been established for that purpose.

With reference to the deductions from the workers' salaries under the *Railroad Retirement Act,* Your Excellency's note, to which I am replying by means of the present communication, states literally the following:

In compliance with instructions from my Government, I accept the suggestions contained in those paragraphs of Your Excellency's note which I have just transcribed.

[T. I. A. S. 1689]

Agreement between the United States of America and the United Kingdom of Great Britain and Northern Ireland respecting the economic fusion of American and British zones of occupation in Germany, amending the agreement of December 2, 1946. Signed at Washington December 17, 1947; entered into force December 17, 1947.

AGREEMENT BETWEEN THE GOVERNMENT OF THE UNITED STATES OF AMERICA AND THE GOVERNMENT OF THE UNITED KINGDOM OF GREAT BRITAIN AND NORTHERN IRELAND AMENDING CERTAIN TERMS OF THE BIZONAL FUSION AGREEMENT SIGNED AT NEW YORK ON DECEMBER 2, 1946.

61 Stat., Pt. 3, p. 2478.

WHEREAS paragraph 12 of the Bizonal Fusion Agreement signed at New York on December 2, 1946, provides for its amendment by mutual agreement,

AND WHEREAS the Government of the United Kingdom have requested the Government of the United States to take part in discussions with a view to revising, in the light of current international financial developments, the provisions of the Bizonal Fusion Agreement which relate to the division of responsibility for the payment for imports,

AND WHEREAS the Government of the United Kingdom have represented that they are unable to continue to make payments in dollars in respect of such imports,

AND WHEREAS it is the intention of the two Governments to develop, in that part of Germany which is subject to their jurisdiction, an economy which can be maintained without financial assistance from either Government,

AND WHEREAS the representatives of the two Governments have entered into and completed discussions regarding the revision of the terms of the Bizonal Fusion Agreement as requested by the Government of the United Kingdom,

IT HAS BEEN AGREED by the Government of the United States and the Government of the United Kingdom as follows:–

Financial Responsibility for the period ending December 31, 1948.

Category A goods and services; U. K. liability.

1 (a) The Government of the United Kingdom shall have no further liability to pay dollars for Category A goods and services imported into the United States and United Kingdom Zones of Occupation in Germany (hereinafter called the "Bizonal Area"). The liability of the Government of the United Kingdom to supply Category A goods and services shall, subject to the provision of the necessary appropriations, be discharged by the provision of:–

(i) all deliveries which may be made in the period November 1, 1947, to December 31, 1947 (to the estimated value of £3,500,000, approximately the equivalent of $14,000,000), against commitments already undertaken by the Government of the United Kingdom for procurement from sterling area sources, together with such other sterling area purchases as the Government of the United Kingdom may be able to make for delivery within the period (to an estimated value of £1,000,000, approximately the equivalent of $4,000,000); and

(ii) goods, services or sterling against commitments already undertaken by the Government of the United Kingdom for procurement of Category A supplies for the Bizonal Area from countries outside the sterling area to a total value of £4,000,000 (approximately the equivalent of $16,000,000). (The Government of the United Kingdom shall pay for any such goods which can be delivered against sterling payment in the period November 1, 1947, to December 31, 1947, and any charges which may be involved in the cancellation of outstanding contracts and shall pay the balance of the sum mentioned above to the Joint Export-Import Agency in sterling); and

(iii) a sum of £4,250,000 (approximately the equivalent of $17,000,000) in discharge of the obligations undertaken by the Government of the United Kingdom in accordance with the provisions of the Bizonal Fusion Agreement for the procurement for delivery after December 31, 1947, of Category A supplies for the Bizonal Area from countries outside the sterling area. (This sum shall be held by the Government of the United Kingdom and shall be used for the purchase of Category A supplies and services from the sterling area and shall be spent, with the agreement of the Joint Export-Import Agency, as and when it may be possible to purchase such supplies or services without involving a direct or indirect dollar drain upon the United Kingdom.); and

(iv) Category A goods from the sterling area during the calendar year 1948 and services to be rendered during the same period (as set forth in the Annex to the present Agreement) to the total value of £17,500,000 (approximately the equivalent of $70,000,000).

Services to be provided by U. K.

(b) The services to be provided by the Government of the United Kingdom under the terms of the preceding sub-paragraph of this paragraph shall include the furnishing, so far as is practicable, of such ships as may be necessary to lift thirty-three complete cargoes allocated for shipment to the Bizonal Area from United States ports in the period November 1, 1947, to December 31, 1947, and the furnishing during the calendar year 1948 of a sufficient number of freight ships to lift twelve complete cargoes for the Bizonal Area each month from United States Atlantic and Gulf Coast ports; subject to market possibilities, such freight ships shall be chartered

for three consecutive voyages on Bizonal account or approximately for a period of six months.

Category A requirements to be provided by U. S.

(c) Subject to the provision of the necessary appropriations, the balance of the Category A requirements for the Bizonal Area in the period November 1, 1947, to December 31, 1948, shall be provided by the Government of the United States.

Account of contributions.

(d) It shall be the responsibility of the Joint Export-Import Agency to keep an account of the contributions made by the two Governments in accordance with the provisions of the preceding subparagraphs of this paragraph and to establish that the valuations placed on the goods and services so furnished are fair and reasonable.

Expenditure incurred for maintenance of forces, etc.

2. The financial liability of the two Governments under the present Agreement is exclusive of whatever expenditure may be incurred by either Government for the maintenance of forces of occupation and control staff for Germany.

Trade between the Bizonal Area and the Sterling Area.

3 (a) The Joint Export-Import Agency shall enter into immediate negotiations with representatives of the Government of the United Kingdom with a view to drawing up a plan to maximize trade in both directions between the Bizonal Area and the sterling area. The United States and British Military Governors in Germany shall co-operate with representatives of the Government of the United Kingdom for the purpose of meeting the needs of the United Kingdom for heavy steel scrap and timber to the greatest extent consistent with the requirements of the bizonal economy and conflicting demands for these products.

Payments.

(b) All trade between the Bizonal Area and the sterling area shall be conducted in sterling in both directions. From January 1, 1948, payments in respect of such trade shall be made in the following manner:-

(i) The Joint Foreign Exchange Agency shall open an account with the Bank of England to be known as "The Joint Foreign Exchange Agency No. 1 Account".

(ii) All payments to residents of the sterling area in respect of goods imported into the Bizonal Area, or services rendered on behalf of the Bizonal economy (other than goods or services provided by the Government of the United Kingdom from appropriated funds in accordance with the provisions of paragraph 1 (a) of the present Agreement) shall be made from the No. 1 Account.

(iii) Payment for all exports sold to residents of the sterling area, or services rendered to such residents, shall be paid into the No. 1 Account.

Transfers to No. 1 Account.

(iv) The Joint Foreign Exchange Agency shall, as and when it may be necessary, arrange that transfers be made from its

other accounts to the No. 1 Account to an amount sufficient to ensure that there is always a credit balance in its favor in the No. 1 Account. Any amounts so transferred may be withdrawn from the No. 1 Account when they are no longer required in order to maintain a credit balance in the Account.

Statements of No. 1 Account.

(v) A statement showing the state of the No. 1 Account at the close of business on the last day of each of the months of March, June, September and December shall be rendered on the first day of business of the following calendar month by the Bank of England to the Joint Foreign Exchange Agency.

Credit balance.

(vi) If any such statement shows that, after deduction of the net amount of any transfers made in accordance with the provisions of clause (iv) above, there is a credit balance in the No. 1 Account in excess of £1,500,000, the Bank of England for account of the Government of the United Kingdom shall, against reimbursement from the No. 1 Account in sterling, make a payment of an amount equivalent to the excess, in United States dollars, to the account of the Joint Foreign Exchange Agency at the Federal Reserve Bank of New York.

Debit balance.

(vii) If any such statement of account shows that, after deduction of the net amount of any transfers made in accordance with the provisions of clause (iv) above, there is a debit balance in the No. 1 Account in excess of £1,500,000, the Joint Foreign Exchange Agency shall sell United States dollars to an amount equivalent to the excess to the Bank of England, for account of the Government of the United Kingdom, and the sterling proceeds of such sale shall be credited to the No. 1 Account.

Transfers from No. 1 Account.

(viii) Provided that a credit balance is maintained in the No. 1 Account, transfers may be made from that Account to the other sterling accounts of the Joint Foreign Exchange Agency if necessary in order to maintain the minimum sterling balances required under the provisions of sub-paragraph (b) of paragraph 4 of the present Agreement.

Convertibility of sterling held by the Joint Foreign Exchange Agency.

Post, p. 3616.

4 (a) Notwithstanding the provisions of paragraph 11 of the present Agreement, the Government of the United Kingdom recognize a continuing liability to convert into dollars in accordance with the provisions of sub-paragraph (b) of this paragraph, any sterling held by the Joint Foreign Exchange Agency at the date of signature of the present Agreement and any sterling acquired by the Joint Foreign Exchange Agency during the period of the present Agreement.

Sums to be kept in dollar and sterling accounts.

(b) The sum to be kept in the dollar accounts of the Joint Foreign Exchange Agency shall not be less than $20,000,000 and the sum to be kept in the sterling accounts (other than the No. 1 Account) of

the Joint Foreign Exchange Agency shall not be less than the sterling equivalent of $20,000,000 unless the total of the sums held in these accounts, as shown in the books of the Agency, falls below the equivalent of $40,000,000 in which case the amounts held in the dollar and in the sterling accounts shall (within a maximum variation of the equivalent of $1,000,000) be kept equal. Transfers from the sterling accounts to the dollar accounts and transfers from the dollar accounts to the sterling accounts shall be made when the holdings of dollars or sterling as the case may be fall below the minima indicated above. Such transfers shall be in sums of $1,000,000 or the sterling equivalent thereof.

Transfers.

Conversion of sterling into dollars, etc.

(c) Any conversion of sterling into dollars in accordance with the provisions of sub-paragraphs (a) and (b) of this paragraph shall be effected by the purchase of dollars from the Bank of England by the Joint Foreign Exchange Agency. Any such purchases shall be made at the rate of £1 equals $4.03. If, at any time, the Joint Foreign Exchange Agency purchases sterling in exchange for any other currency, such purchases shall be effected through the Bank of England.

(d) In recognition of the serious dollar difficulties of the United Kingdom, it is the intent and purpose of the Government of the United States that, in so far as practicable, the operations of the Joint Export-Import Agency shall be so conducted that not more than the sterling equivalent of $40,000,000 shall be required to be converted in accordance with the preceding sub-paragraphs of this paragraph, prior to January 1, 1949. Moreover, if for any reason at any time during the period of the present Agreement, the rate of drawing of dollars through the conversion of sterling should be such as to result in an undue drain on the dollar resources of the Government of the United Kingdom, the matter may be raised with the Bipartite Board and thereafter, if necessary, between the two Governments for the purpose of seeking some method acceptable to the Government of the United States whereby the rate of drawing of dollars through the conversion of sterling can be decreased. Pending a settlement of the matter, the provisions of sub-paragraphs (a), (b) and (c) of this paragraph shall, unless otherwise agreed between the two Governments, continue to apply.

Agency for Foreign Trade.

Authority of U. S.

5. The Government of the United Kingdom recognize that so long as the Government of the United States is called upon to make the major contribution towards the cost of the essential imports of the Bizonal Area, that Government shall be entitled to a larger measure of authority with respect to the operations of the Joint Export-Import Agency and the Joint Foreign Exchange Agency.

61 Stat., Pt. 3, p. 2475.

Paragraph 4 of the Bizonal Fusion Agreement is accordingly amended as follows:–

"4 (a) Responsibility for foreign trade shall rest initially with the Joint Export-Import Agency (United States/United Kingdom). This responsibility shall be transferred to German administrative agencies under the supervision of the Joint Export-Import Agency to the maximum extent permitted by the restrictions existing in foreign countries at any given period. Responsibility for foreign trade.

"(b) Except in so far as the use to which they shall be put has been determined in advance by agreement between the two Governments, and subject to the authority of each Government over the expenditure of its own appropriated funds, and any legislative limitations which may be placed thereon, the appropriated funds available for carrying out the terms of this Agreement shall be expended in accordance with schedules established by the Joint Export-Import Agency. These schedules shall be drawn up in accordance with the general policies of the two Military Governors (constituting the Bipartite Board) and shall be used as a basis for procurement in accordance with the provisions of paragraph 8 of this Agreement, subject to any amendment effected by agreement between the two Governments. Schedules for expenditure of funds. *Post*, p. 3615.

"(c) The Joint Export-Import Agency shall be responsible for the approval of all imports and exports and for procurement in accordance with its responsibilities under the provisions of paragraph 8 of this Agreement, subject to any amendment effected by agreement between the two Governments. It shall be the responsibility of the Joint Export-Import Agency to develop a maximum export program consistent with the accomplishment of over-all objectives in Germany and in conformity with the policy of the two Governments gradually to transfer responsibility to German administrative agencies. The Bipartite Board shall facilitate the work of the Joint Export-Import Agency in developing such a program. Approval of imports and exports, etc.

"(d) The Joint Export-Import Agency and the Joint Foreign Exchange Agency shall operate in accordance with the general policies of the Bipartite Board to conduct or to supervise the import and export trade of the Bizonal Area. Each of these agencies shall be governed by a board of directors, to which the respective Military Governors shall each appoint an equal number of members. The decisions of the board of directors shall be determined by the majority vote of its members. The members appointed by each Military Governor shall vote as a group. Each group shall have a voting strength in relation to the other group equal to the proportion which the appropriated funds made available by their respective Governments under the provisions of this Agreement, or any subsequent amending agreement, plus the funds contributed by each Government to the capital of the Joint Export-Import Agency, bear to the total funds made available by the two Governments for these purposes. Operation of agencies according to policies of Bipartite Board.

Review of proposed actions.

"(e) Either Military Governor may, should he consider that any action which it is proposed that the Joint Export-Import Agency or the Joint Foreign Exchange Agency should take is likely to prejudice the interests or conflict with the policies of his Government, request that the matter be referred to the Bipartite Board for review. In that event the proposed action shall be suspended pending Bipartite Board review. Such suspension shall continue only until adequate opportunity has been afforded in the Bipartite Board to ensure that the issue has been reviewed in all its aspects, unless the Bipartite Board unanimously agree to disapprove or modify the proposed action.

Delegation of power, etc.

"(f) Subject to the provisions of the preceding sub-paragraphs of this paragraph, the Bipartite Board shall delegate to the Joint Export-Import Agency and the Joint Foreign Exchange Agency full power and authority necessary for the conduct of the export-import trade, including the authority to contract for imports and exports through such agencies as it may designate, to borrow and lend money, to pay and collect accounts, and to utilize and distribute foreign currency, and such other necessary authority as is essential to the rehabilitation and promotion of peaceful trade and commerce."

Basis of Economic Planning.

61 Stat., Pt. 3, p. 2475.

6. Paragraph 5 of the Bizonal Fusion Agreement shall be amended as follows:–

"5. The United States and United Kingdom Military Governors in Germany shall, in accordance with the policy of the two Governments, use their best endeavors to develop at the earliest possible date, in that part of Germany which is under their jurisdiction, an economy which can be maintained without further financial assistance from either Government, and which will at the same time contribute to the peaceful rehabilitation of Europe."

Procurement.

61 Stat., Pt. 3, p. 2477.

7. Paragraph 8 of the Bizonal Fusion Agreement shall be amended as follows:–

"8. The determination of import requirements shall be the responsibility of the Joint Export-Import Agency. The procurement of these requirements shall be dealt with as follows:–

"(i) Procurement of imports financed from funds appropriated by either Government shall be the responsibility of that Government except to the extent that such responsibility is delegated by the Government concerned to the Joint Export-Import Agency.

Procurement from economical sources of supply.

"(ii) Procurement of all other imports shall be the responsibility of the Joint Export-Import Agency with such assistance from the two Governments as may be required. Unless otherwise agreed, procurement shall be from the most economical sources

of supply. Provided that the procurement of essential imports shall not be prejudiced thereby, the sources shall be selected, to the fullest extent practicable, so as to minimize the drain on the dollar resources of the Government of the United Kingdom (accordingly, where required imports are known to be available from dollar and sterling area sources of supply and conditions regarding price, quality and terms of delivery are equal, the imports shall normally be procured from the sterling area source).

"(iii) With respect to any procurement where the financial responsibility rests with one Government and the agreed source of supply is within territory under the authority of the other Government, the latter, if so requested, shall accept responsibility for procuring those supplies as agent for the former."

Abolishment of Committee.

8. The Bizonal Supplies Committee, established under the provisions of paragraph 8 of the Bizonal Fusion Agreement, shall be abolished.

Consultation of representatives.

9. Representatives of the two Governments shall consult together in Washington in regard to the following matters:–

(a) The programing of the procurement of Category A goods against programs of import requirements submitted by the Joint Export-Import Agency.

(b) The methods to be employed by agencies of either Government, whether directly or through the Joint Export-Import Agency, in the purchase of such products as cereals, livestock products, oils, fats, pulses and fertilizers, in certain markets of primary importance to the United Kingdom, such as Canada, Argentina and Europe, in view of the fact that uncoordinated purchases in these markets might adversely affect United States or United Kingdom supply interests.

(vii) Iceland and the Faroe Islands.

Notice of change in definition.

Joint Foreign Exchange Agency.

(b) For the purposes of the present Agreement, the Bipartite Finance Committee (United States-United Kingdom), provided for in the Bizonal Fusion Agreement, shall be deemed to have been superseded by the Joint Foreign Exchange Agency.

Successor organizations.

(c) Any reference in the present Agreement to the Joint Export-Import Agency or the Joint Foreign Exchange Agency shall be construed to refer likewise to any successor organization or organizations.

Provisions for Entry into Force, Amendment and Renewal.

11 (a) The present Agreement shall come into force on signature. The present Agreement and the Bizonal Fusion Agreement shall constitute a single agreement between the two Governments, which shall remain in force until agreement has been reached for the treatment of Germany as an economic unit or until December 31, 1948, whichever is the sooner. In either event, the Joint Export-Import Agency and the Joint Foreign Exchange Agency shall continue to function until such time as further agreement is reached concerning them.

(b) The two Governments shall consult together before June 30, 1948, at the request of either of them, for the purpose of reviewing the operation of the Agreement and of considering whether any amendment should be made in its terms. The two Governments shall also consult together before December 1, 1948 to consider the terms and conditions of a new Agreement for a further period.

The American Ambassador to the Italian Minister of Foreign Affairs

F. O. No. 441

ROME, *September 3, 1947.*

YOUR EXCELLENCY,

Withdrawal of Allied Armed Forces from Italy.
61 Stat., Pt. 2, p. 1396.

Article 73 of the Treaty of Peace between the Allied and Associated Powers and Italy, provides that all Armed Forces of the Allied and Associated Powers shall be withdrawn from Italy as soon as possible and in any case not later than ninety days from the coming into force of the Peace Treaty. The numbers of the Armed Forces of the United States in Italy have, as the Italian Government is aware, been progressively reduced and it is the desire of the United States Government that those few that still remain shall be withdrawn with the least possible delay. Further, as from the date of entry into force of the Treaty of Peace, it will be necessary for Allied Military Government, which has long been restricted to the part of Venezia Giulia west of the so-called Morgan Line and to the Province of Udine, to be finally brought to an end.

Provisions agreed upon.

In order (1) that the position of the aforesaid United States Forces during the period while they remain in Italy may be defined, particularly as regards matters of jurisdiction, and that certain ambiguities which otherwise might arise in regard to the facilities to be afforded them may be removed, and in order (2) to provide for the smooth transfer of responsibility from the hands of Allied Military Government to the hands of the Italian Government, discussions have taken place between representatives of the United States Government and the Italian Government who have agreed upon the provisions set out in the annex of which part I relates to the position of the United States Forces and part II to the transfer of responsibility of the Allied Military Government.

Post, p. 3662.

Post, p. 3666.

Entry into force.

I have the honor to inform your Excellency that the United States Government has confirmed its approval of these provisions and to suggest that if the Italian Government is prepared to do likewise, the present Note together with your Excellency's reply shall be regarded as constituting an agreement between our two Governments on the matter which will enter into force (1) simultaneously with the Peace Treaty between the Allied and Associated Powers and Italy as regards the provisions in part I of the annex, and (2) as from today's date as regards the provisions of part II.

61 Stat., Pt. 2, p. 1245.

Post, p. 3666.

Accept, Excellency, the renewed assurances of my highest consideration.

JAMES CLEMENT DUNN

6.) The United States Forces shall, within the limits of their necessities in Italy, continue to have the right to purchase local produce, commodities and manufactured goods, either directly or through the intermediary of the competent local Italian authorities. In order that such purchases may not have an adverse effect upon Italian economy, the United States High Command will come to an understanding with the appropriate Italian authorities to exclude from time to time particular articles from local purchases by the United States Forces.

7.) The Italian Government agrees that the United States Forces, military and naval courts and commissions shall continue to have exclusive jurisdiction, civil and criminal, over all members of the United States Forces in conformity with the arrangements already in force.

8.) The United States Forces and the organizations or persons employed by such Forces or which are part of them and property belonging to them and to their Government shall continue to be exempt from all Italian taxation, including customs.

The United States High Command will continue to take the necessary steps to ensure that such property is not sold to the Italian public except in agreement with the Italian Government.

9. (a) The United States Forces shall have the right to exercise police powers in the buildings and areas set aside for their special use and to employ military police patrols in other areas when that may be necessary to maintain the order and discipline of the United States troops. Persons who are subject to the jurisdiction of the Italian authorities may be arrested by the United States military

police within such buildings and areas but shall be turned over without delay to the competent Italian authorities.

(b) The Italian police shall continue to arrest persons subject to the exclusive jurisdiction of the United States Forces for offenses against Italian law outside the installations, camps, areas and buildings referred to in the preceding sub-paragraph, and detain such persons until they can be placed at the disposal of the appropriate United States military authorities. For that purpose, a certificate signed by a United States officer of field grade or equivalent rank attesting that the persons in question belong to one of the classes mentioned in Article 13 will continue to be sufficient. The procedure for the transfer of such persons shall be determined locally. Immediate notification of such arrest will be given to the nearest United States military post.

(c) The Italian Government will, at the request of the United States High Command, arrest, detain and, when there is sufficient proof, put on trial persons dangerous to the security of the United States Forces in Italy. In making such requests for arrest, the United States High Command shall indicate the reasons for doing so.

10. The Commanding General or his representatives and the appropriate Italian Authorities will continue to render such mutual assistance as may be required for the investigations, collection of evidence and the appearance of witnesses, in relation to proceedings subject to Allied, United States or Italian jurisdiction and to provide for the sentencing in the appropriate courts of witnesses who refuse or fail to comply with the summons, improperly refuse to testify, or who commit perjury or who are in contempt of court.

11.) The Italian Government agrees that the United States Forces shall have the right to hold, support and transfer any "D.P's", refugees and other internees who have not previously been transferred to the care of some other government or organization and for whom the United States or Allied authorities may be responsible upon the coming into force of the treaty of peace, and agrees to afford the United States Forces such facilities and assistance as may be required for the above-mentioned purposes.

12.) The Italian Government will continue to make available all the services and facilities required by the United States Armed Forces during this period on the same basis as in the past in consideration for which the United States Government shall pay to the Italian Government the amount of 250 thousand dollars, which amount shall be considered as full compensation for all the services and facilities furnished by the Italian Government under the terms of the present agreement.

All other financial arrangements in effect between the Armed Forces of the United States and the Italian Government on February 1, 1947 shall continue in effect for the period of this Agreement.

13.) The term "United States Forces", used in this agreement shall be understood as United States Armed Forces, including persons of non-Italian nationality who, although not belonging to such Forces,

are employed by or accompany or serve with them and their dependents, and government organizations and accredited agents operating under or in conjunction with such forces. Included in the preceding category are:

Class I – United States citizens who are:

(a) War Department civilian employees.
(b) Personnel of the American Red Cross.
(c) Personnel employed by the Army Exchange Service.
(d) Other Personnel possessing (travel orders issued by the United States Armed Forces, for the period referred to in) such orders.

Class II – United States citizens and aliens who are:

(a) Dependents of United States Armed Forces personnel regardless of nationality.
(b) Dependents of the Class I personnel indicated above.

SECOND PART

14.) The responsibility for the areas at present under the Allied Military Government will pass to the Italian Government on the date of the entering into effect of the Peace Treaty. In order to make certain that the transfer of such responsibility may be effected as smoothly and efficiently as possible, the United States High Command will make the necessary arrangements with the competent Italian authorities with the object of ensuring that the necessary Italian personnel may in good time be put in a position to replace United States personnel exercising military government functions.

15.) The United States High Command may, within the period of ninety days set for the withdrawal of the United States Forces from Italy, continue to conduct and complete the trial by the Military Courts of anyone charged with an offense committed before the date of the entry into force of the Peace Treaty, an offense covered by any proclamation or order heretofore issued by or on behalf of the Allied Military Government, or covered by Italian law, if committed against persons, property or the security of the Allied Forces.

Agreement between the United States of America and Canada respecting an arrangement for evaluation of all facilities of the Canol Project. Effected by exchange of notes signed at Ottawa February 26, 1945; entered into force February 26, 1945.

No. 290

SIR:

I have the honor to refer to previous correspondence and specifically to the exchanges of notes of June 27 and 29, 1942, August 14 and 15, 1942, and June 7, 1944, as well as to recent discussions which have taken place with officials of your Government, all with regard to the Canol Project.

57 Stat. 1413.

57 Stat. 1416; 58 Stat. 1384.

In the note of June 27, 1942, my Government proposed that the pipeline from Norman Wells to Whitehorse and the refinery at Whitehorse should be operated under contracts with it or by its agents or representatives during the war. I am instructed now to propose that this shall not be construed as requiring that the United States shall continue to operate the pipeline and the refinery until the termination of hostilities, and further to seek the agreement of your Government that the United States may terminate or modify operation of any or all of the facilities of the Canol Project including the products pipeline system when, in its opinion, military considerations make such a course desirable. It is understood that the United States authorities will remain responsible for such care or maintenance of the facilities as they regard as necessary or desirable.

57 Stat. 1413.

In the exchange of notes of August 14 and 15, 1942, it was provided that at the termination of hostilities discussions should be undertaken at the request of either Government with a view to reaching an agreement in regard to the disposition of the pipeline from Skagway to Whitehorse. Subsequently, by exchange of notes dated June 7, 1944, the two Governments agreed that the foregoing arrangements should apply also to the gasoline distribution lines from Carcross to Watson Lake and from Whitehorse to Fairbanks. My Government now desires to propose that the products pipeline system be evaluated by the appraisers appointed for the valuation of the crude oil system, but as an independent problem.

57 Stat. 1416.

58 Stat. 1384.

The exchange of notes of June 27 and 29, 1942, provides for valuation of the crude oil pipeline and refinery at the termination of hostilities at the then commercial value of these facilities. My Government now desires to propose that all the facilities of the Canol Project,

57 Stat. 1413.

including the products pipeline system, shall be valued at their commercial values as of the time or times of the completion of the appraisal, and in this connection it proposes that appraisal of the Canol Project should be initiated within a reasonable time following notice of the termination of operation of the project, or a major part thereof, and completed as soon as practicable.

It therefore further proposes that the two Governments appoint representatives at an early date in order jointly to inspect the physical property, collect information and submit preliminary reports relating to evaluation as early as practicable and, if possible, prior to the termination of operations.

If your Government agrees to the proposals made herein it is suggested that this note and your reply indicating such agreement shall be regarded as placing on record the understanding of the two Governments on this matter.

Accept, Sir, the renewed assurances of my highest consideration.

EXCELLENCY:

I have the honour to acknowledge your note No. 290 of February 26 in which you make certain proposals with regard to the Canol Project.

The proposals set forth in your note are acceptable to the Canadian Government, and it is agreed that your note and this reply shall be regarded as placing on record the understanding arrived at between the two Governments on this matter.

Agreement between the United States of America and Canada respecting waiver by Canada of certain rights relating to crude oil facilities of the Canol Project. Effected by exchange of notes signed at Ottawa August 31, and September 6, 1945; entered into force September 6, 1945.

No. 83

OTTAWA, *August 31, 1945.*

SIR:

Under the exchange of notes of June 27–29, 1942, the Canadian Government acquired an option to purchase the facilities of the crude oil pipeline from Norman Wells to Whitehorse and the refinery at Whitehorse at a valuation based upon the commercial value of the pipeline and refinery as agreed by valuers named by Canada and the United States. Under the exchange of notes of February 26, 1945, it was agreed that this valuation should take place within a reasonable time following notice of the termination of operation of the project or a major part thereof.

57 Stat. 1413.

Ante, p. 3677.

The Canadian Government has decided not to exercise the option referred to in the preceding paragraph and desires to inform the Government of the United States that it is now willing to waive that option. Under these circumstances it believes that the interest of neither country would be served by proceeding with former plans for joint valuation and that these should therefore be abandoned.

The exchange of notes of June 27–29, 1942, provided that if the Canadian Government did not exercise its option, now waived, to purchase the crude oil facilities within three months, they might be offered for sale by public tender with the amount of the valuation as the reserve price. In view of the desire of the Canadian Government not to proceed with joint valuation of the project, the Canadian Government likewise waives the provision above referred to whereby the facilities must be offered at the reserve price.

57 Stat. 1413.

It is understood that the United States Government will at a later date submit to the Canadian Government plans for the disposition of the Canol facilities.

The Canadian Government hopes that the waivers of its rights as set forth above will be acceptable to the Government of the United States and will facilitate disposition of the Canol facilities.

Accept, Sir, the renewed assurances of my highest consideration.

Arrangement between the United States of America and Canada respecting disposal of crude oil facilities of the Canol Project. Effected by exchange of notes signed at Ottawa November 7 and December 30, 1946; entered into force December 30, 1946. And exchange of notes signed March 5 and 6, 1947.

The American Ambassador to the Canadian Secretary of State for External Affairs

No. 593

EMBASSY OF THE
UNITED STATES OF AMERICA
Ottawa, Canada November 7, 1946

SIR:

I have the honor to refer to your note No. 83, dated August 31, 1945, and to my note No. 366, dated September 6, 1945, in regard to the crude oil pipeline from Norman Wells, Northwest Territories, to Whitehorse, Yukon Territory, and the refinery at Whitehorse, which, together with equipment pertaining thereto, have been referred to as the crude oil facilities of the Canol Project. My reply of September 6 confirmed the understanding that the United States would at a later date submit to the Canadian Government *plans* for the disposition of these facilities.

Ante, pp. 3679, 3680.

In accordance with the understanding referred to, there are set forth in this note proposed plans for disposal which, it is hoped, will prove acceptable to your Government. These proposals have been drawn up to give effect to the underlying principle, that, as military considerations are no longer paramount, disposal should be accomplished in a manner designed to recover the fair monetary value of facilities.

It will be recalled that in the exchange of notes of June 27–29, 1942, the two Governments agreed that if neither the Canadian Government nor any private company desired to purchase the crude oil pipeline and refinery, the disposition of both facilities should be referred to the Permanent Joint Board on Defense for consideration and recommendation. It was further agreed in the same exchange of notes that the two Governments would not themselves order or allow the dismantling of either the pipeline or the refinery unless and until approval for dismantlement should be recommended by the Permanent Joint Board on Defense.

57 Stat. 1413.

In the foregoing connection I understand that it is the view of the competent military authorities of our two countries that the crude oil facilities of the Canol Project no longer have defense value. Accordingly, it seems apparent that the above referred to provisions relating to the Permanent Joint Board are now unnecessary and should be annulled in order that the disposal authorities may have maximum freedom of action. My Government hopes that the Canadian Government will concur in this view and will agree to the

annulment of those provisions, thereby permitting dismantlement of the facilities if that course should be desired by the United States authorities or its successors in interest. In the event that the Canadian Government concurs in the foregoing, my Government further desires to propose the following plans to cover the disposition of the crude oil facilities of the Canol Project:

Sale.

1. It is proposed to advertise the sale of the crude oil facilities in the press of both Canada and the United States. The following general principles will be observed in selling and disposing of the facilities.

Transfer to private ownership.

A. (i) The United States Government may, if it so desires, transfer the crude oil facilities of the Canol Project, or any part thereof, to private ownership, subject to the laws of Canada and the territory or territories in which such facilities are situate. Such transfer shall be exempt from import duties and excise taxes.

(ii) The land, rights of way, riparian rights and other easements, supplied by and owned by the Canadian Government and required for the satisfactory utilization of the facilities, may be leased or acquired by the purchaser or purchasers on equitable terms from the Canadian Government under the laws of Canada and the territory or territories concerned.

(iii) The land, rights of way, riparian rights and other easements, supplied by but not owned by the Canadian Government and required for the satisfactory utilization of the facilities, will be acquired by the Canadian Government and transferred to the purchaser or purchasers at his or their expense if such purchaser or purchasers are unable to lease or acquire such land, rights of way, riparian rights and easements on equitable terms from the owners.

(iv) Subject to the foregoing clauses (ii) and (iii) of this paragraph, the purchaser or purchasers shall enjoy the rights set forth in paragraph 3 (b) of my note of June 7, 1944, as interpreted by section 4 of the same note.

58 Stat. 1384.

(v) The facilities, together with the land, rights of way, riparian rights and other easements leased or acquired by the new owner or owners shall be held and, if operated, shall be operated under the laws of Canada and the territory or territories in which they are situate. No owner, however, would be obligated to operate the facilities.

Removal from Canada.

B. If the United States Government does not dispose of any or all of the facilities under the terms of paragraph A above, the Government, its agents, or its successors in interest may remove from Canada such of the facilities as they may elect to remove for use in the United States or elsewhere. It is understood that if the United States, its agents, or its successors in interest do elect to remove any or all of the facilities, the Canadian Government will facilitate such operations by providing for continuance of the rights referred to under paragraph 4 (b) and 4 (d) of the American note of June 27, 1942. It is not intended to give either A or B above precedence

57 Stat. 1414.

or priority over the other since the governing factor will be the amount bid.

C. The Government of Canada may purchase from the United States through the appropriate governmental agencies such of the facilities not disposed of under A or B as that Government may desire to obtain for its own use or disposition. Purchase by Canada.

D. Any of the facilities not disposed of under paragraphs A, B, and C above, after a period of two years from the date of this agreement, shall, at the option of the United States, either be removed from Canada by the United States authorities or shall be left *in situ* and regarded as of no value unless put to beneficial use. The principle is recognized that if any such property should thereafter be put to beneficial use the United States Government should receive fair compensation.

2. In view of certain provisions of the Surplus Property Act of 1944, it is proposed that the provisions of this note and your reply agreeing thereto constitute an arrangement between our two Governments effective at a date mutually to be agreed upon, such date to be not less than thirty days from the date of your reply. It is further proposed that the arrangement shall be effective only if neither Government has, before the date referred to in the preceding sentence, expressed a desire for any change in the lettered paragraphs A through D above. 58 Stat. 765. 50 U. S. C. app. §§ 1611–1646.

Accept, Sir, the renewed assurances of my highest consideration.

2. The proposals made in your note under reference have been examined by the appropriate authorities of the Canadian Government and it gives me pleasure to inform you that those proposals are accepted. DEAR MR. ATHERTON,

May I refer to the exchange of notes dated November 7th and December 30th, 1946 which provides for the disposal of the Canol crude oil facilities, and particularly to section 1D of your note No. 593.

Ante, p. 3683.

It is the understanding of the Canadian Government that neither section 1D nor any other provision of your note under reference imposes on Canada any responsibility for the custody of any of the Canol facilities at any time in the future. Further, it is our understanding that the Canadian Government does not accept responsibility for the payment of fair compensation to the United States Government should, at any time after the two-year period, it be brought to our attention that any of the Canol facilities are being put to beneficial use by private interests.

I should be grateful if you would confirm that this is the interpretation which has been placed on this agreement by your Government.

EXCELLENCY:

As you know, the Extradition Convention between the United States of America and Italy, which was signed in Washington, D. C., on March 23, 1868, provides in the first article thereof for the extradition of persons who may be convicted of, or charged with, having committed the crimes enumerated in the second article thereof. The Convention under reference, however, does not expressly indicate whether the nationals of each of the two contracting parties are included among such persons.

15 Stat. 629.

The Government of the United States of America, in conformity with American laws, has never experienced difficulty in surrendering American citizens under the terms of the aforementioned Convention. On the other hand, you will recall that the Italian Government in the past has not surrendered its nationals upon their being requisitioned by the Government of the United States since Italian Law has not permitted the extradition of Italian nationals unless such action were expressly provided in an international convention.

So that this Extradition Convention between the United States of America and Italy in the future may be rendered operative in the fullest sense of reciprocity, the Government of the United States would appreciate being informed whether the Italian Government would agree that the provisions of the first article of the Convention will be applied reciprocally henceforth also to persons having Italian nationality.

DEAR MR. FORTHOMME:

A point of legal detail has been brought to my attention in connection with the Agreement Supplementary to the General Agreement on Tariffs and Trade which we propose to sign on behalf of our two Governments on October 30 making the Reciprocal Trade Agreement of 1935 between the United States and the Belgo–Luxemburg Economic Union inoperative so long as both the United States and the Belgo–Luxemburg Economic Union are parties to the General Agreement on Tariffs and Trade.

49 Stat. 3680.

Right of termination.

As you know, the Agreement entered into between the United States and the Belgo–Luxemburg Economic Union in 1935 provides that it may be terminated by either party after three years on six months' notice. The inclusion of such a provision in all our trade agreements is required by the Trade Agreements Act. Our lawyers have suggested that the very general terms of the proposed Supplementary Agreement might possibly be interpreted as making it impossible for either party to the 1935 Agreement to exercise this right of termination.

48 Stat. 943.
19 U. S. C. §§ 1351–1354.

It is, of course, improbable that either of our Governments would wish to exercise this right of termination, but under our law we must, nevertheless, retain it in force. To suggest a formal amendment to the proposed Supplementary Agreement expressly excepting the termination provision of the 1935 Agreement at this late date would cause considerable inconvenience and would give greater emphasis to this point than it deserves. I am therefore writing to make it clear that we would be signing the Supplementary Agreement with the understanding that its general language would not prevent notice of termination of the 1935 Agreement given by either party while we were both parties to the General Agreement on Tariffs and Trade from effecting termination of the 1935 Agreement in six months.

61 Stat., Pts. 5 and 6.

I would appreciate it if you could give me the assurance that your Government has the same understanding.

Sincerely yours

The inclusion of such a provision in all our trade agreements is required by the Trade Agreements Act. Our lawyers have suggested that the very general terms of the proposed Supplementary Agreement might possibly be interpreted as making it impossible for either party to the 1939 Agreement to exercise this right of termination.

DEAR MR. CLARK:

A point of legal detail has been brought to my attention in connection with the Exclusive Agreement Supplementary to the General Agreement on Tariffs and Trade which we are signing today on behalf of our two Governments making inoperative, so long as both the United States and Cuba are parties to the General Agreement on Tariffs and Trade, the Convention of Commercial Reciprocity between the Republic of Cuba and the United States of America signed December 11, 1902, and the Reciprocal Trade Agreement between the Republic of Cuba and the United States of America signed August 24, 1934, with its accompanying exchange of notes, as amended by the supplementary trade agreement signed December 18, 1939, with its accompanying protocol and exchange of notes, and by the supplementary trade agreement signed December 23, 1941, with its accompanying exchange of notes.

33 Stat. 2136.
49 Stat. 3559.
54 Stat. 1997.
55 Stat. 1449.

As you know, Article XI of the Convention of Commercial Reciprocity of 1902 provides that it may be terminated by either party on one year's notice, and Article XVII of the 1934 Trade Agreement, as amended, provides that it may be terminated by either party on six months' notice. With respect to the latter, the inclusion of such a provision in all our trade agreements is required by the Trade Agreements Act. Our lawyers have suggested that the very general terms of the Exclusive Supplementary Agreement might possibly be interpreted as making it impossible for either party to the 1902 Convention and to the 1934 Trade Agreement to exercise this right of termination.

Right of termination.
33 Stat. 2142.
49 Stat. 3568.
48 Stat. 943.
19 U. S. C. §§ 1351-1354.

It is, of course, improbable that either of our Governments would wish to exercise this right of termination, but under our law we must, nevertheless, retain it in force. To suggest, at this late date, a formal amendment to the Exclusive Supplementary Agreement expressly excepting the respective termination provisions would cause considerable inconvenience and would give greater emphasis to this point than it deserves. I am therefore writing to make it clear that we are signing the Exclusive Supplementary Agreement with the understanding that its general language would not prevent notice of termination of the 1902 Convention and of the 1934 Trade Agreement, given by either party while we were both parties to the General Agreement on Tariffs and Trade, from effecting termination of the 1902 Convention and of the 1934 Trade Agreement in one year and six months, respectively.

I have the honor to refer to your courteous letter of today's date, informing me that your attention has been called to a legal detail in connection with the Exclusive Agreement Supplementary to the General Agreement on Tariffs and Trade which we are signing today as representatives of our respective governments.

DELEGATION OF CUBA

SECOND SESSION OF THE PREPARATORY COMMITTEE OF THE UNITED NATIONS CONFERENCE ON TRADE AND EMPLOYMENT

GENEVA, *October 30, 1947.*

Mr. CHAIRMAN:

I have the honor to refer to the conversations which took place between our Delegations during the Second Session of the Preparatory Committee of the United Nations Conference on Trade and Employment with regard to the exportation of pineapple slips from the Republic of Cuba to the United States of America.

In accordance with instructions received from my Government, I wish to confirm the understanding reached between our Delegations during the tariff negotiations, to the effect that the Government of the Republic of Cuba will continue to permit the exportation of pineapple slips to the United States of America, and particularly to the territory of Puerto Rico, subject to such regulations as the Ministry of Agriculture may issue, and will facilitate the acquisition and exportation of pineapple slips of good quality.

I avail myself of this opportunity to renew to you, Mr. Chairman, the assurances of my high consideration.

DELEGACION DE CUBA

SECOND SESSION OF THE PREPARATORY COMMITTEE OF THE UNITED NATIONS CONFERENCE ON TRADE AND EMPLOYMENT.

MEMORANDUM

Re: Palm Beach Cloth

The Cuban Delegation to the Second Session of the Preparatory Committee of the United Nations Conference on Trade and Employment takes pleasure in addressing the Delegation of the United States of America to the said Conference, in connection with the exclusion of Sub-item 147–E of the Cuban Customs Tariff, comprising "fabrics of the hair or fleece of the angora goat (mohair) mixed with cotton, rayon or both, in the piece or not made up", from the products which are to appear in Schedule IX of the General Agreement on Tariffs and Trade.

As expressed on several occasions during the course of the negotiations by the Cuban Negotiating Team and as is well known to the

61 Stat., Pt. 5, p. A545.

United States Negotiating Team, the Cuban Government had noticed the grave practical problems arising from the difficulty or impossibility of duly distinguishing these fabrics from other wool fabrics, especially when mixed with other substances, vegetable or synthetic fibers. For this reason, the Cuban Government intends to make a careful and thorough analysis of this situation, with a view toward its final solution.

In order to facilitate and speed these negotiations and bring them to a happy conclusion, the Cuban Delegation is pleased to state that the Cuban Government does not contemplate increasing the present rate of duty on palm beach cloth, exclusively, and undertakes to exempt such product from the twenty percent surcharge established by Law No. 28, of September 8, 1941.

The Delegation of Cuba to the Second Session of the Preparatory Committee of the United Nations Conference on Trade and Employment is pleased to address the Delegation of the United States of America with reference to the exportation of avocados from Cuba to the United States of America, and to inform the Delegation that in accordance with the agreement reached during the tariff negotiations carried on by the negotiating teams of both countries, the Government of Cuba will continue to apply the export system set forth in paragraph 10 of Provision 5 of the Customs Tariff of the Republic of Cuba.

MEMORANDUM

A proposito del cambio introducido en el aforo de los productos comprendidos en las Partidas 113–A y 129–F y H del Arancel de Aduanas de Cuba, con respecto al regimen de la tara, en virtud de las negociaciones conducidas en esta ciudad entre los grupos negociadores de Cuba y los Estados Unidos de America, la Delegacion de Cuba se complace en consignar que ha llegado al entendimiento de que si en virtud de dicho cambio sobreviene una dificultad extraordinaria y se llega a comprobar en la practica que el descuento de un 15% acordado, por concepto de tara, resulta inadecuado, el Gobierno de la Republica de Cuba vera con simpatia cualquier representacion que en este sentido le haga el Gobierno de los Estados Unidos de America a fin de realizar un ajuste en el tipo de tara senalado, para cubrir cualquier diferencia que resulte en la practica.

Debe quedar bien entendido, sin embargo, que en ningun caso el ajuste que eventualmente pudiera hacerse en las circunstancias antes indicadas, podra exceder en un 5% adicional al 15% aqui ahora convenido, o sea, que la deduccion por concepto de tara para las Partidas 113–A y 129, en sus letras F, y H. no excedera de un 20%.

MEMORANDUM

Adjustment in rate of tare.

With reference to the change introduced in the appraisal of products covered by Parts 113–A and 129–F and H of the Customs Tariff of Cuba, as regards the tare system, the Delegation of Cuba, in consequence of the negotiations conducted in this city between the negotiating groups of Cuba and the United States of America, is pleased to state that it has reached an agreement that if unusual difficulty should occur as a result of this change and it is found that in practice the 15% deduction allowed for tare is inadequate, the Government of the Republic of Cuba will view sympathetically any representation made to it in this sense by the Government of the United States of America for the purpose of effecting an adjustment in the rate of tare fixed, to cover any difference which may result in practice.

Nevertheless, it must be thoroughly understood that in no case shall any adjustment which may be made under the circumstances indicated above exceed 5% in addition to the 15% hereby agreed to, that is, that the deduction for tare in Parts 113–A and 129–F and H shall not exceed 20%.

DEAR MR. BARADUC:

A point of legal detail has been brought to my attention in connection with the Agreement Supplementary to the General Agreement on Tariffs and Trade which we propose to sign on behalf of our two Governments on October 30 making the Reciprocal Trade Agreement of 1936 between the United States and France inoperative so long as both the United States and France are parties to the General Agreement on Tariffs and Trade.

53 Stat. 2236.

61 Stat., Pts. 5 and 6.

Right of termination.

As you know, Article XVII of the 1936 Agreement provides that it may be terminated by either party after three years on six months' notice. The inclusion of such a provision in all our trade agreements is required by the Trade Agreements Act. Our lawyers have suggested that the very general terms of the proposed Supplementary Agreement might possibly be interpreted as making it impossible for either party to the 1936 Agreement to exercise this right of termination.

53 Stat. 2256.

48 Stat. 943.
19 U. S. C. §§ 1351–1354.

It is, of course, improbable that either of our Governments would wish to exercise this right of termination, but under our law we must, nevertheless, retain it in force. To suggest a formal amendment to the proposed Supplementary Agreement expressly excepting Article XVII of the 1936 Agreement at this late date would cause considerable inconvenience and would give greater emphasis to this point than it deserves. I am therefore writing to make it clear that we would be signing the Supplementary Agreement with the understanding that its general language would not prevent notice of termination of the 1936 Agreement given by either party while we were both parties to the General Agreement on Tariffs and Trade from effecting termination of the 1936 Agreement in six months.

53 Stat. 2256.

61 Stat., Pts. 5 and 6.

I would appreciate it if you could give me the assurance that your Government has the same understanding.

Italian share.

1. The Allied Governments concerned agree that Italy should receive a proportional share of the gold distributed pursuant to Part III of the Agreement on Reparations from Germany, on the establishment of an Inter-Allied Reparations Agency and on the Restitution of Monetary Gold signed at Paris on 14th January, 1946, on the same basis as the countries signatory to the said Agreement to the extent that Italy can establish that a definite amount of monetary gold belonging to it was looted by Germany, or, at any time after 3rd September, 1943, was wrongfully removed into German territory.

61 Stat., Pt. 3, p. 3180.

2. Italy adheres to the arrangement for the restitution of monetary gold set forth in Part III of the afore-mentioned Agreement and declares that the portion of the monetary gold accruing to it under the Agreement is accepted in full satisfaction of all Italian claims against Germany for restitution of monetary gold.

3. Italy accepts the arrangements which have been or will be made by the Allied Governments concerned for the implementation of the aforesaid arrangement.

Claims deposit.

4. (*a*) Pending the definitive settlement of such claims as may be made pursuant to Article 75, paragraph 8, of the Peace Treaty with Italy within six months of the coming into force of the Treaty, the Italian Government agrees to set aside out of its share as stipulated above, as a guarantee for the execution of the said provisions of the Treaty, and to leave on deposit with the Allied Governments concerned, an amount of gold approximately equal to the claims which it is now known will be made against Italy under the said provisions, viz., 14,422 kilograms of fine gold in respect of the claim of France and 8,857 kilograms of fine gold in respect of the claim of Yugoslavia.

61 Stat., Pt. 2, p. 1401.

(*b*) The amount provided for in sub-paragraph (*a*) shall be set aside in full out of any distribution made to Italy before any gold is withdrawn by Italy for its own use.

3. L'Italie accepte les arrangements qui ont été ou seront faits par les Gouvernements alliés intéressés pour l'application dudit arrangement.

4. (*b*) La quantité stipulée à l'alinéa (*a*) sera mise intégralement de côté par prélèvement sur toute attribution qui sera faite à l'Italie avant qu'aucune quantité d'or ne soit retirée par l'Italie pour son propre usage.

(c) The Allied Governments concerned will notify the Italian Government of the arrangements to be made for depositing the aforesaid amount of gold.

Agreement between the United States of America and Mexico respecting the temporary migration of Mexican agricultural workers, supplementing the agreement of August 4, 1942, as revised April 26, 1943. EMBASSY OF THE
UNITED STATES OF AMERICA
No. 697 *Mexico, D.F., March 25, 1947.*

EXCELLENCY:

I have the honor to refer to the recent negotiations which have taken place between the Intersecretarial Committee of Your Excellency's Government and Messrs. Wilson R. Buie and Durrell L. Lord, representing the United States Department of Agriculture, regarding the continued employment of Mexican agricultural workers in the United States, and to request that Your Excellency be good enough to inform the Intersecretarial Committee that my Government agrees to the following supplementary provisions in relation to the program being carried out under the terms of the agreement between the United States of America and Mexico, which was signed on August 4, 1942, and revised April 26, 1943:

Supplementary provisions.

56 Stat. 1759.
57 Stat. 1152.

1. It is agreed that no change in the present wording of the Work Agreement form now in use need be made, but specific understandings hereinafter suggested are to be given effect by appropriate administrative action.
2. It is understood that workers who are to be employed any part of the time in work on the sugar beet crops will be informed of that fact and that much of such work is arduous.
3. It is agreed that when implementing Paragraph 2 of the Work Agreements, the location meant by the words "area" and "region" will be considered to be the County in which the Mexican worker is employed.
4. It is understood that in each worker's contract there will be inserted, by rubber stamp and upon the dotted line, the name of the place where the worker was first interviewed in connection with his contract, and that place can be considered his "point of origin" for all purposes under his contract.
5. It is agreed that in the event it becomes necessary to repatriate Mexican workers before the expiration of their contracts as a result of a determination that their services are no longer necessary, the United States Department of Agriculture will use every means available to avoid terminating the contracts of

Mexican workers who have recently arrived in the United States, repatriating instead, if necessary, those Mexican workers who have been employed in the United States over longer periods of time.

6. It is understood that, except for days in which the worker works more than four hours, and except for Sundays occurring before the worker's contract has been terminated, there shall be paid to any worker who is physically able to perform his work, the cost of feeding during the period of time in which he has not been utilized for reasons beyond his control.

7. It is agreed that the food provided on the farms or by the commissaries controlled by the farmers must be provided to the workers at cost, and must not exceed $1.50 U. S. Currency per day.

8. It is understood that farmers will be notified that the Consuls of Mexico or the delegates which the Intersecretarial Committee assigns will have power to review the workers' contracts, study the sanitary system and the cost and class of food in those cases where they may consider it necessary.

9. It is agreed that it is to be recommended to the farmers that the balance amounts which remain due the workers from salaries and savings-fund deductions be paid by one check payable to the Banco Nacional de Credito Agricola, to which is attached a list of the workers involved and their respective interests therein.

10. It is agreed that, particularly in view of the increased minimum wage rates to be paid for work in connection with the 1947 sugar beet crop by producers who apply for payments under the Sugar Act of 1937, as amended, the provision of 37 cents per hour minimum wage in provision 2 of the Work Agreements remain unchanged, but that the United States Department of Agriculture undertakes, exactly as the Work Agreements provide, that the treatment in respect to salaries which is given Mexican workers, shall in no way be inferior to that accorded United States domestic labor.

50 Stat. 903.
7 U. S. C. § 1100 *et seq.*

11. It is agreed that if, at the termination of the contract, the worker is not returned to Mexico for reasons beyond his control, commencing on the 15th day following the date of the termination of the contract, the worker will be paid by the United States Department of Agriculture, 50 cents U. S. Currency for each day up to the date of embarkation of the worker for Mexico, this sum being in addition to the subsistence and other benefits heretofore provided.

It is understood that this note, together with Your Excellency's reply in the same terms, shall constitute an agreement between the Government of the United States of America and the Government of the United Mexican States on the supplementary provisions cited above.

Please accept, Excellency, the renewed assurances of my highest and most distinguished consideration.

EXCELENCIA:

Me es grato dar respuesta a la muy atenta nota de Vuestra Excelencia, número 697, fechada el 25 de marzo próximo pasado, que a continuación transcribo:

"Tengo el honor de referirme a las recientes negociaciones que se llevaron a cabo entre la Comisión Intersecretarial nombrada por el Gobierno de Vuestra Excelencia y los señores Wilson R. Buie y Durrell L. Lord, representantes del Departamento de Agricultura de los Estados Unidos, relacionadas con el deseo de seguir utilizando los servicios de trabajadores agrícolas mexicanos en los Estados Unidos, para solicitar a Vuestra Excelencia que tenga a bien informar a la Comisión Intersecretarial aludida, que mi Gobierno está de acuerdo con las siguientes cláusulas suplementarias, relativas al programa que se está llevando a cabo dentro de los términos del Convenio vigente entre los Estados Unidos de América y México, que fué firmado el 4 de agosto de 1942 y rectificado el 26 de abril de 1943.

1. – Estamos de acuerdo en que no hay necesidad de hacer cambio alguno en la redacción del nuevo Contrato de trabajo, pero que en lo sucesivo los acuerdos expresos que tengan lugar sean formalizados mediante intercambio de notas.

2. – Estamos entendidos en que los trabajadores que serán empleados en la cosecha del betabel serán motivo de selección con objeto de utilizar solamente a los experimentados, por tratarse de un trabajo pesado.

3. – Damos nuestra conformidad para que las palabras "area" y "región" que se mencionan en el párrafo 2o. del Contrato de Trabajo, cuando se refieren al lugar de empleo, se consideren como el lugar del Condado en donde el trabajador preste sus servicios.

4. – Se toma nota de que en el Contrato de cada trabajador se anotará por medio de un sello y sobre una línea, el nombre del lugar donde el trabajador fué contratado originalmente, y que ese lugar

será considerado como su "punto de orígen" para todos los fines del citado Contrato.

5. – Estamos de acuerdo en que, en el caso de que sea necesario repatriar a trabajadores mexicanos antes de la terminación de sus Contratos, como resultado del hecho de que sus servicios no sean ya necesarios, el Departamento de Agricultura de los Estados Unidos hará todo lo que esté de su parte para evitar que tal desocupación afecte a los trabajadores mexicanos de reciente arribo a los Estados Unidos, repatriándose en su lugar, cuando sea necesario, a aquellos que hayan prestado sus servicios por períodos más largos.

6. – Se entiende que con excepción de los días en los cuales el trabajador no sea utilizado por más de cuatro horas, (excluyéndose los domingos), que transcurran antes de que termine su contrato, se le proporcionarán los gastos de alimentación por el tiempo en que no presta sus servicios, por causas ajenas a su voluntad, siempre que esté físicamente capacitado para desempeñar sus funciones.

7. – Se acepta que los alimentos proporcionados en los ranchos o por las "comisarías" controladas por los patrones serán al precio de costo, no debiendo exceder de la cantidad de Dls. 1.50 por día.

8. – Se acepta que se dé aviso a los patrones en el sentido de que los Cónsules de México y los Delegados designados por la Comisión Intersecretarial tendrán el derecho de revisar el cumplimiento de los contratos de los trabajadores, estudiar el sistema sanitario, así como la clase y costo de los alimentos, cuando ellos lo consideren necesario.

9. – Se manifiesta conformidad en recomendar a los patrones que el saldo que se quede a deber a los trabajadores, por concepto de sueldos o descuentos, sea pagado en un cheque expedido a favor del "Banco Nacional de Crédito Agrícola", al cual se le agregará la lista de los trabajadores beneficiados, así como la de las cantidades individuales que se les adeudan.

10. – Se manifiesta, particularmente, que en vista del aumento de las cuotas por concepto de salario mínimo, que serán pagadas por trabajos relacionados con la cosecha del betabel por el año de 1947, por patrones que soliciten pagos amparados por la "Ley del Azúcar" de 1937, modificada, la cuota de salario mínimo de 37 centavos por hora, prevista en la Cláusula 2a. del Contrato de Trabajo, quedará intacta, pero que el Departamento de Agricultura de los Estados Unidos se comprometerá, de acuerdo con las condiciones del Contrato de Trabajo, a que el tratamiento que se dé a los trabajadores mexicanos en cuestión de salarios, de ninguna manera sea inferior al que disfruten los trabajadores agrícolas norteamericanos.

11. – Estamos de acuerdo en que, si al terminarse el Contrato de Trabajo el trabajador no es regresado a México, por causas ajenas a su voluntad, se le pague por parte del Departamento de Agricultura de los Estados Unidos la cantidad de 50 centavos diarios, moneda americana, a partir del 15° día hasta la fecha de su embarque a México, suma que deberá considerarse suplementaria de la que

recibirá por concepto de subsistencia y otros beneficios establecidos en los Contratos."

Queda entendido que la presente nota, unida a la contestación aprobatoria que Vuestra Excelencia se sirva darle, constituirá un Convenio entre el Gobierno de los Estados Unidos de América y el de los Estados Unidos Mexicanos sobre las Cláusulas Suplementarias arriba citadas".

En debida respuesta me es grato participar a Vuestra Excelencia, que reconociendo la buena voluntad de los Representantes del Departamento de Agricultura de los Estados Unidos para coordinar sus puntos de vista con los de la Comisión Intersecretarial Mexicana, mi Gobierno manifiesta su conformidad con los términos de la nota preinserta, considerándolos como complementarios del acuerdo del 26 de abril de 1943, en la inteligencia de que, si en la práctica, se encontrasen divergencias de interpretación respecto a si debe aplicarse el convenio antes aludido de 1943, o las cláusulas adicionales arriba citadas, mi Gobierno espera que se aplicará el texto que resulte más favorable al trabajador.

Me es grato reiterar a Vuestra Excelencia el testimonio de mi más alta consideración.

EXCELLENCY:

I take pleasure in replying to Your Excellency's very courteous note No. 697, dated March 25 last, which I transcribe as follows:

Ante, p. 3738.

"I have the honor to refer to the recent negotiations which have taken place between the Interdepartmental Committee appointed by Your Excellency's Government and Messrs. Wilson R. Buie and Durrell L. Lord, representing the United States Department of Agriculture, regarding the desire to continue to employ Mexican agricultural workers in the United States, and to request that Your Excellency be good enough to inform the above-mentioned Interdepartmental Committee that my Government agrees to the following supplemen-

tary clauses relative to the program being carried out under the terms of the Agreement in force between the United States of America and Mexico, which was signed on August 4, 1942, and revised April 26, 1943: 56 Stat. 1759; 57 Stat. 1152.

1. It is agreed that there is no change in the wording of the new Work Contract need be made, but that, in the future, the understandings mentioned which are made shall be formalized by means of an exchange of notes.

2. It is understood that the workers who are to be employed in the harvesting of sugar beets shall be subjected to a process of selection for the purpose of employing experienced workers only, since the work involved is arduous.

3. It is agreed that the words "area" and "region" which are mentioned in Paragraph 2 of the Work Contract shall, when they refer to the place of employment, be considered as meaning the place in the County where the worker is employed.

5. It is agreed that, in the event it becomes necessary to repatriate Mexican workers before the expiration of their contracts as a result of the fact that their services are no longer necessary, the United States Department of Agriculture will use every means available to prevent such unemployment from affecting the Mexican workers who have recently arrived in the United States, repatriating instead, when necessary, those who have been employed over longer periods of time.

6. It is understood that, except for those days (excluding Sundays) when the worker is not used for more than four hours, which occur before his contract terminates, he shall be given the cost of his food for the time in which he does not work, for reasons beyond his control, provided he is physically able to perform his work.

7. It is agreed that the food provided on the farms or by the commissaries controlled by the farmers shall be provided at cost, and must not exceed 1.50 dollars per day.

8. It is understood that the farmers will be notified that the Consuls of Mexico and the Delegates assigned by the Interdepartmental Committee will have the right to examine the fulfillment of the workers' contracts, to study the sanitary system, as well as the class and cost of the food, when they may consider it necessary.

9. It is agreed that it be recommended to the farmers that the balance which remains due to the workers from wages or deductions be paid by one check payable to the "Banco Nacional de Crédito Agrícola", to which shall be attached a list of the workers to receive payment, as well as one of the individual amounts owed to them.

10. It is agreed, particularly, that in view of the increase in minimum wage rates to be paid for work in connection with the 1947 beet

sugar crop by farmers who apply for payments under the Sugar Act of 1937, as amended, the minimum wage rate of 37 cents per hour provided for in the second clause of the Work Contract will remain unchanged, but that the United States Department of Agriculture will undertake, in accordance with the condition of the Work Contract, to provide that the treatment given to the Mexican workers with respect to wages shall in no way be inferior to that enjoyed by United States farm labor.

50 Stat. 903. 7 U. S. C. § 1100 *et seq.*

11. It is agreed that if, at the termination of the Work Contract, the worker is not returned to Mexico for reasons beyond his control, commencing on the 15th day he will be paid by the United States Department of Agriculture the sum of 50 cents U. S. currency for each day up to the date of his embarkation for Mexico, and that this sum must be considered as being in addition to that which he will receive in the form of subsistence and other benefits provided for in the contracts.

"It is understood that this note, together with the reply in acceptance which Your Excellency may be so good as to make thereto, shall constitute an Agreement between the Government of the United States of America and the Government of the United Mexican States on the supplementary clauses cited above."

In due reply, I am pleased to inform Your Excellency that, recognizing the friendly desire on the part of representatives of the United States Department of Agriculture to co-ordinate their points of view with those of the Mexican Interdepartmental Committee, my Government expresses its agreement with the terms of the above-inserted note, considering those terms as supplementary to the Agreement of April 26, 1943, with the understanding that if, in practice, differences of interpretation should be encountered as to whether the above-mentioned Agreement of 1943 or the above-cited additional clauses should be applied, my Government hopes that the text which is more favorable to the worker will be applied.

1. During the course of these discussions the Swedish representatives have presented extensive information setting forth the serious reduction in Sweden's reserves of gold and foreign exchange, and the resulting necessity of imposing measures of control for the purpose of correcting this situation.
2. With respect to goods en route or on order at the time of the imposition of quantitative import restrictions on March 15, 1947, the Government of Sweden, after consultation with the United States Government, has announced that licenses will be granted for the import of all commodities which were placed under import restrictions on that date, provided that the Swedish importer when applying for an import license establishes the following facts:
   a. that a bona fide contract contemplating delivery prior to October 1, 1947 had been entered into, on or before March 15, 1947, and
   b. that the delivery in Sweden of the goods mentioned in the contract will be effected before October 1, 1947.
3. The Government of Sweden brings to the notice of the United States Government the statement of its support of the principle of unrestricted, multilateral trade on the basis of free competition and of those policies which have for their purpose the encouragement of this principle, recently made in the official communique of May 12, 1947, regarding discussions between the Ministers of Foreign Affairs and other representatives of the Governments of Denmark, Norway and Sweden. The Swedish Government has

officially announced its desire that the quantitative restrictions upon imports, imposed by it on March 15, 1947, shall be of as short duration as possible. The Swedish Government also brings to the notice of the United States Government the Government Bill of May 30, 1947, in which it indicated its desire, due consideration being given to existing trade agreements, to see an expansion of the volume and a development of the direction of Swedish exports serving to redress Sweden's international balance of payments at the earliest possible date. The Swedish Government has not at present any undertaking, and does not propose to enter into undertakings, that specific commodities will be delivered to specific countries unless such a policy should form part of a fair allocation among all importing countries of essential commodities in short supply.

4. During the period while the quantitative import restrictions remain in force, the Government of Sweden, which has taken note of the fact that the Government of the United States of America does not in relation to Sweden restrict the free disposition of dollar earnings or assets, except as provided for in the exchange of letters of March 18 and 25, 1947 [1] establishing the procedure for unblocking of Swedish assets in the United States, will continue to authorize all current payments, including payments for imports and the transfer of earnings and remittances, and will limit such control of foreign exchange as it may become necessary to maintain to the control of international capital movements.

5. During the period while the quantitative restrictions upon imports remain in force the Government of Sweden when administering the controls will observe the following principles:

   a. Commodities will be licensed without regard to the country of origin, except as stated below.

   b. In those instances where, during the period covered by the present arrangements, the above licensing principle would exert a restrictive influence on the overall volume of international trade by reducing imports from areas experiencing a serious shortage of gold and/or convertible currencies in a way which would not improve Sweden's multilateral payments possibilities, Sweden in granting import licenses may take into consideration the special payments possibilities which may exist between Sweden and the country of origin.

   c. Licenses will, unless otherwise agreed, be granted permitting the importation of commodities from the United States listed in Schedule I of the Commercial Agreement between the United States of America and Sweden of 1935, and not on the unrestricted list, to an amount, for the period from January 1, 1947 to June 30, 1948, equivalent to not less than 150% of the volume of like imports from the United States during 1946.

49 Stat. 3768.

[1] [Not printed.]

d. No commodity or class of commodities imported from the United States during the operation of the Commercial Agreement between the United States of America and Sweden of 1935 shall be entirely excluded.

e. No commodity now on the unrestricted list and imported from the United States during the operation of the Commercial Agreement between the United States of America and Sweden of 1935 shall be removed from that list without equitable transitional arrangements having been provided.

6. The Government of Sweden will place in operation as of July 1, 1947 the system of administering the import controls envisaged in this aide-memoire.

7. The Government of Sweden recognizes that the Commercial Agreement between the United States of America and Sweden of 1935 remains in full force and effect, save for those temporary modifications in its operation provided for in this exchange of memoranda.

8. If unforeseen developments require a temporary modification in the terms of the understanding embodied in this exchange of memoranda, and in any event before the expiration of this understanding on June 30, 1948, the Government of Sweden agrees to review the situation with the Government of the United States of America for the purpose of considering such action as the circumstances may demand.

AIDE-MEMOIRE

The Government of the United States of America refers to the aide-memoire of the Government of Sweden, dated June 24, 1947, concerning the problems, in relation to the Commercial Agreement between the United States of America and Sweden of May 25, 1935, which have arisen as a result of the imposition of quantitative import restrictions by the Swedish Government on March 15, 1947. 49 Stat. 3757, 3760.

DEPARTMENT OF STATE,
Washington, June 24, 1947.

The Swedish Minister to the Assistant Secretary for Economic Affairs

LEGATION OF SWEDEN
WASHINGTON 8, D. C.

JUNE 24, 1947.

MY DEAR MR. SECRETARY:

In connection with the discussions which have recently taken place between representatives of the Government of Sweden and of the Government of the United States concerning the problems arising as a result of the imposition of quantitative import restrictions by the Swedish Government on March 15, 1947, the Government of Sweden transmitted a memorandum to the Government of the United States on June 24, 1947, which stated in part:

"The Government of Sweden . . . will continue to authorize all current payments, including payments for imports and the transfer of earnings and remittances and will limit such control of foreign exchange as it may become necessary to maintain to the control of international capital movements."

Conditions respecting foreign exchange, etc.

In applying the principles set forth in this memorandum the Swedish Government agrees to make the registration and control of foreign exchange and the restriction of capital movements subject to the following conditions:

a. The Swedish Government will not impose restrictions on current transactions additional to those now in use and thus will continue to authorize current payments of a customary nature from Sweden to the United States (payment of profits, dividends, interest, royalties, payments for commercial purposes and other payments relating to current business provided that the underlying transactions, wherever necessary, have been duly authorized (including balances accrued from the same sources in the

past)). With regard to balances accumulated from the same sources in the past, transfer will be authorized unless the funds in question have been voluntarily invested in Sweden. The appropriate agencies of the Swedish Government, moreover, will examine carefully with due regard to the Swedish exchange position requests for transfers of capital from Sweden to the United States when transfers of that type might serve a useful commercial and economic purpose, and where transfers of small amounts are of substantial importance to the interested parties. They will examine in the same spirit requests for transfers of funds to the United States filed by American nationals residing in Sweden.

b. The Swedish Government or the appropriate agencies thereof will likewise continue to authorize persons residing in Sweden who without having violated Swedish law owe bona fide dollar obligations to any governmental agency, individual or firm in the United States, to discharge such obligations when they are due, and if necessary, it will authorize such persons to purchase dollars for that purpose.

If unforeseen circumstances require temporary modification of the principles set forth above, the Government of Sweden, in accordance with the provisions of its memorandum of June 24, 1947, will review the situation with the Government of the United States.

Sincerely,

HERMAN ERIKSSON

Mr. WILLARD L. THORP,
Assistant Secretary for Economic Affairs,
Department of State,

Arrangement between the United States of America and the United Kingdom of Great Britain and Northern Ireland respecting the procurement of military equipment and supplies for aid to Greece. Effected by exchange of notes signed at Washington July 25 and October 9, 1947; entered into force October 9, 1947.

July 25, October 9, 1947
[T. I. A. S. 1718]

The Secretary of State to the British Chargé d'Affaires ad interim

DEPARTMENT OF STATE
WASHINGTON
July 25, 1947

SIR:

Due to the lapse of time between the approval of the Act to Provide for Assistance to Greece and Turkey, effective May 22, 1947, and the actual arrival of American military equipment and supplies in Greece, the Government of the United States wishes to establish an arrangement with the Government of the United Kingdom which would:

61 Stat., Pt. 1, p. 103.

(1) provide for the continuation of the furnishing of such supplies and equipment by the United Kingdom as are necessary for the Greek military program until United States supplies arrive in Greece;

(2) provide for the continued procurement by the Government of the United Kingdom of certain supplies required by the Greek Armed Forces which the Government of the United States is not now in a position to provide from its own resources.

Pending further arrangements, the Government of the United States hereby undertakes to the extent provided in this note to pay the Government of the United Kingdom for supplies and equipment issued, and for services incident to the procurement and delivery of such supplies and equipment provided by the Government of the United Kingdom to the Government of Greece for the Greek Armed Forces after May 22, 1947. Such issues shall be deemed to include all arrivals in Greece of such supplies and equipment after May 22, 1947. Such supplies, equipment, and services shall be deemed to exclude items which the Government of the United Kingdom has agreed to provide free of charge, including

Free items.

(a) certain initial equipment and supplies for the Greek Army provided against demands submitted before May 22, 1947 (estimated to be approximately £2,000,000 in value);

(b) any supplies for the Greek Air Force which were included subject to availabilities in the Order of Battle agreed with the British Air Ministry in 1946 and certain special items added thereto in 1947;

(c) any other items which the Government of the United Kingdom has agreed to provide free of charge in accordance with arrangements previously made by the Government of the United Kingdom with the Greek Government or against payment by the Greek Government from funds made available by the Government of the United Kingdom for that purpose.

Pending the establishment of military and naval supply programs in accordance with the fourth paragraph hereof, it is the understanding of the Government of the United States that the British authorities concerned will issue within reasonable limits necessary supplies and equipment based on their past experience and upon the essential needs of the Greek Government for the maintenance of its military forces. The Government of the United States, however, does not undertake financial responsibility for any issues beyond such reasonable limits. In order to assure that continuing requirements of the Greek Armed Forces are met with respect to certain limited and vital equipment and supplies which the Government of the United States is not now in a position to provide from its own resources, it is specifically requested that the Government of the United Kingdom continue procurement of (1) food requirements of the Greek Armed Forces through August 31, 1947 for 176,000 men, or such other number as may be agreed, on the same scale as now used, and (2) necessary ammunition and maintenance supplies, in quantities agreed between representatives of the two Governments, for equipment of British origin now held by the Greek Armed Forces.

American Mission for Aid to Greece.

Personnel of the military and naval sections of the American Mission for Aid to Greece will have arrived in Greece shortly after the effective date of the Act. These representatives will cooperate with the British military, naval, and air missions in Greece in the estimation of military supply requirements which might be met from British sources and will ordinarily request the Government of the United Kingdom through appropriate channels to supply such categories of supplies and equipment as the War or Navy Department may deem appropriate. The Government of the United States will be financially responsible for, but only for, all issues made by the Government of the United Kingdom against such requests. Representatives of the Government of the United States will review with representatives of the Government of the United Kingdom questions relating to the establishment of the basis for prices. This note, of course, in no way affects the status of lend-lease articles which are subject to the United States–United Kingdom Military Holdings Agreement of March 27, 1946, any transfers of which will be made without charge to the Government of the United States. In the event that the Government of the United States requests changes in procurement which require the cancellation by the Government of the United Kingdom of any items previously requested by the Government of the United States for which procurement action has been initiated, the Government of the United States will be responsible for any financial loss to the Government of the United Kingdom in connection therewith.

60 Stat. 1525, 1539.

Cancellation of requested items.

The Government of the United States will wish to conclude more detailed understandings with respect to the pricing, methods of accounting, and of payment for the equipment and supplies provided by the Government of the United Kingdom to the Greek Government in accordance with the paragraphs above. Pending such detailed arrangements, it is requested that the Government of the United Kingdom keep detailed accounts and records to facilitate the settlement of accounts between the Government of the United States and the Government of the United Kingdom. U. K. accounts and records.

Accept, Sir, the renewed assurances of my high consideration.

SIR:

With reference to your note of the 25th July, addressed to Mr. Balfour, concerning the provision of supplies to Greece, I have the honour to inform you that the arrangements therein set out are acceptable to His Majesty's Government in the United Kingdom, subject to the following considerations which are presented by His Majesty's Government for the sake of clarification only.

With regard to sub-paragraph (a) of the second paragraph of your note, His Majesty's Government confirm that they have undertaken to provide to the Greek Government after the 31st March, 1947, free military equipment and supplies to the approximate value of £2 million. A considerable proportion of the equipment and supplies forming part of this gift was delivered to the Greek Government before the 22nd May, 1947, but it is confirmed that, insofar as deliveries of initial equipment and supplies forming the balance of the gift are made after the 22nd May, 1947, against demands submitted before that date, they will be provided free by His Majesty's Government. *Ante*, p. 3763.

His Majesty's Government confirm further that they have undertaken to provide the equipment and supplies covered in the second paragraph of your note and that the aforementioned equipment and supplies constitute the total amount of assistance which His Majesty's Government have agreed to supply free of charge.

His Majesty's Government assume that the third paragraph of your note will apply to all issues made within reasonable limits against any demands submitted by the Greek authorities before the arrival of the United States Mission, excluding those covered by sub-paragraphs (a), (b) and (c) of the second paragraph of your note, and, therefore, that

the United States Government accept liability to pay for items issued within such limits from British sources to the Greek armed forces outside the agreed programmes in respect of Greek demands submitted after the 22nd May but before the arrival of the United States Mission and before the agreed programmes were drawn up.

With reference to the fourth paragraph of your note, His Majesty's Government confirm that your note in no way affects the status of Lend-Lease articles which are subject to the United States–United Kingdom Military Holdings Agreement of the 27th March, 1946, which sets out the procedure to be followed when either the re-transfer or the re-capture of such articles is to be carried out.

60 Stat. 1525, 1539.

It is assumed that any supplies sent by His Majesty's Government to the Greek Government for the use of the Greek civil police will be dealt with in the same way as supplies to the Greek Army and Gendarmerie.

I avail myself of this opportunity to renew to you the assurance of my highest consideration.

INVERCHAPEL

The Honourable
GEORGE C. MARSHALL,
Secretary of State of the United States,
Washington, D.C.

Le Gouvernement de la République Française et le Gouvernement des Etats-Unis d'Amérique, ayant résolu de faciliter l'inhumation en territoire français ou le transfert dans leur pays des corps des ressortissants américains victimes de la guerre de 1939–1945, les soussignés, dûment autorisés à cet effet, sont convenus des dispositions suivantes:

TITRE 1er.

Création de cimetières permanents ou de monuments commémoratifs dits "Champs d'Honneur".

Article 1er. – Le Gouvernement Français accorde au Gouvernement des Etats-Unis d'Amérique, gratuitement et sans limitation de durée, la libre disposition des terrains situés en France et dans les territoires de l'Union Française, choisis et utilisés, soit comme cimetières permanents pour la sépulture des ressortissants américains victimes de la guerre de 1939–1945, soit pour la construction de monuments commémoratifs des hauts faits des Forces Armées des Etats-Unis au cours de cette même guerre. Toutefois, conformément aux dispositions de la Loi du 14 octobre 1946, ces terrains demeureront la propriété de l'Etat Français.

Article 2. – L'emplacement des cimetières et monuments commémoratifs devra être soumis à l'agrément préalable du Gouvernement français.

Article 3. – La libre disposition visée à l'article 1er comporte, pour le Gouvernement des Etats-Unis, la faculté de procéder à tous aménagements jugés nécessaires des cimetières permanents ainsi qu'à la construction des monuments commémoratifs et de tous bâtiments et voies d'accès utiles. Toutefois, le Gouvernement des Etats-Unis veillera à ce que des installations appropriées maintiennent de bonnes conditions sanitaires.

Ces aménagements ou constructions seront exonérées de tous impôts ou taxes.

Article 4. – Le Gouvernement des Etats-Unis prend à sa charge le gardiennage et l'entretien des cimetières et monuments ainsi que le paiement des salaires et autres dépenses en résultant.

Article 5. – Les dispositions du présent accord relatives à l'aménagement, à l'entretien et à l'administration des cimetières permanents et des monuments commémoratifs sont applicables à ceux de la guerre de 1914–1918 comme à ceux de la guerre de 1939–1945.

TITRE II.

Opérations relatives à l'inhumation
et à l'exhumation des dépouilles, à leur
réinhumation en France ou à leur transfert
aux Etats-Unis.

Article 6. – Le Gouvernement des Etats-Unis pourra créer et entretenir, en France et dans les territoires de l'Union Française, des cimetières provisoires et posséder l'équipement nécessaire au rassemblement, à l'identification et à l'inhumation provisoire des dépouilles et à leur transfert dans des cimetières permanents aux fins d'inhumation ou dans des ports aux fins de rapatriement aux Etats-Unis. Ces opérations pourront s'appliquer à des dépouilles en provenance d'autres pays. Elles seront exonérées de tous impôts ou taxes ainsi que de toutes formalités ou perceptions douanières.

Article 7. – Le Gouvernement des Etats-Unis ne sera pas soumis aux lois et règlements applicables en matière de permis d'inhumation, d'exhumation et de transfert des dépouilles, mais il s'engage à exécuter ces opérations de telle manière qu'elles ne puissent constituer un danger pour la santé publique et à prendre toutes dispositions d'ordre sanitaire nécessaires à cette fin.

Article 8. – Le Gouvernement français accordera toutes facilités de transport, de logement du personnel, d'installations de bureaux, d'entrepôts du matériel et de main d'oeuvre pour l'exécution des travaux envisagés, sous réserve que l'accord préalable des autorités françaises compétentes soit obtenu et que tous les frais encourus soient réglés conformément aux tarifs en vigueur.

TITRE III.–

Dispositions Générales.

Article 9. – Le Gouvernement des Etats-Unis pourra importer en France ou dans les territoires de l'Union Française, en provenance d'un pays quelconque, le matériel et les fournitures qui sont nécessaires pour l'exécution de toutes opérations mentionnées dans le présent accord.

Ces matériels et fournitures seront admis en franchise temporaire aux conditions ci-après:

a)– Le matériel et les moyens de transports aériens, routiers ou fluviaux importés seront placés, à leur entrée en France, sous le lien d'acquits de douane dispensés de caution, valables deux ans et renouvelables. Ces acquits seront remis au Service des Douanes et déchargés lors de la réexportation des matériels et véhicules.

b)– Toutes les matières consomptibles destinées à la construction, à la décoration ou à l'entretien des tombes, monuments ou cimetières feront l'objet, lors de leur importation, d'un acquit de douane dispensé de caution qui sera renvoyé au bureau d'émission après avoir été revêtu, soit par le Directeur responsable du Centre américain de stockage et de répartition du matériel (le nom de cette personnalité devra avoir été préalablement communiqué à l'Administration des Douanes Françaises), soit par l'autorité municipale de la localité de destination ou par l'autorité responsable du cimetière, d'une mention indiquant que les objets et produits en question ont bien reçu leur affectation.

Les produits rentrant dans cette deuxième catégorie, qui ne seraient plus utilisés en France, devront être réexportés ou soumis aux droits.

Article 10. – Le Gouvernement français est disposé, dans le cadre de la règlementation en vigueur, à accorder toutes facilités de circulation au personnel américain désigné par le Gouvernement des Etats-Unis pour l'entrée en France et dans les territoires de l'Union Française et la sortie desdits territoires.

Les voitures automobiles appartenant en propre au personnel américain bénéficieront, à leur entrée en France, du régime de l'importation temporaire, sous la garantie d'un acquit-à-caution délivré par l'Administration des Douanes Françaises sur simple production d'un certificat d'emploi, établi par une autorité compétente du Service des Sépultures américaines, dont le nom devra avoir été préalablement communiqué à l'Administration des Douanes Françaises.

Le Gouvernement des Etats-Unis pourra recruter et employer sur place de la main d'oeuvre française sous réserve de la rétribuer conformément aux tarifs et règlements en vigueur.

La main d'oeuvre étrangère en provenance de la zone américaine d'occupation en Allemagne ne pourra être employée que sur le territoire de la France Métropolitaine. Elle devra avoir le statut militaire, être assujettie au port de l'uniforme et être soumise à la discipline militaire américaine, ainsi qu'à la législation américaine dans les conditions prévues par les accords réglant le séjour des Forces Armées américaines en France. Le Gouvernement des Etats-Unis assumera l'entière responsabilité de ces travailleurs étrangers et prendra à leur égard toutes les mesures que le Gouvernement français jugera indispensables tant avant leur entrée en territoire français qu'au cours de la période où ils seront stationnés sur ledit territoire.

Le Gouvernement des Etats-Unis s'engage à assurer le paiement des salaires, indemnités et charges de sécurité sociale concernant la main d'oeuvre qu'il emploiera.

TITRE IV.–

Dispositions finales.

Article 11. – Le présent accord, qui remplace celui du 29 août 1927, entrera en vigueur dès sa signature. Il restera en vigueur, jusqu'à ce que les deux Hautes Parties Contractantes y mettent fin d'un commun accord, mais il pourra être dénoncé en tout temps sur le désir de l'une d'elles, moyennant avis donné à l'autre un an à l'avance. Cette dénonciation ne portera pas sur l'usage des terrains utilisés pour les cimetières permanents et monuments commémoratifs, y compris les bâtiments construits sur lesdits terrains.

Le Gouvernement Français ayant revisé son tarif général des actes de chancellerie souhaite conclure avec le Gouvernement des Etats-Unis un nouvel accord de réciprocité, remplaçant l'accord du 10 Décembre 1946 et dont les stipulations seraient en harmonie avec les nouvelles dispositions édictées en France.

Le nouveau tarif prévoit trois catégories de visas:

- de plus de trois mois, permettant en fait un séjour permanent, les étrangers séjournant plus de trois mois en France devant se faire délivrer une carte d'identité valable trois ans et renouvelable.

Dans ces conditions le Gouvernement Français propose un accord sur les bases suivantes:

Visa de court séjour valable d'un jour à trois mois

EMBASSY OF FRANCE
IN THE UNITED STATES

No. 340 SCA 4-1 WASHINGTON

The Embassy of France presents its compliments to the Department of State and has the honor to inform it of the following:

The French Government, having revised its schedule of rates for chancelry services, is desirous of concluding with the Government of the United States a new reciprocal agreement replacing the Agreement of December 10, 1946, the stipulations of the new agreement to be in harmony with the new provisions decreed in France. 61 Stat., Pt. 3, p. 2795.

The new schedule of rates provides for three categories of visas:

For from one day to three months

For one year, valid for any number of stays, each stay not to exceed three months

For more than three months, allowing, in fact, a permanent stay, it being required that foreigners staying in France more than three months present an identification card which is valid for three years and which is renewable.

Subject to those conditions, the French Government proposes an agreement on the following bases:

Visa for a short stay valid for from one day to three months
325 francs ($2.75)

Visa valid for one year, for several trips, each stay not to exceed three months 500 francs ($4.20)

Visa for establishing residence for more than three months
1,200 francs ($10.08)

The Embassy would be very grateful if the Department of State would be good enough to inform the Embassy whether it is in agreement with these proposals. If the latter are accepted, they may constitute the subject of an exchange of notes at a date in the very near future, with the result that the new agreement may come into effect on October 1, 1947.

The Embassy avails itself of the occasion of the present note to renew to the Department of State the assurances of its very high consideration.

61 Stat., Pt. 3, p. 2795.

Fees for visa of American passport.

The note referred to suggests that on and after October 1, 1947 the following visa fees be prescribed for the visa of a valid American passport covering the persons included therein proceeding to France or any of its possessions:

A visa valid for one entry during a period of one year permitting a stay of from one day to three months, 325 francs (equivalent to $2.75);

The proposal referred to is agreeable to the United States Government.

Fees for French nationals.

It is contemplated that on and after October 1, 1947 the following visa fees will be prescribed for collection in the case of French nationals holding valid passports proceeding to the United States or any of its possessions:

A transit visa valid for one entry during a period of one year from the date of issuance, $2.75;

A nonimmigrant passport visa valid for one or more entries during the period of one year permitting a stay in the United States upon each entry for such period as may be indicated by the immigration authorities, $4.25;

An immigration visa, $10.00.

It will be appreciated if the Department may be informed whether the proposal referred to is agreeable to the French Government in order that appropriate notification may be sent to American missions and consular offices regarding the fees to be collected on and after October 1, 1947 in the cases of French nationals proceeding to the United States and its possessions.

DEPARTMENT OF STATE,

[T. I. A. S. 1722]

Agreement between the United States of America and other governments respecting principles having reference to the continuance of co-ordinated control of shipping. Signed at London August 5, 1944; entered into force May 24, 1945.

AGREEMENT ON PRINCIPLES HAVING REFERENCE TO THE CONTINUANCE OF CO-ORDINATED CONTROL OF MERCHANT SHIPPING.

THE undersigned representatives, duly authorised by their respective Governments or Authorities, hereinafter referred to as contracting Governments, have agreed as follows:—

Common responsibility.

1. The contracting Governments declare that they accept as a common responsibility the provision of shipping for all military and other tasks necessary for, and arising out of, the completion of the war in Europe and the Far East and for the supplying of all the liberated areas as well as of the United Nations generally and territories under their authority.

Maintenance of powers of control.

2. The contracting Governments undertake to continue to maintain such powers of control over all ships which are registered in their territories or are otherwise under their authority as will enable them effectively to direct each ship's employment in accordance with the foregoing declaration. Subject to the provisions of paragraphs 3 and 9, this control shall continue to be exercised by each contracting Government through the mechanism of requisitioning for use or title.

3. The contracting Governments agree not to release from control any ships under their authority or permit them to be employed in any non-essential services or for any non-essential cargo unless the total overall tonnage is in excess of the total overall requirements, and then only in accordance with a mutually acceptable formula which shall not discriminate against the commercial shipping interests of any nation and shall extend to all contracting Governments an equitable opportunity for their respective tonnages to engage in commercial trades.

4. Neutral Governments having ships under their control in excess of the tonnage required to carry on their essential import requirements shall be invited to subscribe to obligations in respect of all their ships which shall ensure that their employment is in conformity with the general purposes of the United Nations.

5. The contracting Governments undertake to exercise control over the facilities for shipping available in their territories, by suitable measures on the lines of the United States and British Ship Warrant Schemes, and to take such other measures as may be necessary to secure that ships under all flags are used in conformity with the purposes of

the United Nations. Other Governments acceding hereto shall give a similar undertaking.

6. Without prejudice to questions of disposition or title, the employment of such ships as may at any time be permitted to operate under enemy flag or authority shall be determined to serve the requirements of the United Nations.

Central authority.

7.—(*a*) In order that the allocation of all ships under United Nations control may continue to be effectively determined to meet the requirements of the United Nations, a central authority shall be established, to come into operation upon the general suspension of hostilities with Germany. The central authority shall be organised in accordance with the plan agreed in the Annex.

(*b*) The central authority shall determine the employment of ships for the purpose of giving effect to the responsibilities assumed by each contracting Government in paragraph 1 to provide the tonnage required from time to time to meet current requirements for ships for the military and other purposes of the United Nations, and ships shall be allocated for those purposes by those Governments in accordance with the decisions of the central authority. So far as is consistent with the efficient overall use of shipping as determined by the central authority for those purposes, and with the provisions of paragraph 7 (*c*), each contracting Government may allocate ships under its own authority, wholly or partly to cover the essential import requirements of territories for which it has special shipping responsibilities.

Ships under flag of contracting Government.

(*c*) In general, ships under the flag of one of the contracting Governments shall be under the control of the Government of that flag, or the Government to which they have been chartered.

Ships assigned to military requirements.

In order to meet the special case of military requirements those ships which have been taken up, under agreements made by the United States Government and/or United Kingdom Government with the other Governments having authority for those ships, for use as troopships, hospital ships, and for other purposes in the service of the armed forces, shall remain on charter as at present to the War Shipping Administration and/or the Ministry of War Transport as the case may be, under arrangements to be agreed between the Governments severally concerned. (Any further ships required for such purposes shall be dealt with in a like manner.)

The fact that these ships are assigned to military requirements shall not prejudice the right of the Governments concerned to discuss with the central authority the measures to be taken to provide shipping for their essential requirements within the scope of paragraph 1.

Information.

(*d*) The contracting Governments shall supply to one another, through the central authority, all information necessary to the effective working of the arrangements, *e.g.*, regarding programmes, employment of tonnage, and projected programmes, subject to the requirement of military secrecy.

(*e*) The central authority shall also initiate the action to be taken to give effect to paragraph 5 and shall direct action under paragraph 6.

Terms of remuneration.

(*f*) The terms of remuneration to be paid by the users (Government or private) of ships shall be determined by the central authority on a fair and reasonable basis in such manner as to give effect to the following two basic principles:—

(i) Ships of all flags performing the same or similar services should charge the same freights.

(ii) Ships must be employed as required without regard to financial considerations.

Applicability of principles.

8. The principles herein agreed shall apply to all types of merchant ships, irrespective of size, including passenger ships, tankers and whale factories when not used for whaling (but paragraph 7 (*b*) will not be applicable to ships engaged in coastal trades and short trades between nearby countries, the arrangements for control of which shall be appropriate to meet the requirements prevailing in each particular area).

The principles shall also be applied to the extent necessary, through suitable machinery, to fishing vessels, whale catchers, and other similar craft in those areas where special measures in respect of such craft are agreed to be necessary. A special authority shall be set up capable of apportioning between naval and commercial services such craft as are available in those areas.

Entry into force.

9. The foregoing principles shall take effect on the coming into operation of the central authority, and shall remain in effect for a period not extending beyond six months after the general suspension of hostilities in Europe or the Far East, whichever may be the later, unless it is unanimously agreed among the Governments represented on the duly authorised body of the central authority that any or all of the agreed principles may be terminated or modified earlier.[1]

ANNEX.

Organisation of the Central Authority.

1. The central authority shall consist of—
(*a*) A Council (United Maritime Council).
(*b*) An Executive Board (United Maritime Executive Board).

(a) *The United Maritime Council.*

2. Each contracting Government shall be represented on the Council. Membership of the Council shall also be open to all other Governments, whether of the United Nations or of neutral countries, which desire to accede and are prepared to accept the obligations of contracting Governments.[1]

3. The Council shall meet when deemed necessary and at least twice a year at such places as may be convenient. Meetings shall be arranged by the Executive Board. The Council shall elect its own Chairman and determine its own procedure. The meetings of the Council are intended to provide the opportunity for informing the contracting Governments as to the overall shipping situation and to make possible the interchange of views between the contracting Governments on

[1] [The Governments of Australia, Brazil, Chile, Denmark, France, India, New Zealand, Sweden, Union of South Africa, and Yugoslavia acceded to the agreement.]

general questions of policy arising out of the working of the Executive Board.

(b) *The United Maritime Executive Board.*

4. The Executive Board shall be established with Branches in Washington and London under War Shipping Administration and Ministry of War Transport chairmanship respectively.

5. The Executive Board shall exercise through its Branches the executive functions of the central authority. Appropriate machinery under the two Branches shall be established for the purpose of enabling them to discharge the functions described in paragraph 7 of the Agreement on Principles. Machinery to carry out the arrangements under paragraph 8 of that Agreement as regards ships engaged in coasting and short sea trades, and as regards small craft shall be set up under the Executive Board.

6. The division of day-to-day responsibility between the two Branches of the Executive Board shall be established as convenient from time to time. So that the two Branches of the Executive Board may work in unison, meetings of the Executive Board as a whole shall be arranged at the instance of the two chairmen, as often as may be necessary, and at such place as may be convenient from time to time.

7. The membership of the Executive Board shall be restricted in numbers. By reason of their large experience in shipping normally engaged in international trade, and their large contribution of ships for the common purpose, the following Governments shall be represented on the Executive Board:—

Government of the United Kingdom of Great Britain and Northern Ireland;
Government of the United States of America;
Government of the Netherlands;
Government of Norway.

It shall be open to the members of the Executive Board to recommend to contracting Governments additions to the membership of the Executive Board as circumstances may require in order to promote the effective working of the central authority.

8. Each contracting Government not represented on the Executive Board shall be represented by an associate member who shall be consulted by, and entitled to attend meetings of, the Executive Board or its Branches on matters affecting ships under the authority of that Government, or on matters affecting the supply of ships for the territories under the authority of that Government.

9. The Executive Board and its Branches shall proceed by agreement among the members. There shall be no voting.

10. The decisions of the Executive Board affecting the ships under the authority of any contracting Government shall be reached with the consent of that Government, acting through its representative on the Executive Board or through its associate member, as the case may be.

11. The Executive Board shall be the duly authorised body for the purpose of paragraph 9 of the Agreement on Principles, but it is understood that no decision reached under that paragraph by the Governments represented on the Executive Board shall impose any new or greater obligation on any other contracting Government without its express consent. *Ante*, p. 3786.

12. A Planning Committee shall be set up to begin work in London as soon as possible after the signature of the Agreement on Principles for the purpose of working out on a basis satisfactory to the contracting Governments the details of the machinery required to enable the Executive Board to discharge its functions, including the functions under paragraph 7 (*f*). Any contracting Government may be represented on the Planning Committee. Planning Committee. *Ante*, p. 3786.

13. The Executive Board shall have the full use of the machinery and procedure of the War Shipping Administration and Ministry of War Transport in order to avoid duplication.

14. The contracting Governments shall nominate their representatives on the Planning Committee to the Governments of the United States and the United Kingdom, as soon as practicable. They shall also so nominate their representatives as members or as associate members of the Executive Board as the case may be. The Governments of the United States and the United Kingdom shall be responsible, in consultation with the other contracting Governments concerned, for determining the date of coming into operation of the central authority in accordance with paragraph 7 (*a*) of the Agreement on Principles. *Ante*, p. 3785.

UNITED MARITIME EXECUTIVE BOARD

Fourth Session

RECOMMENDATIONS TO CONTRACTING GOVERNMENTS

Note by the Secretariat

1. Appended is a copy of the Recommendations as approved by the Board at its final meeting on 11th February.

2. Delegates are asked to draw the attention of their Governments to the desirability of notifying their acceptance at the earliest possible date.

11th February, 1946.

RECOMMENDATIONS

The United Maritime Executive Board during its Fourth and final Session being unanimously of the opinion that the return to normal processes of international shipping should not be retarded nevertheless recognizes that certain difficulties and problems might arise in the shipping situation after the termination on March 2nd next of the Agreement on Principles of August, 1944, and believes that it would be desirable for Governments to take measures during a limited transitional period to the end that such problems might be resolved and difficulties minimised. Accordingly they have agreed upon the following Recommendations for the consideration of contracting Governments:–

Ante, p. 3784.

PART "A"

1. That all nations who have regularly contributed tonnage to the common tasks shall continue to provide shipping for the common tasks of relief and rehabilitation.

Arrangements for dry cargo from U.S. and Canadian Loading Areas.

Contributory Nations Committee.

2. That a Contributory Nations Committee consisting of representatives of nations contributing tonnage to provide shipping space for relief and rehabilitation programmes from the United States and Canada shall be established in Washington.

3. That UNRRA [1] and liberated nations requiring assistance from the Contributory Pool referred to in (4) below, shall programme their shipping requirements and submit them to the Washington Committee established in (2) above. The procedure to be followed is set out in the Appendix.

Post, p. 3793.

Contributory Pool.

4. That at the outset of the agreement each contributory nation shall declare to the Washington Committee the maximum and minimum monthly sailings or tonnage it will contribute for the period of the agreement. The tonnage thus contributed is referred to herein as the Contributory Pool.

Arrangements for dry cargo from other Loading Areas.

Co-ordinating and Review Committee.

5. That a Co-ordinating and Review Committee representative of Nations accepting Part "A" of this agreement shall be set up in London.

[1] [United Nations Relief and Rehabilitation Administration.]

This Committee:

(a) shall consider U.N.R.R.A.'s requirements for loading in areas other than the United States and Canada. The nations accepting Part "A" of this agreement recognise the necessity for meeting such requirements to the best of their ability and through their representatives on the Committee shall co-ordinate the provision of tonnage they are able to make available for these programmes.

(b) shall keep the tonnage situation in loading areas other than the United States and Canada constantly under review. Recognising the necessity for an adequate supply of tonnage for loading in these areas the nations represented shall authorise the Committee to consider and recommend the measures that should be taken to assist the fulfilment of the programmes affected in the event that normal commercial channels are failing to ensure an adequate supply of tonnage.

General

Procurement of tonnage.

6. That nations needing shipping assistance other than that secured from the Contributory Pool, shall make suitable arrangements for the procurement of tonnage through commercial channels or may request it from other nations. The nations from whom tonnage is requested shall make all reasonable efforts to make available the requested shipping space at fair, reasonable and compensatory rates, subject to the reservation that they need not supply such tonnage if it is to be used in a manner contrary to the interests of the nation upon whom the request has been made.

APPENDIX TO PART 'A'

1. To maintain without interruption the maximum flow of relief and rehabilitation cargoes from the United States and Canada, a Contributory Nations' Committee shall be established in Washington as provided in (2) of Part "A".

Collaboration with Canadian Sub-Committee.

2. With respect to loadings from Canadian ports, the Washington Committee shall collaborate with a Canadian Sub-Committee to be established in Montreal.

Program of cargo loadings.

3. U.N.R.R.A. and each liberated Nation requiring shipping assistance for the carriage of such cargoes, shall submit to this Committee by the 1st of each month, its total programme of cargo loadings in the United States and Canada showing the number of coal, grain or other full, bulk cargoes, and the number of general cargoes programmed for loading during the following month, and estimates in the same form for the next two months. The programme for the specific month should also show the number, nationality, and total cargo capacity of vessels already available to the programming claimant for loading during that month.

Notice of available tonnage.

4. By the 10th of each month each contributing Nation shall notify the Committee as to the amount of tonnage that it expects to have available, such tonnage to be within the maxima and minima as agreed in accordance with (4) of Part "A", and by the 15th of each month shall confirm the actual tonnage to be supplied against the following month's requirements, such tonnage to be stated separately in liner sailings and in tramps.

Ante, p. 3792.

5. In arranging and determining the amount of tonnage to be provided under 4 of this Appendix, individual members of the Committee shall at all times communicate direct with their respective Nations, who shall, in considering requests for tonnage to load in the United States and Canada, make every effort to avoid causing a deficiency in the supply of tonnage required for other loading areas.

6. To meet each month's berthing requirements in the United States, the Committee shall allocate all of the agreed available tonnage through the established machinery of the War Shipping Administration, so that appropriate co-ordination with respect to loading facilities, inland transportation and availability of cargoes may be secured and the maximum flow of cargo for the month achieved, together with the most efficient use of the shipping available.

PART "B"

7. That:–

United Maritime Consultative Council.

(A) accepting Governments should meet periodically for discussions in a United Maritime Consultative Council for the purpose of exchanging information to the end that individual governments may be enabled to frame their own policies in the post-UMA period in the light of the knowledge of the policies of other governments.

(B) the Council may undertake the consideration and study, for the purpose of making appropriate recommendations to member governments, of any problems in the international shipping field, which may be referred to it and which do not come within the terms of reference of other established governmental conferences or associations active in the field.

(C) it is the intention that the shipping industry should collaborate and assist in devising ways and means to implement the common objectives stated in (A) and (B).

Meetings.

(D) meetings of the Council should be held at such times and places as the Council may determine. A chairman for each meeting should be designated by the Government of the nation where such meeting is to be held. The Council should determine its own procedure.

(E) the United Maritime Consultative Council should have no executive powers.

Ante, p. 3792.

(F) this part of the agreement should be open for acceptance by governments whether or not they accept Part "A".

PART "C"

8. That the arrangements in Parts "A" and "B" shall remain in effect from 3rd March until 31st October, 1946, unless by unanimous consent of the Governments accepting the respective Parts it is decided to terminate them at an earlier date.

9. That Governments accepting the recommendations in Part "A" and/or Part "B" shall notify their acceptance to the U. S. and U. K. Governments at the earliest possible date and that, as between the Governments notifying their acceptance, the relevant recommendations shall be regarded as an agreement for the period stated in recommendation 8.[1] Notification of acceptance.

10. That other Governments requesting information should be informed of these recommendations to the end that they may participate, if they so desire, by notifying their acceptance of Part "A" and/or part "B", in accordance with recommendation 9.

The Secretary of State to the British Ambassador

The Secretary of State presents his compliments to His Excellency the Ambassador of Great Britain and has the honor to inform the Government of the United Kingdom that the United States of America has accepted Parts "A" and "B" of the recommendations to contracting Governments appended to a document entitled "U.M.E.B. 4/16 United Maritime Executive Board, Fourth Session, Recommendations to Contracting Governments, Note by the Secretariat", which recommendations were adopted by the United Maritime Executive Board on February 11, 1946 at its Fourth Session in London. U. S. acceptance. *Ante*, pp. 3792, 3794. *Ante*, p. 3791.

The Secretary of State understands that in accordance with paragraph 9 of Part "C" of the recommendations referred to above, the relevant recommendations shall be regarded as agreed to from March 3, 1946 until October 31, 1946, unless by unanimous consent of the Governments accepting the respective Parts it is decided to terminate them at an earlier date.

SIR,

I have the honour to acknowledge the receipt of your letter of November 19th in which, with reference to the recommendations of the United Maritime Consultative Council at its Second Session in Washington from October 24th to October 30th, 1946, you are good enough to notify me that the United States accepts the agreement for the Provisional Maritime Consultative Council in the text of which was annexed to that of these Recommendations.

2. His Majesty's Government are taking steps to inform other Governments, formerly members of the United Maritime Consultative Council, of the acceptance of this Agreement by the Government of the United States.

I have the honour to be, with high consideration, Sir,
Your obedient Servant,

Agreement between the United States of America and Canada respecting the allocation of FM channels in radio broadcasting. Effected by exchange of notes signed at Washington January 8 and October 15, 1947; entered into force October 15, 1947.

The Canadian Ambassador to the Secretary of State

CANADIAN EMBASSY
AMBASSADE DU CANADA

No. 7

JANUARY 8, 1947.

SIR,

With reference to recent discussions between representatives of the Government of Canada and the Government of the United States concerning the use of the 88 to 108 megacycle frequency band for frequency modulation broadcasting, I have the honour to propose an exchange of notes concerning the allocation of channels with particular reference to assignments in those areas adjacent to the border of Canada and the United States in order to prevent undue interference between stations in the respective countries.

Allocation plans for United States Frequency Modulation Broadcasting Stations and for Canadian Frequency Modulation Broadcasting Stations are described in Appendices I and II. The channel number system used in these appendices is in accordance with Appendix III.

Post, pp. 3802, 3819.

Post, p. 3822.

Assignments will normally be made on the basis of omni-directional antennae but it is recognized that directional antennae may advantageously be used in certain instances to reduce interference between stations.

Assignments made at points which are more than 250 miles from the nearest point on the border of Canada and the United States will normally have no international significance and need not be notified except in cases of unusual powers and unusual antenna heights.

Where distances less than 250 miles are involved, all assignments shall be notified in the following manner:

(1) Notification shall be made by an exchange of documents between the Federal Communications Commission and the Department of Transport.

(2) Notifications shall include full information on transmitting antenna locations by geographical coordinates, antenna height above average terrain, antenna height above mean sea level, and effective radiated power. In the event an antenna, directional in the horizontal plane, is proposed, the directional pattern and other pertinent information shall be submitted.

(3) Each country shall have 15 days from the date of notification in which to protest the proposed assignment.

(4) If, within the 15 day period prescribed in (3) above, no objection is raised, a notified assignment shall be considered final.

Wherever possible assignments made within 250 miles of the border should be in accordance with Appendices I and II.

Post, pp. 3802, 3819.

No allocation plans have been adopted as yet for assignment of stations in the 88 to 92 megacycle portion of the band, which has been designated for use by non-commercial, educational broadcasting in both countries. When such a plan has been formulated, the procedure specified above shall apply.

I have the honour to suggest that, if an agreement in the sense of the foregoing paragraphs is acceptable to the Government of the United States, this note and your reply thereto in similar terms shall be regarded as placing on record the understanding arrived at between the two Governments, it being agreed that the present allocation plan shall not prejudice any subsequent agreement regarding Frequency Modulation channels which may be accepted by both Governments at future international telecommunications conferences.

Accept, Sir, the renewed assurances of my highest consideration.

H H WRONG

The Honourable JAMES F. BYRNES,
Secretary of State,
Washington, D. C.

The Secretary of State to the Canadian Ambassador

DEPARTMENT OF STATE
WASHINGTON
Oct. 15, 1947

EXCELLENCY:

I have the honor to refer to your note No. 7 of January 8, 1947, in which you proposed an exchange of notes on the subject of the allocation of channels in the radio frequency band 88 to 108 megacycles, for frequency modulation broadcasting. In this connection, particular importance is attributed in your note to channel assignments for operation in areas adjacent to the border of Canada and the United States, and to the need to prevent undue interference between stations in the respective countries.

Ante, p. 3800.

Your note under reference states that allocation plans for United States frequency modulation broadcasting stations and for Canadian frequency modulation broadcasting stations are described in Appendices I and II to an Agreement between the two countries on the subject, and that the channel number system used in these Appendices is in accordance with Appendix III to the same Agreement. This note further states that assignments will normally be made on the basis of omnidirectional antennae but that it is recognized that directional antennae may advantageously be used in certain instances to reduce interference between stations.

Allocation plans.

Ante, pp. 3802, 3819.

Ante, p. 3822.

Moreover, assignments made at points which are more than 250 miles from the nearest point on the border of Canada and the United States are normally to have no international significance and need not be notified except in cases of unusual powers and unusual antenna heights.

Where distances less than 250 miles are involved, all assignments shall be notified in the following manner:

Notifications of assignments.

(1) Notification shall be made by an exchange of documents between the Federal Communications Commission and the Department of Transport.

(2) Notifications shall include full information on transmitting antenna locations by geographical coordinates, antenna height above average terrain, antenna height above mean sea level, and effective radiated power. In the event an antenna, directional in the horizontal plane, is proposed, the directional pattern and other pertinent information shall be submitted.

(3) Each country shall have 15 days from the date of notification in which to protest the proposed assignment.

(4) If, within the 15 day period prescribed in (3) above, no objection is raised, a notified assignment shall be considered final. Wherever possible assignments made within 250 miles of the border should be in accordance with Appendices I and II.

Ante, pp. 3802, 3819.

Finally, the same note states that no allocation plans have been adopted as yet for assignment of stations in the band from 88 to 92 megacycles, which has been designated for use by non-commercial

Band for non-commercial educational broadcasting.

educational broadcasting in both countries, and that when such a plan has been formulated, the procedure specified above shall apply.

U. S. acceptance of agreement.

I have the honor to inform you that an agreement in the sense of the foregoing paragraphs is acceptable to the Government of the United States, and that this Government agrees to consider the Embassy's note No. 7 of January 8, 1947, together with the present reply thereto as placing on record the understanding arrived at by the two Governments on the above mentioned subject, it being agreed that the present allocation plan should not prejudice any subsequent agreement regarding frequency modulation channels which may be accepted by both Governments at future International Telecommunications Conferences.

Ante, p. 3800.

Accept, Excellency, the renewed assurances of my highest consideration.

For the Secretary of State:
GARRISON NORTON

His Excellency
HUME WRONG,
Ambassador of Canada.

Agreement between the United States of America and Egypt respecting air transport services. Signed at Cairo June 15, 1946; operative from June 15, 1946; entered into force definitively August 8, 1947.

June 15, 1946
[T. I. A. S. 1727]

AIR TRANSPORT AGREEMENT BETWEEN THE UNITED STATES OF AMERICA AND EGYPT

Having in mind the resolution signed under date of December 7, 1944, at the International Civil Aviation Conference [1] in Chicago, Illinois, for the adoption of a standard form of agreement for provisional air routes and services, and the desirability of mutually stimulating and promoting the sound economic development of air transportation between the United States and Egypt, the two Governments parties to this arrangement agree that the establishment and development of air transport services between their respective territories shall be governed by the following provisions:

ARTICLE 1

The Contracting Parties grant the rights specified in the Annex hereto necessary for establishing the international civil air routes and services therein described, whether such services be inaugurated immediately or at a later date at the option of the Contracting Party to whom the rights are granted.

Post, p. 3828.

ARTICLE 2

(a) Each of the air services so described shall be placed in operation as soon as the Contracting Party to whom the rights have been granted by Article 1 to designate an airline or airlines for the route concerned has authorized an airline for such route, and the Contracting Party granting the rights shall, subject to Article 6 hereof, be bound to give the appropriate operating permission to the airline or airlines concerned; provided that the airlines so designated may be required to qualify before the competent aeronautical authorities of the Contracting Party granting the rights under the laws and regulations normally applied by these authorities before being permitted to engage in the operations contemplated by this Agreement; and provided that in areas of hostilities or of military occupation, or in areas affected thereby, such inauguration shall be subject to the approval of the competent military authorities.

Inauguration of services.

(b) It is understood that either Contracting Party granted commercial rights under this Agreement should exercise them at the earliest practicable date except in the case of temporary inability to do so.

[1] [*International Civil Aviation Conference, Chicago, Illinois, November 1 to December 7, 1944, Final Act and Related Documents.* Department of State publication 2282.]

ARTICLE 3

Prevention of discrimination, etc.

In order to prevent discriminatory practices and to assure equality of treatment, both Contracting Parties agree that:

(a) Each of the Contracting Parties may impose or permit to be imposed just and reasonable charges for the use of public airports and other facilities under its control. ARTICLE 5

Laws and regulations.

(a) The laws and regulations of one Contracting Party relating to the admission to or departure from its territory of aircraft engaged in international air navigation, or to the operation and navigation of such aircraft while within its territory, shall be applied to the aircraft of the other Contracting Party, and shall be complied with by such aircraft upon entering or departing from or while within the territory of the first Party.

(b) The laws and regulations of one Contracting Party as to the admission to or departure from its territory of passengers, crew, or cargo of aircraft, such as regulations relating to entry, clearance, immigration, passports, customs, and quarantine shall be complied with by or on behalf of such passengers, crew or cargo of the other Contracting Party upon entrance into or departure from, or while within the territory of the first party.

ARTICLE 6

Withholding or revocation of certificate or permit.

Each Contracting Party reserves the right to withhold or revoke a certificate or permit to an airline of the other Party in any case where it is not satisfied that substantial ownership and effective control are vested in nationals of either Party to this Agreement, or in case of failure of an airline to comply with the laws of the State over which it operates as described in Article 5 hereof, or to perform its obligations under this Agreement.

ARTICLE 7

Registration.

This Agreement and all contracts connected therewith shall be registered with the Provisional International Civil Aviation Organization.

ARTICLE 8

Termination of rights for services.

Either Contracting Party may terminate the rights for services granted by it under this Agreement by giving one year's notice to the other Contracting Party.

Administrative and Legal Department.

No. 63638.

Referring to the American Embassy's Memorandum of June 12th, 1947,[1] the Ministry of Foreign Affairs has the honour to inform the Embassy that the Netherlands Government have decided to waive from the 15th of August next all visa requirements for American citizens who are the rightful bearers of valid American passports and who wish to proceed to the Netherlands either for a short stay or for transit.

The foregoing does not apply to the Netherlands overseas territories.

It should be well understood that otherwise the Netherlands legislation concerning sojourn, establishment and employment of foreigners in this country remains applicable to American citizens as before.

The Ministry of Foreign Affairs has noted with pleasure that the American Government contemplate granting to Netherlands subjects who intend to pay a temporary visit to the United States non-immigrant visas which would be valid for presentation at a port of entry at any time, or any number of times during a period of two years, provided that the passport of the applicant is valid for such period. Should the passport not be valid for the full period of two years at the time the visa is granted but later on be extended by the proper authorities for the full period of two years or more, the visa would be considered as valid for the full period of two years.

The Ministry of Foreign Affairs would appreciate very much if the necessary instructions to that effect could be issued as soon as possible to all American representatives concerned abroad and to learn when those instructions will come into force.

The American Embassy to the Netherlands Ministry of Foreign Affairs

No. 101

The Embassy of the United States of America presents its compliments to the Royal Netherlands Ministry for Foreign Affairs, and has the honor to acknowledge with pleasure the Ministry's Note No. 63638 of July 30, 1947, regarding the decision of the Netherlands Government to waive from the 15th of August, 1947, all visa requirements for American citizens who are the rightful bearers of valid American passports and who wish to proceed to the Netherlands either for a short stay or for transit.

It is understood that the waiver does not apply to the Netherlands overseas territories and that Netherlands legislation concerning sojourn, establishment and employment of foreigners remains applicable to American citizens as before.

Pursuant to instructions from the Department of State, the Embassy may now inform the Ministry that American Consular Officers are being instructed, effective September 1, 1947, to grant non-immigrant visas valid for twenty-four months to Netherlands subjects as long as visa requirements are waived for American citizens proceeding to the Netherlands for a visit or in transit. Visas issued to government officials and members of international organizations under Sections 3(1) and 3(7) of the United States immigration laws will continue to be issued valid for twelve months. The waiver of passport visa fees for non-immigrant temporary visitors is continued.

In considering the period of validity for two years it should be understood that the visas granted would be valid for presentation at a port of entry at any time, or any number of times, during the two year period. It would have no relation to the period of stay in the country which may be granted to the bearer of such a visa if he is admitted into the country after inspection at the port of entry. In accordance with existing procedure, the immigration officials at the port of entry would continue to specify the authorized length of stay of an alien for each visit. In general the passport of an alien must be valid for a period of at least 60 days beyond the period of the alien's contemplated stay in the United States.

No visa granted for a period of two years would be valid for such period unless the passport or other acceptable travel document of the bearer is valid for such period. However, if the passport or travel document is not valid for the full period of two years at the time the visa is granted the passport or travel document may be extended by the issuing authority for the full period of two years or more, in which event the visa would be considered as valid for the full period of two years.

Understanding between the United States of America and France respecting the allocation of proceeds from the liquidation of German property in Sweden. Effected by exchange of notes dated at Washington July 18, 1946; entered into force July 18, 1946.

The Chief of the United States Delegation to the Chief of the French Delegation

WASHINGTON, D. C.
July 18, 1946

DEAR MR. VALENSI:

On behalf of my Government, I may confirm to you the following understanding with respect to the allocation of the proceeds of the German assets to be received from Sweden as a result of the recent
61 Stat., Pt. 3, p. 3191. Swedish-Allied negotiations in Washington:

1. The sums to be divided are 75 million kronor referred to in
61 Stat., Pt. 3, p. 3207. paragraph 2 of the letter of today dealing with the Swedish "contributions" and 150 million kronor referred to in paragraph 2 of
61 Stat., Pt. 3, p. 3191. the principal letter of today on German assets. The Swedish Government has indicated its preferences with regard to the use of these sums. Accordingly, applying the proportions agreed in the Paris
61 Stat., Pt. 3, p. 3159. Reparation Agreement and having regard to the preferences of the Swedish Government, it is estimated that a sum of 12 million kronor will remain after the countries other than the U.S., U.K. and France have been allotted their full shares out of this sum of 75 million kronor which alone is available to cover their shares.

2. It is agreed that this entire sum of 12 million kronor will be allocated to France. In return, the amount which the U.K. and the U.S. would be entitled to receive from this sum will be included in the shares which these two countries will receive from the 150 million
61 Stat., Pt. 3, p. 3191. kronor referred to in the principal letter. It is estimated that on the
61 Stat., Pt. 3, p. 3159. basis of the proportions agreed in the Paris Reparation Agreement this will have the effect that, of those 150 million kronor, France will receive 24 million kronor and the U.K. and the U.S. will each receive 63 million kronor.

3. It is understood that the U.K. Representative is addressing a similar note to you, and that this understanding is to be notified to the Inter-Allied Reparation Agency.

Very truly yours,

WASHINGTON, D.C., *18 Juillet 1946.*

CHER MONSIEUR RUBIN,

J'ai l'honneur d'accuser reception de votre lettre de ce jour ainsi concue:

"Au nom de mon Gouvernement, je suis en mesure de vous confirmer l'accord suivant en ce qui concerne la repartition du produit des avoirs allemands a recevoir de la Suede comme suite aux negociations qui ont eu lieu recemment entre la Suede et les Allies:

1) Les sommes a repartir comprennent 75 millions de couronnes vises au paragraphe 2 de la lettre de ce jour relative a la 'contribution' suedoise et 150 millions de couronnes vises au paragraphe 2 de la lettre principale de ce jour sur les avoirs allemands. Le Gouvernement suedois a indique ses preferences en ce qui concerne l'emploi de ces sommes. En consequence, en appliquant les pourcentages convenus dans l'Accord de Paris sur les Reparations et en tenant compte des preferences du Gouvernement suedois, il est estime qu'il restera une somme de 12 millions de couronnes, apres qu'il ait ete attribue aux pays autres que les Etats-Unis, le Royaume-Uni et la France la totalite de leurs quote-parts sur cette somme de 75 millions de couronnes, laquelle peut seule etre affectee a ces quote-parts.

2) Il est convenu que la totalite de cette somme de 12 millions de couronnes sera allouee a la France. En contrepartie, la fraction de cette somme a laquelle les Etats-Unis et le Royaume-Uni auraient eu droit sera comprise dans les parts que ces deux pays recevront respectivement sur les 150 millions de couronnes vises dans la lettre principale. Il est estime que, sur la base des pourcentages convenus dans l'Accord de Paris sur les Reparations, cela aura pour effet que, de ces 150 millions de couronnes, la France recevra 24 millions, et le Royaume-Uni et les Etats-Unis recevront chacun 63 millions de couronnes.

3) Il est entendu que le representant du Royaume-Uni vous adresse une lettre semblable a celle-ci, et que cet accord doit etre notifie a l'Agence Interalliee des Reparations."

Et de vous confirmer l'accord exprime dans cette lettre./.

Veuillez agreer, cher Monsieur Rubin, l'assurance de ma haute consideration.

1) The sums to be divided are 75 million kronor referred to in paragraph 2 of the letter of today dealing with the Swedish "contribution" and 150 million kronor referred to in paragraph 2 of the principal letter of today on German assets. The Swedish Government has indicated its preferences with regard to the use of the sums. Accordingly, applying the proportions agreed in the Paris Reparation Agreement and having regard to the preferences of the Swedish Government, it is estimated that a sum of 12 million kronor will remain after the countries other than the United States, the United Kingdom and France have been allotted their full shares out of this sum of 75 million kronor which alone is available to cover their shares.

61 Stat., Pt. 3, p. 3207.

61 Stat., Pt. 3, p. 3191.

61 Stat., Pt. 3, p. 3159.

2) It is agreed that this entire sum of 12 million kronor will be allocated to France. In return, the amount which the United Kingdom and the United States would be entitled to receive from this sum will be included in the shares which these two countries will receive from the 150 million kronor referred to in the principal letter. It is estimated that on the basis of the proportions agreed in the Paris Reparation Agreement this will have the effect that, of those 150 million kronor, France will receive 24 million kronor and the United Kingdom and the United States will each receive 63 million kronor.

61 Stat., Pt. 3, p. 3191.

61 Stat., Pt. 3, p. 3159.

3) It is understood that the United Kingdom Representative is addressing a similar note to you, and that this understanding is to be notified to the Inter-Allied Reparation Agency."

and to confirm to you the understanding expressed therein.

AGREEMENT

BETWEEN

THE GOVERNMENT OF AUSTRALIA

AND

THE GOVERNMENT OF

THE UNITED STATES OF AMERICA

AGREEMENT BETWEEN THE GOVERNMENT OF AUSTRALIA AND THE GOVERNMENT OF THE UNITED STATES OF AMERICA.

Transfer of air facilities, etc.

The Government of Australia, in consideration of the transfer to the Government of Australia by the Government of the United States of America of certain air navigation, air communication and weather facilities situated at Eagle Farm and Amberley in the State of Queensland in Australia (in this Agreement referred to as "the facilities") agrees with the Government of the United States of America as follows.

Operation and maintenance.

I. To operate and maintain the facilities continuously in a manner adequate for the air traffic operating to and away from the Eagle Farm aerodrome and along the recognised international air routes converging on that aerodrome, and, to ensure this standard of service, to abide by approved Provisional International Civil Aviation Organisation standards of operation unless and until those standards are changed by any other international agreement to which the Government of Australia and the Government of the United States are both parties.

II. To provide the full service of all facilities to all aircraft on a non-discriminatory basis with charges, if any, only for non-operational messages until an international agreement on charges has been promulgated by the Provisional International Civil Aviation Organisation.

III. To transmit weather reports as prescribed by the Weather Service of the United States to designated stations of the United States and to such other stations as are necessary to ensure an integrated meteorological network for international air-routes unless and until other provision is made by international agreement to which the Government of the United States is a party concerning civil and military meteorological requirements.

IV. To continue the operation of all types of facilities at their original locations or on new locations mutually agreed by the Government of Australia and the Government of the United States until new facilities are installed in accordance with the standards promulgated by the Provisional International Civil Aviation Organisation or until it is mutually agreed by the Government of Australia and the Government of the United States that there is no longer a need for the original facilities, it being understood that such of the original facilities as are devoted to the aeronautical communication service will be devoted exclusively to that service and will not be diverted to the general communication service.

V. To provide English speaking operators at air-to-ground and control tower communication positions until regulations covering such

voice transmissions are promulgated by the Provisional International Civil Aviation Organisation and further, until such regulations are promulgated, to grant permission to a representative of the United States air carriers authorised to serve an aerodrome to enter its control tower and, when in the opinion of the representative a case of necessity exists, to talk to the pilot of any United States aircraft flying in the vicinity of the aerodrome.

VI. To select radio frequencies for air-to-ground and control tower operations at an aerodrome only after co-ordination with the United States air carriers using the aerodrome and with adjacent stations in the recognised international air routes converging on the aerodrome in order to minimise –

(a) radio interference; and
(b) the number of frequencies required to be operated by aircraft.

VII. To authorise and facilitate day-to-day adjustment in aeronautical communication service matters by direct communication between the operating agency of the Government of Australia and the service agency of the Government of the United States, United States air carriers or a communication company representing one or more of them.

Technical officer.

VIII. To authorise United States air carriers of the Civil Aeronautics Administration of the United States to designate a technical officer to advise and assist the agency designated by the Government of Australia to operate the facilities insofar as they relate to the safety and efficiency of the United States airline operations. This designation is to continue as long as it is useful to United States air carriers.

IN FAITH WHEREOF the Plenipotentiaries of the Government of Australia and the Government of the United States of America have hereunto signed their names.

Signed at Paris February 10, 1947; entered into force February 10, 1947.

PROTOCOL

on the Establishment of a Four Power Naval Commission, the Disposal of Excess Units of the Italian Fleet, and the Return by the Soviet Union of warships on loan.

PART I.

61 Stat., Pt. 2, p. 1461.

WHEREAS the Treaty of Peace with Italy provides that all the excess units of the Italian Fleet, as listed in Annex XII B of the said Treaty, shall be placed at the disposal of the Governments of the Union of Soviet Socialist Republics, the United Kingdom of Great Britain and Northern Ireland, the United States of America, and of France;

AND WHEREAS it is necessary to make provision for the final disposal among certain Allied and Associated Powers of the said excess units;

The Governments of the Union of Soviet Socialist Republics, the United Kingdom of Great Britain and Northern Ireland, the United States of America, and of France have therefore agreed as follows:

Allocation of excess units of Italian fleet.
61 Stat., Pt. 2, p. 1461.
Post, p. 3849.

1.– The excess units of the Italian Fleet as listed in Annex XII B of the Treaty of Peace with Italy, and as finally verified on 1st January 1947, shall be allocated as set out in the Annex of this Protocol. No modification of the list of ships in Annex XII B will be accepted, irrespective of the date of any damage to or loss of such ships, the Italian Government being held responsible for the security and maintenance of such excess units up to the time at which each transfer is completed.

Ownership.

2.– Upon transfer by the Italian Government, the vessels concerned shall respectively vest in full ownership in the States hereby becoming entitled thereto, subject to the following exceptions:

(a) The Governments of the Soviet Union and of France take note: that the Governments of the United Kingdom and of the United States of America have undertaken to meet, at least in part, and out of the tonnage at their disposal, the claims of certain other Powers for Italian naval vessels; furthermore, that in regard to any such Italian naval vessels as the Government of the United States

of America may elect to transfer to other Powers, the Government of the United States of America will accept temporary custody only, and, upon transfer of custody by the United States Government to any such Power, full ownership will pass from the Italian Government to that Power.

(b) None of the Governments concerned shall be obliged to accept any ship assigned to it under this Protocol if such Government deems the ship unsuitable for its purpose, but in that case the Four Powers shall ensure that such ship, unless it is an auxiliary naval vessel, be scrapped or sunk by the Italian Government within nine months from the coming into force of the Treaty. 61 Stat., Pt. 2, p. 1245.

3.– A Commission, to be known as the Four Power Naval Commission, shall be set up, to meet for the first time immediately after the signature both of the Treaty of Peace with Italy and of this Protocol. This Commission shall make all detailed arrangements necessary to effect the transfer of the excess units of the Italian Fleet, together with their spare parts and armament stores, to the beneficiary Powers, in conformity with the naval clauses of the said Treaty. Four Power Naval Commission.

4.– By invitation of the French Government, the Commission will meet in Paris, where it will operate under the authority of the Council of Foreign Ministers, and carry out all preliminary work practicable prior to the coming into force of the Treaty.

5.– Upon the coming into force of the Treaty, the Commission will move to Rome, where it will operate under the authority of the Ambassadors of the Soviet Union, the United Kingdom, the United States of America and of France.

6.– All orders and instructions by the Commission shall be issued in the name of the Four Ambassadors, and shall be communicated by them to the Italian Government for execution.

7.– The Commission shall have the right to co-opt the services of representatives of Greece, Yugoslavia and Albania, when matters affecting these States are under discussion, and to call for such Italian representation as may be found necessary to the execution of the work of the Commission.

8.– The Annex to this Protocol will be published at a later date. *Post*, p. 3849.

PART II.

AND WHEREAS, by agreement between the Governments of the Union of Soviet Socialist Republics, the United Kingdom of Great Britain and Northern Ireland, and the United States of America, certain warships of the Royal Navy and of the United States Navy were, in 1944, transferred on loan to the Government of the Soviet Union;

AND WHEREAS it is necessary to make provision for the return to the Governments of the United Kingdom and of the United States of America of the aforementioned warships now on loan;

The Governments of the Union of Soviet Socialist Republics, the

United Kingdom of Great Britain and Northern Ireland, and the United States of America have further agreed as follows :

Return of vessels on loan to Soviet Union.

9.– The representatives of the abovementioned three Governments on the Commission shall coordinate the arrangements for the return to the Governments of the United States of America and of the United Kingdom of the vessels on loan to the Government of the Soviet Union, as listed in paragraph 10 below. The return of such vessels to United Kingdom and United States ports shall, as far as possible, be effected simultaneously with the transfer to the Soviet Union of the excess units of the Italian Fleet allocated to her.

No. 304

EXCELLENCY:

I have the honor to refer to the Legation's Aide Memoire of April 30, 1946, [1] with regard to the United States Army air navigation, air communication and weather facilities located at Kastrup airport and to the communication of July 9, 1946, [1] from Direktøren for Luftfartsvaesenet on the same subject.

U. S. facilities at Kastrup airport.

I am instructed by my Government to inform Your Excellency that my Government is prepared to turn over to the Royal Danish Government the facilities mentioned above, under the following arrangement:

"The Danish Government agree:

Operation and maintenance by Danish Government.

1. To operate and maintain the facilities in a manner adequate for the air traffic in the airport at which the facilities are located and along the recognized international air routes converging on that airport and in pursuance of the rules for the time being in force within PICAO, of which Denmark is a member.

2. To provide on a non-discriminatory basis the service of the facilities to all aircraft under the rules of PICAO. All messages permitted under PICAO shall be conveyed, and computation of charges, if any, shall also be made in pursuance of the rules of PICAO.

3. To instruct the Danish Meteorological Aeronautical Service to take care that the messages necessary for the air traffic and the meteorological institutions are transmitted according to the rules laid down by PICAO and OMI, and to transmit to aircraft over Danish territory the messages necessary for the air traffic.

Airport of Copenhagen.

4. To keep and operate the facilities in the airport of Copenhagen until new facilities are supplied in pursuance of the rules fixed by PICAO, or until it may be agreed upon between the Danish and United States Governments that there is no longer a need for the original facllities for complying with PICAO's rules. The Danish Government agree that the facilities will be devoted exclusively to the aeronautical service and will not be diverted to other communication service.

[1] [Not printed.]

5. To provide staff at the air, ground, and tower services in pursuance of the PICAO's rules. The Danish authorities will, if and when in their opinion it is of importance for the service, call in a representative of the owner of the aircraft concerned.

6. To use to the necessary extent the frequencies for air, ground, and control tower operations laid down by PICAO.

7. To permit direct contact between the Sections of the Civil Air Department in the airport of Copenhagen and the local representatives of USA airlines.

The United States Government agrees:

1. To include in the transfer of the facilities one year's consumption of maintenance parts and expendable supplies, wherever their stocks permit.

2. To do everything possible to assist the Government of Denmark or its representatives in purchasing through regular commercial channels maintenance parts and expendable supplies for the operation of the facilities."

I should appreciate being advised by Your Excellency whether the Royal Danish Government is likewise agreeable to this arrangement so that necessary documents of transfer may be completed by the competent authorities of our two Governments.

Accept, Excellency, the renewed assurances of my highest consideration.

[T. I. A. S. 1736]

AGREEMENT BETWEEN THE SWISS GOVERNMENT AND THE GOVERNMENT OF THE UNITED STATES OF AMERICA REGARDING SCS-51 EQUIPMENT AT COINTRIN AIRPORT, GENEVA, SWITZERLAND

THE SWISS GOVERNMENT AGREES:

1. To operate and maintain the SCS-51 equipment continuously in a manner adequate for the air traffic operating into and away from Cointrin Airport, Geneva, where this equipment is now located, and along the recognized international air routes converging on that airdrome; and, in order to insure the standard of service, the Swiss Government agrees to abide by approved International Civil Aviation Organization (ICAO) standards of operation unless changed by other international agreement to which the Governments of the United States and Switzerland are parties. Allowance is to be made, of course, for possible unavoidable interruption of the continuous operation which may result from breakdown in the equipment; but every effort will be made to repair any electrical or mechanical defects of the equipment as soon as may be possible.

2. To install and place into operation parts of the SCS-51 equipment not yet installed as soon as the necessary special parts already ordered will have been delivered and assembled. It is understood that in the interest of safety of air traffic every possible step will be taken to hasten the putting into operation of the whole equipment.

3. To provide the full service of the SCS-51 to all aircraft on a nondiscriminatory basis.

4. To continue the operation of SCS-51 equipment in its original location at Cointrin Airport, Geneva, or at a new location mutually agreed upon between the Governments of the United States and Switzerland until this equipment may be replaced in accordance with standards promulgated by the International Civil Aviation Organization or until it is determined by the Governments of Switzerland and the United States that there is no longer need for the original equipment.

5. To authorize the United States air carrier or the Civil Aeronautics Administration of the United States to designate a technical advisor to assist and advise the agency designated by the Swiss Government to operate the SCS-51 so far as it relates to the safety and efficiency of the operation of United States aircraft, and in conformity with approved International Civil Aviation Organization standards of operation. This designation is to continue as long as it is useful to the United States air carrier. The Swiss agency will not, however,

be bound to act on the advice given should it be found contrary to Swiss interests.

THE GOVERNMENT OF THE UNITED STATES OF AMERICA THROUGH EITHER THE UNITED STATES ARMY OR THE CIVIL AERONAUTICS ADMINISTRATION OR A DESIGNATED PRIVATE AGENCY AGREES:

1. To include in the sale of the basic installation one year's supply of maintenance parts and expendable supplies to the extent that the Theater's surplus stocks permit.

2. To do everything possible to assist the Swiss Government or its representative in purchasing through regular commercial channels maintenance parts and expendable supplies for the operation of the SCS-51.

To operate and maintain all facilities continuously in a manner adequate for the air traffic operating into and away from the airdrome at which the facilities are located and along the recognized international air routes converging on that airdrome, and, in order to insure this standard of service, the Norwegian Government agrees to abide by approved Provisional International Civil Aviation Organization (PICAO) standards of operations unless changed by other international agreement to which the Government of the United States and the Norwegian Government are parties. (Allowance is to be made, of course, for possible unavoidable interruptions of the continuous operation which may result from break-downs in the equipment; in the case of any facilities which have not yet been placed in operation because they have not been properly calibrated, or of other facilities temporarily out of commission because of electrical or mechanical defects, every effort will be made to bring them into operation as soon as may be possible.)

2. To provide the full service of all facilities to all aircraft on a non-discriminatory basis with charges, if any, only for non-operational messages until an international agreement on charges has been promulgated by the Provisional International Civil Aviation Organization.

3. To continue the operation of all types of facilities in their original location or at new locations mutually agreed upon by the Government of the United States and the Norwegian Government until new facilities are installed in accordance with standards promulgated by the Provisional International Civil Aviation Organization, or until it is determined by the Government of Norway and the United States Government that there is no longer a need for the original facilities: it being understood that the aeronautical communication service facilities will be devoted exclusively to that service and will not be diverted to the general communication service.

4. To provide English-speaking operators at air-to-ground and control tower communication positions until regulations covering such voice transmissions are promulgated by the Provisional International Civil Aviation Organization and further, until such regulations are promulgated, to grant permission to a representative of

the United States air carriers authorized to serve an airdrome to enter its control tower and, when in the opinion of the representative a case of necessity exists, to talk to the pilot of any United States aircraft flying in the vicinity of the airdrome, it being understood that the representative will in each instance obtain permission to enter the tower from the officer in charge.

5. To select radio frequencies for air-to-ground and control tower operations only after coordination with the using United States carriers and with adjacent stations on the recognized international air routes converging on the airdrome in order to minimize:

(a) radio interference, and

(b) the number of frequencies required to be operated by aircraft.

6. To authorize and facilitate day-to-day adjustments in air communication service matters relating to the equipment covered under this agreement, by direct communication between the operating agency of Norway and the service agency of the United States Government, United States carriers, or a communication company representing one or more of them.

Technical adviser.

7. To authorize United States air carriers or the Civil Aeronautics Administration of the United States to designate a technical adviser to advise and assist the agency designated by the Norwegian Government to operate the facilities so far as they relate to the safety and efficiency of United States airline operations. This designation is to continue as long as it is useful to United States air carriers. The Norwegian agency will not, however, be bound to act on the advice given should it be found contrary to Norwegian interests.

Services of U. S. Government.

The Government of the United States of America, through either the United States Army, United States Navy, Civil Aeronautics Administration, or private agency agrees:

(a) To include in the sale of the basic installations one year's supply of maintenance parts and expendable supplies to the extent that theater surplus stocks permit.

(b) To do everything possible to assist the Government of Norway, or its representative, in purchasing through regular commercial channels maintenance parts and expendable supplies for the operation of the facilities.

Cláusula II

Debido al hecho de que, por diversas circunstancias, no le fué posible a la Fundación obtener los servicios del personal capacitado para

constituir su grupo de especialistas en educación, se hizo necesario postergar la iniciación de las actividades delineadas en el Contrato Básico, y retardar el depósito de las contribuciones al S.C.P.N.E. que se mencionan en el párrafo anterior.

Cláusula III

En Diciembre de 1944, la Fundación designó al Dr. Reginald C. Reindorp como su Representante Especial Interino en el Perú, y en conformidad con las conversaciones sostenidas con el Ministro, se le nombró Director Interino del S.C.P.N.E. por Resolución Suprema del Gobierno Peruano, N° 3987, de fecha Diciembre 6 de 1944.

Como resultado de las conversaciones entre el Ministro y el Representante Interino de la Fundación, se convino en que el pago de las contribuciones al funcionamiento del S.C.P.N.E., tanto del Gobierno Peruano como de la Fundación, según se estipula en el Contrato Básico, fuera modificado y acelerado en la siguiente forma:

C. Quedó estípulado, sin embargo, que de los US$27,800.00 que la Fundación convenía en poner a la disposición del S.C.P.N.E. bajo este nuevo acuerdo, la Fundación retendría en Washington la suma de $25,483.33, que sería destinada a cubrir los gastos en Dólares en que el Servicio incurriera; y que la Fundación depositaría en la cuenta del S.C.P.N.E. en el Perú la suma de US$2,316.67.
